CHRISTENSEN'S TEN CHILDREN

THEIR TRANSPORTATION GIVES STEAMSHIP CO. A SHOCK.

All Are Under 13 and Five Are Under 6 Years of Age, and, According to Steamship Rules, May Travel Free—Mother Comes with Them to Join Papa.

President Roosevelt should have an official representative in New York to receive the steamship Hellig Olav of the Scandinavian-American line on her next trip from the other side, for the Christensen family will be on board, and it is entitled to a hearty welcome from the president, whose admiration for large families has given him widespread fame. South Dakota will probably also welcome the Christensens, for they will locate near Alcester, in Union county—seven boys, three girls and two industrious parents.

There are ten children in the Christensen family. This is not remarkable as to number; but the noteworthy fact about the children is that they are all under 13 years and there are no twins. Mrs. Christensen is but 33, is in splendid physical health and proud of her sturdy children.

Alberty Christensen, the father, is in this country. He was figuring very carefully when he entered the ticket office of A. E. Johnson & Co. yesterday.

When he asked for rates for families he was told that all over 12 years must pay full fare, those between 6 and 12 go for half fare, while all those under 6 go free. At this Mr. Christensen smiled broadly and "guessed" that he would bring them all over at once. Then he ordered a ticket and looked down the ticket at the following array:

These pay full fare:
Emma Christensen, 23 years.
Age Christensen, 13 years.

These pay half fare:
Evald Christensen, 11 years.
Boje Christensen, 9 years.
Jul Christensen, 8 years.
Frode Christensen, 7 years.

These travel free:
Ul Christensen, 5 years.
Ul Christensen, 4 years.
Karen Christensen, 3 years.
Emma Christensen, 2 years.
Johannes Christensen, 1/2 year.

CORNICE MEN CONFER
Seven Shops Closed by Failure to Sign Agreement.

Cornice makers of seven local shops are at odds with their employers and if the trouble is not settled within a few days, a co-operative shop may be started by the men. Failure to agree on terms for the coming year has caused the trouble. The employers affected by the trouble are in session this afternoon and the conference may result in the adjustment of all differences.

There are about 145 cornice makers in Minneapolis and less than twenty-five are not working to-day. Of the fifty-six employers in the city all but seven are ready to sign the same agreement in force last year, but that some of the employers desire to run open shops.

BIG FLOUR SHIPMENTS
They Follow the Introduction of New Freight Rates.

The new freight rates affecting Minneapolis flour became operative yesterday. The result was the shipment out of 101,187 barrels by the local mills. This total is a surprisingly large one, considering that for some time the mills have been grinding at less than half capacity. It represents flour that was held back from each day's output, waiting for the lower tariffs to become effective, until a big quantity had accumulated.

CITY BUYS ITS BONDS
Takes Waterworks Securities From Swedish American Bank.

At a meeting of the sinking fund commissioners, this morning, at which were present Mayor J. C. Hayes, Treasurer C. S. Hulbert and Controller Joshua Rogers, it was decided to invest \$60,000 which has been accumulating for some time in Minneapolis 3 1/2 per cent waterworks bonds offered by the Swedish American National bank. This is a part of the block taken by the bank a year ago when the bond brokers of the country refused to look at anything less than "four per cents."

TOO COLD FOR BEER
This Accounts for Decrease in April Revenue Collections.

Minneapolis internal revenue collections showed a slight falling off in April as compared with a year ago. In the month past \$23,426.50 was collected. Of this \$24,335 was for beer stamps; \$3,759.31 for cigar stamps and snuff and tobacco stamps netted \$131.19. Last year the April collections amounted to \$24,712.70. The cool weather of April is thought to have influenced the figures, as beer consumption was affected by the chilliness.

SEEDING "THE VALLEY"
Farmers Along the Red River Are Extremely Busy.

Wheat seeding is in progress this morning from end to end of the Red River valley. Continued good weather is the rule. Grain men who last week estimated that the valley would be seeded by the 15th, now believe the work will be completed by the 12th of either.

July wheat was down one cent this morning early, selling to 90c.

I. O. O. F. Degree Staff of North Star Lodge Ambitious.

The degree staff of North Star lodge, No. 6, I. O. O. F., will exemplify the initiatory degree at the lodge hall, 320 Nicollet avenue, to-night. The team will go to San Francisco in September to compete for the world's prize. This week \$24 was for beer stamps; \$3,759.31 for cigar stamps and snuff and tobacco stamps netted \$131.19. Last year the April collections amounted to \$24,712.70. The cool weather of April is thought to have influenced the figures, as beer consumption was affected by the chilliness.

APRIL BUILDING
Number of Permits Sets a New High Mark.

April established two records in the number of building permits, setting a high monthly mark of 620, the highest heretofore having been April, 1888, with 601. April 25 was the high day with 81 permits, but this record was broken yesterday, when 53 permits were issued. The aggregate value of the buildings started in April was \$288,000.

ATTENTION, CONTESTANTS!
The vast amount of figuring necessary to "pick" the forty winners is such a lot of time it will be impossible to announce the result of The Journal's popular coting contest for a few days, when a complete statement will be made for the benefit of all contestants and their many friends. Contestants will please exercise a little patience.

LOOK FOR WOMAN IN WISE CASE

POLICE KEEP UP A VIGOROUS SEARCH ALL DAY.

Think They Have a Clue—Wise Known to Have Associated with Several Women, and the Problem Is, Which One Accompanied Him to Anoka.

Mystery still surrounds the identity of the woman who went to Anoka with Joseph Wise, supposed to have been murdered near Fridley the afternoon of evening of April 2. Several city detectives worked almost all day on the case in vain, but they declared late this afternoon that they had a clue and that the woman would be in custody soon.

That the woman herself is suspicious is shown by the fact that, after she had given the name of the woman yesterday's Journal, she telephoned Michael Meagher, to whom she had written, and told him that, as he had given the matter to the police, she would not meet him to-day, as she had agreed. He at once notified the officers, and they, giving up all hope of the woman's walking into their clutches, instituted a careful search.

The greatest obstacle in the way of the detectives is the fact that Wise was very friendly with three or four women. From descriptions received, they think this was a woman who was arrested with Wise last winter. She is said to reside on the East Side and has two children. Her husband, however, is not living with her.

That Wise was murdered, both the officers and the public are certain. He left his coat and vest in the Fridley saloon, and the rig was left standing near the saloon, where it was found by the owner of the next morning. Part of his wages were still due him at Meagher Brothers, where he was employed, and his bank book, with \$2.40 in credit, was found in the room. There is absolutely no reason why he should voluntarily disappear, and had he done so, it is argued, he would have taken these with him.

Sheriff Palmer of Anoka county came to Minneapolis to-day and is working with the detectives.

I have for sale a pair of show horses, very handsome bays, high action, fine style. Can road twelve miles an hour; sound and absolutely fearless; also, a good pair of horses, prices reasonable. Mack Gregory, Lafayette, Indiana.

SNAP FOR THE PEDDLERS
They're Rushing in to Get Licenses Before the New Schedule is Effective—Aldermen Protest.

City Controller Joshua Rogers and the city council are in a fuss over the question of the peddlers' licenses. Last Friday evening the council passed another license ordinance, but it does not go into effect until officially published and in the meantime the controller is issuing licenses at the old rates and the peddlers who are informed of the situation are hustling around to provide themselves with licenses at bargain prices.

Chairman E. W. Clark of the license committee and Colonel Rogers had a warm passage-at-arms when the former tried to prevent the issuance of peddlers' licenses until the new law raising the license fee from \$25 to \$50 goes into effect next week. Rogers was not convinced that he should wait.
