Minnesota Has Distinction, Due to the Agricultural School.

In spite of the zero weather, professors at the Minnesota experimental station of the agricultural school have surrounded themselves with the flora and fauna of the tropics. Yesterday a huge bunch of bananas was plucked. That is huge for the Chinese variety. They are not quite as large as the jumbo variety, but are of excellent quality. Minnesota is now declared to be in the banana belt.

IOWA WEATHER

ITS SIDETRACKED

ORDER OF PRESIDENT BARRY IS LOST IN TRANSIT.

President of Lumbermen's Association Had Tried to Control the Climate of Minnesota—Speakers of Today Submitted to a Crossfire of Questioning—Big Theater Party On Tonight.

"I have a double disappointment for you this morning," remarked President John W. Barry, in opening the second day of the Northwestern Lumbermen's association convention. "In the first place, I had ordered, in hurry-up style, a liberal supply of southern Iowa weather to talk of southern pine, and he is ill and unable to be present. He has however, sent Cliff Millard of Chicago, to carry the message."

Mr. Millard was introduced and a few stories and technical information that left them breathless. He then invited questions. They came fast. Every dealer wanted the speaker to clear away all objections to the product which he advised them to use.

Now that we have you here on even terms, we are going to show it into you," remarked one who fired questions at the speaker without number. He received answers to all.

The program continued with an address and questioning on "Eastern Washington and Idaho Pine." R. A. Kellogg, representing the Western Pine Shippers' association, was the speaker. West Coast Fir, Cedar, Spruce and Hemlock," had been assigned to H. H. Collins, representing the Pacific Coast Lumber Manufacturers' association.

At noon over 800 members had registered. They crowded into the convention hall or walked thru the exhibit sections gathered in groups at all times. Outside the convention hall there is less "shop talk" than usual. Each lumberman seems to regard it as a midway recess, and the social feature is prominent.

This morning the secretary's assistant had his hands full. He was issuing the tickets for the big theater party at the Lyceum when the Ferris Stock company will play "Soldiers of Fortune." It will be "lumberman's night," as the association has rented the entire Lyceum.

This afternoon H. S. Gilkey, representing the Northwestern Cedarman's association, talked on "White Cedar Posts and Shingles." A. L. Osborn, representing the Northwestern Hemlock Manufacturers' association talked on "Hemlock." Both addresses were followed by questions.

Last night, at the eleventh hour, the Hoo-Hoos held a concatenation and pilgrims journeyed over the barbed wire fences and thru the razor wire barbed wire fences and thru the razor wire barbed wire fences and thru the razor wire barbed wire fences.

A Neat Souvenir. Visitors yesterday wore the clever little grip given away by the Miracle Pressed Stone company. The tag bore a cut of the celebrated double air space building block. The demand for the tag proved highly satisfactory to the company.

WINTER'S COLDEST DAY. Thirty-Mile Gale Adds to the Suffering at Duluth.

Duluth, Feb. 1.—With the mercury registering 24 below zero and a 30-mile gale blowing, Duluthians faced the most severe weather of the winter. There was much suffering, those forced to remain out of doors.

La Crosse, Wis., Feb. 1.—Wisconsin had this a record of the north-west obtained no relief today from the intense cold weather which has been prevailing nearly a week. It was 18 below zero at 8 o'clock this morning.

Pierre, S. D., Feb. 1.—The temperature record here last night was lower than since 1899, going to 26 below zero.

Des Moines, Iowa, Feb. 1.—February was ushered in today with the mercury standing at 8 degrees below zero and with a promise of the same for twenty-four hours. So far no serious loss to stock is reported.

SNOW, WIND AND COLD Losses of Stock Expected on the Ranges of Nebraska.

Omaha, Neb., Feb. 1.—Omaha and vicinity experienced another spell of cold weather this morning when the thermometer dropped to 8 degrees below zero. The wind is accompanied by snow and a strong north wind.

A special from Alliance in the central part of the state says that snow has fallen steadily during the last twenty-four hours with no signs of abatement. With the thermometer at zero and a strong wind, fears are entertained by stock men that there has been great suffering on the ranges.

Chicago is Shivering. Chicago, Feb. 1.—The most severe cold wave of the winter has overspread the northwest. Points in North Dakota and Montana report thirty to forty degrees below zero. Five to eight below zero is predicted for Chicago tonight.

RETIRED PUBLIC EXAMINER DIGGS UP MORE TAXES ON HIS LAST DAY IN OFFICE.

Public Examiner S. T. Johnson celebrated his last day in office by handing in another railroad gross earnings account to the state auditor for collection.

The Northern Pacific, he claims, has omitted \$34,952.44 of earnings that should have been reported, and the tax on this amounts to \$1,048.57.

The largest item dug up by the examiner is \$23,001.65, which is claimed as the state's proportion of earnings on business starting at Breckenridge, Moorhead and East Grand Forks, and which he had been a member of the Northern Pacific's association convention.
