**ESSENTIALS FOR HOME**

DOGS AND CATS ARE INCLUDED WITH HUSBANDS AND CHILDREN IN IDEAL REQUIREMENTS.

Chicago, Jan. 17.—Mrs. H. E. Turner, member of the Irving Park Woman's Sorosis, believes that dogs and cats are essentials of the ideal home. Mrs. Turner told the members of the club this at the regular meeting yesterday. Many of them agreed, for they clapped their hands and shouted their approval.

The members of the club gathered to discuss the "Ideal Homes." They discovered that there were many essentials. The following are some of them:

"An ideal home must be a common meeting place of husband, wife, children, friends.

"Home must contain articles that are graceful to the eye and ear.

"Home should be artistic and hospitality should abound.

"Perfect love and confidence should be found in the ideal home.

"Children must be found in the ideal home.

"Religious atmosphere should be found in the ideal home.

"Boys should be made to bath daily in the ideal home.

"Women should be the generals of the ideal home.

"An ideal home must be at what is placed before him in the ideal home.

"A husband should be found in every ideal home."

**Grand Opera at Home**

The invention of the Pianola has made it possible for everyone to obtain the home an intelligent familiarity with the world's Masterpieces of Music—without which no education can be considered well-rounded or complete.

During the past year, the educational world has been deeply stirred by a realization of the importance of the Pianola in inculcating an appreciation of music, as distinguished from the old-fashioned idea that a musical education consisted in trying to learn to perform upon the piano—and not succeeding.

Progressive colleges and schools which aim to have the latest and best appliances for the use of pupils have added or are now about to add a Pianola to the Department of Music. The following is but a partial list of such institutions in which either a Pianola or an Aeolian is at present being used:

Harvard University  
Columbia University  
Amherst College  
Vassar College  
Radcliffe College  
Tufts College  
Teachers College  
University of Michigan  
Oberlin College  
Beloit College  
Brooklyn Institute of Arts and Sciences  
Framingham (Mass.) Normal

Columbia Conservatory of Music (Chicago)  
Crane Normal Institute of Music (Potsdam, N. Y.)  
Hill School (Pottstown, Pa.)  
Briarcliff Manor School  
Morton Street Public School (Newark, N. J.)  
Miss May Winsor's School (Boston)  
St. Mary's Academy (Burlington, Vt.)

It is interesting to learn that so many of our foremost educational institutions have introduced a piano-player into the Department of Music. But it is significant that in every instance the choice has been the Pianola.

**THE MELBA CONCERT**

The Melba concert last evening was a distinct disappointment. In so far as the diva herself was concerned.

An audience such as might have delighted the heart of the most capricious prima donna, overflowed the aisles, filled the galleries and even occupied half the stage at the Lyceum. It was a gracious audience, eager and anxious to be pleased and attentive and expectant. The acknowledged queen of bel canto was to sing. But, altho it waited and dutifully clapped its hands, and looked as if it was having a good time, and called and recalled Mme. Melba, it was not until nearly the close of the program that the cantatrice began to give any more than the merest hints of her claims to the tiara so long since laid aside by Patti.

That Melba's voice is exquisite in its sweetness and purity is evident, even to the most casual listener. That as a coloratura singer she is peerless is equally evident. Why was it, then, that last evening there was such a lack of verve and fire in the prima donna's offerings? There was no indication that the smiling diva was slightly indignant, and yet not until the Tosti "Serenade," sung just before the close of the program, was there any enthusiasm.

Mme. Melba's first number was the "Mad Scene" from "Lucia." She has sung it hundreds of times, and it has repeatedly earned for her numberless recalls. Last evening it was sung listlessly. The pyrotechnics were superb. There was a little red fire and an occasional Roman candle, but the skyrockets were conspicuously lacking, and the final climactic note in alt was safely taken an octave below.

Of Melba's other numbers, the Tosti "Serenade" was exquisitely sung to harp accompaniment. Each note was limpid in its purity and beauty, and the accompaniment was superb. The Arditelli "Waltz Song" was also a work of art, altho it failed to arouse much enthusiasm.

Mme. Melba was recalled many times and was accompanied by the orchestra. Her last encore was "Com'ni Thru the Rye." As the chords of the introduction fell from the piano, there was a burst of applause, and then intense silence as the field of notes, one of the only numbers of the evening sung in English, came from the singer's lips. Her diction was perfect, but her voice is evidently unsuited to that style of ballad.

Melba's accompanying artists, Signorina Sassoli, the harpist, and M. Gilbert were easily the favorites. The former played exquisitely and was repeatedly recalled. Her work is the more remarkable because of her youth. M. Gilbert is French, and his bonhomie, coupled with his artistic use of a really good baritone, quite captured his audience. His range is phenomenally high, and his pianissimo and delicate touches are very effective. Ellison Van Hoose sang the "Celeste Arie" solo from Verdi's "Aida." His voice is high and has a resonant quality that is dramatically useful, but he sings with an apparent effort that detracts from the pleasure of hearing him. Miss Davies accompanied satisfactorily.

**THE UNIVERSITY**

**FOUR TRY FOR OXFORD**

**THREE OF THE CONTESTANTS ARE AT PRESENT STUDENTS OF THE UNIVERSITY.**

Only four candidates for Oxford honors appeared at the second annual Rhodes' scholarship examinations, which are being held today in President Northrop's office at the university. Miss Whitney, President Northrop's secretary, as monitor, is the only one allowed to communicate with those taking the examination.

Three of the competitors, Stuart M. Thompson, Minneapolis; Roscoe F. Sanford, Fairbault; and Lefeur Magnuson, Duluth, are students at the university. The only outsider to dispute the scholarship honors with the "U" men is Ernest B. Bergquist of Gustavus Adolphus college. Of those who took the examination last year, Harry S. Mitchell of the university is yet eligible for appointment, as his examinations of last year excused him from any further Oxford examination.

The examinations this morning were in Latin and Greek. Arithmetic, algebra and geometry were taken up this afternoon. The papers that the students will at once be sent to Oxford, and it is likely that the appointment will be made earlier this year than last. It is probably a foregone conclusion that this state will meet for the final discussion of candidates the last week in March. From now on the Rhodes examinations will be held at intervals of two years so that only two students from each state will be at Oxford at the same time.

**DEBATERS ARE READY**

Minnesota U Team Will Meet Chicago Saturday Evening.

The Minnesota university's team in the Central Debating League—E. C. O'Brien, J. P. DeVaney and Gustavus Loevenger—will leave Thursday night for Chicago, where they will meet the Chicago university team Saturday night. Minnesota has the advantage of the question, "Resolved: That the present opposition of the United States toward railway combination should be continued."

Michigan and Northwestern, members of the same league, will debate Friday night at Ann Arbor. The winners in both debates will meet in the finals in Chicago the first Friday in April for the cup offered by the league.

**SWING A CLUB**

Fraternity Men and Barbs Talk of Saturday's Election.

If Mose Strathern is defeated for the presidency of the athletic board of control at the university it is probable that supervision over student athletics will be turned over entirely to the faculty.

A secret meeting of fraternity and barbs men was held last night at one of the fraternity houses and the conclusion reached was that a faculty control of athletics was preferable to such a board as would be elected Saturday night if Strathern is defeated.

**Clear Field for "Mose."**

E. L. Carlson, candidate for medic representative on the athletic board of control, withdrew this morning to give "Mose" Strathern a clear field for the presidency. The opponents to Mose are bringing up the fact that he was ruled out of the Northwestern game last fall.

**Getting Students' Opinions**

Dr. E. L. McVey is giving out a separate list of questions to be answered by the students taking the semester exams this week, to get their view of the six-day system adopted this year. The answers will be filed for reference. Dr. McVey says the new system will be maintained.

**WOMEN GRADUATE STUDENTS MORE COURAGEOUS THAN MEN**

New York Sun Special Service.

Baltimore, Jan. 17.—Professor Alphon W. Small of the University of Chicago, takes a different view from President Stanley Hall of Clark university on the question of higher education for women. He is in favor of Professor Small says: "If it is justifiable to draw working inferences from the very inadequate and fragmentary information available, the following are most obvious: a woman's first, no shadow of evidence has been detected that women in graduate schools are in any way misusing their freedom.

"Second, no fragment of evidence appears that the presence of women in graduate schools in any undesirable way curtails the freedom of men.

"Third, the only danger to which the evidence points is one not threatened by women alone. It is the danger of surrendering the graduate purpose of training for investigation to the ambition for numbers, which can be satisfied only by degrading graduates to work into mere imparting of traditional knowledge.

"If the typical woman had no more courage than the average man, fewer of them would venture upon graduate study than at present. Women know that the market for their professional services is limited, and unless there is a revolution in social standards, they would be defying fate if they should create a supply much in excess of the demand."

**RAILROADS**

**G. A. R. RATES FIXED**

Western Passenger Association Forecasts Cutting for Encampment.

Grand Army encampment railroad rates are expected to be stable next fall. The Western Passenger association made official announcement of a cent a mile fare. This will avert trouble from the roads competing for business and will put them on an equal rate basis. The round trip fare from the twin cities to the encampment city, Duluth, will be \$17.60, and from Chicago, \$20.

The rate for the Epworth League convention at Denver will be \$25 from the twin cities and Chicago, and \$29 from Duluth.

**RAILROAD NOTES.**

L. C. Parkhurst, many years cashier of the St. Paul office of the Great Northern Express company, retired yesterday. F. W. Preston, chief clerk, will succeed him.

**\$500 REWARD FOR WOMEN WHO CANNOT BE CURED.**

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors of Dr. Pierce's Favorite Prescription now fully warranted in offering to pay \$500 in legal money of the United States, for any case of Leucorrhoea, Female Weakness, Protoplasm, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

**The Vice-President Independent Order of Good Templars.**

An experience which many women have was related by Miss Agnes Stebbings, of 231 East 73rd Street, New York City, as follows: "I had a very bad case of leucorrhoea, which looked dark and dreary to me. Had headaches, backache, and pain in my head, and I tried several medicines but none were of any lasting benefit. I took Dr. Pierce's Favorite Prescription, and I soon realized that I had found the right remedy. It helped nature to throw off the poisons that saturated the system, removed all pain and strengthened the digestive organs, and brought the roses of health back to my cheeks. This medicine taken occasionally keeps the system in perfect condition, helping it to throw off the disease as it comes, and preventing its return."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women. Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of 21 one-cent stamps for the paper-covered book, or 31 stamps for the cloth-bound, address Dr. R. V. Pierce, Buffalo, N. Y.

**MISS WILLARD'S STATUE TO BE IN THE CAPITOL**

New York Sun Special Service.

Washington, Jan. 17.—Miss Frances E. Willard, the great advocate of prohibition and for many years identified as the head of the Women's Christian Temperance Union, will be the first woman to have her life and deeds commemorated in Statuary hall.

Elliot Woods, architect of the capitol, today received information that within a few days the model of the statue of Miss Willard would be sent him for inspection. It will be presented to the government by the state of Illinois. It is necessary for congress to accept the statue, but it is not believed there will be any opposition on the ground of sex. Statues of Grant and Lincoln have been erected in the capitol by the government and the state of Illinois did not care to duplicate them.

**LEAD, S. D.**—After being out twenty-four hours, the jury in the famous damage case Mrs. Mary Tallman vs. the Cotton & Andrews saloon, brought in a verdict of \$10,000. Mrs. Tallman used the saloon for selling her husband liquor which caused his death.

**HIGH CLASS DRUGGISTS AND — OTHERS.**

The better class of druggists, everywhere, are men of scientific attainments and high integrity, who devote their lives to the welfare of their fellow men in supplying the best of remedies and purest medicinal agents of known value, in accordance with physicians' prescriptions and scientific formula. Druggists of the better class manufacture many excellent remedies, but always under original or official names and they never sell false brands, or imitation medicines. They are the men to deal with when in need of anything in their line, which usually includes all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and best of toilet articles and preparations and many useful accessories and remedial appliances. The earning of a fair living, with the satisfaction which arises from a knowledge of the benefits conferred upon their patrons and assistance to the medical profession, is usually their greatest reward for long years of study and many hours of daily toil. They all know that Syrup of Figs is an excellent laxative remedy and that it gives universal satisfaction, and therefore they are selling many millions of bottles annually to the well informed purchasers of the choicest remedies, and they always take pleasure in handing out the genuine article bearing the full name of the Company—California Fig Syrup Co.—printed on the front of every package. They know that in cases of colds and headaches, arising from biliousness and constipation and of weakness or torpidity of the liver and bowels, attended by irregular habits, indigestion, or over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as Syrup of Figs, and they are glad to sell it because it gives universal satisfaction.

Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives and the immense demand for it, imitations have been made, tried and condemned, but there are individual druggists to be found, here and there, who do not maintain the dignity and principles of the profession and whose greed gets the better of their judgment, and who do not hesitate to recommend and try to sell the imitations in order to make a larger profit. Such preparations sometimes have the name—"Syrup of Figs"—or "Fig Syrup"—and of some practical concern, or fictitious fig syrup company, printed on the package, but they never have the full name of the Company—California Fig Syrup Co.—printed on the front of the package. The imitations should be rejected because they are injurious to the system. In order to sell the imitations they find it necessary to resort to misrepresentation or deception, and whenever a dealer passes off on a customer a preparation under the name of "Syrup of Figs" or "Fig Syrup," which does not bear the full name of the California Fig Syrup Co. printed on the front of the package, he is attempting to deceive and mislead the patron who has been so unfortunate as to enter his establishment, whether it be large or small, for if the dealer resorts to misrepresentation and deception in one case he will do so with other medicinal agents, and in the filling of physicians' prescriptions, and should be avoided by every one who values health and happiness. Knowing that the great majority of druggists are reliable, we supply the immense demand for our excellent remedy entirely through the druggists, of whom it may be purchased everywhere, in original packages only, at the regular price of fifty cents per bottle, but as exceptions exist it is necessary to inform the public of the facts, in order that all may decline or return any imitation which is sold to them. If it does not bear the full name of the Company—California Fig Syrup Co.—printed on the front of every package, do not hesitate to return the article and to demand the return of your money, and in future go to one of the better class of druggists who will sell you what you wish and the best of everything in his line at reasonable prices.
