Upper Michigan—Showers tonight and Saturday; brisk and high northwest winds. Wisconsin—Threatening, with showers tonight and Saturday; brisk and high northwest winds. Iowa—Partly cloudy tonight, with showers in east portion; Saturday, fair; brisk northwest winds. North and South Dakota—Generally fair tonight and Saturday; cooler in east portion tonight; brisk northwest winds. Montana—Fair tonight and Saturday; cooler in south portion tonight; variable winds. For the Upper Lakes—Brisk and high northwest winds tonight and Saturday; showers, probably followed by fair weather. Storm northwest warnings displayed at all stations.

Weather Conditions.  
The slowly moving storm, which has been accompanied by rain, nearly seventy-two hours is now northeast of Michigan, and a severe storm is passing over the Atlantic coast, with the following heavy rains during the past twenty-four hours: 3.50 inches at Charleston, 2.06 at Norfolk and 2.02 at Washington, with rain still falling this morning at Norfolk, Va., and New York. The rain over the past twenty-four hours extended along the whole Atlantic seaboard, and from Missouri northward, including Iowa, Minnesota, eastern North Dakota, Manitoba and the Lake region. Rain was falling at 7 a. m. at Minneapolis and St. Paul, St. Louis, Madison, Milwaukee and Green Bay. This morning's temperatures are below 40 degrees in northern Minnesota, North Dakota, northern Montana and the British possessions.

MARTIN HEARD FROM  
Writes Open Letter to Roosevelt Asking Him to Withdraw.

H. B. Martin, secretary of the American Anti-Trust League, with headquarters in Washington, D. C., and formerly a resident of Minneapolis, has addressed an open letter to President Roosevelt, which is being circulated in Minneapolis, in which he asks that the president withdraw from the race for re-election. The letter is signed "The League of the People," a series of New York newspaper cartoons showing up the various combines as robbing the people.

Mr. Martin's letter is addressed in a fatherly, sarcastic tone, and the burden of it is that the anti-trust law has not been enforced, and that the president is in a manner to crush all the trusts, and that Mr. Martin, the league of which he is secretary, and democracy in general, therefore brand Mr. Roosevelt as "unfit for further incumbency of the office of president of the United States."

Up to the hour of going to press no word has been received of the president having withdrawn as presidential nominee in favor of some man who would better suit Mr. Martin, et al.

SMITH'S NAME  
GOES ON BALLOT

SUPREME COURT HOLDS  
"SHERMAN" A FOURTH WARDER.

Attempt to Have His Name Taken from the Ticket Because of 'Non-Residence Falls—Court Refuses to Consider Arguments as to Jurisdiction—and the Legislative Ticket Remains Intact.

Sherman S. Smith's name will remain on the ticket as a republican candidate for representative from the fourth district. The order to show cause was dismissed by the supreme court this afternoon. The evidence was submitted by Reference G. P. Hitchcock yesterday, and brief arguments were made today by Harlan P. Roberts, attorney for the plaintiff, and John H. Steele, attorney for the defendant. Judge Steele advanced the argument that the court had no jurisdiction over the qualifications of a legislative candidate, the legislature being the sole judge of members' qualifications. The court declined to hear the argument on this point, so the plaintiff's attorney, Mr. Steele, went to his residence at 103 Western avenue. Mr. Roberts dwelt on the inconsistency of Mr. Smith's acts with intent to keep residence at 103 Western avenue.

FINANCIAL BALM  
Husband Asks Heavy Damages Because of His Wife's Dishonor.

A highly sensational suit, in which a husband demands \$15,000 damages for the alleged alienation of his wife's affections, has been transferred from Hennepin county, where it was begun, to Ramsey county, where the defendant lives. The plaintiff is Carl F. Anderson, and the defendant is John E. Smith. Mr. Anderson married Ida Anderson, Feb. 10, 1902, and lived with her until April 8, 1903.

DID NOT ADJOURN  
Grand Jury Will Not Make Final Report Until Tuesday.

The grand jury of Hennepin county reported to Judge Harrison last night, returning a number of indictments, but did not adjourn sine die. It was expected the jury would present its final report and a report has been prepared, it was not presented, as the jury contemplates hearing further evidence in certain cases. Adjournment was taken till Tuesday.

WHERE DUNN HAD A PULL  
BANNER BEARING HIS NAME PULLS A CHIMNEY INTO HENNEPIN AVENUE.

A chimney on the Western Union building at Third street and Hennepin avenue was torn from its moorings by a gusty wind, and fell into the street, where it was crushed by a car. The chimney was pulled into the street by a banner bearing the name of "Dunn," which was attached to it. The banner was pulled into the street by a car, and the chimney was crushed by the car. The banner was pulled into the street by a car, and the chimney was crushed by the car.

MANY WANT STATE LEASES  
NINETY APPLICATIONS MADE ON TRACTS ALLOWED TO LAPSE BY OTHER LESSEES.

Ninety applications for mineral leases on state land were made to the state auditor this morning. The pieces applied for were leased last year, but the leases expired yesterday. Several tracts were much sought for and eleven applications were received for one quarter section, the south half of the northwest quarter and the south half of the northeast quarter, in section 11-58-19. The leases for this tract were put up to the highest bidder Nov. 2 at 10 a. m. State Auditor Iverson will conduct the sale. Each application is accompanied by a \$25 check, which must be returned if the lease is not issued. The receipts for today, therefore, amounted to \$2,250.

PURCHASE A FORMALITY  
OMAHA TAKES OVER 95 MILES OF ROAD—OFFICERS ELECTED AT MEETING OF CORPORATION.

At the annual meeting of the Chicago, St. Paul, Minneapolis & Omaha railway at Hudson, Wis., today, the purchase of the Chippewa Falls and Northwestern and the Eau Claire, Chippewa Falls and Northwestern railways was completed. Both corporations were organized by the Omaha to build branch lines. The purchase is a formality, involving ninety-five miles of completed road. F. W. Vanderbilt, William K. Vanderbilt, Albert Keep and H. McK. Twombly were re-elected directors. The officers were also re-elected. The annual meeting of the St. Paul & Sioux City railway was held in St. Paul. All the officers were re-elected. President Marver Hughton and other officers came up from Chicago to attend the meetings and remained only long enough for the transaction of business.

FOUND FATALITY HURT  
Charles Rausch of 796 Greenbrier avenue, St. Paul, died at St. Luke's hospital at 1 o'clock this morning from injuries received in an unknown manner in the Omaha yards, near the Payne avenue bridge last night. Rausch was found about 8:30 a. m. last night lying beside the track. He had a bad scalp wound and the toes of both feet were mangled. It is supposed that Rausch was struck by backing cars in the dark.

WIFE COMPLAINS  
OF STOLEN TEETH

SHE SEEKS A WARRANT AGAINST  
HER HUSBAND.

Says He Choked Her Till Her False Teeth Fell Out, Then Poked Them and Drove Away, Leaving Her With a Horseless Wagon on the Prairie.

"I want to get a warrant for my husband's arrest," exclaimed Mrs. John Wotcheck as she entered the office of the Humane society at the courthouse this morning. "Does he refuse to support you?" asked Agent Van Eiten, who knew that Mrs. Wotcheck and her husband did not get on well together. "No, not for that," replied the woman. "Has he been beating you?" queried the agent. "No, he hadn't better try that," responded the excited woman. "He knows that I am a better man than he and can whip him any day he ever saw."

"Well, what has he done that you want to have him arrested?" "He stole my false teeth," almost shouted the woman, "and I want him arrested. He had my business to take them and they are of no use to me. I want the villain sent to jail."

"You know Wotcheck and I sold our house," explained the woman, "and bought a horse and wagon with which to go peddling in South Dakota. One day we had a quarrel and he put me out of the house, and he went on going to leave me. I made him give me a dollar and he took the horse and left me the wagon. Before he left he choked me until my teeth came out, and he put them in his pocket and rode off. I have never seen him since."

"Well, I went to the nearest town and sold the wagon, and now I want to get him arrested."

Mr. Van Eiten advised the woman to go to the city attorney, who she did, but no warrant has been issued, as the officials believe there may be two sides to the story.

A BIG AUTO FOR FLOUR  
PILLSBURY-WASHBURN COMPANY PUTS INTO SERVICE A BIG, MODERN MOTOR VAN.

The new electric van, the largest in the world, ordered by the Pillsbury-Washburn company, arrived yesterday and was given its speed trial this morning. It was found to answer every claim set forth by the manufacturers, and is unique in every particular.

The truck has a carrying capacity of 15,000 pounds and is twenty feet by seven, the height being twelve feet. The running gear is painted green, while the body is artistically decorated in white. Attractive advertising designs are included in the decorations.

The car will be used to deliver flour to the local dealers and Pillsbury's Best can be stored in it so that no matter how inclement the weather the flour cannot possibly suffer.

The car is electric and the design is so simple that it can be run by an operator without any previous experience. It is charged to run twenty-five miles and has a speed of eight to ten miles an hour.

SUPPORTERS OF CLARK SALOON ORDINANCE WANT A VOTE ON IT FRIDAY

Much quiet work is being done by the supporters of the Clark liquor license ordinance to secure its passage at the council meeting next Friday evening. The ordinance would have passed last night, but for the intervention of the opposition. The ordinance was brought to bear on the aldermen who are playing into the hands of the opposition by refusing to vote on it. LYCEUM LOSES  
LEADING LADY

GRACE HAYWARD WILL ENTER  
THE LITERARY FIELD.

Plans for a Long Rest at Her Mother's Home at Mt. Carmel, Ill., Before Taking Up Any Serious Work—Her Successor Not Chosen by Dick Ferris.

Grace Hayward, who in private life is Mrs. Richard Ferris and who for three years has appeared with much success in leading roles at the Lyceum, contemplates leaving the stage and devoting her time to literary work. Miss Hayward will make her final appearance at the Lyceum week after next in the leading role of "Leah, the Jewish." She will then take a vacation trip to New York. There she will consider several offers she has had to join eastern companies, but with the desire at heart which she will probably carry out of retiring to her mother's quiet, beautiful country home at Mount Carmel, Ill., then to rest from several years of continuous work on the stage and spend her time in literary pursuits.

Miss Hayward has already attained some fame from the work of her pen. She has written considerable verse and the dramatization of "Granville," one of the most successful plays ever produced at the Lyceum, was entirely her work.

"I have a new play almost completed," said Miss Hayward this morning, "and I look forward with much pleasure to completing it in the beautiful little town of Mount Carmel, as well as to starting other literary work. I shall be sorry to leave all my friends in Minneapolis, and yet I think I have earned a rest at Mount Carmel, as an ideal place for recuperation. The question of a successor to Miss Hayward in the Ferris Stock company is not yet decided. I have been thinking of trying to get a new leading lady about every ten weeks," said Mr. Ferris, who is the manager of the company. Since the company is so popular here, summer, is under a contract to begin work in London Jan. 1, but if I can't infringe on this contract I will try to get a new leading lady. I am also figuring on securing Miss Beryl Hope, now at Nashville, Tenn., who was very successful last year with the Columbia Stock company of Brooklyn, N. Y."

Miss Stone is at present in Minneapolis visiting friends.

DISCARDS PLOW  
FOR THE SPADE

FALL "FLOWING" AT WORK—HOUSE DONE BY HAND.

Superintendent McDonald Had to Make Work for City Prisoners in Order to Keep Them from Growing Unruly—Closing Down of Quarries Causes All the Trouble.

Scarcity of labor at the workhouse has compelled Superintendent Frank McDonald to return to primitive methods of farming. Until the city fathers decide what the "weary willies" are to do, the spade will be substituted for the plow in all garden work.

Since the work in the quarries was suspended by order of the council, many of the prisoners have not had enough to do to keep them from mischief. Feeding potatoes and assorting garden truck is about the only work to be done, and that has been found to be a very tedious task.

When time came for the fall plowing, Superintendent McDonald had a happy thought, and decided not to bring the plow at all, but to get a wagonload of spades. According to the plan, the men were set to work spading up the mud. In this way the work is done much better, and under more modern methods. It is expected that the men will be kept busy for several weeks, where otherwise they would be men of leisure. In the meantime the council will have time to supply permanent employment.

WHEAT CROWDS LUMBER  
PACIFIC COAST LUMBERMEN COMPLAIN THAT CARS ARE ALL UTILIZED IN THE WHEAT TRADE.

Peculiar conditions that may never be duplicated are working to produce a hardship on the Pacific coast lumber dealers. Pressure of grain-carrying to the east is said to make it impossible for the north coast lines to take care of eastbound lumber and shingles. Representatives of the transcontinentals are concerned, for so far as they are concerned, there is no shortage. Lumber and shingle brokers complain that the roads are not taking care of them. Unusual conditions result from the high price of local wheat, making it possible to utilize the soft wheels of the west coast states for winter purposes. Sixty per cent of this wheat is shipped to the east for shipment. A large proportion of the rest of the wheat goes thru Minneapolis for Chicago, from which point it is distributed where needed. Much of this wheat is diverted to Michigan for use at breakfast food concerns in mixing with other wheat.

Winter-wheat millers in Ohio and other points east of Chicago are beginning to use the wheat with profit under the prevailing high prices of northern wheat and the scarcity of the product this year in Minnesota and the Dakotas.

Portland, Ore., reports that of from 12,000,000 to 15,000,000 bushels already stored on the eastern market, not over one-third has been forwarded.

Professor W. L. Underwood of the Massachusetts Institute of Technology reports that a large quantity of the introduction of goldfish into many small streams of New England where mosquitoes breed would be a great help in the use of kerosene in destroying the pest.

Collector Stratton of the San Francisco port has received notification that the United States customs has made the following regulations as to the use of the flag: A flag having one dragon rampant in a yellow moon will be reserved for common use; two dragons are to be used only in the case of mercantile joint stock companies.

It is proposed to adapt the old St. John's Episcopal church at Richmond, Va., to modern uses, and there is an outcry against it, very naturally, since it is more than a century since the church was built, being one of 10 or 12 Episcopal edifices of colonial date which still defy the ravages of time.

MILLION BUSHELS  
CANADIAN WHEAT

WASHBURN-CROSBY MAKE BIG  
PURCHASE IN BOND.

Low Grade of Minnesota and South Dakota Force Minneapolis Millers Across Border to Maintain High Quality of Their Flour—John Washburn on the Situation.

John Washburn, James S. Bell and William H. Dunwoody of the Washburn-Crosby company returned this morning from Winnipeg. They bought a round lot of Manitoba wheat to come to Minneapolis—probably close to one million bushels. This wheat will be ground in the Minneapolis "B" mill of the company, which has been reserved until the St. Anthony elevator until the mill is ready for it. The "B" mill and the St. Anthony elevator were bonded two years ago, and were operated thru the winter season, some two million bushels of Canadian wheat being used.

This announcement, in connection with the Palisade mill and Union elevator of the Pillsbury-Washburn company, means that milling of Canadian wheat in bond will be carried on this winter in Minneapolis on a large scale. The wheat supply situation on the American side is such that millers can already see that there is a scarcity of milling wheat in sight.

Much of the Minnesota and South Dakota wheat is of too low a grade to make good flour. Just how much milling wheat there is in America will not be known until Chief Statistician John Hyde of the department of agriculture makes his report, about Dec. 1. Meanwhile, however, the situation is sufficiently clear to cause the Minneapolis millers to turn to the Canadian northwest for the choice material.

John Washburn says there has been a wonderful development in Canada in the past year. Winnipeg is growing rapidly. The first impression of an American traveler who goes across the line is a feeling of regret that the development, so much in evidence, is not within our confines. But this is a superficial view. The situation is a very real step in the forward progress of the Canadian northwest means a gain for Minneapolis. Our city is coming more and more into touch with this growing land. For years nearly every big project of importance up there has been financed from eastern Canada. This relationship we Americans cannot dispute, but we are getting more and more controlling interests in new enterprises, and I believe the time will come when Minneapolis will be the center of which this vast territory will largely turn for financial backing.

"The new Soo line, Minneapolis-Winnipeg extension, is the greatest project of the day, looking to the benefit of Minneapolis. The importance of this additional rail connection between the two growing cities can scarcely be overestimated. From now on, I believe the new line will have business enough at the start to make it a paying proposition."

CAMPAIGN OF LOVELY  
IT IS BEING MANAGED BY PERSONAL FRIENDS, AND NOT BY POLITICIANS.

State Senator Morgan of Faribault, who is managing the campaign of Justice Lovely of the state supreme court for re-election, has been spending several days in St. Paul and Minneapolis, and this morning predicted that Justice Lovely would carry both Ramsey and Hennepin counties.

"I am much encouraged," he said, "over the friendly feeling I find here for Judge Lovely. It makes me feel sure of his success. I believe he will carry Ramsey and Hennepin; I know he is very strong throughout southern Minnesota, where he is so well known, and word comes that the voters in the north will remember him Nov. 8."

"Mr. Lovely is not operating a political campaign. His interests are being looked after by former State Senator Patrick last night at Thirty-seventh avenue S and Lake street. He began by attacking the republican tariff system and the republican policy in the Philippines. He asserted that history shows 149 republics and kingdoms have ultimately collapsed because of adopting a policy of expansion. He says the United States has plenty of room without extending to the distant islands of the sea."

TO PATROL PINERIES  
Dem State Committee Will "Lay For" Illegal Voters.

Frank A. Day, chairman of the democratic state committee, announced today that he had taken steps to head off illegal voting in the lumber camps and mining towns of northern Minnesota. A force of detectives has been engaged, and it will patrol the district to prevent colonization and the voting of employees who have not acquired residence.

John Lind's Dates.  
John Lind will begin stumping the state today for democracy. This afternoon he is scheduled to deliver an address at Morton, Minn., where he speaks in Redwood Falls. He speaks at Alexandria Oct. 24, Red Lake Falls Oct. 25, Bemidji Oct. 26 and Aitkin Oct. 27.

Strong Line  
of Pianos

Ask any competitor or piano man in America if the Steck, Hardman, Krakauer, McPhail, Sterling and "Crown" is not a strong line of pianos. "Yes, sir" will be the unanimous answer. It can't be otherwise from the fact that every one of the six makes bears the stamp of time's approval. "Truth is mighty and must prevail." Very well, our pianos are all right.

Now comes a very important matter to the piano purchaser—OUR PRICES ARE ALL RIGHT. All piano men admit that we buy for spot cash in quantities. This means Lowest Prices for us. As We Buy We Sell. This means Lowest Prices for you.

The "Foster & Waldo One Price Plan" will save you \$50 to \$150 on your piano. Your little boy or girl can buy as low as the shrewdest shopper in America. Don't you think we are entitled to a visit from you? Terms cash or easy monthly payments.
