### IRON FOUND IN GOODHUE COUNTY

#### ONE NEAR RED WING ASSAYS A HIGH PER CENT.

Spring Valley, Wis., Men Secure Options at \$22,500 on the 296 Acres in the John Nelson Farm in Spring Creek—Old Miner Says the Discovery Is a Rich One.

Special to The Journal.  
Red Wing, Minn., Nov. 30.—Iron has been discovered in Goodhue county, only a few miles from Red Wing. John Newburg of this city, who has had years of experience in mining countries, says the find is a rich one.  
On the John Nelson farm, in Spring Creek, about three miles from Red Wing, is plenty of iron ore. Mr. A. S. Suter, Henry Suter and Harry Parks of Spring Valley, Wis., have an option on the 296 acres at \$22,500. An assay shows as high as 90 per cent rock ore, while the best ore assays about 60 per cent. This is far better than the ore found near Spring Valley, Wis., which at the highest assays 40 per cent. The assessor at Spring Valley, Wis., says the ore is as good as that of the Iron Range, and perhaps at no distant date Red Wing will be in a real mining district. The gentlemen holding the option are enthusiastic and expect great things as soon as a start is made. Specimens of the ore are being sent to the University of Wisconsin for analysis.  
Farmer Killed by a Bull.  
Charles Charlson, residing in Burnside, about three miles from Red Wing, is dead as a result of being gored by a bull. The bull picked him up and tossed him into the air a dozen times. Mr. Charlson was cut in the neck, had one rib broken and received internal injuries which resulted in his death a few days later. He was 64 and was one of the pioneer farmers of Goodhue county.

### SCHOOL BUILDING CONTRACT

#### Fergus Falls Board Awards It to Local Firm.

Fergus Falls, Minn.—The board of education held a special meeting last night and awarded the contract for the construction of the new high school building to the Fergus Falls Building Co. of this city. The contract is for a building of 100,000 feet, to be built on the corner of Washington and Broadway streets. The contract was awarded to Herges & Hodson, and some changes will probably be made in the building, which will bring the cost up to a little over \$100,000. These figures do not include heating and plumbing. The building will be of red sand mold brick, with elaborate stone trimmings and a flat roof. The work on the foundation is well advanced. The schools in the village of Roschay have been closed on account of the epidemic of whooping cough. Three cases are reported in as many different families in the last three days.

### RATHER DIE THAN GO BACK

#### Adopted Girl Tells Story of Abuse and Neglect.

Cedar Falls, Iowa.—A pitiful tale of abuse and suffering came to light in this city yesterday when a half-breed girl of 14 was found by her foster father, Ben Blow of Parkersburg, Iowa, who had taken her to the city to escape the heavy labor put upon her. She was found at 4 o'clock each morning, with eight cows, and do a man's work on the farm. She was in an orphanage in Des Moines until two years ago, when she was placed in a family here. Her physical condition testifies to terrible abuse and neglect. She is now in the hands of the Iowa state hospital at Des Moines. Her name is Sophie Knapp, but she is known as "The Girl Who Would Rather Die Than Go Back."

### REQUISITION WITHDRAWN

#### Jeppson Escapes on One Count, but Others Are Pending.

Independence, Iowa.—District Attorney H. A. Parkes and Chief of Police E. D. Tait, Cedar Falls, Wis., are reported to have this morning when they appeared to defend the habeas corpus proceedings instituted by Ralph Jeppson, for that Governor Joseph R. Follett had withdrawn the requisition papers and Governor Cummins had refused to issue a warrant for his arrest. Jeppson was accused of issuing worthless checks, and the particular charge upon which the requisition papers were issued was settled several weeks ago. Other counts are pending against Jeppson, and further action is expected to be taken by the bankers' association.

### PLANS TO SAVE ANSGAR

#### FOUNDER OF HUTCHINSON WOULD CONVERT DEFUNCT COLLEGE INTO AN INDUSTRIAL SCHOOL.

Hutchinson, Minn., Nov. 30.—John Hutchinson of Lynn, Mass., who founded and named this city, is planning to place an Ansgar college upon its feet by turning it into an industrial school and endowing it with 100 acres of land adjoining the campus.  
Three years ago, when Ansgar college was founded, Mr. Hutchinson gave the ten-acre tract now occupied by the college and campus, here and the failure of the institution was a great sorrow to him.  
Mr. Hutchinson, now "eighty-three years young," as he terms it, is still possessed of a strong intellect and talks interestingly of the ante-bellum days when he sang for the freedom of the slave as a member of a quartet of which he is the only surviving member.

### BLOWS OFF TOP OF HEAD

#### Insane Man First Attempted to Cut His Throat.

Elk River, Minn.—Frank A. Kurrasch of Crook blew off the top of his head with a shotgun yesterday afternoon, after first having attempted to cut his throat. He had been discharged from the Fergus Falls hospital for the insane, where he had been for a month.

### OSAKIS, MINN.—A mass meeting was held to discuss plans for making an attempt to lower Osakis lake three feet in order that drainage from surrounding lands and mudholes can be turned into it. Senators Woods and Ward were present to learn the wishes of the people, who desire legislation to help the project.

## WANDERS A WEEK; MIND A BLANK

### FAIL OF COLD WATER RESTORED HARRISON'S SENSES.

Sick Man Left Arlington, Minn., for a Hospital in St. Paul—Last Recollection Was of Reaching That City—Travels Over Southern Minnesota by Train and Tramps in Northern Iowa.

Special to The Journal.  
Webster City, Iowa, Nov. 30.—Frank Harrison, who went to St. Paul from Arlington, Minn., to take treatment in a hospital, was found twelve miles south of this city last night, on the railroad right of way, in a semiconscious state. He was fed and cared for and today his wife took him to his home. He left St. Paul a week ago, and has no recollection of events from that time until he was found on the railroad right of way. A brakeman on a passing freight train saw him lying on the ground, and looking for a chance to board the train, he took him to the hospital in St. Paul. Harrison was employed by the W. W. Kimball company at Arlington, Minn. A month ago, while aiding in moving a piano, he was injured, and this injury, it is believed, caused the state of aberration in which he was found. The piano was tipped and fell upon Harrison, catching him squarely upon the "saddle" of his shoulder. He seemed uninjured at the time, but later lost control of his mental faculties, and his employers urged him to go to a hospital in St. Paul.  
On Tuesday last week Harrison started for St. Paul and remembers distinctly of arriving there from the Ames, however, until last night, when the brakeman dashed the water upon him, he remembers nothing with any degree of distinctness. He seems to have a faint recollection of having taken a railroad ticket at Belle Plaine for Le Sueur, Minn., and of having been helped from a restaurant to a train. This last place he believes was Mankato. With these exceptions, his mind is a total blank as to what happened him or where he has been.  
Harrison is a man of culture and refinement, a graduate of the Minnesota state university. He is an musician and the possessor of a fine voice. While lying in a semiconscious state in the Kent farm home, near here, he sang many hymns in a rich, melodious voice.  
Harrison was employed by the W. W. Kimball company at Arlington, Minn. A month ago, while aiding in moving a piano, he was injured, and this injury, it is believed, caused the state of aberration in which he was found. The piano was tipped and fell upon Harrison, catching him squarely upon the "saddle" of his shoulder. Michigan  
PINERIES FULL OF LUMBERJACKS  
UPPER MICHIGAN'S CUT WILL BE LARGER THAN LAST YEAR'S.

Falling Off in the Menominee River District Will Be More Than Made Up in Other Localities—Many New Contracts Made and Camps Started for the Winter.

Special to The Journal.  
Columet, Mich., Nov. 30.—Reports from the centers of the logging industry indicate that woods operations in the upper peninsula will be on a larger scale this year than last season. While there will be a falling off in the 40,000,000 feet in the Menominee river district, other sections will report a larger harvest of logs, and in the aggregate the input will be larger. Hundreds of camps have been established and the pineries are now swarming with the lumberjacks.
