

CITY NEWS.

THE WEATHER

Weather Now and Then. To-day—Maximum, 62 degrees; minimum, 40. A Year Ago—Maximum, 75 degrees; minimum, 61.

Forecast.

Minnesota—Fair to-night and Wednesday; frost to-night; variable winds. Wisconsin—Partly cloudy to-night and Wednesday, with possibly showers in east portion to-night; frost in north portion to-night; variable winds.

Upper Michigan—Generally fair to-night and Wednesday; frost to-night; variable winds. Iowa—Partly cloudy to-night, with showers in east portion Wednesday; fair, with rising temperature; variable winds.

North Dakota—Fair to-night and Wednesday; warmer Wednesday and in northwest portion to-night; southerly winds.

South Dakota—Fair to-night and Wednesday; warmer Wednesday; variable winds, shifting to southerly.

Montana—Frost to-night and Wednesday, with possibly showers in west portion; warmer in east portion to-night; variable winds.

Weather Conditions.

Rain was falling this morning at Houghton, Mich.; Galveston, Texas, and Jacksonville, Fla., and rain has fallen during the past twenty-four hours in the Missouri and Mississippi valleys and the southeastern states, Montgomery, Ala., reporting 1.32 inches. The temperature was below 40 degrees in the northern and middle slopes of the upper lake region.

A moderate high-pressure area is central in Wyoming and Colorado. —Charles A. Hyle, Observer, Temporarily in Charge.

AROUND THE TOWN

A Realty Luncheon.—The Minneapolis Real Estate board will hold a luncheon meeting to-morrow noon at the Hotel Nicolet.

Mr. Elwood Will Recover.—Lester B. Elwood, of the Elwood Investment company, submitted to a successful operation for appendicitis at Northwestern hospital this morning.

Bad Boy to Reform.—Otto Goodyear, the boy who was arrested yesterday for incorrigibility on a complaint sworn out by his father, was tried in police court this morning and sentenced to the state training school.

How Did They Work It?—Sneak thieves entered the residence of H. W. Peterson, 2335 Third avenue S., yesterday afternoon and stole three valuable rings. One was a diamond of more than ordinary value, and the other two were set with opals and small gems. How the thieves gained entrance to the house is a mystery, as the doors and windows were securely locked when the family returned.

Dolly Is Held.—Dolly Thornton, a pretty girl with a long police record, was arraigned in municipal court this morning on a charge of grand larceny. She was examined and was held to the next morning. It is alleged that she ransacked the rooms of her associates, taking everything of value from jewelry to sofa pillows. Dolly has been out of the city for a short time, having served a sentence of ninety days for stealing a watch from a stranger.

A Maccabees Contest.—The local Maccabees held an enthusiastic contest last night in Maccabee hall, Franklin and Bloomington avenues, to determine upon degree teams for the state convention in Minneapolis June 15-17. The winners were McKinley, St. Anthony and Unity of St. Paul. A \$100 loving cup will be contested for at the convention. The entertainment of the supreme officers will be held at the National hotel, and a banquet will be held there June 16.

The railroad commission hearing of the complaint of the Duluth & Iron Range road to compel the Republic of freight charges on shipments, has been postponed four weeks.

Nandy Home at World's Fair. Comfort and conveniences with slight seeking for Guests of the Inside Inn on the Fair Grounds.

Every moment from the opening of the World's Fair early in the morning until its close, late at night, may be devoted to profitable sightseeing, with occasional rests interspersed by visitors who make their home inside the World's Fair grounds at the Inside Inn.

Many persons expect to see the great spectacle in the brief space of a few days or weeks, but the opportunity will not be afforded them to witness half the wonders of the Exposition unless they utilize their time to the best possible advantage. For this reason there has been provided on the grounds hotel accommodations where the guest may remain on the scene.

The Inside Inn contains 2,267 rooms and is on the most sightly and the coolest spot inside of the Exposition. Here the visitor may tarry until he has seen the Exposition completely without leaving the grounds. All the wonders that nations have brought together lie just within the gates, and about him are all the comforts of home. The tour of sightseeing may begin with the awakening of the Exposition in early morning and not close until the mantle of slumber has fallen, late at night.

These conveniences are especially valuable to aged persons and children, for the private apartments are always near at hand during the day and intervals of rest thus taken will make the visit more enjoyable. There are none of the discomforts of the traffic to and from the grounds to be contended with, and all contact with the crowds is avoided.

The Inside Inn on the Plateau of States, The Internurial railway, which touches every part of the Exposition grounds, passes its doors. From Union Station it is reached by direct car lines. It overlooks all of the Exposition and will be made the favorite headquarters for many prominent persons during the World's Fair. Rates are from \$1.50 per day up, European plan, and \$3.00 per day up, American plan, including admission to the grounds.

REA BROS.' CASCARIN. The Mild Laxative for Both Adults and Children.

All mothers know the difficulty in trying to make children take medicine. It is a very little when their stomachs are out of order and they have to take those nasty remedies which stick in the throat and leave a bad taste in the mouth all day long. For when these medicines are taken into the stomach they grip the bowels and cause much annoyance.

A friend told me what Cascarin had done for her children, and I have tried it to my satisfaction. I can honestly say that Cascarin is not only a pleasant and safe laxative, but it is a mild and gentle laxative, and does not interfere with the most delicate stomach. At all leading druggists, one size, 50 cents.

G. N. CONDUCTORS ARE AGGRIEVED

WORK OF SLADE'S DETECTIVES CAUSES DISCHARGES. Twenty-one Conductors, Accused of "Knocking Down," Are Released Without Opportunity to Interpose a Defense—Trouble Is Mainly Centered to the Divisions Centering at Grand Forks.

There is a possibility that the recent discharge of twenty-one passenger conductors on the Great Northern system may result in a general strike that will be effective from one end of the system to another.

It was announced when the men were discharged that the bond company had cancelled their bonds, and Slade had been secured in the morning. It was reported that their services would have to be dispensed with as added to the letter of notification.

Several of the deposed conductors have come to St. Paul, where they had very brief interviews with General Superintendent George T. Slade. They were told that the bond company had nothing whatever to do with their discharge, but that thru hired detectives sent out by the general superintendent, evidence had been secured in show that the conductors were collecting fares for which no returns were made to the company.

Each case was cited, but beyond the fact that Mr. Slade had been secured in the morning, the evidence, the discharged conductors were given nothing in the shape of proof, nor were they allowed to enter any denial to the charges brought against them or even given a hearing.

Most, if not all, of the conductors insist that the charges are untrue, and desire an opportunity to enter a defense. So far this has been denied by General Superintendent Slade, and his continued refusal is likely to result in a general strike on the system.

He did notify them, however, that three detectives were now at work along the system.

At a meeting of the Order of Railway Conductors for the Northern and Dakota divisions, held at Grand Forks yesterday, there was a large attendance. Chairman McMillan had a report of the reception of the deposed conductors at St. Paul was brought up for discussion, as was the refusal of Mr. Slade to allow the men to make a defense or even enter a denial to the charges brought against them by his detectives.

It is also charged that some of the promotions on some of the divisions have not been made in a satisfactory manner, and this fact will form part of the grievances that are to be submitted to the Great Northern officials.

It was announced from a reliable source that Mr. Slade would be asked to furnish documentary evidence against each of the men discharged, and that if this was not forthcoming, the men would be re-arrested, unless those men to whom the evidence was denied were reinstated.

Chairman McMillan reached St. Paul to-day and the trouble between the men and Superintendent Slade will be taken up in the usual way.

Meetings were held at the other divisions Sunday, and the outcome will be watched with much interest along the Great Northern system.

BON-TONS AT THE DEWEY. Show Made a Hit with Last Night's Audience.

That Ed F. Rush's Bon-Tons are popular with the patrons of the Dewey theater was shown by the appreciative audience that applauded when the curtain rose last night on the "Spectacular Review of the Bon-Tons in Sunny Spain."

The show was arranged and several good musical specialties were introduced. The fabulous sums of money (counterfeit) spent showed that the tourists were after a good time.

In the olio several strong specialties were introduced, the best of which were the comedy of Hugh and Hazelton, "The Collops at Amphitheater" in a burlesque on Damon and Pythias, and Kelly and Reno in a clever acrobatic specialty, "The Wild Man and the Dummy."

In addition there were the usual musical and comedy specialties and the performance closed with a musical melange entitled, "The Lady Killer."

CONTAGION NOT SPREADING. The Brewster Case Now in the Convalescent Stage.

William Edwards Brewster, the 14-year-old Douglas school boy, who has been at the house for several days, and it is thought that danger of contagion is past. Mrs. Brewster, the children and the two maids who are under quarantine are well. Since the house has been in quarantine no other members of the family has shown symptoms of the disease.

No one has been able to explain where the Brewster boy was exposed unless it was in the family of Mrs. Brewster's mother's coachman, where there was a case several weeks ago.

New South Side Case. Another case appeared yesterday on Twentieth avenue S., and to-day three more have been locked up in the detention room at the city hall. There are now only twenty-eight patients at the quarantine station.

NEUROLOGICAL. HENRY PEARLE MILLER, who came to Minneapolis from Oxford, N. Y., in August, 1902, died quietly last night at the Northwestern hospital after a brief illness. Mr. Miller was a member of the Roosevelt club and the Plymouth club of the Plymouth Congregational church. He was also a member of the Chi Psi fraternity, being graduated from Rutgers college, New Brunswick, N. J., in 1902. Funeral services were held this afternoon at the residence of William H. Vanderburgh, 923 Seventh street S. The body will be taken to Oxford for interment.

NED B. AUSTIN.—Owing to the non-arrival of the remains of Ned B. Austin, youngest son of Dr. and Mrs. M. F. Austin, who died in Tucson Springs, Co. May 11, the funeral has been postponed. Notice will be given later.

PINE SEED TO BE SOWN. Forestry Board Will Plant Many at State Nursery.

The state forestry board will in a few days plant seed 5,000,000 pine and spruce trees on the state nursery in the Pillsbury forestry reserve, Cass county. It is believed at least 3,000,000 seedlings will be given the class of 1904 next Saturday evening at Nobles' hall, Fourteenth avenue SE. A musical program and reception will precede the planting. The election of officers will be held in the course of the evening. All members of the association are expected to be present. Tickets may be secured from E. M. Thompson, Fred Quatt, Charles Mordoff, Oliver Lovell or Matt Caine.

TIMBER TRESPASSER FINED. John C. Patterson Pleads Guilty—Fine Is \$100.

State Auditor S. G. Iverson to-day received word from Aitkin that John C. Patterson had pleaded guilty to a timber trespass on state lands and had immediately been fined \$100. Patterson was alleged to have cut 75,000 feet of state timber on the state lands in the town of Iverson, Auditor Iverson some time ago confiscated and sold, for the benefit of the state, 126,000 feet of logs belonging to Patterson, in addition to those Patterson had taken.

FELL SIXTY FEET WITH HER DOLLY

Little Gracie Widing Is Picked Up Bruised, Bleeding and Unconscious.

While playing on the porch in the rear of her home, in one of the upper stories, 923 Washington avenue S., little Gracie Widing, 5-year-old daughter of Mrs. Hilda Widing, janitress at the Sykes building, fell to the ground, a distance of sixty feet. She struck on a woodpile, sustaining injuries which required the attention of physicians for several hours last evening and from which she may never recover.

Her lower jaw is fractured in three places and she sustained an ugly wound under her chin by coming in contact with a piece of a broken bottle.

The child was playing on the porch with her dolls. In one corner of the railing she had built a "house." The corner post was rotten and she fell against it, this gave way and she was precipitated over the railing with one of her "dollies" clutched tightly in her arm. She was picked up unconscious.

SICK BOY TAKEN OUT BY A LADDER. Thrilling Episode at an Early Morning Fire on Park Avenue.

The 13-year-old son of E. L. Mattson, 2925 Park avenue, who is seriously ill with pneumonia, was taken from his burning home by men at 8 o'clock this morning. He was moved to the Swedish hospital and it is feared that the shock may prove fatal as his condition has been critical for several days.

The fire which started in the second story caused nearly \$3,000 damage to the house and furnishings. Houses at 2927 and 2921 Park avenue were also damaged to a small extent.

Malta Ceres, a delicious prepared food, and Nut Butter manufactured by National Nut Food Company, Minneapolis, Minn. Sold by all good grocers.

MAYOR AS NORSEMAN. Orator at Five Norwegian Celebrations To-night.

Mayor James C. Hayes will celebrate the 17th of May this evening in a strenuous manner, and by to-morrow morning will probably be a thro' thro' man. He has promised to deliver orations in five different parts of town between 8 and 10 p. m. The first speech will be at the Drove lodge celebration at Foresters' hall, Fourth street and Washington.

He will then go to the Nordyset Slingshot society at the St. Anthony Turner hall, on Marshall street NE. At Normanna hall on Twelfth avenue S. he will meet the Norwegian Turners and Senator Henry J. Gjertsen. Then he will travel far to the north to the celebration of Midreid lodge at 21st Washington avenue N. He has still another date somewhere.

The mayor has studied Norwegian history diligently and is already on speaking terms with Oat Trygvasson, Erling Skjalgsson, Harald Haarfager and other bold vikings and can say Bjornstjerne Bjornson without spraining his tongue.

SENATORIAL TRIO MEET. Messrs. Clapp, Hansbrough and Kittredge in St. Paul.

A trio of United States senators made an interesting group in the lobby of the Merchants hotel, St. Paul, yesterday. They were Senators Moses E. Clapp of Minnesota, A. B. Kittredge of South Dakota, and H. C. Hansbrough of North Dakota. All denied that there was any political significance to the meeting.

Senator Kittredge said his trip was one of business, that the party in his state was in good shape for battle, and that general business conditions were satisfactory. He left last night for his home.

"I had a light case as a delegate to the national republican convention," said Senator Hansbrough. "It is very kind of the boys—but, honestly, at this time of the year, I don't care to go to Washington."

While the senators were in St. Paul, Senator Clapp did honor as "mine host" for Minnesota, and incidentally met a few country constituents.

HE WAS NO "VAG." Mintzoff Cleared Himself by Displaying Offers of Employment.

John Mintzoff smiled when he was arraigned in police court this morning on a charge of vagrancy. He was asked if he had something in his pocket that would keep him out of the workhouse.

When the complaining officer had completed his testimony, Mintzoff quietly handed the judge five letters, from as many harness dealers asking him to come to work. They were sufficient to show that he was a good workman and after giving proof that he had been laid up with rheumatism nearly all winter he was discharged.

IN DEFENSE OF DUNN. C. H. Warner Says He Did All He Could with \$12,000.

C. H. Warner of Aitkin, in a communication to a St. Paul paper this morning, devotes a column to a denunciation of C. C. Dunn's record in predicting state timber. He asserts that the legislative appropriation of \$12,000 a year is entirely inadequate for the protection of the state timber.

He says that the state has a total of 4,000,000 acres of state land in the wilds of northern Minnesota. This appropriation has to be used also for the inspection of mining properties, for the appraising and advertising of all state lands, for the expenses of conducting all timber sales and prosecution of trespassers. As a result, there is barely enough money to run the employ from three to six timber cruisers to look for trespass cases.

Trespasses are often discovered to have been made by irresponsible parties and so long ago that the logs cut have already been retailed as finished lumber. Private parties owning timber lands, either entitled to treble payment like the state, are generally glad to get the cost of the timber, or even less. Mr. Warner asserts that John Dunn's report was a selection of 700 and that, taking this into consideration, the report is a remarkable showing in favor of B. C. Dunn's administration.

BRIDGE WORK STOPPED. North Side Work Delayed Pending Uncle Sam's Permission.

Work has been stopped on the bridge across the river at Thirty-second avenue N. The inquiry propounded by the war department engineers at St. Paul reveals that someone forgot the usual formality of applying to congress for permission to build the bridge. The Mississippi river above Minneapolis is navigable in theory only, for nothing in the shape of a craft ever goes up stream and nothing comes down except logs. Still the formalities of the law are not to be neglected. City Attorney Frank Healy advises that no work be done until the federal authorities have given their sanction.

It will take work a long time if the action of congress is necessary, but it is probable that the war department can give the required permission.

DIETETIC TABLES FIT FOR EXECUTION OF CRIMINALS.

Dr. Eugene Hubbell of St. Paul Hits Straight Out in His Address Before the State Homeopathic Convention—Another Speaker Criticizes Teaching of "Scientific Temperance."

Dr. Eugene Hubbell of St. Paul, in a paper which he read this morning before the thirty-eighth annual convention of the Minnesota State Homeopathic Institute in Masonic temple, severely criticized some of the methods of physicians. His subject was "Life Essentials," and he said that people would be in better health if they would breathe more deeply, spend more time in the sunshine, eat more raw food, drink more water and take more exercise, instead of taking so many poisonous medicines.

"The dietetic tables usually laid down for our guidance," he said, "are simply outrageous; most of them would be a fit diet for the execution of criminals. I do not wonder that the people grow up on the absurdities of our profession. It is high time that we dropped many of our absurd notions now taught and practiced in our otherwise noble calling."

"Scientific Temperance" Opposed. Dr. J. Arnold Rockwell, of Cambridge, Mass., in a paper which was read by Secretary E. L. Mann, appealed to physicians to use their influence to have modern physiology and hygiene taught in our schools. Dr. Rockwell said that the teaching of the exaggerated instruction on alcohol and the narcotic effects of tobacco, said recently, we must insist upon re-education of the public. He called the "scientific temperance," so-called, which has too long rested on the teaching of physiology and hygiene, winding its way about, a dangerous and deceptive subject which the public schools are no place for any propaganda, and that the freedom of teaching must not be surrendered to the "scientific temperance."

The youth of America must be thoroughly informed of the insidious dangers which lurk about strong drink. But on the other hand, we must never forget that the public schools are no place for any propaganda, and that the freedom of teaching must not be surrendered to the "scientific temperance."

Dr. H. C. Aldrich of Minneapolis, president of the institute, presided at to-day's sessions. This afternoon the discussion and paper reading were devoted to subjects suggested by the bureau of pathology and gynecology and obstetrics.

REAL ISSUE IS THE OPEN SHOP. LARGE POSSIBILITIES CONTAINED IN THE HAGLIN SITUATION.

Building Trades Council Authorizes a Conference to Establish the Facts—The Building and Traders Exchange Is Expected to Indorse Haglin and General Labor War Is Possible.

The Building Trades Council has authorized a conference with the Builders and Traders' Exchange to sift the facts regarding the now famous Haglin incident. Should this conference prevail, it is possible that the present critical condition of the building situation may be relieved. If not, a more extended struggle between the contractors and traders and the union men is possible.

The executive committee of the Building Trades council wishes to have any misunderstanding or misstatement in regard to the Haglin incident cleared up by the directors of the Builders' and Traders' Exchange men leaving up, but it is asserted that the council will not brook for a moment any attempt to force the open shop. The council is willing that Mr. Haglin should hire any man he may wish or should run a non-union business if he wishes, but they will oppose having union men forced to work with non-union men.

On the other hand it is asserted that the five union men were fined unjustly. Mr. Haglin refuses to discharge the men and takes no interest in the payment of these fines. His position has been indorsed by the master builder and it is said that the labor committee of the Builders' and Traders' exchange will report indorsement at the next meeting. This may result in a general walkout if the contractors refuse to employ any man who is a good mechanic, union or non-union.

By the calling out of all the union men on the Haglin contract, it will be necessary for the other contractors to employ non-union men to finish the subcontract. The question is whether this will make them all "unfair" and thus force a general labor war.

DOUGLAS SCHOOL CONCERT. The recent gift of a stereopticon to Douglas school is to be supplemented by boys and girls of the school. To raise funds the Douglas school orchestra of twenty pieces and the Douglas school chorus of sixty boys will give a concert Friday night in Fowler Methodist church. Mrs. D. M. Welshon and E. J. Moles will sing. The accompanist will be Mrs. E. W. Runyan. This concert will become an annual affair.

BUT ONE OPINION. It is the unanimous opinion of every stick man and woman who has tried this famous medicine, as well as of prominent physicians and druggists everywhere, that for prompt relief and a permanent cure of Stomach, Liver or Bowel ailments

Hostetter's Stomach Bitters. Is without an equal. These persons join with us in urging you to try a bottle, especially if you suffer from

Poor Appetite, General Indigestion, Sleeplessness, Dyspepsia or Malaria, Fever and Ague.

You'll be satisfied and pleased with the result. At all druggists.

EPITHELIOMA

Covering One Side of Face and Reaching to the Eye

CURED BY CUTICURA

Which Acted Like a Charm After Doctors and Hospitals Failed.

Here is another of those remarkable cures of torturing, disfiguring skin humors daily made by Cuticura Resolvent, assisted by Cuticura Ointment and Soap, after physicians, hospitals and all else had failed.

"I feel it my duty to try to help those suffering from skin diseases. My case was a very bad one, covering all of one side of my face and had reached my eye. I had two or three doctors prescribe without any relief. They said my disease was Epithelioma. I was then advised to go to one of our hospitals, which I did, taking their treatment for some time. I had given up all hope when my husband asked me to try the Cuticura Remedies. My face being in such a very bad state, I used the Cuticura Soap with luke-warm water and a small silk sponge and then applied the Cuticura Ointment. I took one teaspoonful of the Resolvent four times a day. It acted like a charm, and in one week's time my face was cured entirely and has remained so. I certainly can recommend the Cuticura Remedies as infallible."

MRS. A. G. SMITH, 2400 Catharine St., Philadelphia.

The purity and sweetness of the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy have made Cuticura Remedies the standard skin cures, blood purifiers and humor remediators of the world.

Sold throughout the world. Cuticura Resolvent, 50c. (in form of Chocolate Coated Pills, 25c. per box of 100 pills.) Cuticura Soap, 25c. per box of 100 cakes. Cuticura Ointment, 25c. per tin. Sold by all druggists. Send for "How to Cure Skin Humors."

REAL ISSUE IS THE OPEN SHOP. LARGE POSSIBILITIES CONTAINED IN THE HAGLIN SITUATION.
