WHAT THE MARKET AFFORDS

Vegetables cooked by many cooks would afford little satisfaction to the appetite in place of meats, but the in season vegetables have evolved many savory dishes that have enriched the dietary of many who do not habitually abstain from meat.

For this season of the year vegetable hash is a desirable dish. It is made of cooked and chopped vegetables, using one carrot, one deep red beet, two turnips, one onion, one stalk of celery, and a sprig of parsley; put them in a stewpan, cover tight, set in the oven. When thoroughly heated turn pour over the dish a gravy of drawn butter and cream and serve.

Another way of trying is a winter vegetable pie. Place in a baking dish slices of cold boiled potatoes, onions, celery and carrot, then add one scant cupful of stewed tomatoes, and half a cup of peas. Coat with stock thickened to a gravy with butter and flour, cover with a plain crust and bake. A pie of this nature can be made with a great variety of ingredients; apples, milked chestnuts, cauliflower and potatoes make a good combination and another is rice, with a grating of cheese, celery, onion and tomato.

Winter cooking depends very largely on flavorings and herbs are much used. Here is a fine soup powder that everybody ought to use. All of the ingredients are to be provided before cooking: they are sweet corn, parsley, celery, summer savory, thyme and bay leaf, each two ounces; lemon peel, sweet basil, and rosemary one ounce each.

BY STUDENT MUSICIANS

The initial appearance this season of the University Glee and Mandolin club at Westminster church last evening attracted an audience which completely filled the large lecture room. The entertainment was given under the auspices of the "King's Daughters," who acted as ushers. The entire program was an excellent one and the main was very well rendered.

The Mandolin club, which has been under the tutelage of Signor Perera, has made an excellent record in the hands of its members, but nevertheless gave good account of itself. It is an evenly balanced organization and plays with spirit and an admirable following of tunes. The program was as follows: The best selections being "The Yankee Consul" and "Robins' Wedding Waltz."

The Glee club is always welcome on a musical program and last night acquitted itself well. It is being drilled this season by William F. Patten, but sang the "Yankee Consul" and "Robins' Wedding Waltz" with undoubted success. The program was as follows: The best selections being "The Yankee Consul" and "Robins' Wedding Waltz."

Among the surprises of the program were the violin solo of Mr. Dorra and the mandolin solo of Mr. Champlin. The best selections being "The Yankee Consul" and "Robins' Wedding Waltz."

THE UNIVERSITY

SPELLED IT "NORTHROP"

HOW THE FRESHMEN TRIUMPHED OVER THE SOPHOMORES IN A SPELLING MATCH.

Thru a failure to spell the name of President Northrop of the members of the sophomore spelling team, in the freshman-sophomore match, at the armory last night, was obliged to withdraw from the contest. The advantage gained by the freshmen by this unexpected break was not overcome by the sophomores and the match went to the members of the first year class.

Professor F. M. McDermott of the English department, who had succeeded in the selection of words had charged in technical medical terms, when the professor made the surprising request that she spell "Northrop." The smile following the request conveyed to the professor the idea that the advantage gained by the freshmen by this unexpected break was not overcome by the sophomores and the match went to the members of the first year class.

The members of the faculty were pleased by the showing made by the contestants. Most of the words misspelled were of a technical nature. The gold medal for the best speller in the contest was awarded to Chester S. Wilson, a freshman from Stillwater.

HOAXED THE "GRINDS"

Bogus Yellow Slips Handed to the Best Students.

Some of the best students in the university, prospective members of Phi Beta Kappa and undergraduates in structure, received bogus yellow slips announcing that their work in some subject had been a failure. The slips are the "official yellow" and signed, but the author is in the registrar's office every day, and the students are not. Professors were besieged all day by students whose work has been above grade and to whom credit was given. Notwith-

standing that they were reported as passing, they have received the yellow slips announcing failure.

The issuance of these unauthorized slips is explained in several ways, but a shortage in blank slips discovered Tuesday in the registrar's office is believed to be significant.

Not considering the slips that were unofficial, about 500 conditions and failures have been imposed for the last semester. This is an unusual number and is explained by the fact that many of the instructors, considered "easy," have decided to escape from the undereared popularity which such a reputation brings, and have raised their standards in class work.

Also some of the students blame the new six-day system for the failure to keep up in work, this is not considered the cause by members of the faculty, who say that under the new system the work is less difficult than before.

CIRCUS IS COMING

Regular "Farmers-Hold-Your-Horses" Sort of Show.

There will be a variety circus after all, and Dr. Cooke, ringmaster and director of the big show of the past, will conduct the big three-ring entertainment. The idea of giving an indoor carnival of sport was abandoned at a meeting last night and, on the consent of Dr. Cooke to manage a circus again, it was decided to give the show on March 10 and 11.

The circus will be bigger than ever and training will begin at once.

EXAMS FOR CADETS

Officers Will Be Discovered by Tests Next Monday.

An examination for promotion in the cadet corps will be held next Monday. An unusual number of the cadets have failed to register for second semester work, and there is a dearth of officers. Promotions will be made strictly on merit.

Owing to a lack of girls there is talk of giving up the Saturday afternoon cadet hops in the armory. These dances are held immediately after drill, and only cadets in uniforms are allowed on the floor. The cadets have attended in large numbers, but for some reason they do not appear in sufficient numbers to make the dance a success.

THE KNABE

A PIANO OF DISTINCTION

The Knabe family began building pianos in 1837, and from that day to this there has never been the slightest deviation from the one aim—to build an instrument which would represent the best from every standpoint. As a result the Knabe satisfies the artistic craving for "a tone that talks," an action that is responsive and reliable, a case that in finish and design is in harmony with modern standards of elegance.

Famous for Three Generations

When you buy a piano, the experience of others thru half a century will point the way in which you may go safely; our 25 years' experience has taught us the same lesson, which we have used in selecting the Knabe as part of our line.

PROF. BULL ADVISES

Says Seed from Rusted Fields May Be Used Conditionally.

Professor C. P. Bull of the Minnesota state experiment farm advises the use of seed from rusted wheatfields, providing great care is taken in selecting the kernels.

He thinks kernels which have grown in a rusted field, but which resisted attacks, are preferable to seed grown in uninfected fields. He estimates that only about 10, or at the most 20 per cent of wheat thus grown will be fit for seed purposes. If, in the product of these fields, there is any No. 1 or No. 2 northern, Professor Bull advises the immediate investment in a fanning-mill and the careful selection of the best kernels for seed purpose.

Professor Bull also advises rotation in crops in fields that were ravaged, saying that if this is done it will largely obviate the danger of a repetition of the rust attack.
