GOOD FAITH TOWARD THE PUBLIC

Is a merchant's best advertisement. The "Foster & Waldo Plan" of conducting the piano business is a living example of this principle. We have established a fair, fixed and plainly marked price on each piano in our warerooms. That price is the lowest that our spot cash buying in quantities will admit of and leave a margin for us to do business on. That is fair. That is all that can be expected. It creates perfect confidence and entitles us to the patronage of the public. The Foster & Waldo One Price Plan has been eminently successful. "Good Faith Toward the Public" has done it.

On our floors can be found such world-famous instruments as the Steck, Krakauer, Hardman, McPhail, Sterling and "Crown." Each piano bears its one lowest plainly marked price. Terms, cash or pay by the month, if you prefer.

FOSTER & WALDO, The One Price Piano Dealers,
 36 Fifth St. So., Cor. Nicollet Ave.

CITY NEWS.

TOWN TALK

The Homeopathic pharmacy has removed from 22 1/2 St. S. to 11 7th St. S. Gardiner.

For Rent—Second floor, 58 Fourth street S. over Hoffman's. Call on C. M. Laraway & Son, Bank Commerce building.

J. G. Belknap of the Jewel Nursery company leaves this evening for a two weeks' trip to New York.

City Attorney Frank Healy will discuss the new city charter this evening at the Men's club of Highland Park Presbyterian church.

Rev. George Artander of Minneapolis is conducting a mission in Northfield. His ability to talk the doctrines of the Roman church in Norwegian is attracting much attention there. He will preach again Sunday.

Miss Annetta Wales, formerly a drawing teacher in the public schools, will return to the city next fall to take up her work at the Central high school. Miss Wales has been in Milwaukee for several years.

The W. Y. C. A. and Y. M. C. A. have chartered street cars for a trolley party to-night to Lake Como and to the St. Paul Y. M. C. A., where a good time is prepared. The return trip will be made in special cars, with transfers in Minneapolis.

William Eldred confessed to Judge Dickinson in police court this morning that drink had secured such a hold on him that he had not the strength to leave it alone. He further admitted that it would be the best thing for him to go to the workhouse and take the cure. He was sentenced to ninety days, but will be released on parole after ten days.

Edgar Olson, a country boy, is indignant over his treatment by the police. He came to the city yesterday with several \$50 bills, and tendered one as payment in a saloon. The saloonkeeper refused to change it, saying it was counterfeit. A policeman was called and Olson was questioned closely. He showed other goods built aside from the one the saloonkeeper refused, and was allowed to go.

MASONS RESUME WORK

Miniature Strikes at State Capitol Adjunct itself.

A strike of half a dozen stonemasons on the new capitol has been adjusted and the men are once more at work. The strike occurred a few days ago, when a mason from Peoria, Ill., was put to work and was unable to show a union card. On refusal of the contractors to discharge the non-union man, the masons struck. The Peoria man has now completed his work and left, and as a result the other masons have returned to work.

ORTIZ IS PARDONED

Porto Rican Prisoner Will Leave Stillwater Next Month.

R. Ortiz, the Porto Rico murderer, who has been serving a life sentence in the Stillwater prison, has been pardoned by President Roosevelt and will be released June 8.

CYCLE PATHS PASSING

City Wreckers Prepare the Way for Tree Planting.

Several local cycle paths will be destroyed this summer. A wrecking crew tackled the Penn avenue path from Nineteenth avenue N. to Crystal Lake avenue this morning. The property owners want trees in front of their land, and no one seems to care to have the path maintained, it will disappear.

Orders have been given to Street Commissioner McMullen to remove the path on Humboldt avenue from Fifth to Sixth avenue, and on Cedar Lake road from Ash to Oliver.

In many places the paths are made unnecessary by new paving, which others are used by little. The city spent over \$50,000 on the cycle paths, but as most of the money came directly from the wheelmen the sale of bicycle tags, the city is not out.

BELL'S VISIT BRIEF

Liberty Bell Will Tarry but a Few Hours Here.

There is very little doubt but that the old Liberty bell will come to Minneapolis, altho no definite assurance on that point has been given. Even if it comes, the stay here will be short. The contemplated itinerary calls for only four hours in Minneapolis and should the train be delayed, even this brief visit will be curtailed. The bell will not be removed from the car in which it travels, which will be sidetracked for a few hours in one of the railway yards.

"FORCE" keeps the brain "waked-up" all day.

No matter whether you write or figure or saw wood or pound stone: You'll do it the better for eating "FORCE."

USE SCHOOLS AS SOCIAL CENTER

NEW IDEA IS BROACHED AND CORDIALLY APPROVED.

Sentiment at Bethel Settlement Meeting Yesterday All That Way—Dr. C. M. Jordan, Superintendent of Schools, Presided and Principals of Schools Were Present—Committee Will Formulate Plans.

Minneapolis seems about to fall in line with an important advance movement in social development, that of utilizing the large and expensive plants of the public schools as social centers for the improvement of their neighborhoods. At a meeting held yesterday afternoon at Bethel settlement the sentiment strongly favored such action.

The meeting was presided over by Dr. C. M. Jordan, superintendent of schools, and the schools of the vicinity were present in large numbers. After a general discussion that brought out the favorable attitude of those present the following resolution, presented by Dr. M. D. Shutter, was passed:

Resolved, That a committee of five be appointed from this meeting to formulate a plan for the use of the public school buildings as social centers, it being understood that they shall consult with the board of education and that any action taken shall be with the approval of the board of education and under its direction.

The committee will be appointed by Dr. Jordan.

The meeting was arranged by Miss Irene Osgood of the Associated Charities, who introduced the subject yesterday. She called attention to the need of good influences to offset the evil influences that are always active.

The plan proposed is the use of the schoolhouses as clubs for the district, providing some place to go where the influences are uplifting. The parents as well as children will benefit by such an arrangement and the association in such a center will help to preserve family unity.

The tendency of the meeting was conservative and Edwin Solenberg, the new secretary of the Associated Charities, in arguing for the benefits of the plan, also bespoke the management of conservative men. Professor D. H. Painter gave an outline of the entering wedge for this work in Minneapolis, the vacation schools and playgrounds which have used school property.

Among the other speakers were Miss Katherine Guthrie, J. D. Holtzmann, A. H. Benson, Dr. Marion D. Shutter, Miss Gilman, R. C. Vanderhoof, Miss Klara Michaelson, Miss Baldwin, Rev. W. F. Ward and Rev. Dean Ellenwood.

NEW DEPARTMENT AT "U"

CHAIR OF SANITARY SCIENCE ESTABLISHED AND PROFESSOR BASS PLACED IN CHARGE—SCHOOL OF CHEMISTRY.

The regents of the state university, at their meeting yesterday afternoon, created a chair of sanitary science. Fred H. Bass, an instructor in the engineering department, was appointed the head of the course and given the title of assistant professor.

The department of chemistry was made a separate department, and George B. Frankforter, formerly head of the department of chemistry, was made dean. This department heretofore has been part of the college of science, literature and the arts.

The committee on salaries submitted its report which called for several million changes. The executive committee was authorized to select a site for the new pathological laboratory for which appropriation has been made. The requirement of two years' work in the academic department as a condition of admission to the college of medicine, which was to have taken effect next year, was indefinitely postponed, it being understood that the faculty of the college may reinstate it whenever they desire.

The \$20,000 available for equipment of the engineering department, \$10,000 will be for new lighting facilities. This work will be in charge of professors Jones, Flather and Shephardson.

MISS BRENNAN'S CUP

Rock Island Girl Wins Interscholastic Oratorical Contest.

Miss Lucy Brennan of the Rock Island high school won first place in the annual interscholastic oratorical contest, last night at First Unitarian church and went on to the Illinois institution the Stanley Hall 1902 challenge cup. The decision of the judges was unanimous and in spite of the fact that there were strong hopes that the Stanley Hall representative might win, the decision of the audience generally corresponded with that of the judges.

The remaining three contestants were so nearly equally matched in powers that no attempt was made to rank them.

The choice of her subject was an important factor in Miss Brennan's triumph. Her personality fitted so admirably Dickens' beautiful story, "A Child's Dream of a Star" that it seemed as tho the young contestant were relating her own experience.

In order to insure perfect fairness the names of the contestants were not announced and the order of their appearance was decided by lot. Miss Etta Lee of the Grinnell, Iowa, high school opened the program with "Paul Clifford's Defense," by Bulwer-Lytton. She acquitted herself with much credit in a piece of impassioned oratory not ill adapted to the powers of a young girl. Miss May Raymond of the West Superior normal school suffered under a similar handicap in her rendition of Senator Beveridge's "The Republic That Never Retreats."

Miss Grace Heltman of Stanley Hall gave "Black Slaves," a story of slave life by V. C. Bourke. Her dramatic requirements of the story were splendidly met. Miss Heltman's work showed both strength and delicacy and her declamation revealed much evidence of an artistic temperament.

The judges were Dr. M. D. Shutter, Miss Grace Williams and W. F. Webster. The decision was announced and the presentation of the silver cup was made by Dr. Shutter. The cup will be retained until next spring when it will be returned in time for the next contest.

WELL FOR INSANE HOSPITAL.

The state board of control has awarded a contract to J. F. McCarthy of Minneapolis to drive an artesian well at Fergus Falls for the state hospital for insane.

The contract calls for a flow of 140,000 gallons of water every twenty-four hours. The hospital uses 35,000 gallons of water a day.

Malta Ceres, a delicious prepared food, and Nut Butter manufactured by N. N. Nut-Pool Company, Minneapolis, Minn. Sold by all good grocers.

LOCKWOODS ARE IN DIRE DISTRESS

FAMILY LEFT DESTITUTE—FATHER DIED OF SMALLPOX.

Widow and Six Small Children Are Left Without Money or Means of Support—Other Branches of the Family Stricken and Unable to Render Assistance.

From statements of friends and neighbors of the family left by William Lockwood, I am satisfied that the need of aid is urgent and that the case demands the sympathy of the public and the people of Minneapolis. My cooperation in any movement to relieve the dire necessity of this stricken family will be most gratefully received.

—J. C. HAYNES, Mayor of Minneapolis.

In dire need is the family of William Lockwood, who died of smallpox at his home, 2436 Twenty-fifth avenue S., May 10. Lockwood died leaving his family with nothing and without a cent of insurance.

Not only that but the disease by which he had been stricken had all the members of the family, thus at once increasing the family expenses and cutting off sources of assistance from which Mrs. Lockwood and her children might otherwise have expected help. The result is the family is utterly destitute and dependent upon the aid of sympathetic neighbors.

There are seven in the stricken family, the mother and six children, all under the age at which they could be of assistance or self-supporting. The need of good influences to offset the evil influences that are always active.

The plan proposed is the use of the schoolhouses as clubs for the district, providing some place to go where the influences are uplifting. The parents as well as children will benefit by such an arrangement and the association in such a center will help to preserve family unity.

BUCKET-SHOP AGITATION

STARTS IN NEW YORK—MAY SPREAD TO THE WEST—LOCAL MEN NOT ANXIOUS IT SHOULD.

Chamber of Commerce men are wondering whether the anti-bucket shop movement now gathering in New York will extend to other centers, and whether it will mean a renewal of the fight in Minneapolis. A few days ago the Consolidated Stock Exchange of New York is more than getting after the shops. The recent failure of Woodend and other big bucket shop men has created many centers. These immediately set up the old cry that in the shops they traded on the posted continuous quotations of the regular exchange, and consequently supposed they were doing business with houses backed by them.

This raises again the old question of how to prevent the shops from obtaining the quotations, the question that has been fought over in the courts for years, concerning which there have been many decisions and reversals within a year or two.

To the officers of the exchanges, President Robert C. Clowry of the Western Union telegraph company makes the statement that his company is required by law to transmit such matter, and that if the police department will send a man to the exchanges against the bucket shop, will at once cut it off, but will not take any responsibility attached to an initiatory move.

But for the fact that the New York Stock Exchange has a policy of working against the bucket shop, the exchanges against the bucket shop, evil might be formed, and it may be formed anyway.

The fight is largely against a renewal of the fight at present. The Minneapolis Chamber won no glory in the last fight and came out the worse for it. It is said, the big shops of the northwest are no longer doing so large a business and are retrenching greatly.

THE NEW ODELL ADJUSTABLE WEEDLESS BAIT HOOK

Can be adjusted to fit any size bait. No knot or sniker necessary on any size hook is heavy enough for casting. This makes line weedless, same as hook. Nothing to give way. Carry bait thru the water perfectly natural and always right side up. Pay for bait in saving of line. Price, silver plated, 50c; blued, 35c. At your dealers or by mail or express to any part of the United States or Canada. Address **ROYAL MANUFACTURING CO., COUNCIL BLUFFS, IA.**

FRESHMAN PLAYS SHERLOCK HOLMES

DISCOVERS NAME OF THE SENIOR CLASS PLAY.

It Is "The Apple of Discord"—Carefully Guarded Secret of the Seniors Made Public Property by Youth Who Had a Skeleton Key and the Nerve to Use It.

"The Apple of Discord" is the title of the class play to be given by the seniors of the University of Minnesota at the Metropolitan opera-house Saturday afternoon and evening, May 28.

After several weeks of guessing and wondering the underclassmen has turned the trick, and has made at least the title of the senior class play public property.

A group of under-classmen were discussing the much-talked-of subject of what the senior play contained and whom it "hit," in front of the main building at the university yesterday, when a freshman walked up and broke in. "Boys, I have a little scheme. Do you want to know the real title of the class play?"

"What's that? You saw it, did you? Where? How? I heard all the copyright papers were kept locked up by the manager. You've got to show us."

"That's how I got it," exclaimed the young detective, and he held up a well-made skeleton key.

GRAND JURY REPORT

Brick Yard Recommended as Adjunct to Workhouse.

The April term grand jury will file its final report to Judge C. B. Elliott yesterday afternoon and was discharged. The report was devoid of sensational features and consisted mainly of comments upon conditions existing at the various public institutions in the county.

It was recommended that a brick yard be established at the workhouse on the five-acre lot now under cultivation as a garden. Alma Wilson, a working girl, was robbed of a gown a few days ago. When Miss Thornton was arrested she was wearing the gown. Miss Wilson can now be found and the gown is in police headquarters awaiting the owner.

HAD THE GOWN ON

Girl Now in Jail is Charged with Theft.

Another theft has been charged to Dolly Thornton, the pretty girl locked up in the county jail on a charge of grand larceny. Alma Wilson, a working girl, was robbed of a gown a few days ago. When Miss Thornton was arrested she was wearing the gown. Miss Wilson can now be found and the gown is in police headquarters awaiting the owner.

STREET CAR HOLD-UP

Bad Men Beat St. Paul Conductor and Are Arrested.

The timely arrival of a police officer prevented a street car hold-up on the Wabasha street bridge, St. Paul, at 1 o'clock this morning. Four men boarded the car and when in the middle of the bridge, pulled the trolley from the wire. They then attacked the conductor, W. H. Heckel, giving him a severe beating. Before they could finish their work a patrolman had them covered with a revolver and they were all taken to the central station. Heckel was so badly bruised that he was relieved at the end of his run.
