NATURE'S AWAKENING

Seasons Change and we Change with them.

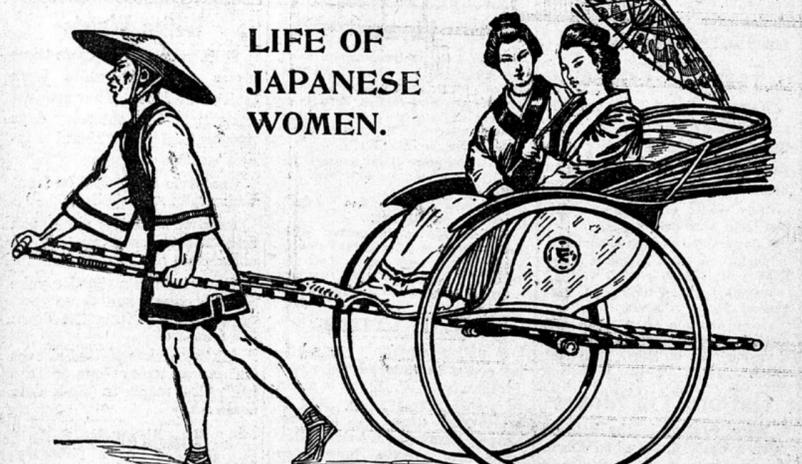

As warm weather approaches nature awakes from her long winter sleep. The dreary months of bitter cold give way to sunshine, the ice king vanishes and the swelling buds and tender sprouts give evidence of spring's awakening. The sap, the life blood of all vegetation, is coursing upward through roots and fibres, taking with it from the bosom of mother earth food for the growth and development of vegetable life. Rich soil and a free and abundant circulation of sap produces healthy vegetation, while poor soil and a deficiency of the life-giving fluid means dwarfed or stunted growth and decay.

At spring's awakening the blood from which all animal life draws its sustenance and which nourishes our bodies must be free of all impurities and in a normal, healthy condition, or evidences of it will surely crop out in the form of sores and boils, red itching eruptions, pimples, rashes and skin troubles of every description. Warm weather stirs the blood, and in the effort to throw off the accumulated poison is thrown into a feverish excitement and riotous state, and the skin is the chief sufferer. The humors and poisons with which it is filled are thrown off through the skin, and so long as the blood is burdened with impurities sores and boils, pimples and blotches, bumps and rashes will continue to come. Bad blood not only affects the skin but creates internal disorders. The Liver and Kidneys act less promptly, the stomach is upset and the appetite usually fails, and this condition of affairs is bad on the nervous system and brings on that debilitated, run-down, tired-out feeling common to this time of the year. To remove from the blood all impurities and poisons is necessary before there is a full and free circulation and healthy action in other parts of the system. If your blood is all right then you are prepared for spring's awakening and the coming of warm weather. As a perfect spring medicine nothing is superior to S. S. S., which is made from roots and herbs gathered fresh from fields and forests, and not a particle of any mineral substance of any kind enters into this great vegetable remedy; and S. S. S. is the only blood purifier known of which this can truthfully be said. S. S. S. for the blood is widely and favorably known; it has been used for nearly fifty years and is more popular to-day than ever. If your nervous system is run down and the appetite fails, or sores, boils, pimples, or eruptions of any kind begin to appear, it indicates the blood is not up to the proper standard and that it has become impure and lost its power to nourish the body. Rich, pure blood and good circulation assures perfect health and freedom from many annoying ailments peculiar to spring. You will find S. S. S. acts promptly and will put your system in the best possible condition at spring's awakening. If you have any blood trouble, write us about it and our physician will help you get rid of it. Book on blood and its diseases free.

LIFE OF JAPANESE WOMEN.

THE Japanese women do not have the freedom of our American women before marriage, but in some respects they have an advantage over our women—for they usually enjoy perfect health. They follow from infancy the rules of the Jiu Jitsu, which teaches them to eat properly, breathe properly, and exercise rationally, then too they live in the out-door air—sleep in paper houses, which, in fact, is almost like living outdoors—take frequent baths and live like children in the sense that they throw out of their lives the cares and worries which make our women old before their time. Living simple lives—close to nature—on very plain food—without the social trammels—the confining dress—corsets and the many health destroying practices of our more modern civilization, as a consequence they grow up without those distressing ailments which are so prevalent among our woman-kind. It was not meant that our American women should suffer as they do—from month to month—with pains and drains which make their life miserable, and owing to our modern modes of living such conditions are more the rule than the exception. The woman is on the road to health who appreciates her bodily needs—and is willing to follow others who have been through the mill of experience. Take a case in point—that of Mrs. Martin: "I write you to let you know I received your kind and ever welcome letter and your kind and fatherly advice,"

writes Mrs. Ida Martin, of Berry, Ky. "I commenced your treatment the next day after receiving your letter, some months ago, and followed your advice as closely as I could. Am glad to say I am in better health than have been for years. Believe-I suffered from every disease that any over-worked, run-down woman could. Was not able to do anything, could not get one good night's sleep; had heart disease of the worst type. A disordered liver was one great trouble, and, passing through change of life, it seemed to cause me excruciating pain in breast and shoulders. I had no appetite, could not sweep nor do any housework. I took treatment from three of the best doctors in our town but grew worse every day, so I decided to write to Dr. Pierce for advice. I took the medicines just as you advised and continued until I had taken six bottles of 'Golden Medical Discovery' and 'Favorite Prescription.' I know that your medicines did more for me than all the medical treatment I had ever taken."

Dr. Pierce's Favorite Prescription balances the circulation, relieves pelvic congestion, stops wasting and weakening drains and gives new tone and vitality to the weakened organs. Nearly every tonic and remedy for women on the market to-day contains alcohol, which gives a temporary stimulation, very grateful to the worn out patient, but when the inevitable reaction comes on the disease is worse than ever. Dr. Pierce early recognized that alcohol

was a poison and should not be used in treating sick women. There is not a particle of alcohol or any narcotic in Doctor Pierce's medicine. They have the most remarkable record of cures made by this world-famed remedy ever placed to the credit of any preparation especially designed for the cure of woman's peculiar ailments. Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$50 for any case of Leucorrhoea, Female Weakness, Proflapsus, or Falling of Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure. Sick women, especially those suffering from diseases of long standing, are invited to consult Dr. Pierce, by letter, free. All correspondence is held as strictly private and sorely confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

MILESTONES ON THE WAY mark the length of the journey. The epochs in woman's life may be health crises, and proper guidance is necessary to avoid the wrong paths. Dr. Pierce's Common Sense Medical Adviser contains full and complete rules of health for the guidance of our women. Sent free on receipt of 21 cents to prepare cost of mailing only.
