NOT LITERALLY, BUT IT'S THEIRS TO COMMAND.

How They "Touched" the Management—The Minnesota Commission to Show Them St. Louis from Autos—Weather There Not Down to Standard.

From a Staff Correspondent.—The Minnesota editors are not losing a minute in their pursuit of a good time at the world's fair. They were in St. Louis by their late arrival Sunday night, but they soon got over that and were ready for all kinds of sightseeing Monday morning.

One of the events that made the delay in getting here early borne with was the great sprint that F. L. McClellan of the Minneapolis Paper Company made to catch the train at Old Monroe or Louisiana or some other ancient town in northern Missouri.

So far the editors have been favored with ideal weather. The days have been cool and breezy and the impression grows that the St. Louis brand of climate has been slandered.

United Church Is Encouraged by Reports—Committee on Nominations.

Special to The Journal.—Albert Lea, June 9.—President Dahl of the United church announced this morning that the following nine had been elected members of the committee on nominations, the most important of all committees: Rev. President Dahl read his annual report. He was happy to state that peace and harmony prevailed in the church and that progress had been made in nearly all lines of activity.

He emphasized the importance of English missions in the large cities. He reported that the board of regents and the faculty of the theological seminary recommended Rev. J. A. Aagaard and O. G. U. Siljan as candidates for the fellowship established by the United church.

The theological seminary, college, normal school and five academies of the church were all in a flourishing condition. The president had not been able to arrange conferences with other Norwegian Lutheran churches.

Nine ministers, thirteen theological candidates and twenty-nine congregations were seeking admission to the United church.

Adolph Larson of Chicago reported that the income of the Chicago Deaconess hospital last year amounted to \$18,000, the property and leaseholdings valued at \$67,000. There is a debt of \$23,000. The society owning the hospital is willing to transfer all the property to the United church.

Reports of Officers.—Secretary J. C. Roseland of Austin reported that there were 260,000 members in the church, and the congregations served by its ministers, 404 ministers and professors, 42,000 children in the parochial schools, and more than 4,000 teachers in the parochial and Sunday schools.

Erick Waldland of Minneapolis, treasurer, reported that the fund of the theological seminary was \$121,000; of the church extension, \$11,000; and of various legacies, \$14,000. The value of the orphan's home at Bolt, Iowa, was \$44,000. The cash on hand and the receipts of the general treasury, amounting to \$27,000, had exceeded the expenses of the property of the United church was valued at \$644,000—an increase of \$17,000 since last year. This does not include the property of the congregations.

The treasurer reported that Lars Swenson of Minneapolis has desired to give \$5,000 to the United church, and that his heirs are carrying out his wishes.

President J. N. Kildahl, Rev. A. Wright, J. Tanner, W. F. Christiansen of Chicago, and H. E. Strand of La Crosse, were elected members of the committee on the president's address.

Rev. H. O. Fieldstad, Rev. Albert Johanson and Rev. Louis Marvick and the lay delegates, Knut Tveit, Edmond and T. Dahl of Mackintosh were elected members of the committee on the secretary's report.

Rev. N. J. Ellestad was unanimously re-elected president and Rev. J. C. Roseland, secretary. Erick Waldland, of Minneapolis, was unanimously elected treasurer to succeed Lars Swenson.

Steps in Organization.—At the afternoon session yesterday President Dahl selected as tellers Rev. Messrs. A. J. Derke, J. Peterson, A. W. Hovstendahl, L. L. Fylling and A. A. Rev. H. O. Christiansen, of the Danish Lutheran church, was present as the representative of his church and in a brief speech expressed the hope that God's blessing might rest in rich measure on the United church and its work. President Dahl thanked him for the friendly greetings.

The committee on credentials reported 200 ministers, 400 lay delegates and a large number of visitors present.

Essentially the meeting was amused by the announcement that in place of railway certificates three delegates had handed in a shipping bill, a promissory note for \$70 and a certificate of baptism.

WHEAT AND GRASS BOOM

BUREAU REPORT OF NORTH DAKOTA CONDITIONS—SOUTH DAKOTA IS SHOWING LIKEWISE GOOD.

Special to The Journal.—Bismarck, N. D., June 9.—The North Dakota section of the climate and crop bureau service says: Wheat is reported generally as looking fine, the early seven being particularly high. Owing to the cool weather it has stood well. On some low land where the ground was too wet at time of seeding it is somewhat yellow and spotted. Corn planting is still progressing, but is somewhat delayed. The weather has retarded its growth, and warmth and sunshine are now necessary to get it on. Millet and barley is not yet finished, and seedling is generally. Some potatoes are being planted. Alfalfa is being planted.

The grass crop is reported as being in fine condition. The recent rains will cause it to make rapid growth, and the prospects are for a good yield.

Huron, S. D., June 9.—This section has been visited by generous rains, some portions getting more than needed. The rainfall for the first five days of June was about two inches, and this was preceded by copious showers the closing days of May. The ground is thoroughly soaked and crops are making marvelous advancement. Grass and pasturage are attaining rank growth, and, judging from present appearances, the hay crop will be enormous. Many farmers are still planting corn, while others have finished and much of the crop is above ground.

Rushford, Minn., June 9.—The prospect for corn is very bright. The average in Houston, Winona and Fillmore counties, east of it was planted too early and rotted in the ground. The cold, wet weather has encouraged the weeds.

Special to The Journal.—Dubuque, Iowa, June 9.—The annual convention of the Mississippi River Improvement association, which was to have been held in this city next week, has been postponed until after the present session. It will probably be held the last week in November, as it is thought the request for a \$15,000,000 appropriation for the improvement of the river will be certain more force than with congress, which will convene in December. Governor Van Sant is leading the fight for improvement of the river.

WALL STREET REJECTS DENIAL. Special to The Journal.—New York, June 9.—Notwithstanding James J. Hill's denial of an impending settlement of the difficulties between Mr. Harriman and himself, Wall street persists in believing that the reports have a good foundation. This was shown by a sharp advance in Northern securities on the curb today and by the strength of Chicago, Milwaukee & St. Paul stock. London was a heavy buyer of the latter and evidently is "wise" as to what is likely to be done in the Securities market.

ALICE ROOSEVELT VISITS HER FATHER'S OLD CABIN

President's Daughter the Guest of Officials of the North Dakota Commission—Rooseveltian Relics in the Shack Taken From the Famous Cow Country Near Medora—Informal Reception for Iowa Cadets.

Special to The Journal.—World's Fair, St. Louis, June 9.—During Alice Roosevelt's recent visit to the fair she expressed a desire to see the cabin occupied by her father while he was in the life of a ranchman in North Dakota. Lieutenant Governor Bartlett of the North Dakota state, who is looking after North Dakota's interests, extended a formal invitation to Miss Roosevelt to visit the exhibit. On the occasion of the visit Mrs. W. W. Hartman, North Dakota's representative, accompanied Governor Bartlett and Captain Cushing.

The Roosevelt cabin was the headquarters building of the Chimney Butte ranch, near Medora, N. D. It was bought by the North Dakota World's Fair commission, brought to St. Louis and placed in the space assigned to the state in the Palace of Agriculture, where it forms one of the principal attractions.

When President Roosevelt was shown the photograph of the building he said: "It looks like it. The shack belonged to Joe and Sylvester Weston, who lived there in 1884 and 1885 while ranching on the Little Missouri."

"Wrote His Sketches There." It was during this period that the president wrote many of his sketches of frontier life, including his famous "The St. Louis and the Little Missouri," which is dated from Chimney Butte ranch. He was the principal owner of this ranch, but in order to become a practical ranchman he sold the place to a guard and went on the roundup, acting in the capacity of a common cowboy and insisting that no favors be shown him under any circumstances.

This now famous cabin is a two-roomed log house about fifteen by thirty feet. The roof is shingled and its eaves are overhanging. It is built along the front of the shack several fine antlers and deer heads are hung, trophies of Mr. Roosevelt's hunting expeditions. The shack is in the rough frontier style and contains the same furniture that was used at the time of the president's visit, as well as many personal relics. Among the interesting things to be seen in it are his Sharps rifle which he used in hunting, a pair of hunting boots, a sealskin cap and a well worn straw hat, in the crown of which is this inscription: "Albion, 1884, T. E. R."

In the course of her visit to the cabin, Miss Roosevelt fastened to the door a silver plate on which were engraved these words: "Placed here by Miss Alice Roosevelt, June 3, 1904."

Reception for Iowa Cadets. An informal reception was held in the Iowa state building by the Iowa commission in honor of the Iowa West Point cadets now at the fair. Young, Captain Harold Young, Miss Minnie Bronson, and Cadets G. R. Allen of Iowa City, Frederick Test of Council Bluffs, G. F. N. Daley of Council Bluffs, Gerald Brant of Chariton, Adelo Gibson of Okaloosa, J. A. Green of Cherokee, Oswald of Fairfield, Hanson of Forestburg, and Mrs. J. H. Hartman of Texas to attend a meeting of the river and harbor commission.

John Landen, chairman of the county commission of Douglas county, Minn., registered at the Minnesota building.

supervision and must be backed by force sufficient to preclude repudiation of its administration. Thus the Korean government would be effectively paralyzed by such influence. RUSSIANS TO COPY CERVERA Port Arthur Fleet Is Expected to Dash Away a la Santiago.

Officers assert that the transaction was a very profitable one for her.

OMEN IN CABLE CUTTING Japs, as Usual Before Big Blow, Sever Link with World.

New York Sun Special Service.—London, June 9.—The Great Northern cable company announces that the cable connecting Japan and Korea is interrupted. This prevents any direct communication between the two countries and the rest of the world.

The sudden interruption of the cable between Korea and Japan is considered significant in view of the fact that Japanese operations at Port Arthur, the Japanese having taken precaution, as usual, to cut the only means of communication with the outside world.

RUSSIANS IN JAPS' WAY Persistent Rumors of Fighting on the Kwang-tung Peninsula.

St. Petersburg, June 9, 5:25 p. m.—All the reports coming from unofficial sources as to the report of war mention the persistence of rumors of fighting on the Kwang-tung peninsula, and the war office does not question the probable truth of these reports, as it is known the Russians are doing all possible to impede the enemy's advance to positions before the walls of the fortress. At the same time the fact that the armistice has not been made on the fortress proper, although the war office advises are to the effect that the Japanese plans contemplate an attack to-morrow, is considered likely that this fighting may have been of a serious character.

Awful Rumor Stirrs Russians. St. Petersburg, June 9.—The announcement was made today by the correspondent of the Russko Slavo to Liao-yang and copied by all the telegraphic news sheets and sold by various newspapers in the streets, that twenty-five Japanese transport steamers have been sunk at Kai-chau together with war supplies and armaments. It seems to be only a rumor and is quite unconfirmed.

Later these will be moved to a site on Owen street.

"PE-RU-NA," A VALUABLE PREPARATION, WRITES DR. KEMBALL.

Most of the Ailments Peculiar to the Female Sex Are Due to Catarrh of the Pelvic Organs.

Rachael J. Kemball, M. D., 334 Virginia street, Buffalo, N. Y., is a graduate of the University of Buffalo, class 1884, and has been in the practice of medicine in that city since then. She writes as follows:

"My conviction, supported by experience, is that Peruna is a valuable preparation for all catarrhal affections. I have taken one bottle of Peruna myself and just feel that I shall continue to take it."

Peruna has cured thousands of cases of female weakness. As a rule, however, before Peruna is resorted to several other remedies have been tried in vain. A great many of the patients have taken local treatment, submitted themselves to surgical operations and taken all sorts of doctor's stuff, without any result.

The reason of so many failures is the fact that diseases peculiar to the female sex are not commonly recognized as being caused by catarrh. These organs are lined by mucous membranes. Any mucous membrane is subject to catarrh.

Catarrh of one organ is exactly the same as catarrh of any other organ. What will cure catarrh of the head will also cure catarrh of the pelvic organs. Peruna cures these cases simply because it cures the catarrh.

Most of the women afflicted with pelvic diseases have no idea that their trouble is due to catarrh. The majority of the people think that catarrh is a disease confined to the head alone.

This is not true. Catarrh is liable to attack any organ of the body—throat, bronchial tubes, lungs, stomach, kidneys and especially the pelvic organs. Many a woman has made this discovery after a long siege of useless treatment. She has made the discovery that her disease is catarrh, and that Peruna can be relied upon to cure catarrh wherever located.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.
