

DAWES BOARD TO CONTINUE WORK

Bixby Denies Members Will Resign and Claims Minnesota as Home.

Washington, April 9.—Tams Bixby will return to Indian Territory next week. "There is no truth in the report," said Mr. Bixby, "that the Dawes commission is to be abolished or that any of the present members are to resign. I have had a talk with President Roosevelt and have a complete understanding with him. "It is understood that provision was made in the Indian bill for the Dawes commission only after it had been agreed that the life of this federal body would come to an end at the end of the next fiscal year, July, 1905, is the date fixed by the commission for the completion of its work in Indian Territory. Mr. Bixby has spent so much of his time in Indian Territory during the past four or five years that the people there have begun to look upon him as a resident. "They offered to make me national committeeman," said the Minnesota man, "but I declined the place, telling them that I was a resident of Minnesota and intended to retain my residence in that state."

RUMOR OF BATTLE OFF PORT ARTHUR

(Continued from First Page.)

Mukden, it is known that the Second Siberian infantry division, two regiments of the trans-Balkal cavalry the Seventeenth East Siberian rifle brigade, two regiments of the Siberian artillery, an infantry brigade of Siberian fusiliers, the First brigade of Russian infantry of the line and twenty companies of infantry from Vladivostok are somewhere in the territory of the Amur-Yalu river on roads that cover about fifty miles of the Yalu.

FROM ON KING'S EFFORTS

British Oppose Scheme to Arrange Peace in Far East. New York Sun Special Service. London, April 9.—During his stay in Copenhagen, King Edward has been in constant communication with Foreign Secretary Lansdowne and almost daily a king's messenger has been going to and fro between London and Copenhagen with dispatches. The king's efforts looking to peace between Russia and Japan are not regarded with much favor either by his ministers or by the ministerial newspapers, among which there is a strong feeling that, later on, Japan will be in position to negotiate for peace on even better terms than now. Besides, there exists in opposition to the king's efforts the subconscious motive that Great Britain has nothing to lose, if Russia and Japan be allowed to shed each other's blood in an indeterminate struggle.

JAPANESE LOSSES 114

Official Returns of Port Arthur Casualties Show Fourteen Killed. Tokio, April 9.—Official returns of the Japanese casualties in the various engagements at Port Arthur since Feb. 8 show 114 killed and wounded. Fourteen of this number were killed outright; five died before reaching the hospital; four died in the hospital; forty have recovered and fifty-one are still in the hospital.

DRAWNS ON NAVAL RESERVES

Russia Mobilizes Crews for Baltic and Black Sea Fleets. St. Petersburg, April 9.—The naval mobilization was gazetted to-day. It refers only to officers and men of the reserve in European Russia and not to ships. The mobilization is due to the necessity for providing full crews for the Black sea and Baltic fleets, which will go into commission at the opening of navigation. "It is an open secret now that several thousands of sailors belonging to these fleets, which had been laid up for the winter, were sent to Vladivostok or Port Arthur to supply the places of time-expired men as well as the places of those wounded or otherwise incapacitated."

Japanese Land Second Army.

Paris, April 9.—The second Japanese army, according to the St. Petersburg correspondent of the Temps, is now landing in Korea.

Plank Bender and Waddell Picked for the Philadelphia Americans against the World college boys, and his own was made of Bender in the last inning, with Rube pitching, the team at the field, leaving the battery to finish the game.

Thomas Hood

If everybody's humor were like his, nobody's humor would be bad; but, alas!

Everybody needs

Hood's Sarsaparilla

at this time of the year, when the system is suffering from those humors that always accumulate in the blood during the winter.

Everybody that is bilious or constipated needs Hood's Pills, also.

"Hood's Sarsaparilla purifies the blood, tones the nerves and strengthens and invigorates all parts of the body." W. W. STODOLSKA, Ferris, Texas.

"Hood's Sarsaparilla is an excellent tonic in the spring or when the system is run down or the blood impure." Mrs. JULIA T. BEVERLY, Hazen, Ark.

"I have taken Hood's Sarsaparilla in the spring as a blood purifier and the results have always been satisfactory." GEO. W. HARLOW, R. F. D. 8, Seymour, Ind.

Accept no Substitutes for Hood's Sarsaparilla and Pills.

RUSSIA STIRRED BY SECRET EDICT

Implied Permission to Prosecute Jews When War Ends Causes Indignation.

St. Petersburg, April 9.—Liberal Russians of all classes are outraged by a secret decree issued by Von Plehve, minister of the interior, asking the people not to molest Jews as long as the war is in progress. This implied permission to persecute the unfortunate Hebrews after the war is considered one of the most brazen acts Von Plehve ever committed. There is widespread resentment of the idea of using thousands of Jewish soldiers against the Japanese, and when the war is ended turning those over who have not been killed to the tender mercies of their oppressors.

Powers Take Action.

New York, April 9.—Oscar S. Straus, formerly United States minister to Turkey, speaking of the cabled reports as to the fear of anti-Semitic massacres in Odessa and Kiev, in southern Russia, says that he has accurate knowledge that pamphlets and circulars recently were distributed in Odessa for the purpose of arousing the lower element to repeat in that city during the coming Russian Easter the massacres which took place a year ago in Kishineff. "The matter," said Mr. Straus, "has been taken up by the British government and Lord Rothschild having brought it to the attention of Lord Lansdowne. In this country President Roosevelt promptly caused Secretary Hay to bring the situation to the attention of Ambassador Cassini at Washington, with the request that he immediately place the matter before his government at St. Petersburg and that the president's hope that the government at St. Petersburg would use all possible precautions to prevent a recurrence of the terrible outrages of a year ago which caused such widespread protests on the part of the people and of the religious bodies throughout this country. "There is reason to believe that the action taken by the government at St. Petersburg in instructing Governor Neldhart, who is in charge of Odessa, and Baron Kaulbars, who is in command of the troops in that city during the coming Russian Easter, will have the desired effect in checking any anti-Semitic manifestations."

OLD CHIEF HUMP TALKS WITH MILES

General Takes Former Indian Scout Thru Washington On Auto.

From The Journal Bureau, Colorado Building, Washington, April 9.—Old Chief Hump, one of the many famous Sioux Indians who have been in Washington this winter, had the time of his life on the other day. Tom Roberts, Senator Kittredge's secretary, telephoned General Miles one morning while Hump was in his office, asking if he would ride with him. The general told him to hurry up; that he wanted to talk over old times with Hump, who was at one time under his command as a scout. On reaching the Miles residence they found they were to be entertained in royal style. General Miles had spread a "big feed" such as he knew would delight the Indian. Hump fell to with a vim, and had two or three "helpings." Then the party adjourned to the general's library, and he and Hump, thru an interpreter, talked over the campaigns with the Nez Perce, the old man who had been a general should get out his automobile, and with Hump on the front seat, they went around Washington and into the suburbs at a speed that took the old man's breath away. Whether he was frightened at the "choo-choo devil" will never be known, for the only expression that came from him was a solemn "Huh" when they got back. Probably he will tell his grandchildren how he felt when he returns to South Dakota. —W. W. Jermans.

Oldfield Arrested for Scorching.

Barney Oldfield, the world's champion automobile driver, has been arrested in New Orleans for scorching on a public highway. This is the first time in the famous Toledo boy's career that he has been arrested. He held his fine and left shortly after the arrest for Florida, where he will make an effort to break the world's record made by W. K. Vanderbilt, Jr.

KILLED A PEAGEMAKER

UMPIRE IN LAND DISPUTE AT BLACKDUCK SHOT BY ONE OF THE PRINCIPALS.

Duluth, Minn., April 9.—A dispute between F. Arts and P. J. Bergman at Blackduck over some land at Black River resulted in the death of Mr. W. Wheelander, a homesteader, who was shot in the right thigh, the bullet cutting the femoral artery, while a second bullet penetrated the left shoulder near the clavicular articulation. Arts, charged with the shooting, is still at liberty. Wheelander essayed the role of arbitrator of the dispute between Arts and Bergman, and sided with Bergman in his contention for a tract of government land upon which he squatted some time ago and for which Arts had put in a claim with the land office.

LOSES HOME COUNTY

Carter Likely to Control the Montana Convention, Notwithstanding. Helena, Mont., April 9.—Republican primaries to elect delegates to Monday's county convention were held last night. It was former Senator T. H. Carter against the field, and the latter has apparently won. Carter secured twenty-seven delegates, while the opposition elected seventy-six. Five of the seven wards in Helena went anti-Carter. The country districts will cut down the opposition vote, but beyond doubt Carter has lost the county. It is probable, however, that he will control the state convention on Tuesday. When you get run down and awake panting begin to take Fido's Consumption Cure.

CHARGED WITH THEFT OF \$10,000

Well Known Lawyer of Calgary and Two Others Arrested for Complicity.

Special to The Journal. Calgary, N. W. T., April 9.—A sensation was caused here by the arrest of three men in connection with the \$10,000 mail robbery which occurred four months ago between Winnipeg and this point. J. A. Bangs, a well-known lawyer, member of the firm of Bangs and Jones was the man arrested. The mounted police went to his office and took him to the barracks, telling him that the charge against him was complicity in a mail robbery. Thomas Behan, a horse dealer, and Jerry Boyce, a hotelkeeper at Gleichen, were taken into custody in connection with the case. Dominion Detective Chamberlain and T. K. Ahern of the Pinkerton agency at Seattle, are both on the case. They would say nothing further than that a good story would come out later. Some weeks ago Chamberlain searched Bangs' office and secured certain papers from him. Bangs had for some time been solicitor for Harvey Wilcox, who is now on trial at Regina.

SUIT WON'T FIX CONTROL OF N. P.

(Continued from First Page.)

courts against your plan for division of the assets of the Northern Pacific company to be regarded as a friendly suit." Mr. Hill's manner changed instantly. His eyes fairly flashed as he said: "Let Mr. Harriman answer that question. I do not propose to pass judgment on that man or his motives. Mr. Harriman says it is a friendly suit. That is all I know about it." "In view of the fact that there were over sixty thousand transfers and retransfers, the present plan provides the only equitable distribution that could possibly be made. But every shareholder has a right to have his legal status determined by the courts if he sees fit. "The Union Pacific interests have the same rights in this respect as any other shareholder, except so far as their rights might be affected by the Sherman act."

J. N. HILL WITH HARRIMAN

He Accompanies Inspection Party Over the Southwestern Lines. Special to The Journal. New York, April 9.—E. H. Harriman, with a party which included James N. Hill, son of James J. Hill; James Sullivan, president of the National City bank; W. G. Rockefeller; Mr. Farrer of Baring Brothers of London; Whitney Warren and W. B. S. Thorne, director of purchases of the United States Army, left for the west yesterday in three special cars. They will travel on the Erie and the Michigan Central to Chicago, and thence south over the Rock Island and Southern Pacific. From there they go to the Pacific coast over the other Harriman lines. Mr. Harriman is expected to be away for three weeks or more. His trip represents his usual spring tour of inspection of the Harriman lines.

GATES WORKING CORNER IN CORN

Armour Unloads Millions of Bushels—St. Louis Bear Short on Wheat.

New York Sun Special Service. Chicago, April 9.—Men in the corn trade who have watched the market for several days say that the July corn sold by Armour is being picked up by John W. Gates and his followers in Wall street, who are giving out but tips. This is the explanation given of the disappearance of the millions of bushels sold the last few days by Armour to hedge against a market that is dropping. His offerings yesterday were, however, less conspicuous than they were early in the week. There was also Armour support at times, but enough came out to satisfy the demand. A line of over 3,000,000 bushels old July wheat for the St. Louis bear, who is said to be short 4,000,000 bushels, and has been playing on velvet lately.

BLIZZARD SWEEPS OVER NORTHWEST

St. Louis Visited by Gale and Japanese Building at Fair Destroyed.

Special to The Journal. Chicago, April 9.—Chicago yesterday was nipped by a blizzard that raged in the northwest for the last forty-eight hours, and it was a cyclone that swept thru Texas, Oklahoma and Missouri. The wind attained a maximum velocity of forty-eight miles an hour at 10 o'clock yesterday, and afterwards gradually subsided toward dark. Up to 7 o'clock last night 3.0 of an inch of rain and snow had fallen. At St. Louis a high wind completely destroyed the partially-completed bazaar building on the Japanese reservation at the world's fair. Not a timber was left standing. None of the workers were hurt. The work of reconstruction was begun immediately. No other building was damaged. At Guthrie, and in Oklahoma in general, high winds and sand storms prevailed during the entire day, accompanied by a cold wave. The cold will do much damage to fruit, it is feared. A storm of rain, snow and sleet, accompanied by a heavy wind and a low temperature, raged in Nebraska and western Iowa during the day. At Lincoln the snow of the season, which blocked the street car lines. The wind overturned small outbuildings and sheds and tore the roofs from freight cars. Stockmen in western Nebraska fear for cattle on the ranges and for the early crops. The end of the southern tornado Owensboro, Ky., and vicinity. The street car power-house was partially demolished and not a street car is running in the city. Reports from northern Minnesota, the Dakotas and Montana indicate a heaviest snowfall of the season. Trains are delayed and telegraph wires are down all thru the storm-swept country. Several trains are snow-bound. The Northwestern and Great Northern train service in central South Dakota is seriously interrupted. Grand Forks, N. D., and Crookston, Minn., are cut off from direct communication with the west. West of Fargo, 150 telegraph poles were felled by the heavy snow. The snow lies ten inches deep on the level throughout the north. It is impossible to tell exactly how severe the storm is in North Dakota, because of the meager telegraphic advice, which it is supposed to be even worse than that in South Dakota, because of the interrupted telegraph and train service. The Northern Pacific had only one westward train thru the storm centers in North Dakota last night, and had 180 poles down in Minnesota and North Dakota. No Great Northern trains have departed from or arrived at Hurlock since the heavy losses are reported on the ranges.

TRACKS UNDER WATER

Missouri and Milk Rivers Out of Banks—Slow Train Service.

Special to The Journal. Helena, Mont., April 9.—Much of the Great Northern's track in eastern Montana is under a foot or two of water, and there is danger of washouts at many places. The Pacific system, left for the west yesterday in three special cars. They will travel on the Erie and the Michigan Central to Chicago, and thence south over the Rock Island and Southern Pacific. From there they go to the Pacific coast over the other Harriman lines. Mr. Harriman is expected to be away for three weeks or more. His trip represents his usual spring tour of inspection of the Harriman lines.

STRIKES WISCONSIN

Half a Foot of Snow at Osceola—Roads Drifted Full.

Special to The Journal. Oshkosh, Wis., April 9.—Since 8 o'clock yesterday one of the worst blizzards in years has been raging thruout this section. About six inches of snow has fallen on many places, and roads are drifted full. La Crosse, Wis., April 9.—Snow, driven by a strong wind, gave this vicinity a regular winter blizzard to-day. The temperature fell 20 degrees in two hours. Railroads report serious trouble west of here in wire and train service.

First Train in Two Weeks.

Special to The Journal. Winnipeg, Man., April 9.—The Canadian Northern train reached Brandon yesterday after a two week absence. The passengers spent several nights on the train and were stalled at Miami most of the time.

Over a Foot of Snow.

Special to The Journal. Fertile, Minn., April 9.—The heaviest storm of the year has just passed over this section. The depth of snow is estimated from one foot to two feet. The roads are impassable. Spring work will be much delayed.

South Dakota Reports.

Special to The Journal. Watou, S. D., April 9.—One of the worst blizzards of the winter has been raging for twenty-four hours. About eight inches of snow has fallen, delaying all traffic on the Milwaukee road. The temperature is a melting point. Three inches of snow has fallen here and it is still snowing. The spring is backward, very little seeding having been done.

Northwest Patents.

Washington, D. C., April 9.—(Special.)—The following patents were issued this week to Minnesota and Dakota inventors, as reported by Williamson & Merchant, patent attorneys, 25-28 Jackson Loan building, Minneapolis, Minn.: John Bigelow, Minneapolis, filed bag sewing machine; James Cockrell, Pointe, Gladstone, Minn., filed a new kind of stove; Michael Derrig, Mapleton, N. D., barrel holder; Lafayette Dobbs, Watou, S. D., filed a new kind of stove; Thomas Flanery, Minneapolis, (2) barrel machines; Charles L. Graves, Minneapolis, fire escape; William S. Hunkins, Merriam Park, Minn., cement supporter; Allan L. McGregor, Duluth, Minn., car coupling; Herbert E. Penney, Minneapolis, steam generator; Octave A. Pointe, Gladstone, Minn., (4) disk drills; Harvey Reed, Minneapolis, guest call; Joseph M. Schultz, Minneapolis, gyrating sifter; William T. Spillane, Red Lake Falls, Minn., trip hammer; John A. Steele, Minneapolis, thill coupling; Thomas & Thompson, Rockford, Minn., front axle coupling; Theosophers, Vienna, Austria, filed bottom; Henry J. Wessinger, Duluth, Minn., back pressure valve; William Woertling, Estelline, S. D., animal cleaning machine.

BASEBALL MILLERS SHOW UP WELL IN PRACTICE

WATKINS HIGHLY PLEASED WITH WORK OF HIS TEAM.

Program of Work at Champaign Is a Strenuous One—Baserunning Point—Millers Is Their Strong Point—Probable Final Makeup of the Team—Pitchers Show Up Well. Special to The Journal. Champaign, Ill., April 9.—The Minneapolis baseball team is showing up in excellent form, and under the coaching of Manager Watkins, the men are gaining rapidly in team work. It is known that the fine points of the game. The players are recovering from the soreness incidental to the first week of training, and next week all will be fit for the fastest kind of baseball. Manager Watkins has required his men to follow a program of strenuous work each day. In the batting practice in the morning the men are required to run out all their hits at top speed. Watkins does not want the men to get in the habit of standing at the plate to watch the direction of the ball, and every player who does not start at the crack of the bat gets a sharp lecture from the manager. Special fielding practice and a workout for the battery men follow the batting practice. As a conclusion to the morning's work the men are required to take a brisk run, the distance being assigned by Watkins, and varying from half a mile to three miles according to the condition of each man. The morning practice occupies about two hours. In the afternoon, before the regular exhibition game with Illinois university begins, the men who are not expected to take part in the game are given two hours of good hard work. The men are required to walk to and from the hotel to the field, about a mile and a half, two round trips every day. Manager Watkins is highly pleased with the many qualities here, as well as with the way his men have shown up. He said this morning: "The team fully meets my expectations, and I am convinced that Minneapolis will be as strong this summer as I ever anticipated. Demontreville's play at third is thoroughly satisfactory. Maloney, Sullivan and Coulter I think are the best outfield in the country this year. I am satisfied that the team will prove as strong as any aggregation that ever played in a minor league. The batting line is invincible, the infield fast, and, well, there is not a weak spot on the team."

MAXWELL AT THE HEAD

WINONA NORMAL PROFESSOR ADVANCED TO THE PRESIDENCY OF THE INSTITUTION.

Winona, Minn., April 9.—The state normal board by unanimous vote elected Professor Guy E. Maxwell superintendent of the training department of the Winona normal school, to succeed Dr. J. F. Millsbaugh, who resigned to become president of the Los Angeles normal school. Mr. Maxwell is a graduate of the Hamline university class of 1893. After leaving Hamline he was principal of the schools at Herman, Minn., and principal of the high school at Marinette, Wis. In 1898 he went to Columbia university in New York city and spent two years there pursuing special studies along educational lines, taking the master's degree. Since that time he has been superintendent of the training department of the Winona school. The reports of the normal presidents were submitted showing the following as follows: Winona, 649; Duluth, 182; Mankato, 409, against 301 a year ago; Moorhead, 244; St. Cloud, 425. Margaret J. Keeland and Katherine Emsign were elected teachers in the Duluth school at salaries of \$90 and \$60 respectively.

AMERICAN FINDS NEW ELEMENTS

North Carolina Professor Resolves Thorium Into Two Primary Substances.

New York, April 9.—Dr. Charles Baskerville, professor of chemistry and director of the laboratory in the University of North Carolina, announced before the Chemists' club in this city his discovery that thorium, hitherto known as one of the primary elements, is complex in its nature. Dr. Baskerville has resolved thorium into two new elements. He has named one of these Carolinite, after the state, the other Berezium, in honor of the great Swedish chemist who nearly a hundred years ago discovered thorium. It has never before been the good fortune of an American chemist to discover a chemical element. Dr. Baskerville's discovery of two new elements is the result of ten years of persistent labor.

THE BUGLER'S CHEST

It is well expanded. He uses his lungs to their fullest capacity. People in ordinary do not use much over half their lung power. The unused lung surface becomes inert, and offers a prepared ground for the attack of the germs of consumption. There is no need to waste people's lungs. Dr. Pierce's Golden Medical Discovery cures obstinate coughs, bronchitis, bleeding lungs, and other conditions which, if neglected or unskillfully treated, find a fatal termination in consumption. It is entirely free from opiates and narcotics.
