MILLER TO SUE HEARST. San Francisco, April 12.—Joachim Miller has come to town, he says, with the intention of suing W. R. Hearst for \$3,000 over due pay for services as a correspondent during the Boxer outbreak.

LIGHT AND DARK.

Day and night, sunshine and shadow are not more different from each other than a healthful from a sickly woman. The healthful woman carries light and sunshine with her wherever she goes. The woman who suffers from ill-health casts a shadow on her own happiness and the happiness of others. She cannot help it. Those who suffer from ill-health in woman is generally traceable to disease of the delicate womanly organism. Many women have been restored to happiness by the use of Dr. Pierce's Favorite Prescription. If there is an invalid woman, suffering from female weakness, prostrations, or falling of womb, or from leucorrhoea who has used Dr. Pierce's Favorite Prescription, and it has not succeeded, Dr. Pierce would like to hear from such person—and it will be to her advantage to write as she offers, in perfect good faith, a reward of \$500 for any case of the above maladies which she cannot cure.

"I feel it my duty to inform you that I had been a sufferer for many years from nervousness with all its symptoms and complications," writes Mrs. O. N. Baker, of Washington Ave., New York, N. Y. "I was constantly going to see a physician. I was induced to use Dr. Pierce's Favorite Prescription. I am not now cross and irritable, and I have a good color in my face; have also gained about ten pounds in weight, and one thousand of comfort, for I am a new woman once more."

The dealer who offers a substitute for "Favorite Prescription" does so to gain the little more profit paid on the sale of less meritorious medicines.

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 cent stamps for the paper-covered book, or 31 stamps for the cloth bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

\$600,000 FOR CATHEDRAL

MRS. EDWARD KING PROVIDES FOR CHAPEL—AUGUST BELMONT BUILDS ANOTHER.

New York, April 12.—Announcement has been made at a dinner of the Huguenot society that Mrs. Edward King of this city has given \$100,000 for the erection of a new Episcopal chapel at the corner of the cathedral and St. John the Baptist on Cathedral Heights.

It is to be called the Huguenot chapel, and will be the second in a series of seven. One chapel in the series, already provided for and nearly finished, is the gift of August Belmont in memory of his mother. This chapel, it is understood, has cost about \$150,000. Work has been in progress on the cathedral for several years.

BAN ON GUM CHEWING

PHONE GIRLS AT ST. CLOUD STRIKE BECAUSE OF MANAGER MYERS' ORDER.

Special to The Journal.

St. Cloud, Minn., April 12.—Because Manager Myers of the Northwestern Telephone company discharged one of the girls last evening for chewing gum while on duty, four of her chums on the force of nine operators went on a strike in sympathy.

The girls contended that the rule against chewing gum had never been insisted upon, but Manager Myers could not see it that way. The places of the girls who quit were filled today by operators sent from the Minneapolis exchange.

HELPS THE DOCTORS.

CROP OUTLOOK

A Larger Wheat Acreage Probable if Later Weather Conditions Permit.

The Season Backward in All Sections, but General Soil Condition Good.

Prospects Now for More Coarse Grains on the Whole Than Was Indicated Earlier.

The northwest lines up this year with prospects favorable for bountiful crops with reasonably favorable weather for the first few months. For several years the northwest has been working away from wheat as a predominating crop. Dairying, stock raising and the general tendency toward diversification, have been cutting into wheat, in favor of coarse grains. Last year this tendency showed in a larger total acreage of corn, oats and barley than ever before. While this tendency was working, two other influences arose. Flax prices had a great fall, and wheat rose above the dollar mark for the first time in years. The season opened with every indication of a larger wheat acreage. It was evident that less wheat would be planted in the northwest would go back toward the old plan of wheat above everything else, and that the tendency to increase other grain acreages would be checked at least temporarily.

It is still the disposition to plant more wheat this year than last, but so much of the important grain producing counties in the Red River valley that a change in a few counties, as Cass and Grand Forks or Clay and Dickinson, would alter the northwest acreage materially. These counties will put in more wheat if conditions permit, but if seeding is too long delayed, and if more favorable coarse grain weather comes later, the wheat acreage will be materially reduced.

The big advantage this year lies in the abundant moisture which has made the later planting of wheat so desirable. The unfavorable feature is the backward season. Last year there was much late seeding on the whole, but this year the whole was ahead of the present state.

The following county reports include most of the important grain producing counties in the three states and show conditions at the present time.

MINNESOTA.

Anoka—Farm work is little later than last year. Ground too wet but getting into better shape. Coarse grain acreage shows slight increase. Potato acreage will probably increase 40 per cent.

Becker—Seeding two weeks late. Less flax; grain about same as last year. Ground very dry.

Big Stone—Good prospect. Wheat acreage larger. Also more flax. Corn and soybeans two weeks in advance until recent rain. Probably good crop of corn and soybeans in 1903. No increase in wheat acreage.

Brown—An earlier start in planting wheat than last year. Ground still a little too wet. Wheat acreage about the same. Less flax than ever and more corn and soybeans.

Clay—Very wet near the Red river. Much flax and soybeans. Ground in better shape. Weather of next few days.

Goodhue—Wheat acreage certain and possibly a little more flax sown late. Seeding late on account of wet ground. Ground in poor condition at this date last year. Ground in poor condition.

Douglas—Seeding late. Ground in poor condition. Grain acreage about same. Warmer weather expected.

Outlook favorable. As much or more wheat to be sown than last year. Flax and other grains may be cut a little.

Freeborn—Wheat acreage will be cut and wheat acreage will be 10 to 15 per cent. Seeding was going ahead nicely, but rains have held it back.

Jackson—Season backward. Wheat and corn acreage about same. Seeding hardly begun yet on account of rains.

Kanabec—Big increase in certain in potatoes and corn. For grain the outlook is fairly good, although the ground is wet. Wheat acreage about the same.

Kandiyohi—Less wheat. More corn, potatoes and soybeans. Ground in better shape. Seeding will not be completed until later than usual. Too much rain.

McLeod—Seeding late. More corn and wheat than ever.

Martin—Probably 20 per cent more wheat. Prospects favorable. Less flax will be sown. Work about up to last year.

McLeod—A small acreage in wheat acreage on account of more stock raising. Flax, oats and rye about the same. Seeding work about even with last year.

Mills—Less wheat. Not so much corn. Ten per cent more flax. General seeding will not be on before May 1 to 10. A favorable outlook.

Morton—A 10 per cent decrease in wheat acreage. Farmers going into stock and will put in more corn and soybeans. Flax acreage has opened will increase flax acreage, but total flax acreage very light. Too wet. Seeding about up to last year.

Mower—Less barley, more oats and corn. Seeding a little backward.

Murray—Corn acreage 10 per cent larger. Seeding retarded a full week. Barley and wheat acreage about same.

Nicollet—Not much different from last year. Work about up to last year.

Norwan—Ten per cent more wheat if the ground clears off all right, but wet spots may affect it. About same flax and other grains, but if seeding is late it may be larger.

Other Tally—Unless lateness of the season prevents 10 per cent more wheat will be sown. Less flax. Seeding is late and seeding may be retarded.

Pipestone—Less flax, a little more wheat, and more corn and soybeans. Ground in good shape and much seeding has been done. Many farmers have already completed sowing of small grains.

Bellevue—Wheat acreage about the same. Flax if seeding is not delayed too long.

Rice—Work later than last year. Grain acreage about same, possibly a moderate wheat increase.

Red Lake—Scarcely of seed wheat may make difference. Many farmers cleaned out their old wheat for high prices. Not much work done yet. Other acreage about the same.

Redwood—Wheat acreage smaller. More grain for feeding will be put in. Seeding much later.

Renville—Ten per cent increase in wheat. Much less flax, ground too wet and unless favorable weather comes the season will be late.

Steele—Rye will be sown more extensively. Seeding later than the average and almost a month late in a few bad places. Less wheat.

Sherburne—Season promising and farm work well along, but checks will be put in. Seeding probably not change much.

Steele—More wheat, an increase of probably 25 per cent. Outlook good except for recent rain delay. Seeding about as far advanced as a year ago.

Todd—More oats and corn and about as much wheat as last year. Little wheat sown yet. Outlook on the whole as good as last year.

Traverse—Showed good promise of a good crop of wheat. More corn and soybeans than average. More oats and barley and the wheat acreage will be put in. Seeding much later.

Wabasha—Everything in good shape. Wheat about the same, other grain acreage not materially changed. Seeding about even.

Wadena—Five or ten per cent more wheat. Seeding later than the average and almost a month late in a few bad places. Less wheat.

Washington—Seeding later. Acreages about the same. Big barley increase likely. Wheat cut by probably 20 per cent. Seeding well along, and prospects very favorable.

Wilkie—Less flax. Wheat about same. Seeding conditions not favorable for early start.

Wright—Wheat acreage 5 to 10 per cent larger. A week of dry weather is needed. Seeding late in any case.

Yellow—Work backward owing to wet weather. Prospects for a little larger wheat acreage unless wet land prevents.

NORTH DAKOTA.

Barnes—More wheat will be sown. Less flax, and more corn and soybeans. Ground is a little late.

Benson—More wheat and less flax. Some estimate as high as 20 per cent more wheat.

Bozeman—More wheat and flax cut down except on new breaking. A good outlook for a big wheat increase.

Burling—Earlier seeding. Ground good. More wheat, probably 10 per cent.

Cass—Farmers are certain to cut out flax and plant more wheat. Ground in good shape. Wheat acreage may run smaller. Some talk of 10 per cent decrease.

Daughters—Wheat acreage probably a little larger. Flax acreage will increase but other grains will not be so much.

Dawson—Wheat acreage probably a little larger. Flax acreage will increase but other grains will not be so much.

Dodge—Wheat acreage probably a little larger. Flax acreage will increase but other grains will not be so much.

Dunlap—Wheat acreage probably a little larger. Flax acreage will increase but other grains will not be so much.

Emmons—Wheat acreage probably a little larger. Flax acreage will increase but other grains will not be so much.

Grand Forks—Wheat acreage probably a little larger. Flax acreage will increase but other grains will not be so much.

Grand Rapids—Wheat acreage probably a little larger. Flax acreage will increase but other grains will not be so much.

Harney—Much wet land. Outlook favorable for the data, which is early. More wheat and less flax.

Healy—Fully 10 per cent will be cut off flax and put into wheat. Everything in good condition, although seeding ten days late. Outlook promising, except for the edge of the county touching the Red river, which is too wet for early seeding.

Rolette—At least 10 per cent more wheat and flax. Also more corn and soybeans. Ground in good shape. No increase in flax likely. A late spring but ground in good shape.

St. James—More flax and fiddler crops on new land. Ground never better.

Steele—More wheat. Flax acreage will not increase.

Stutsman—More wheat. Less flax. Ground in excellent condition. Prospects good.

Traill—More wheat if farmers can get it planted. Land in big wheat producing districts, but general prospect favorable if good weather comes soon.

Walsh—Very wet and seeding will not begin until the middle of May. Ground in good shape. Acreages depend upon weather. Probably less wheat than last year and more barley, oats and flax.

Wells—Fifty per cent more wheat likely. Wells instead of flax. Ground in fine shape.

ARTICLES OF INCORPORATION

BYRON & WILLARD.

We, Gilbert L. Byron, William A. Willard and Anne H. Willard, who subscribe our names here to, do hereby associate ourselves together for the purpose of forming a corporation under and pursuant to the laws of the state of Minnesota, and particularly the laws relating to the formation, government and control of corporations for manufacturing purposes.

THE FIRST.

The name of the corporation shall be BYRON & WILLARD. The general nature of its business shall be the manufacturing, selling and leasing of business incident thereto, and the principal place of transacting its business shall be Minneapolis, Minnesota.

THE TIME OF COMMENCEMENT OF SAID CORPORATION shall be April 15, 1904, and it shall continue thirty years.

THE AMOUNT OF CAPITAL STOCK OF SAID CORPORATION shall be Fifty Thousand Dollars, and shall be divided into five thousand shares of ten dollars each at the time of issuance, and shall be preferred stock and four thousand shares as common stock. Eight per cent per annum shall be paid on the preferred stock, and before any dividend is paid on the common stock, and no further dividend shall be paid on the preferred stock, but all further dividends shall be applied on the common stock only.

The highest amount of indebtedness or liability to which said corporation shall at any time be subject shall be Twenty Thousand Dollars.

THE NAMES OF THE INCORPORATORS HEREOF are Gilbert L. Byron, William A. Willard and Anne H. Willard, all of whom reside at Minneapolis, Minnesota.

THE GOVERNMENT OF SAID CORPORATION and the management of its affairs shall be vested in a board of directors consisting of three, and who shall be elected by the stockholders at any time and shall be elected at the annual meeting of the stockholders to be held as shall be provided in the by-laws to be adopted by the directors. The officers shall be a President, Secretary and Treasurer.

The last two of which may be held by the same person. Said officers shall be elected by the directors and shall hold their offices for one year and until their successors are elected and assume the duties of their several positions.

The first board of directors shall be Gilbert L. Byron, William A. Willard and Anne H. Willard, all of whom shall be secretary and treasurer, and shall hold their offices until they shall hold said positions for the first year.

THE DIRECTORS MAY ADOPT BY-LAWS, Rules and Regulations for the government of the corporation, and may make, alter, amend, repeal, rescind or suspend any such by-laws, rules and regulations, and may do all such things as may be necessary or proper to carry into effect the purposes of this corporation.

Witness our hands and seals, at Minneapolis, Minnesota, this April 9th, 1904.

GILBERT L. BYRON. (Seal.) WILLIAM A. WILLARD. (Seal.) ANNE H. WILLARD. (Seal.)

Witnessed by Robert Stratton and S. H. Hudson, Notary Public.

CROUP

Colds, Coughs, Constipation and All Forms of Lung and Stomach Troubles CURED by

MILK'S EMULSION

CURES LIKE MAGIC

Is Especially Beneficial in the Illness of Children.

READ WHAT PARENTS SAY

It builds up their system, enriches their blood, strengthens the weak organs of the throat and lungs, which are often the cause of cough, weak and puny children. It will prevent croup and one or two doses will stop it immediately. Hundreds of mothers have endorsed MILK'S EMULSION because it strengthens their children as nothing else has ever done. I tried several other remedies, but found no relief until I got Milk's Emulsion. After taking the first bottle my child had completely left me, and my child's appetite, and in this way renders them less liable to contract many of the contagious diseases so rife among children.

Read the Testimonials

Which come from the hearts of those benefited by this remedy:

The Milk's Emulsion Co., Terre Haute, Ind.

Gentlemen—I received the package of Milk's Emulsion that I ordered from you and find it the best remedy for cold and cough that I have found. It breaks up cold or croup with my children in one day. I continually recommend it to my friends and neighbors and they all speak highly of it. Every one that gets cold, cough, croup, who has a child, should have a bottle of it. Yours truly, Mrs. C. J. DENNY, Cleveland, Ind.

March 5, 1903.

The Milk's Emulsion Co., Terre Haute, Ind.

Gentlemen—Last December my three children were taken ill with severe colds, which grew into hacking coughs, later giving them sore throats. I tried honey and fat and nearly all the other remedies my druggist could suggest, but they gave no relief. My neighbor, Mrs. Pomeroy, had purchased some Milk's Emulsion and gave me some in a small white glass. I gave each of my children a dose before retiring, and they slept the whole night through without coughing. The next day I went to Wagoner's Drug Store and bought a package, the results being wonderful. I have never been without it in my house since that time, and I find it to be a sure remedy for coughs, colds or sore throats. Yours truly, J. W. LEER, 822 1/2 Main St., Terre Haute, Ind.

The Milk's Emulsion Co., Terre Haute, Ind.

Gentlemen—I suffered for six weeks with the worst kind of a cold and could hardly talk to my customers. I was restless at night, continually rolling from one side of my bed to the other, and in fact I got up feeling worse than when I retired. I tried several other remedies, but found no relief until I got Milk's Emulsion. After taking the first dose I had my first night's good sleep for six weeks, and awoke feeling like a new man. After taking the first bottle my cold had completely left me, and I have recommended Milk's Emulsion to at least twenty-five people suffering with colds, and find that relief was given after the first bottle was taken. If my statement will be of any use to you, use it as you desire. J. W. LEER, 822 1/2 Main St., Terre Haute, Ind.

The Milk's Emulsion Co., Terre Haute, Ind.

Gentlemen—I suffered for several weeks with a severe cold in my throat and chest, and although I used many remedies prescribed in such cases, none of them gave me any relief until I tried a package of Milk's Emulsion, which I saw advertised in the daily papers. The first package loosened my cough, and after taking the fifth package I was entirely well. I think Milk's Emulsion is the best remedy for Coughs and Colds, that I have ever used, and I cheerfully recommend it to all persons suffering with the above complaints. Yours very truly, CHARLES R. CARTER, Gen'l. Furnishings, Cor. 9th and Chestnut Sts., Terre Haute, Ind.

Money returned by your druggist if the first bottle used does not bring results.
