## CABINET SHIFT FORMALLY MADE

Paul Morton Is Secretary of Navy  
—Mr. Moody Attorney General.

Washington, July 1.—Paul Morton formally assumed the duties of secretary of the navy to-day, succeeding Mr. Moody, who becomes attorney general of the United States. Mr. Morton was accompanied to the department this morning by Mr. Moody and in the presence of the retiring secretary and assistant secretary Darling, the oath was administered by Solicitor Hanna of the judge advocate general's office.

In congratulating Mr. Morton, Mr. Moody said to him that in his contact with the officers of the United States navy he would meet some of the best men in the world. Mr. Darling extended his congratulations and good wishes, after which an informal reception was held. The naval officers on duty in the department, headed by Rear Admiral Taylor, chief of the bureau of navigation, were presented to Mr. Morton. The chief civilian officers of the department then were presented, after which Mr. Morton at once took up his new work. Later he accompanied Mr. Moody to the cabinet meeting.

Mr. Moody was sworn into office as attorney general a short time before Mr. Morton became secretary of the navy. The oath of office, which was administered by Mr. Graves, the appointment clerk of the department of justice, was taken in the presence of Mr. Knox and the chief officials of the department. Mr. Knox assured Mr. Moody that he could count on the confidence and complete co-operation of the officials of his department and he bespoke for him the cordial support and friendship that had been given to himself. Mr. Moody thanked the attorney general and predicted that his relations in his new sphere would be entirely agreeable.

## NERVE-TRYING DAY AT WHITE HOUSE

Crank Calls with Poem for President—and Fire Extinguisher Goes Off.

New York Sun Special Service.

Washington, July 1.—The capital was "hoodooed" yesterday, lightning and a falling fire extinguisher combined to make things lively in high places.

Three harmless but persistent former inmates of asylums visited the White House—Abel Crawford, to secure the president's help in preventing some imaginary person from poisoning a horse, Henry Huxley to warn the president of approaching danger revealed to him in a vision, and Septimus Pinc to submit an original poem to the executive. All were stopped by guards.

A large fire extinguisher on the second floor of the White House fell with a great crash, and with a bang and a fizz started a fire in the kitchen. Impelled by compressed air, the fluid was forced thru the open nozzle with a roar like that made by a locomotive blowing its steam. Attendants were frightened and fled.

A bolt of lightning struck the dome of the capitol building, and a window in the room of the United States supreme court.

## MUST QUIT OR GO TO JAIL

Courts Will No Longer Temporarily With Edward Olson of Marine.

Special to The Journal.

Stillwater, Minn., July 1.—Judge Williston has issued an order committing Edward Olson of Marine to jail unless he cleansly leaves this city between the 1st and 7th of July. This action is taken at the instance of Edward Carlson, who purchased the stable of Olson on an agreement that the latter would retire from the business. The matter has been before the courts before, but Olson has repeatedly ignored its orders and will now be locked up unless he complies.

Arthur Collins was brought from Duluth in a serious condition from injuries. While working upon a bridge he fell from a thirty-five-foot platform.

Major Frank Howley informally inducted into the company of the Philippine campaign, will be urged to return and take it to the encampment at Lake City.

The city board of health will begin its session the first of next week.

## 'NO MORE SILVER DOLLARS'

Mint Director Says Supply of Bullion Is Exhausted.

Portland, Ore., July 1.—"There never will be another silver dollar coined in this country," said George T. Roberts, director of the United States mint, in an interview. Mr. Roberts is on the way to Alaska. "No, there will be no more new silver dollars turned out by the government mint plants unless by some chance a 16 to 1 congress should be elected, for the supply of silver bullion purchased under the Sherman act is exhausted."

## PUTS CRIME ON ANOTHER

Mrs. Winder Says that Young Kardasch Killed Her Husband.

Special to The Journal.

Little Falls, Minn., July 1.—John Kardasch of Cudworth was arrested today charged with being the accomplice of Katie Winder in the murder of her husband Tuesday night at Pure creek. Kardasch is 37 and lives two miles from the Winders. The woman says she and Kardasch had the crime planned and Kardasch did the killing. Other stories are expected, as she is unreliable.

William H. Smead, Indian agent at Flathead, Mont., has been removed by the president and Samuel Bellevue of Missoula appointed agent at that place. Smead's removal came as a result of charges and investigation of agency affairs by Inspector Xester and Special Agent McNichol, the latter reporting in favor of a change. The exact nature of the charges is not made public at the interior department, but it is understood they had to do with the issuance of permits for grazing cattle by Indians on the reservation. The controller of the currency has approved the conversion of the Clay County bank of Vermillion, S. D., into the Vermillion National bank, with \$50,000 capital.

Three values in smart summer suits that are very much above the ordinary. One is made of heavy black taffeta silk, the other two of cream cotton voile. In every detail of making they are all that could be desired.

Shirt waist suit of very heavy black taffeta; waist is made with scalloped shield front, tucking and fancy stock collar; flaring skirt is finished with plaiting and fancy scalloped front.
