### GOVERNMENT LAND FOR MONTE CARLO

Woodchuck Bill in Congress to Start Huge Gambling Place at Hot Springs.

New York Sun Special Service.

New York, Feb. 6.—The house of representatives at Washington passed an interesting bill last week, the purpose of which, curiously, has escaped attention up to this time. Congressman Robinson of Arkansas is sponsor for the measure, which awaits the approval of the senate. It glides thru the senate it will surprise a great many people.

Before the president's name is affixed to the document it possibly may begin to dawn on some folks that the government is fathering a scheme by which a Monte Carlo will be started in this country on government land.

The beneficiaries are George E. Conscience and Edward Burke, and the bill grants ten acres of government land at the Hot Springs reservation, with a right of way for a railroad. Conscience and Burke are to pay semi-annually to the department of the interior 2 per cent of the gross annual earnings of the railroad and buildings and grounds.

They are going in for hotels, observatories and other things not mentioned in the bill. Observatories in Conscience's and Burke's society in this city are spelled "lookouts."

Burke now is in Hot Springs. He leaves Hot Springs tomorrow for Miami, Fla., where he has an interest in the Seminole club, an institution for the advancement of faro and kindred games of chance.

### NEIGHBORLY MURDER

#### Company Formed in Black River Falls to Display Chief Incidents of Tragedy.

Special to The Journal.

New Ulm, Minn., Feb. 6.—To meet and gratify a public demand for the details of the murder in New Ulm on the evening of Nov. 1, a company has been formed in Black River Falls, Wis., the old home of Dr. Gebhard, and is making extensive preparations for the reproduction of the tragedy.

Photographers of this city have for a month been securing photographs of persons connected with the tragedy. These have been sent to the manager of the new company in the Wisconsin city, and he is arranging to make a moving-picture display in connection with the history of the case. He expects to have his paraphernalia completed soon and will leave for the laboratory and cross to the reception room for the purpose of securing a chair for his caller's use. Here the fatal blow will be struck with a hammer which the assassin takes from his overcoat pocket.

His victim falls to the floor, dropping the chair, which is turned over, near the door leading to the laboratory. The assaulted man rises and a double struggle ensues, he receiving blow after blow upon his head from the assassin, and finally, in an exhausted state, is pinned to the floor.

The murderer takes a knife from his pocket and makes deep stabs in his victim's throat. Just at this instant a vivid likeness of Brooks appears at the transom above the door. He gazes intently at the scene on the floor below and the murderer lifts his head and looks him squarely in the face, and Brooks then drops to the floor in the hall.

The next scene is where the murderer frantically rushes around the room attempting to obliterate all traces of evidence which would connect him with the crime. He opens the door, runs up, raises the sash, cuts the screen and escapes thru the window by grasping hold of the electric lights wires below just a moment before the door is broken open and the policeman and several other persons enter.

The likenesses of the sheriff, county attorney, city attorney, New Ulm's mayor, the citizens, the doctor, the defendant, his father, brother and sisters, the old homestead, the jail where Dr. Koch passed so many days, the cell, the courtroom in which he was tried, the attorney's office, the defendant's state and many scenes in the courtroom during the trial are to be produced on the canvas.

#### BOARD NOT "MAKING GOOD" Sentiment for New Railway Commissioner Scheme in North Dakota.

FARGO, N. D.—There is a strong sentiment in the state for the abolition of the present board of railroad commissioners, the people regard it as absolutely without utility, and seem to care little for the board's existence. For six years nothing has been done. The board makes annual trips of inspection, stopping sometimes a few minutes at a station, through other trips at a high rate of speed. The inspection is a function of the agreement made by the board with the railroads, and it is an opportunity for the commissioners to see what friends a trip over the state on a special train. It is proposed to give the men a right of existence and give the governor authority to appoint a commissioner.

Mr. John Snyder, who has been operating a second-hand store in Fargo for years, has been arrested on the charge of receiving stolen property. Many stolen articles have been found at his place and the police are after him on the charge of conducting a business with a local crook, raided the Y. M. C. A. storage building in the city and removed paraphernalia, which were found in the Snyder place. The first annual meeting of the intercollegiate Y. M. C. A. in this state was held here after a two days' session. About fifty delegates were in attendance from the different educational institutions of the state. The meeting was a success and was well attended by prominent workers in the national organization. A banquet was given Saturday evening was a feature of the meeting.

Charged with forcing his wife to leave the house and sleep in the corner of a room, the temperature was 80 below zero, Frank O. Stangler, a living farmer, was held in jail in this county, was held under bonds for his appearance for trial.

#### WARRANT FOR ELOPER Manary's Romance Will Be Spelled if Officers Catch Him.

SIOUX FALLS, S. D.—A warrant has been sworn out for Archie Manary on a charge of horse stealing. The charge is that he engaged a horse and cutter at the residence of C. A. Brant, and with a young woman, drove to Tea, a little town south of Sioux Falls, and there the horse and cutter were abandoned and the couple boarded a train for Yankton. The young man, it is charged, borrowed Mr. Brant's horse and cutter.

Judge Carland of the United States court in this city dismissed the case of Susan vs. James A. Langan, involving a farm in Turner county, S. D. The plaintiff alleged that Hugh Langan, now deceased, proposed to her that if she would take up her residence upon the land, he would pay her one-third of the value of the land and would begeth it to her in his will. In accordance with the agreement with Hugh Langan that James A. Langan, the defendant in the suit, had an interest in the land. He refused to carry out the terms of the agreement made by Hugh Langan. Judge Carland's decision holds that the complaint should be dismissed for want of equity.

#### INDIANS GOOD WORKERS John E. Brennan, Agent, Vouches for Them in His Report.

RAPID CITY, S. D.—The annual report of John E. Brennan, Indian agent at Pine Ridge, shows that the Indians have a liking for work. Contrary to the general opinion, the average well-to-do Indian received \$1.25 a day and \$2.50 a week for his services. The Pine Ridge agency is divided into six districts, and the one which is under the direction of a superintendent. The total value of the work done by the Indians last year was \$30,812. The Indians have completed the four-strand barbed wire fence, which is 130 miles long, extending on two sides of the reservation.

#### WALTER'S WORD FOR IT Bid for Work on Ditches at Belle Fourche to Be Opened in April.

BELLE FOURCHE, S. D.—Raymond F. Walter, chief engineer in charge of the irrigation work at this place, says that bids for the construction of the Belle Fourche canal will be opened the 1st of April. He has closed the bids on the north side of the river, enough ground having been secured for the work. The north side lacks 500 acres of the required acreage, and an extension was given until March 1 for securing of this land. It is believed that more than enough ground will be taken in by that time.

#### BOUND OVER FOR ASSAULT Family Scandal Behind Prosecution at Livingston, Mont.

LIVINGSTON, MONT.—R. A. d'Ewart, an electrician and rancher of Park county, was bound over today in \$200 bail, charged by A. P. Stuck, prosecuting attorney, with assault in the first degree upon Benjamin Wharton, a miner, who near Friday there is a family feud back of the whole affair, but the justice court would not admit this evidence at the preliminary hearing. The smallpox quarantine against public gatherings and which required a permit to be vaccinated, was raised today. There have been six cases in Livingston, but no deaths. J. L. Poorman, at present chief of police at Livingston, after an eight-mile chase from his ranch near Glasgow, Mont., to a point on the Payson county line, where he was in custody, returning A. E. Cruise, who robbed his ranch home.

## RHEUMATISM

IN FEET, OR ANKLES

### Alcock's PLASTER

Tear an Alcock's Plaster in two, lengthwise, and apply on soles of feet; renew the plaster every time the feet are bathed. You will be surprised how it will relieve rheumatism in the feet or ankles.

For tired or lame feet relief is afforded at once.

Alcock's Plasters are the original and genuine porous plasters and have never been equalled as a pain-killer. We guarantee them to contain no belladonna, opium or any poison whatever. Absolutely safe, wonderfully curative.

Insist Upon Having Alcock's.

## ABSOLUTE SECURITY

Genuine CARTER'S LITTLE LIVER PILLS must bear Fac-simile Signature of *Dr. J. C. Carter*

### CARTER'S LITTLE LIVER PILLS

Absolutely Cure BILIOUSNESS, SICK HEADACHE, TORPID LIVER, FURRED TONGUE, INDIGESTION, CONSTIPATION, DIZZINESS, SALLOWN SKIN.

They TOUCH the LIVER

Small Pill. Small Dose. Small Price.

Genuine Wrapper Printed on RED PAPER BLACK LETTERS

### Men's Gold Watches, \$8.25

This offer of a gold watch for \$8.25 holds good all this week. The case is medium size, thin model, and is guaranteed to wear for twenty years. They come in a number of handsomely engraved designs: The works are Elgin or Waltham—both of the movements well known for their accuracy and reliability. You would be getting fair value if you paid a half more.

### Big Showing of Valentines

St. Valentine's day is a week from Tuesday. Then the little blind God of Love with his quiver of arrows will hold high carnival. It's the one day when you can give free rein to sentiment. We have spread our valentines around the special sales counter. It's an interesting showing—dainty, expressive, some sparkling with humor. A penny will buy a love token. From that price rise to \$1.39. An envelope free, no matter what the price.

### PRIMARY BILL HAS RIGHT OF WAY

FIGHT IS COMING THIS WEEK AT BISMARCK.

Old-Time Party Leaders Are Fighting the Measure Which Threatens Their Control and Will Try to Amend It to Death and Throw Its Friends into Hopeless Confusion.

Special to The Journal. Bismarck, N. D., Feb. 6.—This promise to be the big week of the legislative assembly. Primary election will be the subject under discussion. Unless there is a change in sentiment, the Sharpe senate bill will become a law before the close of the week.

Both branches of the legislature adjourned Friday afternoon until Wednesday. The fight is to be made in the house, by an effort to amend the bill, memorialize the majority in the house with these amendments and, if possible, defeat the measure when it goes back to the senate, should any of the amendments carry.

It was discovered today that almost a majority of the members of the house had signed an agreement to decline to vote for the bill unless it is taken up paragraph by paragraph and discussed on the floor.

This plan is one that has been decided upon apparently by those opposed to the bill, and they have been able to secure many signatures of men who are naturally in favor of a primary bill, but who think that the bill will not be endangered by allowing some amendments. The big fellows—the party leaders for the past decade—are leaving nothing undone that will have any effect in demoralizing the organization that supports the measure, and it is believed now that there will be no legislation this week of any moment whatever, unless the primary bill is disposed of.

The senate organization, with a safe majority of three or four, will be opposed to any changes in the measure in the house, and this organization may be able to hold the house members in line for the bill as it now stands. It was generally understood that one of the

amendments offered by Senator Crane, and which was adopted in the senate, took United States senators out of the provisions of the measure, but friends of the bill say this is not true; these United States senators are provided for, but that the election must be done by the legislative assembly, under the provisions of the constitution.

#### Chief Objections.

One of the features that has been attacked most vigorously by a number of primary election is that which provides that members of the minority party must be required to pay which one-half the fee which members of the majority party must pay. They claim that the measure is in favor of the democrats rather than the republicans, and the party which is being cracked across the heels of the members who are often times thus driven into submission, on the showing that it is against party interests. Some of the members of the house favor substituting one section of the Rose bill for one of the Sharpe senate bill, providing that separate ballots and separate ballot boxes be provided for each party. It is feared by many that this change may result in the turning down of the measure by the senate upon its return to that body, and any substitution will be bitterly fought by those in favor of primary election.

#### How McClure Turned a Trick.

The passage of the capitol commission bill, which provides for the reconstruction of the capitol building, brings many interesting stories to the fore, dating back to territorial days and the removal of the capitol to Bismarck from Yankton. After the capitol had been removed to Bismarck the Yanktonians remained under the house that most of the deals were made, and Alex McKenzie suggested to Marshall McClure that he would be able to get more information on a certain table in the Sheridan dining room than at any other point. McClure was looking for news, and he crawled under the table which was reserved for the south state men who were most active in the interests of removal. For six hours McClure remained under the table in unearthing many of the deals, his exposure resulting in a demoralization of the Yankton contingent. At the end of six hours a cramp seized his leg and he was forced to crawl out at a time when the table was filled. The South Dakotians knew that the jig was up, and the stories that McClure sent out of the deals that had been made at the dining

room table and those that were attempted had much to do with retaining the capitol for Bismarck.

#### Governor Stands By Flaaten.

Medical men in the senate will make an effort to hold up the confirmation of Dr. Flaaten of Grand Forks, secretary of the state board of health, an appointment that is certain to be made in the first batch given out by Governor Salles, according to the plan of the state board of health, the majority of them in Grand Forks county. On the other hand, Dr. H. H. Healy of Grand Forks, who has been secretary for two years, has proved himself the most competent man who has held the position, and the state board of health is now in better shape than ever before. The state medical society and the association of undertakers have urged the resignation of Dr. Healy, but the governor says that his word was given Dr. Flaaten, and that he can see no good reason why any change in the program should be made at this late day. He has been advised of the unpopularity of the proposed appointment, but still says that it will go thru as arranged in the state organization at Grand Forks, which gave him the nomination.

#### Decision in W. E. Hicks Case.

The supreme court has handed down a decision in the case of Dickey county against W. E. Hicks, an action brought by the county to recover alleged overpayments in salary and clerk hire while Mr. Hicks was superintendent of schools of that county. On the question raised before the court was as to whether the county auditor, in computing the salary of the superintendent of schools based on the number of schools in the county, had a right to take into account schools in special districts. The trial court, Judge Lander presiding, held that the auditor could not consider these schools, and this is upheld by the supreme court in an opinion written by Chief Justice Young. On the other question raised, that of the right of the county to recover for clerk hire claimed to have been paid, the supreme court, on the disagreement with the trial court, holds that the sums paid for clerk hire were of the reasonable value of the services. The judgment of the lower court is modified to this extent and the verdict is otherwise affirmed. Senator Cabell has introduced bills providing

for a small appropriation for the State Historical society, and defining a legal newspaper by requiring a copy of a newspaper, in order to be official, must be furnished the State Historical society. The society now has its quarters in the new wing at the capitol and there is sufficient drop-proof vault room to insure the proper care of documents and other articles of a historical character.

#### HOTEL, MILL AND CHURCH New Buildings for Flaudreau-Landmark Is Being Moved.

FLAUDREAU, S. D.—One of the old landmarks of Flaudreau is being moved. The old Flaudreau house, built at a cost of about \$10,000 in the seventies, is on rollers. It will be placed on a block near the railroad. A new brick building 68x120 will be erected on the old location. Plans are also being drawn for a new four-story mill in place of the one burned last December. The Presbyterian organization will also put up a \$10,000 church.

GRAND FORKS, N. D.—The state university of North Dakota will be represented in the Carlton college debate by Oiger B. Burnett, John St. Anderson and Martin B. Rund. Mr. Anderson and Burnett were members of the team which defeated Manitoba last year. Mr. Rund lives at Posnett, Minn., while the other debaters are from this state.
