

YOU CAN INTEREST HIM.

Any Man Over Fifty. You can interest any man over fifty years of age in anything that will make him feel better, because while he may not as yet have any positive organic disease, he no longer feels the buoyancy and vigor of twenty-five nor the freedom from aches and pains he enjoyed in earlier years, and he very naturally examines with interest any proposition looking to the improvement and preservation of his health.

He will notice among other things that the stomach of fifty is a very different one from the stomach he possessed at twenty-five. That greatest care must be exercised as to what is eaten and how much of it, and even with the best of care there will be increasing digestive weakness with advancing years.

A proposition to perfect or improve the digestion and assimilation of food is one which interests not only every man of fifty but every man, woman and child of any age, because the whole secret of good health, good blood, good nerves, is to have a stomach which will promptly and thoroughly digest wholesome food, because blood, nerves, brain tissue and every other constituent of the body are entirely the product of digestion, and no medicine or "health" food can possibly create pure blood or restore shaky nerves, when a weak stomach is replenishing the daily wear and tear of the body from a mass of fermenting half-digested food.

No, the stomach itself wants help, and in no round-about way, either; it wants direct, unmistakable assistance, such as is given by one of two Stuart's Dyspepsia Tablets after each meal.

These tablets cure stomach trouble because their use gives the stomach a chance to rest and recuperate; one of Stuart's Dyspepsia Tablets contain digestive elements sufficient to digest 3,000 grains of ordinary food such as bread, meat, eggs, etc.

The plan of dieting is simply another name for starvation, and the use of prepared foods and new-fangled breakfast foods simply makes matters worse, as any dyspeptic who has tried them knows.

As Dr. Bennett says, the only reason I can imagine why Stuart's Dyspepsia Tablets are not universally used by everybody who is troubled in any way with poor digestion is because many people seem to think that because a medicine is advertised or is sold in drug stores or is protected by a trade mark must be a humbug, whereas, as a matter of fact, the only person who is observed to know that Stuart's Dyspepsia Tablets have cured more people of indigestion, heart burn, heart trouble, nervous prostration and run-down condition generally than all the patent medicines and doctors' prescriptions for stomach trouble combined.

THE HUGE ORIENTAL LINER MINNESOTA SAILS FROM SEATTLE ON MAIDEN TRIP

Seattle, Wash., Jan. 27.—The new Great Northern oriental liner, Minnesota, completed loading her cargo for her maiden voyage to the orient and sailed with 25,000 tons of merchandise for the ports of China, Japan and the Philippines. She carries as passengers a large number of prominent business men and other citizens of Seattle and of eastern cities, the passenger accommodations are not by any means all taken. Her cargo space was practically all sold out for the first voyage prior to her arrival here, Dec. 23.

Since her arrival in this port the Minnesota has been visited by thousands curious to inspect the big liner at close range. A week ago she had as guests Governor Mead, Lieutenant Governor Coon and the members of the state legislature, which adjourned for a day to inspect the members an opportunity to inspect her and dine on board as guests of the company.

which is 550 feet in length. As may be seen in the photograph, the towers are still well forward of the midship section of the big steamship, and the vessel extends out more than 100 feet beyond the outer end of the bunker pier. Lying alongside the bunkers is the steamship Cottage City, one of the larger vessels of the coastwise and Alaska fleet running out of this port. The Cottage City is over 250 feet long and carries 300 passengers and 1,200 tons of cargo. But she is dwarfed into insignificance alongside the big oriental liner.
