

CITY NEWS THE WEATHER

The Predictions. Minnesota—Generally fair tonight and Friday; brisk westerly winds. Wisconsin—Fair in west, probably showers in east portion tonight; fair Friday; slightly cooler tonight and in northern portion Friday; brisk southerly winds, shifting to northwest. Iowa—Fair tonight and Friday; slightly cooler tonight; fair Friday; slightly cooler tonight and in northern portion Friday; brisk southerly winds, shifting to northwest. Montana—Fair tonight and Friday; fresh westerly winds. Upper Michigan—Showers and probably thunderstorms this afternoon; cooler in west portion Friday; fresh and cooler; brisk north to northwest winds. For the Upper Lakes—Brisk and high northwest winds on Superior, decreasing Friday; brisk and probably high southerly winds on Michigan and Huron, shifting to northwest by Friday; showers and thunderstorms, followed by fair Friday.

Weather Conditions.

The low pressure area which has been causing the rain is now central over northern Michigan, passing slowly northward and probably high southerly winds on Michigan and Huron, shifting to northwest by Friday; showers and thunderstorms, followed by fair Friday.

Weather Now and Then.

Today, maximum 53, minimum 35 degrees; a year ago, maximum 60, minimum 41 degrees.

AROUND THE TOWN

First Registration Day.—Next Tuesday will be the first registration day. Voters who did not cast their ballot at the primary election and thus get their names on the polling books, must register before they can legally vote Nov. 3. Those who fail to do so will be ineligible Oct. 29, the last chance.

Stanley Roberts' Lecture.—The opening number of the Stanley R. Roberts lecture course will be given tomorrow night in Calvary Baptist church, under the title "The Cities of the Mediterranean." This will describe by moving pictures and lantern slides the cities of the Mediterranean sea, including Algiers, Malta, Athens, Smyrna, Constantinople and Beirut. The lecture will close with an account of the Journey inland from Beirut to the wonderful ruins of Baalbek, and to Damascus.

NECROLOGICAL

JOHN MARTIN ALDEN, 12 years old, died Oct. 15, at Redfield, Iowa, after an illness of but a few days. He was visiting with relatives in that town and was suddenly taken with the disease. Most of the boy's life was spent in Minneapolis, where he attended the public schools. The boy is survived by his mother, Mrs. Laura Alden, 2218 Huron avenue, his father having died last March. The interment was at Lakeview cemetery last Sunday afternoon.

JOHN P. TODD, street commissioner for the twelfth ward, died last night at St. Mary's hospital, from cancer of the stomach. He was 46 years of age and has a family. Mr. Todd was an active politician and for many years was frequently mentioned for alderman. He had announced himself for nomination by the republicans at the late primaries, but at the last moment decided not to file.

MRS. N. W. HILLS died Wednesday at the residence of her daughter, Mrs. H. A. Kimball, 1015 Sixth street S.E. The funeral will be held Friday from the residence.

MRS. H. KEEGAN, wife of Henry J. Keegan, died at 8:30 this morning at the family residence, 4030 Third avenue S. Notice of funeral later.

WILL NOT RAISE DUES

Commercial Club Likely to Increase Its Admission Fee, However. Commercial club dues will not be raised if the recommendations of a special committee at a meeting of the board of directors, yesterday, are favorably acted upon. The committee recommended the proposed advance of admission fee from \$20 to \$30. The increased price will apply to the 154 now on the waiting list. O. E. Van Diver, of St. Joseph, Mo., was made non-resident member.

JEHUS BARRIED OFF

"Cabbies" Grew Insulting on the Union Station Platform. Hereafter the platform at the union passenger station will be free from hackmen and expressmen and passengers will no longer be annoyed until they reach the curb. A new order went into effect yesterday and will be rigidly enforced. The action is due to many petty insults and annoyances to the traveling public. The climax was reached Monday night, when one of the hackmen insulted a lady for patronizing a rival hack. He was promptly arrested and taken to municipal court for disorderly conduct. As numerous warnings had been given by the station authorities, with no effect, it was decided to resort to the more stringent plan of keeping them off the platform.

One of the favorite maxims of General Grant, and one certainly in accord with human nature, was that in every closely contested battle there comes a time when both sides are exhausted. When this condition arises, he said, the army that first breaks the dull and puts itself in motion is likely to win. A blow then is worth a dozen previous ones.

A MATTER OF HEALTH

ROYAL BAKING POWDER Absolutely Pure HAS NO SUBSTITUTE

ENGINE GROUND OUT "LOHENGRIN"

MINNEAPOLIS MAN WEDS-CHICAGO MAILED IN AN AUTOMOBILE.

Wedding Party Stood in the Tonneau of a Hissing "Red Devil" or "Green Demon" While Residents of Aldine Square "Rubbered" at the Strange Spectacle.

Standing in the tonneau of a powerful touring automobile, Miss Lottie C. Andrews and G. R. Churchill, whose marriage is said to be in Minneapolis, were married yesterday in Chicago by Rev. Dr. W. W. Wilson of St. Mark's Episcopal church. It is stated by the Chicago papers that G. R. Churchill left, after a small dinner, for Minneapolis, where they will spend several weeks in visiting relatives. Examination of the city directory fails to show any record of Churchill and the Churchills of the city know of no such person.

During the marriage ceremony the big car was in Aldine square, on the exact spot where the couple became engaged two years ago. While the minister was speaking the fateful words the motor hummed the wedding music. Women and children peered out of the windows of all the houses in the square at the unusual sight.

Miss Andrews, simply attired in a dark-gray traveling suit, was attended by her sister, Miss Anna M. Andrews, and C. A. Coey acted as groom's man. As the last words of the solemn blessing were pronounced, Mr. Coey started the huge machine and the party whirled away to the Chicago automobile club, where they were greeted with a storm of rice and congratulations.

"Dr. Deimel Linen Mesh Underwear," Agent, Hoffman's Toggery Shops, 51 4th at S and Nicollet House block.

HITCH IN PROCEEDINGS

ARMORY BOARD DENIES REPORT THAT DESIGNS FOR THE NEW BUILDING HAVE BEEN ACCEPTED.

The armory board met this morning at the office of City Treasurer C. S. Hulbert to discuss plans for the proposed armory on Kenwood boulevard. There appears to be something of a hitch in the proceedings. Plans have been made with E. W. Langdon, captain of Company I, to furnish plans and specifications. Captain Langdon, it is understood, has already prepared a design and submitted it to the armory board. Nevertheless, the members of the board declare that designs and plans have not been adopted.

It is possible that the protests of the local architects against the course of the board in excluding them from competition may have had its effect.

FIRST SNOW REPORTED

OWL CAR BRIGADE SAYS THE FLAKY HARBINGERS OF COAL CONSUMPTION FELL LAST NIGHT. "Generally fair," declared the weather observer today, after serving up to the public one of the longest and steamiest forecasts of the year. Rain fell in Minneapolis and vicinity for over forty-eight hours without cessation and tallied up 1.30 inches, a remarkable record. The recorder showed 1.44 inches, Duluth 1.14, and La Crosse, Wis., .68.

Last night the wind came from the north and tore sprockets out of its wheels to get her with its icy blasts. At midnight the temperature was only a little above freezing and there was a flurry of snow. This intimation of winter has caused a looking into the statistics of previous winters. If judgment can be made by the records of past winters, cold weather sets in during the second ten days of November. Since 1890, during the first ten days of November, the minimum temperature has rarely been below 20, the lowest being in 1892, when the mercury fell to 9. In the second ten days for the fourteen years, the minimum was below 20 degrees, with the exception of 1892 and 1893, when the mercury fell to 9.

MUTES ARE MARRIED

Unique Ceremony Is Performed in the Sign Language. A wedding in which not a word was spoken by bride, bridegroom or minister took place last evening at the home of Mr. and Mrs. O. E. Lund, 2331 Bryant avenue N., when Miss Annie Safert and Frank C. Holtz of Chicago were married. Both bride and bridegroom are deaf mutes and the service was held in the sign language of the deaf mutes by Rev. John Salver, a missionary to the deaf from the Evangelical Lutheran church, who officiated at the ceremony. Miss Mary Saterlund and Ernest Swanson were the attendants. The bride is a graduate of the Fairbault school for the deaf and the bridegroom was also a student at the school.

ITS FIRST REUNION

"Stolen Tent Mess" of Company A Revives Memories of Jovial Times. The "stolen tent mess" of Company A, First infantry, M. N. G., held a reunion Wednesday evening at the home of Sergeant B. M. Lennon, 331 Eighth street S. Among the reminiscent responses were those by Privates Bowman, Eye and Ayres. Boardman related the details of the famous shower bath episode. Bve put in a complaint because "ludelik" was not included among the rationers, and Ayres' claim to the medal of honor for conspicuous gallantry at the "battle of Hobo Run." It was voted to hold reunions of the mess.

\$180,000,000 TOBACCO MERGER PAPERS FILED

Trenton, N. J., Oct. 20.—Papers were filed with the secretary of state today providing for the carrying out of the plan of merger of the American Tobacco company, the Consolidated Tobacco company and the Continental Tobacco company. The consolidated companies are to be known as the American Tobacco company, with an authorized capitalization of \$180,000,000, of which \$80,000 is preferred stock with 8 per cent cumulative dividends and \$100,000,000 common stock. The papers filed give the names of the officers and directors of the company including J. B. Duke, president; W. H. McAllister, secretary, and John M. W. Hicks, treasurer.

There are but ninety daily papers in Russia.

BULLISH TALK GOING AROUND

PREDICTION THAT DECEMBER WHEAT WILL REACH \$1.40.

Millers Are Conservative, Saying Wheat Is Now High Enough—O. G. Spencer, Chicago Grain Man, Says All Trading Eyes Are Turned to Argentine at Present.

Bull talk is going around again at the Minneapolis Chamber of Commerce, and there is a renewal of the former big buying of wheat that, earlier in the season, carried September wheat to \$1.23, and No. 1 northern to \$1.21. Today December, the active option, ranged from \$1.17 1/2 to \$1.19 1/2 in an active market, and No. 1 northern sold at \$1.21. Millers are the conservatives. Wheat, they say, is high enough at present, there is nothing to warrant further advance. But many in the trade express themselves otherwise and say that December wheat will sell in Minneapolis at \$1.40. Between these two elements lies the preponderance of sentiment, conservatively bullish and looking for a fair advance, but questioning the merit of the \$1.40 prediction.

Wheat has poured into Minneapolis, and for a month receipts every day have been two to three times as great as a year ago. For all this there has been no accumulation of good wheat. Soon, the bulls say, the country will be well cleaned up and receipts will drop. Wheat has been shipped in here from every point, and there is talk of importing Manitoba wheat, yet prices do not decline—hence, say the bulls, prices must some day go up with a rush.

O. G. Spencer, the Chicago grain man, one of the big operators of the country, was on "change this morning" looking round "Conrad" importance was attached to Mr. Spencer's visit by the local traders, who drew the inference that his presence means something of great import. At present, however, it is leading the trade and is a bull. Wheat, he says, will eventually sell much higher.

"Every man in the trade," said Mr. Spencer, "has his eye on Argentine. That country will do the business for the speculator this year. If it has a fair production, it may realize \$1.50 a bushel, but if anything should happen to the Argentine crop the effect would be something sensational beyond anything ever seen. There is a scarcity of wheat in that part of the world, and the Argentine crop to look to, hence Europe is not alarmed. The first sign of any serious impairment of Argentine production would mean a wild time in Liverpool."

WITNESS GOT A SCARE

HE UNWITTINGLY INCRIMINATED HIMSELF AS GUILTY OF A PENITENTIARY OFFENSE.

Jesse Dillman, one of the plaintiff's witnesses in the divorce case of Charles A. Clark against Vera Clark, heard before Judge F. G. Brooks this morning, testified to the defendant's infidelity when Dillman was called. Without hesitation the young man testified to having seen Clark in improper relations with Mrs. Clark. "This matter should be called to the attention of the county attorney at once," said the court, after a few pertinent questions. "But," interposed the plaintiff's attorney, "the witness is telling the truth, your honor. He didn't know he was incriminating himself when he told this story."

"I don't believe evidence of a penitentiary offense ought to be brought out in this court without something being said about it. We will see," said the court, and the boy was told to take a seat in the courtroom while other witnesses were examined. The youth, in fear and trembling, waited until the testimony was all in. The court then took the case under advisement and the boy was allowed to go. "Are you going to get any arrests?" was asked of the judge. "Have they any other proof except the statement of the witness?" inquired the boy. "I don't believe they have; and if that is so, nothing can be done." Nothing further was done in the case, but Dillman had a scare that he will not soon forget.

ARE THEY SEPARATE?

Order of Railway Telegraphers and Its Mutual Benefit Department. Judge W. R. Gray is to decide whether Mrs. J. J. Vosberg is to have the proceeds of a \$1,000 policy in which she was named as beneficiary. As Leah Vosberg appears and pleads her case against the Order of Railway Telegraphers. Fred Henry Liever, deceased, took out the policy and the beneficiary is his aunt. The questions are: Is the insurance was secured from the mutual benefit department of the Order of Railway Telegraphers and not from the order. The plaintiff's lawyer claims that the department is a department or a separate organization.

SHIPOARD OF SPANISH TOREADORS IS OVERDUE

New York, Oct. 20.—The local agents of the Spanish Royal Mail steamer Buenos Ayres, which has been reported overdue, are making a plea for Havana, said today that they feel no apprehension regarding the vessel's safety. They explained that the fact that she is overdue is not at all remarkable in view of the extremely severe weather which has prevailed for several days along the southern coast. When the Buenos Ayres sailed from this port Oct. 13 she had on board 201 passengers. Among them were fifteen Spanish toreadors bound for Vera Cruz, who were to take part in the annual championship bull fighting contests in leading Mexican cities.

WEDDED IN QUARANTINE; JUDGE AT TELEPHONE

New York Sun Special Service. Philadelphia, Oct. 20.—Standing in a Magistrate's office yesterday, Magistrate John McCleary officiated at the ceremony that united in marriage Frederick Mehren, a smallpox patient at death's door, to Mrs. Eva H. Lyon as they clasped hands in the municipal hospital four miles away. "Do you swear to keep her in sickness and in health?" asked McCleary of the sick man's proxy. The question was repeated to Mehren. "I do," he exclaimed thru the transmitter. Mrs. Lyon answered the question herself. "The law of the state has been complied with, I now pronounce you man and wife," shouted Magistrate McCleary in conclusion. After saying good-bye to her husband, Mrs. Mehren was led away to a fumigating bath.

MICHIGAN WANTS A GOPHER GAME

RENEWAL OF TALK OF A MEETING ON THANKSGIVING DAY.

Story Branded as Without Foundation in Minnesota Football Circles Last Week—Baird Still Has the Eastern Bee Buzzing About His Headgear.

Special to The Journal. Chicago, Oct. 20.—Efforts to bring about a meeting of Michigan and Minnesota for Thanksgiving Day have been resumed here and at St. Louis with renewed vigor. It is understood that mutual negotiations were in progress a few days ago, but, according to a statement in a local morning newspaper, they had to be dropped temporarily. Michigan alumni at St. Louis are trying to bring Michigan and Minnesota together at the world's fair stadium Thanksgiving Day. The Record-Herald today says: There is still hope among the Chicago followers of Michigan's fortunes that a game with Minnesota may be arranged, but neither team has thus far signed to open negotiations for the game. That Michigan will secure some game which will bring to the wolverines a financial profit there is no doubt.

As a last resort, it is said, Manager Baird of Ann Arbor has his eye upon a game with Amherst to be played in New York or Boston on Thanksgiving Day. The university at Amherst will be taken unless efforts to secure Minnesota or another big western team for a late season game fail.

This story first followed the announcement that Columbia had declined to meet Michigan Thanksgiving Day. Inquiry among the alumni called for a denial that Minnesota would play Michigan this year, as an Iowa contract called for gopher attention on Thanksgiving Day. Since that time Iowa has asked that the game be transferred from Davenport to Iowa City, and Minnesota has demurred. While there is still hope among the Chicago string fiends have evidently utilized it as a basis upon which to revive "conjectures of the infinite possibility."

REVOLTING CHARGE MADE

Chinese Laundryman Accused by His Little White Stepdughter.

John Leon, a Chinese laundryman at Thirteenth avenue S. and Washington, was arrested at 5 o'clock last evening by Police Superintendent Conroy and two officers. He is charged with a most revolting crime involving his 13-year-old stepdaughter. Superintendent Conroy heard of the case through the friend of the little girl's, and investigated it personally last night.

After calling at Leon's residence, 3560 Scollay avenue, and taking him to central station, he visited the various Chinese restaurants to see that everything was in order. It was nearly 12 o'clock before he began the investigation which led to the formal charge. The girl told her damaging story to the officers in the presence of her stepfather. He remained cool until the girl said that he had threatened to kill her if she told anyone of his actions. At this he became excited, and it was with difficulty that he controlled himself sufficiently to answer the questions put to him. Complaints have been made to the police of other similar cases, and they will be investigated under the personal direction of Superintendent Conroy. Detectives are also working to find the Chinaman who supply the local resorts with opium and arrests on that charge are expected soon.

WEAK, BUT NOT DRUNK

Mr. O'Toole's Explanation as to Why He May Have Staggered. Henry O'Toole, a prosperous farmer who resides seventeen miles from Muncie, Wis., came to the city yesterday to take treatment from a specialist, but landed in a cell at the central police station. He was in police court charged with drunkenness, but pleaded not guilty and his case was set for tomorrow. "I was not drunk," O'Toole declared to a Journal reporter. "I just came to the city yesterday and before I left home, the druggist in our town gave me a small bottle of wine. I drank it on the train coming down here, and when I got to the city, I started out for a walk. I was very weak from my illness and I may have staggered a little, but I was not drunk."

GETTING CITY FIGURES

Two Federal Census Agents Are Compiling Statistics Here. Two special agents of the federal census bureau are at work in this city collecting social statistics for 1902 and 1903. There are fifty such agents in the field and their reports will be compiled for purposes of comparison and reference. R. C. Osgood looks after the general statistics, while Mr. Eggleston handles the financial statements and reports. Their work embraces the statistics of the police, fire and health departments, municipal public works, schools, public libraries, parks and streets and municipal charities. Mr. Osgood says that the records are exceptionally well kept in this city and he has no difficulty in getting what he needs. He says that he has obtained much detailed information that he will be occupied here for about a month.

A. J. BLETHEN WINS

Washington Courts Throw Out Bank of New England Case. Daniel Kellher, a Seattle attorney, visiting here, received word today that the suit brought by C. H. Childs of this city against the Bank of New England, a judgment obtained against the latter as one of the stockholders of the defunct Bank of New England, has been won by Mr. Blethen. The Washington courts take the position that judgments obtained under the Minnesota statutes holding stockholders for secondary liability cannot be enforced in other states.

DES MOINES LOSES

Iowa Odd Fellows Refuse to Locate Grand Lodge Permanently. Special to The Journal. Mason City, Iowa, Oct. 20.—The grand lodge of Odd Fellows today defeated the proposition to make the permanent location of the grand lodge at Des Moines and nominated officers to be voted upon next June. A dozen candidates were nominated for grand warden, from which office the progression is certain thru the other officers. The White of Woodbine is considered the likely victor. The Rebekahs elected Mrs. Josie V. Hukill of Waterloo, president of the state assembly for the coming year and Elizabeth Matheny, secretary. The grand lodge will adjourn tomorrow.

INVESTIGATING IS OVER

GRAND JURY MAY DROP BROAD HINTS AS TO PROPER METHODS OF SOLDERING "THE LID."

The proposed municipal investigation has been called off. The grand jury has completed its work and a final report will be made to Judge A. M. Harrison late this afternoon. What this will contain is, of course, only conjecture, but it is understood that there will be some broad hints as to enforcing the winerom ordinance. An enlargement of the police force will also be advised and a general tightening of the reins of city government will be suggested.

LONG LINE AT ORPHEUM

THE FIRST SEAT SALE AT THE NEW THEATER DRAWS A BIG CROWD.

In spite of the searching wind which hustled down Seventh street, bearing the first guarantee of approaching winter, the line of those anxious to get the first seats for the new performance at the Orpheum theater was formed at an early hour this morning and kept growing ever after the box office was opened at 9 o'clock.

Testimony to the long existing demand for high-class vaudeville and to the faith the public has in Manager F. B. Henderson's ability to finish the theater in time for the Saturday night opening was eloquently given by the waiting line, for just over the head of the line workmen were building a temporary platform from which to lay the wire-glass roof of the long iron portico. Altho the line increased in length until it extended up Seventh street and around the corner to Hennepin avenue and beyond, and the demand was continued well into the afternoon with no signs of diminution, the two box office men satisfied the seat seekers, as far as possible. The 2,000 seats at their command for each performance were drawn on liberally and they sold many tickets in a temporary platform from which to lay the wire-glass roof of the long iron portico.

While the Orpheum Circuit company has had the same experience in other cities where their vaudeville theaters have been opened, the practical demonstration of the manager of the Orpheum was most gratifying. This was the statement of Resident Manager F. B. Henderson and General Manager Martin Beck of Chicago, who were on the ground superintending the work of completion.

THE UNIVERSITY COUNCIL OF STUDENTS

OBJECT IS TO CONCENTRATE UNDERGRADUATE SENTIMENT AND EXERT MORAL INFLUENCE.

Following the lead of several eastern universities, Minnesota undergraduates are to have a students council in charge of the moral and social sentiment of the university. The plan is for a council or board, in which the three upper classes will have representatives, three from the senior class, two from the junior and one from the sophomore class. In the different colleges where such councils exist it has been found that their action in condemning cribbing and in encouraging the best kind of college enterprises has resulted in a better spirit among undergraduates and a closer feeling between faculty and students, so the approval by the faculty of the movement is expected.

UNIVERSITY THEATER

Included in Proposed Woman's Building, for College Plays. The Dramatic club has started a movement for a theater, and the proposed woman's building may, as a result, include a completely equipped miniature theater for the college thespians. President Walker of the Dramatic club is the leader, and if arrangements can be made the services of the Dramatic club will be enlisted to raise money for the woman's building.

FRESHMAN CLASS MEETING

Faculty Gives Its Consent and It Will Be Held Wednesday. The consent of the faculty to a freshman class meeting for the election has at last been obtained and a meeting has been called for Wednesday of next week. The memorable fight between the sophomores and freshmen in 1900 when the freshmen attempted to organize their class in September, the faculty has prohibited early class meetings by the first year men. The feeling this year between the classes is exceptionally good.

Varsity Circus Plans

The Amateur Athletic club last night decided to hold a varsity circus this year. The circus has been an annual feature for three years, but owing to the immense amount of work involved it was decided last year to abandon the enterprise. Dr. T. Cooke has consented to take charge again this year on condition that the club give him active support.

LOCAL POLITICS

MEETINGS SHOW PROFIT Public Ownership Party Get "Sinews of War" at the Door. The public ownership party is \$300 to the good as a result of bringing Eugene V. Debs to Minneapolis. Debs packed the International Auditorium with people who paid from 10 to 25 cents each. This gave the party some \$600. Debs received an award to the value of \$25. The national socialist committee paid his railroad expenses. The cost of the hall, help, advertising and minor expenses were about \$275—leaving \$300 net profit.

Oysters and Politics

The prohibitionists had an oyster supper followed by an interesting, well-attended meeting at the Bethlehem Presbyterian church last evening. Addresses were made by C. W. Dorsett, candidate for governor; Edward J. Bronson, eighth ward aldermanic nominee; Rev. T. W. Stout, Rev. S. B. Roberts, and W. B. Baldwin. An interesting musical program was also carried out.

PIANOS AND TWO PRICES Foster & Waldo 36 Fifth Street South, Corner Nicollet Avenue. Two prices on the same piano play no part of the policy of this store—everybody's dollar is accepted at its face value, each counts one hundred cents in our calculation. To have two prices would require inflated values on pianos. It would mean you would never know when the lowest price was quoted. It would mean a price named to you would be more or less to somebody else. That self-evident fact commends itself to common sense, and it should, therefore, commend the consistent and courageous ONE-PRICE course of THIS store to your serious consideration. We can save you \$50 to \$150 on a piano.

Special for Friday Double Amount Green Trading Stamps in our Children's Department. NICKEL PLATE 307 NICOLLET AVENUE. A BRIGHT TEN-YEAR-OLD WINS HONORS IN MUSIC

Bernice Morrison, in Competition With Older Contestants, Wins a Piano Scholarship at Northwestern Conservatory.

son of 2920 Fifteenth avenue S. The little girl began her musical studies at six years of age with Mrs. C. S. Rhodes, and has worked steadily under her tuition ever since. Little Miss Morrison is an advanced pupil and is just finishing the Mozart sonatas and Czerny's velocity studies. Her selection for the contest was "Valse Chromatique, Godard, and she had special preparation on it. She appears quite frequently in public programs in order that she may acquire confidence and ease. Her time is not devoted in large part to music, as she practices but an hour and a half a day, and attends school.

The helicopter is recommended as a fever cure. The turbine engine is steadily increasing in use, both on land and sea.

Pickering's 714 NICOLLET. Kayser Underwear In Silk, Vege-silk and Lisle, Fine Wool or Fine Cotton Union Suits or separate garments. For Comfort, Warmth, Fit and Appearance, this is the BEST around underwear made for the money. We show a complete assortment from the least expensive to the best.
