## Wheat Sold at the Seaboard for Export MARKET WAYERS

Kansas City ...... 1.01%

Only a Little Lot of Five Loads, but It May Mean Much for Prices.

The Report in Just at Close of the Market Corn Also

Dry Weather Reports Are Still Coming from the South-

Minneapolis Chamber of Commerce, Nov. 23.—Against the two in portant depressing influences of indifferent foreign markets and larger northwest receipts, wheat was stubborn and firm early, opening only a shade under yesterday's close at \$1.11\frac{3}{2}\$ and holding around that figure. The sight of 326 cars in Duluth—which market has been running behind as a rule—against 214 a year ago, made traders look for a bearish northwest showing, and when Minneapolis was found to have 602 cars against 464 a year ago some selling developed. All this effected was a decline to \$1.11 for May, and as soon as it cassed \$1.11\frac{5}{2}\$, was touched. Chicago had 41 cars against 119, Kansas City 64,000 bu against 141,000, and St. Louis 43,000 against 108,000. Winnipeg had 305 cars, of which 37 graded No. 1 northern and 77 No. 2 northern. Minneapolis stocks have increased 500,000 bu so far in the week. Minneapolis Chamber of Commerce, Nov. 23 .--

week.

The situation in Argentine is in dispute, and cables conflict. Liverpool's opening of ½d up was due to rain reports, but later that market fell back. Chicago had advices of fine weather, but other private cables made it just the reverse and told of rains in the provinces of Santa Fe, Cordova, Entre Rios and Buenos Aires. This is now the price-making factor of first importance. Harvesting should begin within a few weeks in portions of Argentine and the weather up to that time will be watched with greater interest than ever. Later cable advices made the weather clear today and the rain advices were found to cover conditions up to yesterday only.

were found to cover conditions up to yesterday only.

In our own country the weather remains unchanged and the southwest continues to pray for rain. The news from Kansas and Nebraska is now unfavorable in the extreme in some cases, and nearly all messages close with the statement that much damage has already been done and that unless rain comes soon the winter wheat crop prospects will be lowered very materially. No immediate relief appears in sight. This morning it was clear and pleasant at Omaha, St. Louis and Kansas City and there was nothing in the forecast to help out.

A live question is that of accumulation of stocks in the northwest. The total in Minneapolis elevators for the week last year ending on date corresponding to Saturday next was 6,866,000 bu. The total this year is 8,952,000, with two days yet to come, a known increase so far of 500,000, and prospect of an increase in all for the week of 750,000 to be added. Duluth had 1,216,000 bu a year ago Saturday next, and has now 4,864,000, with chances about a standoff, but probably favoring some increase for the week. So long as stocks are well above last year and continue to increase it will be a handicap upon the bulls.

The Kansas state report puts the wheat condition at 88, and says dry weather damage is especially heavy in the wheat belt; condition as low as 60 in some counties. The condition a year ago was 90. The acreage now is 5,906,000, an increase of 89,000 over last fall. The wheat yield this year, 64,000,000 bu. The September estimate was 63,000,000 bu. A year ago 94,000,000 against 170,000,000 a year ago.

Primary receipts 1,049,000 against 1,468,000 a year ago.

The forecast: Minnesota, South Dakota—

against 170,000,000 a year ago.

Primary receipts 1,049,000 against 1,468,000 a year ago.

The forecast: Minnesota, South Dakota—Fair, cooler, brisk northwest winds. North Dakota—Fair, Nebraska—Fair, cooler. Kansas—Fair; westerly winds. Missouri, Iowa, Wisconsin—Fair tonight and Thursday; cooler in east portion Thursday. Illinois—Fair, cooler Thursday and in northwest portion cooler tonight. Indiana, Michigan—Fair, cooler.

Just before the close the report came from the seaboard that five loads of wheat, twenty loads of cern and 50,000 bu oats were sold for export. This sale of wheat, altho a very small lot, made the most important news item of the day, for if wheat can be sold for export conditions are entirely different from those ruling when the decline began. It was too late to learn more about it, but the sale was confirmed.

December wheat closed at \$1.08½@1.08%; May at \$1.11%.

#### THE FLOUR MARKET

LOTS. Sales were more numerous today and busines brisk, yet the total new business was not so heavy as the increased activity would indicate neary as the increased activity would indicate, as orders were principally for small lots. Inquiry for flour is undoubtedly better, but when millers talk of it they take only a moderately cheerful view and say that the near approach of the close of navigation and higher freight rates to follow account in part for the buying, and whether or not sales will continue to run heavy is a matter that still remains to be demonstrated.

strated. Shipments, 71,284 brls.
Shipments, 71,284 brls.

Close: Ribs, January, \$6.50@6.52½; May, \$6.67½.

#### MISCELLANEOUS

MISCELLANEOUS

NEW YORK COTTON, Nov. 23.—The bearish construction put on yesterday's installment of the census report was evident again this morning, in spite of the fact that Liverpool barely responded to the local declines of the previous day. The local cotton market opened steady on the cables at an advance of 2@4 points, but soon weakened under more or less general selling, with prices breaking to within a few points of the lowest level they have occupied since the culmination of the bull campaign of last season. Trading was active. It was reported that another installment of the census report would be issued today, and it was feared that this report would show a large amount of cotton ginned in states other than Georgia. Reports from the south indicate, however, that in some instances spot offerings are being withdrawn, while eastern spinners were active buyers. This promoted more active covering, and prices toward the end of the first hour rallied about 5 points.

Cotton futures opened steady: November, 9.25c; December, 9.33c; January, 9.43c; March, 9.57c; April, 9.60c bid; May, 9.67c; June, 9.69c bid; July, 9.74c; August, 9.60c.

Cotton spot closed quiet at 10 points decline; middling uplands, 9.80c; middling gulf, 10.05c. Sales, none.

At midday the market was weak and unsettled at 6@7 points lower. Spot cotton, dull; middling uplands, 9.90c; middling gulf, 10.15c. NEW YORK SUGAR AND COFFEE, Nov. 23.
