JOBBING IN STONE, BRICK AND CEMENT work of all kinds done by the kind of mason work. Phone T. C. 2451, John B. Layne, contractor, 12 1/2 4th St. N.

WOOD AND COAL

MARKET FUEL CO., 106 3d St. S., opp. P. O. We handle fire wood, split and delivered to your door...

FOR WOOD AND COAL, HAY AND GRAIN, feed and fuel, 916 Nicollet. Both phones, 1859.

BEST HARD MAPLE DELIVERED EVERY part of city for \$7.00. Boston Elevator & Fuel Co., 106 Boston Block, Tel. Main 3004-7.

HARDWOOD, MIXED, STOVE LENGTHS, \$4.50. Washburn Coal Co., 15 1/2 4th St. S. T. C. 2025, Main 835.

DR. WYATT

My success as a physician is due entirely to my curative system which is based on the use of nature's own methods and is exclusively my own individual method.

I have cured hundreds of sick and diseased men and women during my thirty-five years of practice...

When you call at my office where I have been seated for 20 years you see Dr. Wyatt himself, no managers, no assistants, no clerks, with my office business. My standing as a skillful physician guarantees you the best known treatment that will cure you.

SPECIAL DISEASES. I care special diseases of both sexes. My special home treatment is convenient to use, and I can treat most cases very successfully at your home.

If you are suffering from any blood, skin or nervous disease, write me and receive free advice. You will trust me with your case and soon be well and happy.

List of questions and all letters sent in plain envelope, addressed to Dr. Wyatt, 106 Boston Block, Tel. Main 3004-7. Office hours, 9 a.m. to 6 p.m. Sundays, 10 a.m. to 12 m.

Address: 22 1/2 ENG. D. WYATT, Suite 3, 4 and 5, 280 Hennepin Ave., Minneapolis.

DR. WYATT'S Pine-Tar-Honey Cures Incontinent CONSUMPTION.

LOOK FOR THE BELL ON THE BOTTLE.

The poor man's and the millionaire's wants appear side by side—illustrating the democracy of a Journal that is only a word.

MINNESOTA

GRAND JURY PRODS COMMISSIONERS

REPORT WHICH FAIRLY SIZZLES MADE AT DULUTH.

Board Charged with Transacting Business in a "Grossly Unbusinesslike Manner"—Time Checks Issued Without Warrant of Law—Legislators Urged to Provide an Examiner.

Duluth, Minn., Jan. 14.—The district grand jury, submitted today, contains a strong censure of the board of commissioners. It declares that, in view of the "grossly unbusinesslike manner of transacting business" the construction of the proposed new courthouse for St. Louis county, which is to cost half a million dollars...

The report says that the commissioners have allowed a tollhouse to be built on private property in the hands of a commission to be appointed by the district judges.

The same commissioner who apparently believes in erecting buildings upon private property with the county money, was responsible for the building of one and one-half miles of county road at a cost of \$20,000, yet his name was not on the list of those who worked twelve days on the building in a certain town.

The county commissioner who apparently believes in erecting buildings upon private property with the county money, was responsible for the building of one and one-half miles of county road at a cost of \$20,000, yet his name was not on the list of those who worked twelve days on the building in a certain town.

"Large bonded indebtedness has been contracted by the county," the report says, "and in Rice Lake, a town with no extensive improvements, one-half of the annual levy goes to pay the interest on the bonds."

"We suspect great irregularities in the way of diversion of public funds from one fund to another," the report says, "and the sinking fund to the general or road fund."

"In view of the above facts, we suggest that the county board of commissioners should cause to be passed a law providing for an inspector or examiner of the books and accounts of the county, and that the removal of Frank Mox and John Armstrong as foremen upon county roads."

BANK OFFICERS RE-ELECTED

Annual Meetings Held at Northfield—Old Settlers to Have Banquet.

NORTHFIELD, MINN.—The two local banks held their annual meetings at Northfield today. The officers of the First National are: President, J. N. Nettler; vice president, M. B. St. John; cashier, J. W. Phillips; assistant cashier, F. J. Wilcox. The officers and J. W. Hunkins are the executive committee of the bank.

The directors include these officers and Mayor D. J. Ferguson, W. W. Dean and C. C. Hennepin. The Mercantile and Elevator company has declared a dividend of 10 cents.

MIRON W. SKINNER as president in place of D. H. Orr, resigned, and voted to hold the annual banquet on Feb. 23.

THREE DEBATING SOCIETIES

Forensic Side of Normal Life at Moorhead Well Trained.

MOORHEAD, MINN.—The normal school is well supplied with debating societies. The Argonaut and Livingston debating societies are the two most prominent. The Argonaut is under the leadership and counsel of Professor Hillier, and the Livingston is under the leadership of Professor Hillier.

The Ladies' General Benevolent society at Moorhead is the largest and most active of the kind in the city. Mrs. D. W. Meeker, vice president, Mrs. W. B. Anzer, secretary and treasurer, Mrs. J. C. Hennepin, president.

ST. CLOUD, MINN.—Stearns and adjoining counties, in present plans, are to be networked with rural telephone lines. The coming of the telephone to the country is a boon which will help to build lines connecting with the cities. There were last 150 inhabitants of the county immediately after he was taken from the family circle.

THIEF RIVER FALLS, MINN.—The thief river, owned by Sid Bagley, has been sold to Frank R. Packard, formerly managing editor of the Thief River Falls News. It is understood that Mr. Packard intends soon to make a daily paper of the Press.

LANEBOBO, MINN.—A. W. Trow, T. G. Rogers and J. C. Hennepin are the three candidates under the auspices of the state society, have commenced a campaign for the office of state auditor. They are all speaking to the farmers.

HASTINGS, MINN.—At the meeting of the city council last evening the contract for plans for waterworks was awarded to O. F. Doyle of St. Paul.

SHAKOPEE, MINN.—Daniel Storer, aged 76, died last night. He had lived here fifty-two years and was a grocer for forty-two years.

WINNEBAGOES ARE HOPELESS

Field Matron Abandons the Idea of Doing Anything for Them.

BLACK RIVER FALLS, WIS.—Miss Mary Rogers, field matron for the Winnebago Indians with headquarters here, has been ordered to leave the city by the state. She has been in this work for fourteen years, on different reservations, but the situation here was a revelation to her. She was simply staggered with the condition of the reservation. She has abandoned the idea of trying to teach them domestic economy.

JANESVILLE, WIS.—Robert Krueger, who was brought to the county here from the state, what was believed to be horse glanders, died yesterday. The case puzzled the physicians. His wife and children had to Brooklyn, Denmark, immediately after he was taken from the hospital.

WEST SALEM, WIS.—The La Crosse County Agricultural Society elected the following officers: President, John Markle; secretary, Frank Allen; treasurer, Wesley Dawson. It was decided to have a circuit of fair this year, thereby getting better and more exhibitors.

MARINETTE, WIS.—The list of the missing fishermen who were carried out on the bay Wednesday, in the men's shoes, six miles north of Menominee. They were without food for three days.

MILWAUKEE, WIS.—William Notton was last night found guilty of murder in the first degree. He was charged with murdering his wife on Wednesday. Sentence will be pronounced on Wednesday.

GALESVILLE, WIS.—Mrs. Henry French, one of the pioneers of the town of Gales, died, aged 75.

CEDAR FALLS' FIRST PIANO

Mr. and Mrs. Clark, Who Owned It, Are Celebrating Golden Wedding.

CEDAR FALLS, IOWA.—Mr. and Mrs. George W. Clark of this city will this evening celebrate the golden anniversary of their marriage in the city of Cedar Falls, where they will be joined by 500 of their friends. They were married in Janesville, Wis., in 1855.

At that time there was no railroad west of Galena, Ill., and they came by stage to Cedar Falls. There were but 150 inhabitants of Cedar Falls. There were but 150 inhabitants of Cedar Falls.

NORTH DAKOTA

GOOD SAVING FOR METHODISTS

TENTATIVE PLAN FOR REMOVAL OF UNIVERSITY AT WAPINGTON.

Special to The Journal. Grand Forks, N. D., Jan. 14.—In the proposal to move the Red River Valley University, the Methodist church of this state, from Wapington to Grand Forks, where its work will be carried on in conjunction with that of the University of North Dakota, there is being worked out the solution of a problem which affects the interests of the Methodist denomination in the northwestern.

The affiliation of the denominational college with the state university is not new. The experiment has been tried long and so thoroughly that it is no longer an experiment. The state university of California at Berkeley is largely composed of students of the denomination of which avail themselves of all the privileges of the great university. The Congregationalists have done the same thing at Berkeley and have abandoned their old site at Oakland. The Campbellites have a theological seminary there, the Presbyterians are trying to dispose of a plant of their denomination in the city of Berkeley, may join with the rest. The relations between these colleges and the university vary. Each denomination teaches such branches as it desires on its own premises and goes to the university for what it needs. President Wheeler speaks of the greatest satisfaction of what is being done.

At Ann Arbor more than seventeen hundred students have taken instruction in one or more of the Bible courses established by the Christian church. The Episcopalians and Baptists have buildings and organizations of their own there. Similar work is going on in Missouri, Oregon, Virginia and Kansas.

At Toronto the Methodist, Episcopal, Presbyterian, Low Anglican and Catholic colleges are affiliated with the university, and the work done there is a magnificent one. While the arrangement varies in form with the denomination, the plan in a general way is for the university to supply secular instruction, and the college to supply religious and liberal subjects. The colleges have no burden for laboratories and libraries, and the denominations are free to take their own courses and their funds to their own distinctive work.

The proposition in North Dakota is indicated in the following tentative plan which was presented to the board of trustees of the state university, and President Robertson, of the Red River Valley University, at Grand Forks, N. D., last night.

First—That the Methodist church change the name of its institution from the Red River Valley University to the Methodist college.

Second—That a building or buildings be erected in near proximity to the state university, but on a separate campus, to be used for the instruction of the students of the Methodist college. The directors include these officers and Mayor D. J. Ferguson, W. W. Dean and C. C. Hennepin.

Third—That the course of study may be: (a) Bible and church history, English Bible, new testament, Greek and Latin, and other subjects as the college may elect in pursuance of its purposes. (b) A brief course of instruction in the history of the church, to be extended especially to fit students to become efficient Sunday school teachers and lay workers, and upon the study of the Bible. (c) Instruction in music and elocution may be given, if desired, and appropriate certificates granted. (d) Guild hall lectures.

Fourth—That the state university grant for work done in the college by the students of the B. A. degree as it gives to technical work done in its own professional schools and to work done in other departments of the university. Likewise, Wesley college shall give credit for work done in the state university in similar manner as preparation for any degree or certificate may offer.

Fifth—Each institution shall have full control of the discipline of students upon its own grounds.

Sixth—It shall be deemed proper for students to take degrees from both institutions if they so desire.

The objects which are to be accomplished by an arrangement of this kind are many. The Methodist school of the state university, which is the geographical center of North Dakota Methodism, which is itself an important thing. Students of the college will be in the public schools, a splendid equipment of the university, with its \$100,000 worth of laboratory appliances, its \$100,000 worth of books, its \$100,000 worth of apparatus. They will be given the advantage of instruction in all secular branches by high-class instructors who are in the public schools of the state. The present saving in expense to the Methodists, on work of the grade now being carried on, is estimated by President Robertson at about \$7,000 annually, which is the equivalent of an endowment of \$140,000. Being believed of the state university, the plan is to secure a secular work of their own, along lines which they are now helping the state to maintain by their taxes. The plan is to secure a religious institution which it cannot hope to reach under the present arrangement.

SUED FOR VAST SUM

Mailing Company Wants \$1,855,350 Voted in Dividends Returned.

Special to The Journal. Milwaukee, Jan. 14.—The American Mailing Company has brought suit against Robert Nunemacher of this city to recover \$1,855,350 which, he has asserted, he wrongfully voted in dividends when a director of the company. Mr. Nunemacher was a director from Oct. 2, 1897, to Nov. 8, 1899. The complaint sets out that during this time the board declared dividends of 1 1/2 per cent quarterly, when the earnings and surplus were not sufficient to pay them. The dividends thus declared amounted to the sum sued for.

RIOT AT BULL FIGHT

New York Sun Special Service. Mazatlan, Mex., Jan. 14.—A riot occurred at the bullfight here yesterday. When the bulls refused to fight 2,000 spectators pulled down the railing, tore up the benches, dismantled the stands and after piling the debris in the center of the ring, were setting fire to it when three battalions of soldiers, who had been hurried there when the authorities saw that the efforts of the police availed naught, marched in and quelled the riot.

Reading, Pa., Jan. 14.—The board of inquiry in the Talbot-Irvine case adjourned sine die late yesterday afternoon, after having been in session for nearly four hours. The adjournment was due to the fact that the board decided it had been unconstitutionally constituted.

This ends the case so far as the board appointed by Bishop the title is concerned. It may come up again, however, in the form of another presentation.

It was stated that the session was proppery from the start, the members being at odds over different points. The decision to adjourn was reached after a lengthy discussion that was bitter at times.

Galesburg, Mo., Jan. 14.—Thru the discovery of a diamond ring circling the tail of a family cat owned by William Ward of this city, steps were taken today to secure the increase from the state reformatory of William Henderson, sent there two years ago on a charge of stealing the ring.

The ring mysteriously disappeared from the dressing table of Mrs. Ward two years ago, and despite thoro search, remained missing until today, when it was discovered. A visitor, playing with the cat, accidentally found the ring concealed in the long hair of the cat's tail. The supposition is that a child in the Ward family, while playing with the cat, slipped over Puss's tail, where it was held by the hair becoming entangled in the prongs which held the diamond set in position.

DETROIT NEWS. Attorney General Moody seems to understand the general trust perfectly, but warns that the courts are unceasingly wary.

MISS McANDREWS WILL LIVE. Sign of Burton's Alleged Favourite May Also Be Saved. Special to The Journal. Waterloo, N. D., Jan. 14.—Miss Cecelia McAndrews, who attempted suicide by swallowing six ounces of wood alcohol last Monday evening, today received the assurance of her physician that she would recover and that it might be possible to save her eyesight. She refuses to divulge anything to attorneys or the authorities as to her connection with the Capital house in Madison, and the cause of Burton's death still remains a mystery. The pretty young woman now says that she wishes to live that she may redeem her past.

ELECTED WHILE IN PRISON. Member of Boston Council in Federal Jail for Fraud. Boston has the unique distinction of having elected to her board of aldermen recently a man who actually is in prison in the United States jail, and that on his own confession of having perpetrated a gross fraud. The alderman in question, who already has served a term in the Federal prison at Boston, was actually in the out of jail in time to take part in the inaugural exercises Jan. 3, as his sentence still had two days to run. In sentencing him and his brother, who was involved in the same fraud, the judge formally said that, "on account of the enormity of their conduct, if any man were guilty of a crime of this nature, he would be imprisoned for a term of years, and he would have done so." Yet Curley was third on the list of successful candidates, running over 100 votes ahead of the other ticket and nearly 8,000 ahead of the last member of the board. The crime of which Curley and his brother Thomas were convicted was the impersonation of a man named actually as Hughes, at a civil-service examination in December, 1902. Appearing before the commissioners under the names of these two men, the Curleys brought them through with flying colors; but the fraud was two far-fetched to escape detection. In spite of all the delays and obstacles which their influential friends were able to raise, they were convicted in April, 1903, but a series of appeals postponed their final sentence until last November. James Curley had been in his cell only a few days when he was placed in nomination for re-election, and thru his friends he carried on a spirited campaign from prison. On the day of the election he received full and complete returns from the polls in his cell.

MINNESOTA HAS

BOY LODGE MASTER

DECEMBER BEST MONTH OF YEAR FOR PRODUCERS.

Lake Superior Output Shows a Decrease, but Higher Prices More Than Made It Up—Champion and Tri-Mountain Mines Established New High Records in the Month.

Special to The Journal. Duluth, Minn., Jan. 14.—There was a falling off in production in the Lake Superior copper district in December, owing to the severe blizzard. Local mines produced 18,800,000 pounds of fine copper last month. Despite the decrease in output, the value of the product was more than \$2,800,000, due to the higher prices which ruled for the metal, making it the best month of the year in the latter respect.

Two of the Copper Range Consolidated mines established new high records last month. The Champion, with its refined copper output of 3,000,000 pounds, set a record for the month by producing at the rate of 10,000,000 pounds of copper a year and equaling the Osceola's record produced by the latter half of the year. Champion's increased production is not due to larger rock shipments alone, but to a better yield a ton treated.

Tri-Mountain's mineral yield is showing improvement gradually and is now close to thirty-five per cent. The output of the latter mine is being produced at the rate of 10,000,000 pounds of copper a year and equaling the Osceola's record produced by the latter half of the year. Champion's increased production is not due to larger rock shipments alone, but to a better yield a ton treated.

Tri-Mountain's mineral yield is showing improvement gradually and is now close to thirty-five per cent.
