

Why This Store is Popular.

THE GLASS BLOCK keeps in touch with the people by studying their wants and making special prices on goods which are in season and best adapted to present needs. In making up our advertising from day to day, it is not simply a matter of what we can sell the most of and on which the largest profit can be made; but much thought is given to popular demand—that which will be appreciated the most and sell readily at the special prices on account of desirability. Of course, there is sure to be a large collection of odds and ends and remnants of all kinds of desirable goods which must be disposed of and on which the Glass Block always makes a price which is really a profit to the customer. In addition to our regular timely bargains on standard goods, these remnants and short lots are advertised from time to time, and our announcements should be read if you wish to make purchasing profitable.

Valentines.

ONLY THREE MORE days left—and have your bought your Valentines? Our assortment is large and our prices small, 1c up.
