FREE EXHIBITION OF THE HISTORICAL TAPESTRIES THAT RECEIVED THE GRAND PRIZE AT ST. LOUIS

These tapestries, each measuring 4 1/2 x 3 1/2 feet, are beautifully wrought in colored silks; they are faithful copies of original paintings illustrating notable events in the exploration of the Mississippi by La Salle and his associates.

By Authority of the United States AWARD

"For the excellent character of the designs; the execution of the work in the delicate and artistic shading, shown in figure and landscape; the expression of faces and attitudes, produced with the accuracy of the artist's brush; the perspective observed the wonderful fidelity of detail in the reproduction of dress. The flesh tints in the faces and the light in the eyes; the hair and the features are so skillfully depicted as to warrant the belief that it is the work of the brush and not of the needle. The high quality of the work merits the most unreserved praise; the advance made in applying to artistic creations what was first intended simply for the useful, marks an Era in the World's Progress as well as in the development of the Sewing Machine."

Advertisement for Jolly Jack Tar. Text: 'Jolly' is the word generally associated with the Jack Tar. He is the picture of health, and the health bubbles over in mirth and merriment. When people are sick, especially when sickness attacks the lungs the doctor often advises a sea voyage. But in the large majority of cases the sea voyage is impossible. It is to the men and women of the workaday world to whom sea voyages or change of climate are impossible, that Dr. Pierce's Golden Medical Discovery comes as the greatest earthly boon. The effect of this medicine is upon those whose lungs are "weak" is remarkable. Even where there is bronchitis, spitting of blood, coughing, weakness, conditions which if unchecked or unskillfully treated lead to consumption, "Golden Medical Discovery" in ninety-eight cases out of a hundred works a perfect and permanent cure. It strengthens the stomach and other organs of digestion and nutrition, so that the body in all its parts is not merely fed but nourished. And it is by nourishment that Nature builds up the body to resist or throw off disease. "I had a terrible cough something over a year ago and could find nothing to stop it, or even to ease it a particle of good," writes J. M. Farr, Esq. of Cameron, Scriven Co., Ga. "I chased for me an advertisement of your medicine, and with bought a bottle of your invaluable "Golden Medical Discovery." Before I had taken half a bottle I was entirely well."
