system for the rapid handling of mails
in Minneapolis was passed today by the
public affairs committee of the Com-

expectation that the petition will re-
sult in a bill for the installation of the
system will follow is said to be
based on something tangible.

that he will leave St. Peter this week.
Frank A. Davy, private secretary to

**PLAN A \$500,000
MAIN BUILDING
GOES SCOT FREE**
"U" REGENTS WILL MAKE NEW
STRUCTURE THEIR BEST.

Will Ask Legislature for \$425,000—In-
surance on Old Building Will Give
Added Sum Necessary—J. C. Wyman
Is the Board's New President—D. E.
Noyes Its New Member.

The state legislature will be asked to
appropriate \$425,000 for a new main
building at the university. This was
decided at a meeting of the board of re-
gents yesterday afternoon after plans
for the new building had been presented
by Professor Downey, dean of the aca-
demic department. It was agreed that
the building should be the largest and
most pretentious on the campus, but
the design has not been chosen.

If the appropriation asked for is
secured the new Main building will cost
approximately \$500,000 as there was
\$65,000 insurance on the old building.

J. C. Wyman of Minneapolis, who
was elected president of the board of
regents to take the place of the late
Greenleaf Clark, presided.

A committee from the alumni con-
sisting of D. P. Jones, W. N. Carroll, G.
R. Horne, Professor Webster and
Fred B. Snyder presented a plan for
campus extension, which was indorsed
at a recent meeting of the alumni and
city. But last Saturday Journal.

Owing to the unusual size of the appro-
priation for which the legislature will
be asked, the regents consider it inad-
visable at this time to ask for an appro-
priation to be used in campus extension
and no action was taken on the plan,
alho it was unofficially commended by
the regents.

The legislature will be asked to ap-
propriate \$20,000 for equipment for the
new bacteriology building, and \$20,
000 for improvement of the electric
plant, together with the usual appropria-
tions for general improvements.

Greenleaf Clark. The new regent as-
sumed his duties at once and was ap-
pointed a member of the executive com-
mittee at the meeting yesterday.

DELAYED TILL SPRING
Armory Construction Will Not Start
This Winter.

Construction will not start on the
armory this winter, alho it was ex-
pected that the piling and other work
on the foundation would be prepared
so that the work could be started as
soon as the building season opened in
the spring. The inevitable change in
membership which will come with the
first of the year makes the present
board somewhat reluctant to take any
important steps for the time being.

A more conclusive reason for delay-
ing the work is the probable fact that
the foundations can be laid without re-
sorting to the big sewer trench this fall it
was discovered that the armory site is on
some firmer ground than was general-
ly supposed, and in the spring a careful
examination is to be made to ascertain
just how much of the foundation will
suffice. If the armory can be made
safe without the use of piles it will
mean a saving of about \$6,000, and
this money can be used to much ad-
vantage in beautifying the building.

SEAT SALE OPENS
Plans for Second Concert of Minneap-
olis Symphony Orchestra.

The reserved-seat sale for the second
concert of the Minneapolis Symphony
orchestra will be open to the public
tomorrow morning at 10 o'clock in the
music store. The cost of maintaining
the Philharmonic club and Minneap-
olis Symphony orchestra last year was
over \$30,000. Bills amounting to over
\$22,000 have already been contracted
for the ten concerts to be given this
year.

An excellent program has been ar-
ranged by conductor Oberhoff, and
the soloist for the occasion, Miss Marie
Nichols, has appeared with several of
the leading orchestras of the east. The
concert will be given in the First
Baptist church Saturday evening.

CANNOT FIND WORK
Trustworthy Young Man in Sad Flight,
Thru Lack of Employment.

For three nights Frank Rotham, a
trustworthy young man, formerly em-
ployed by a South Minneapolis furniture
concern, has roamed the streets because
he had no money and no place to sleep.
He is out of work and for six weeks has
sought employment. His wife is living
with relatives in St. Paul until her hus-
band is able to find work.

Rotham's case is similar to a num-
ber of others with which the various re-
lief societies are compelled to deal.
Employment offices offer work, but re-
quire a fee of from \$2 to \$5 for each position,
while many applicants are unable to
pay.

Minnesota will soon find that the
state will have to conduct employment
offices," said a prominent charity work-
er this morning. "I suppose that there
is never a time when there is not plenty
of work for the people of the state, if
they can only find it. An employment
office, conducted by the state, offering
work, without fee to applicants, would
do a world of good. Other states, Illi-
nois, for instance, follow this plan, and
have found it a success."

Secretary Shaw to Announce
Regulations as Soon as the
Market Closes.

Washington, Dec. 14.—James T. Per-
kins of the Pillsbury-Walshour com-
pany, Minneapolis, and Kennedy & Moon,
custom brokers, came over from New
York this morning to take up with the
treasury department again the ques-
tion of drawback regulations relating
to export flour made from imported
wheat. There are in Washington today
perhaps a dozen millers from various
points in the country, all interested in
the same question.

It is understood that Secretary Shaw
has prepared regulations governing the
drawback on wheat in American
mills and that they will be issued after
the close of the markets today, so as
to avoid the possibility of a flurry in
price.

Now that the matter of grinding Can-
adian wheat has been disposed of in a
way to suit the Minneapolis millers,
Messrs. Perkins and Kennedy will to-
day take up with Secretary Shaw the
question of mixing this wheat with
American wheat of lower grades. If
permission to do this is granted, it is
said the Minneapolis mills will be on
"Daisy street."

**WHY THE FLEAS MOVED
INTO HIS WINTER GAP**

"It's me to buy a new cap right
away and burn my clothes," remarked
a well-known attaché of a city ticket
office of one of the big trunk lines, this
morning.

"Get away from me, I'm loaded," he
said simply.

"What's the matter, smallpot?"
queried his auditor.

"Worse than that!" was the re-
sponse.

"What the—Where did you get
'em?" asked the startled friend, as he
edged away.

"Last night short story," was the re-
ply, as the sufferer pursued a tormentor
down his right trousers leg. "Last
winter I bought one of those winter
coats with fur on it. I put it on this
morning. In twenty minutes there was
something doing. I was covered with
fleas. Found the rabbit skin inside the
sleeve, and the fleas were on me. They
got all over me. Telephoned wife
and she said my hat had used the cap as
a bed for a Mexican hairless dog all
fall."

"Fleas off a Mexican hairless?"
echoed the listener with a surprise.

"Yep, couldn't make a living on the
dog and got into the fur coat. So I

will be cut up into about 10,000 more
lots. Thru the middle of the property
runs the reservoir boulevard and at the
edge of another part of the tract, is
the Columbia Heights park. The lots
lie on the slope of the highest land in
the city.

Moderate priced houses will be built
by the Arcade management as soon as
the season opens and the lots along the
