

BARNABY'S

Pre-Inventory

Price Reduction Sale

Once a Year We clean out the broken lines by making substantial price reductions. It's especially necessary, carrying so large a stock as we do, otherwise the accumulations would soon prevent the purchase of new things.

This policy has made it possible for us to continually show the very newest during the regular season; in short, has made the name Barnaby a synonym for newness in Men's Wear.

Each article, while reduced in price from one-quarter to one-half of its regular value, is of itself as perfect in every particular as though sold at its original price.

MEN'S HALF HOSE.

Imported Lises and fine Cottons—50c and 75c values. An unusual opportunity. The greater part of this stock is worth 50c pair.....

25c

French Lises, Silks Cashmeres and Silk and Wool Hosiery—Formerly selling at 75c, \$1, \$1.50 per pair. Everything has been included—none reserved.....

- Buckwheat Real old fashioned, 10-lb. sacks. 38c

DITCH REVOLVING FUND

REPRESENTATIVE LUND FAVORS COLLECTING FOR DRAINAGE WORK FROM THE LAND BENEFITED BY INSTALLMENTS.

Representative John G. Lund of Minneapolis has an idea of his own about the further prosecution of state drainage work. Mr. Lund is in favor of creating a revolving fund to be used at the discretion of the state drainage board, not as a gift to any locality, but as a loan. This fund he believes should be at least \$200,000.

Whatever the cost of the ditch shall be, Mr. Lund would have it paid by the land benefited, in installments running over a series of years. As a rule the land drained is benefited to an extent several times the cost of the work, so it would be very little to ask that the land pay for the actual cost of ditching. Where state land is benefited, Mr. Lund would have the state's share paid in the same way, out of whatever fund holds the land. In this way all land will be on the same basis, and the revolving fund will be kept intact. The same plan is practically applied in the cities in making assessments for sewer, water, sidewalk and paving. It would be handled somewhat differently in the case of drainage, as some benefit is usually done land that is not adjacent to the ditch, but a little way back, so that all property would not be assessed at the same rate.

Colonel Bullard Reappointed.

Colonel H. T. Bullard, custodian of Itasca state park, was reappointed today by Governor Johnson.

THE LEGISLATURE

FIRST SESSION HELD ON RATES

A NEW SCHEME FOR NOMINATING

SENATOR EBERHART MADE CHAIRMAN JOINT COMMITTEE.

RIDER OF LITTLE FALLS HAS A COMPROMISE PLAN.

W. D. Washburn, Jr., of Minneapolis is Made Secretary and W. B. Patton Will Act as Clerk—Facts Will Be Compiled for Presentation to the Interstate Commerce Commission.

Senator A. O. Eberhart of Mankato was chosen chairman of the joint legislative committee on investigation of railroad rates, at the initial meeting yesterday afternoon. He is author of the resolution under which the work is taken up, and is looked to as the leader of the investigation.

W. D. Washburn, Jr., of Minneapolis was elected secretary of the committee. W. B. Patton of Minneapolis, clerk of the house committee on appropriations, will act as clerk of the committee.

All complainants will be asked to submit their matter in writing. Witnesses will be summoned and examined under oath, and a transcript of the evidence will be kept.

The inquiry will go outside of the rates within Minnesota, and all showing of facts will be made for presentation to the interstate commerce commission. They will doubtless be sent in the form of the legislative memorial. The Minneapolis millers are preparing to present complaints against the discrimination in favor of wheat as against flour in shipments to the Atlantic seaboard, and also as to rates to non-competitive points on the transcontinental lines.

Captain R. T. Lewis, the Duluth member of the committee, says testimony will be offered regarding private car charges on fruit from California.

Much data in the hands of the railroad and warehouse commission will be placed in the hands of the committee. Senator Stone said that the commission will place the services of Thomas Yapp, the expert statistician, at the disposal of the committee, and would present some figures showing discrimination. W. A. Nolan said that George S. Loftus, the St. Paul grain man, would testify to the discriminations he has been complaining of. The committee adjourned, subject to the call of the chairman.

SENATORS' QUICK WORK

All They Did Was to Elect a President Pro Tem.

It took the senators just eleven minutes today to elect their president pro tem. The session was called to order promptly at 10 o'clock by Lieutenant Governor Ray W. Jones and was declared adjourned just eleven minutes later. The only business transacted in this brief session was the election of a president pro tem.

Senator G. B. Ward of Alexandria nominated Senator R. E. Thompson of Preston for re-election as president pro tem.

"In view of the length of service," said Senator Ward, "and the great esteem in which Senator Thompson is held by every member of this body, I move that he be re-elected president pro tem of the senate."

This motion was unanimously carried. Senator Thompson briefly returned his thanks for the honor served upon him.

Lieutenant Governor Jones then called upon Senator Thompson to preside for the rest of the morning session. Senator Thompson took the chair and proceeded with the call of the regular order of business, but there was no business to do.

Prior to adjournment until tomorrow morning, Senator Durant of Stillwater announced there would be a meeting Friday at 10 a.m. of the senate and house committee on state prison affairs.

NEW LAWS DELAYED

Code Can't Be Made Operative for Nearly a Year.

The legislature is in a new quandary over the statute revision. W. B. Anderson, chairman of the house judiciary committee, says it will not be possible to make any of the legislation of this session operative before Dec. 1, 1905. The reason is that the new code will be finally compiled and published before December.

Great care must be taken in drawing the enacting clause, as there will be opportunity to change the code in the work of editing and annotating.

Some way out of the difficulty may be reached so that other bills can take immediate effect, but the problem is one that engages the attention of the judiciary committees. They held a joint session yesterday afternoon with the members of the statute revision commission. After some debate it was decided to introduce the code into each house as one bill, and then take it up in detail in committee sessions.

Senator McGowan Absent.

Senator J. T. McGowan of Minneapolis will again be compelled to be absent from a large part of the legislative session. He will leave Friday evening for California to spend some time on account of his son's health.

AN ORGAN DEDICATION

An interesting organ recital was given last evening at Augustana church by Wilhelm Middelschulte, the well-known organist, assisted by Miss Clara Williams, soprano. Mr. Middelschulte is the master of his chosen instrument and played the entire program without notes. The opening number was Best's "Tocatta in A Major," and this was followed by the Bach "Chromatic Fantasia" and a substituted and subtitled number for the Bach "Choral." The organist's technique was especially fine and his trills and arpeggios flawless. The Mendelssohn "Allegretto" was given a fine rendition, as was the "Finale" from Vierne's "First Symphony." The Goodwin "Pastoral" was delicately beautiful. Other composers represented on the program were Parker, List, Saint Saens and the player of the evening. Owing to the custom which prevails in Augustana church of giving no applause, there were no encores.

Miss Williams was in admirable voice and sang "Hear Ye, Israel," from the "Elijah," very artistically and clearly. A group of three songs by d'Arlelot, Haydn and Massenet were her second offering, and of these, the first, "Without Thee," was the most enjoyable.

The records of the day—deaths, births, marriages, hotel arrivals, railroad time tables, real estate transfers, building permits and other information of interest—will be found together with want advertisements on page 12 of this issue.

Women with pale, colorless faces, who feel weak and discouraged, will receive both mental and bodily vigor by using Carter's Iron Pills, which are made for the blood, nerves and complexion.

He Would Select Delegates to State Nominating Convention by the Primary System—Automobiles the Subject of Two Bills—Other Work of the Representatives.

Representative H. A. Rider of Little Falls proposed a compromise measure this morning to satisfy those who want state officers nominated directly in the primary and also those who want the present primary law left undisturbed.

The principal feature is that the delegates to the state nominating convention are to be selected at a primary election on the second Tuesday in July preceding the general election. Each legislative district is to be entitled to four delegates selected in the same way as city and county officers.

W. B. Anderson presented the statute revision commission report in the form of a bill. J. H. Morley moved that the rules be suspended so that the bill could be given a second and third reading the general election. Each legislative district is to be entitled to four delegates selected in the same way as city and county officers.

Two Auto Bills.

Two bills regulating the speed of automobiles were presented, one by O. N. Thumdale, of Harmony, the other by Murray Kelly of Lewistown. The first regulates speed and provides that automobiles must be equipped with bells or whistles and lights. The maximum rate of speed in passing horses or a schoolhouse, or church, when services are being held, is eight miles an hour. In Mr. Kelly's bill the maximum rate was placed at five miles an hour when passing horses. In both bills the driver of an automobile is required to bring his machine to a standstill upon signal of the driver of the horse and remain until the latter lets him know that it is safe for him to proceed.

As to Grain Inspection.

Representative Hainford followed his resolution of yesterday calling for an investigation of the grain inspection and weighing departments, by moving to name a committee of seven, with power to send for persons and papers. The resolution went to the committee on grain and warehouse.

MINNESOTA FAMILY REFUTES CHARGES OF RACE SUICIDE

From The Journal Bureau, Colorado Building, Washington.

Washington, Jan. 19.—Minnesota, thru Senator Nelson, has contributed to President Roosevelt's collection of evidence refuting charges of race suicide against the United States. The senator went to the White House today and presented to the president a photograph of the Ustlad family, of Lac qui Parle county, Minnesota, and with the picture the following family records:

Mads Olof Ustlad, born June 30, 1848, in the parish of Hegre, Norway, came to the United States at the age of 15. Mrs. Anna H. Ustlad, born in the same parish, Feb. 3, 1855, came to the United States at the age of 10. They married and settled in the town of Hunter, Lac qui Parle county, Minn., in 1874, where they have resided ever since.

This couple have been blessed with fifteen children, all living and well at this writing. They were all born in Lac qui Parle county. Following are their names and dates of birth:

one	Jan. 5, 1875
Anna Marie	May 10, 1876
Hannah Mathilda	Oct. 11, 1877
Albert	June 30, 1879
John	Aug. 30, 1881
Emma Sophia	Sept. 16, 1882
Mattie Regina	July 22, 1885
Martina Anne	March 5, 1887
Theodore	Sept. 22, 1888
Hogne	Nov. 9
