HOPE PINNED TO CLEVELAND

Belief That Dems Will Commit Promise on Him Remarkably Prevalent.

From The Journal Bureau, Colorado Building, Washington.

Washington, May 18.—The tenacity with which certain industrial eastern democrats cling to the belief that Cleveland will be the nominee of the St. Louis convention, is a curious feature of the present democratic situation.

It is well understood that Cleveland would gladly accept. His recent newspaper articles, explaining federal interference in the Chicago strikes, in the next few weeks a wonderful clearing of the atmosphere, will see a condition resembling a deadlock.

For the present, democratic feeling is centered in New York, around the Parker leaders on the one hand, and around Tammany and McCallan on the other.

Millionaire Philanthropist Causes Telegraph Company to Shut Off Gamblers.

Special to The Journal.

Duluth, Minn., May 18.—The possible consequences of the deadlock between owners of freight ships on the Great Lakes and the masters of those ships are hard to foresee.

Behind it all is an interesting story of the surrender of millions to morals through the influence of Miss Gould.

Then civic bodies and influential individuals placed the case before Miss Gould. That their efforts in this direction have not been in vain was proved by the developments of yesterday.

Dr. Henry Spellmeyer failed of election by only eight votes and Dr. W. S. McDowell by fifty-eight. Dr. Bashford and Dr. Neely were the next named in the order named, and it is thought that several of these candidates will be named on the next ballot.

What the Masters Want.

The masters wanted an advance in pay—at least, so they said. Really they wanted uniformity of salary. Some wanted, like the steel trust, Mitchell & Tomlinson, and some others, pay good salaries; others screw their masters to the last notch, and then scrouge the ship in provision bills till the fare is worse than that of a jail.
