QUALITY

More than half a century ago a man, who, through years of study, research and experience, had become master of the art of piano-making, evolved an idea and built a piano.

The man was James W. Vose. The idea was Quality.

And the piano produced by this effective combination of the man and the idea was the Vose Piano.

Besides the special numbers of the children alone, the children will sing with the Philharmonic club and the orchestra. Mr. Oberholfer will conduct these numbers.

# AUDITORIUM IS

## READY ON TIME

FINISHING TOUCHES WERE PUT ON THIS MORNING.

Governor John A. Johnson and Party Will Occupy a Specially Prepared Box at the Opening Concert To-night—Standing Room Only Signs a Probability for the First Four Nights.

The Auditorium is ready for the opening night. The organ is not in place and some minor parts of the building are not finished, but the main entrances, lobbies, main audience room and all parts of the house open for inspection tonight after noon.  
The auditorium has been built solely on account of its heavy and permanent construction. For this reason the usual rush about the preparations for the opening of a public place of amusement has been absent. The building was practically ready last night and today only finishing touches were put on by the charwomen and the floral decorators.

The interior of the Auditorium is best seen from one corner of the "painted bridge," far above the stage doors, and glimpses reveal the motif of the architects in the interior design.

**The Architects' Idea.**  
"My idea," said one of the architects, "was to have a party over the iron bridge, was to make the setting for a bouquet. The audience is to be the bouquet and will make a glow of color against the sober settings of the interior. The wall colors are almost neutral. The bronze chandeliers lend little spirit to the whole and the green plush seats only set off the quiet elegance of the mahogany doors. Today, when the aisle carpets of red were laid and they completed the ensemble of the decorations with their dash of brilliancy."

Governor John A. Johnson, with Mrs. Johnson and party will occupy a box tonight at the opening concert. Boxes were not provided in the original plan of the building. To give the governor the place of honor, Oberholfer appropriated the aisle organ loft. To conceal the opening left in the proscenium arch for the organ pipes, a huge American flag has been hung at the right of the house. This is the largest flag ever brought from leaving a view of the state and audience and forming an artistic frame for the picture which will be the most observed of the evening.

**With the Governor.**  
As guests the Governor and Mrs. Johnson will have Mr. and Mrs. A. T. Day and Miss Day, Mr. and Mrs. T. D. Paul party which will come over in a private car will be Mr. and Mrs. Frank Clague, Mr. and Mrs. Samuel Iverson, Mayor and Mrs. Robert A. Smith.  
For three days a long line of ticket buyers has stood at the Metropolitan Music store box office window. The Metropolitan Music store box office window. The Metropolitan Music store box office window. The Metropolitan Music store box office window.

**Final Inspection Made.**  
Final inspection of the Auditorium was made this morning by President W. F. Bechtel, Manager J. F. Conklin, Chief of Police James Doyle, Fire Chief T. M. Sture, Assessor J. B. B. Leighton, the contractor. They reported to the supervising architect, A. B. Chamberlin, that everything was in first-class shape.  
Chief Doyle said he would detail several policemen for duty on the stage tonight, and Chief Canterbury will assign firemen to the building also.

**The Last Rehearsal.**  
Critical musicians listened this morning to the final rehearsal of the Minneapolis Symphony orchestra under the direction of Emil Oberholfer. The orchestra of six different nationalities. The orchestra of six different nationalities. The orchestra of six different nationalities.

**Good Tickets Turn Up.**  
Several tickets for good seats for the opening entertainment at the Auditorium tonight have been returned to Miss Eva Blanchard, secretary for the inaugural festival. The tickets were returned by subscribers who expected an earlier opening of the building and are now out of city.

# IMPROVEMENT LEAGUE ALSO

## DESIRES ISSUANCE OF BONDS FOR PURE WATER PURPOSES.

The Minneapolis Improvement League at its meeting yesterday afternoon increased the proposition for the organization in Minnesota of a juvenile court and the bill before the legislature legalizing a issue of water bonds in Minneapolis. E. S. Blaker, a member of the committee which is drawing the juvenile court bill, explained the nature and scope of the measure and said that it embodied all of the good points of the other bills on other states.

Alderman C. B. Holmes, who talked on water bonds, deprecated the attitude of certain prominent Minneapolisians with reference to this issue. He said that the men, who one year ago were calling loudest for pure water and heaping blame upon the council for its inaction, are now calling for bonds to improve the water works.

A committee of the league visited Mayor Jones' office and asked the mayor if it would not have all police men instructed to warn small boys detected smoking, that by so doing they were violating the law. They told the mayor that many youngsters smoked all right under the noses of policemen, but were not told that they were doing wrong. The mayor said that very soon, in pursuance of the policy which he has adopted at the beginning of his administration, he would have lawyers visit the various stations to explain the laws to the policemen and instruct them regarding the policy which they are to be glad to remind them of the law, which they mentioned.

## THIEVES TRIED ARSON TO COVER A CRIME

After robbing the store of D. O. Hallor, dealer in church goods, 335 Peter street, St. Paul, thieves attempted to burn the building. The floor was saturated with kerosene and a lighted taper placed in the gutter on the oil floor. The blaze of the oil almost reached the oil when the engineer of the building arrived and extinguished it. Goods, valued at \$500, were stolen.  
The thieves entered the building by breaking a window in the basement. They carried away a number of rosaries, strings of beads and other valuable pieces of altar furnishings. A cash of \$100 was tapped and a quantity of it drunk by the intruders.

## OPPOSE THE SECRECY BUILDERS WANT BIDS FOR STATE WORK OPENED IN PUBLIC.

The Minnesota State Association of Builders' Exchanges went on record, before closing their convention yesterday, as opposing the star-chamber methods used by the state board of control in awarding the great amount of supplying of state institutions. A campaign will be made to induce the legislature to have the bids opened in public.  
Mayor D. P. Jones made the address of welcome at the banquet given last night by the Minneapolis Builders' and Traders' Exchange at the West hotel. William A. Elliott acted as toastmaster and speeches were made by President A. Lamoreaux, president of the architects in the speech-making.  
Mrs. Maud Umer Jones sang several solos and Miss Mabel Augustine gave violin selections. The following officers were elected at the yesterday afternoon meeting:  
President, J. W. L. Corning, St. Paul; first vice president, George W. Higgins, Minneapolis; second vice president, J. S. Bangs, Duluth; third vice president, A. H. Hatch, Faribault; secretary and treasurer, A. V. Williams, St. Paul.  
Executive committee, George E. Grant, chairman, St. Paul; W. W. Nelson, Minneapolis; C. E. Evans, Duluth; Robert Selbert, Stillwater; James E. O'Neil, Faribault.

## INSPECTOR LEARNS THAT DAIRIES NEAR THE CITY ARE MUCH BETTER.

Milk furnished Minneapolis consumers by dairies in the immediate vicinity of the city stands much higher in the tests than that shipped in from country towns. In February, Milk Inspector W. G. McCall took seventy-two samples from the milk shipped to local firms from Wallace, Dennison and Woodfield. Only thirty-four of these were found to be up to standard. He took 180 samples of all kinds and sixty of them were below grade. This figure includes the thirty-four low grade tests from the three outside towns.

**WILL ADVANCE ART**  
Twin City Competition for Pictures Will Be Increased.  
Competition in picture buying in the twin cities is likely to do much to advance the interests of art. The exhibiting of pictures in the capitol in St. Paul has resulted in the organization of the St. Paul Society of Liberal Arts, whose purpose is to raise money to purchase pictures for the present exhibition as a nucleus for a public art gallery in the rooms of the society in the capitol.  
The society elected as officers: Chairman, Miss Julia Gautier, secretary, Mrs. C. E. Biggs, and treasurer, Mrs. Ambrose Tighe. A subscription list was opened at once and many dollars were taken in the first day. The new society has chosen six pictures for purchase. The pictures selected are as follows: "Reverie," by Karl A. Buehr, price, \$1,000; "Autumn," by I. H. Callig, price, \$1,000; "Spring," by Berke Shires, by H. Bolton Jones, price, \$250; "Cosette," by John H. Vanderpool, price, \$200; "Peasant Girl of the North," by Gustav W. Valerius, price, \$75; "The Day Done," by Herbert L. Buttrud, price, \$50.

## THE GUILD HOUSE

Arts and Crafts Workers to Take Possession of Headquarters This Spring.  
The Handicraft guild will remove to its new quarters in the old King house, on Second avenue and Tenth street, March 15, and the group of associated artists and craft workers who are to have studios and shops there will occupy their rooms in the spring. The present classes of the guild will be carried on and others organized from time to time as there is call for new lines of instruction, such as the increased facilities for the study of painting.  
Mrs. Mary Linton Bookwater is director of the transformed enterprise, which will be known as the Guild house, and the associate directors are Miss M. E. Robert and Miss Florence Waters. With its permanent exhibition room and centralized group of artists and workers, it is destined to become the center of the art industries of the city and northwest.

## DIED IN THE EAST

Wife of Former President of Macalester College Was Buried Yesterday.  
Mrs. Thomas A. McCurdy, wife of a former president of Macalester college, died Saturday in Wilmington, Del., and the remains were interred at Salsburg, Pa., yesterday.  
Rev. Dr. and Mrs. McCurdy lived in Minneapolis for a short time preceding the death of Mrs. McCurdy in 1885. From that time until 1890 they lived at Macalester Park, St. Paul. They then moved to Heoria, Ill., and thence to Wilmington.

## NEW INCORPORATION.

Articles of incorporation were filed with the secretary of state by the Manteuffel Refrigerator company of St. Paul, with \$10,000 capital. The incorporators are Matthew B. Carpenter of Irwin, Neb.; William Manteuffel of Benjamin J. Shipman, both of St. Paul.

# COAL COMPANY

## SWALLOWED UP

JONES & ADAMS CO. ACQUIRED BY THE PITTSBURG.

Latter Has Been Busy Absorbing Concerns, and Now Has Control of Nearly All the Coal Shipping on Lake Superior—Expected to Reach Out for More.

The Pittsburg Coal company has absorbed the entire capital stock and holding of the Jones & Adams company and has thereby still further established itself as the dominant factor in the bituminous coal business in the northwest.  
The Jones & Adams company was capitalized at \$500,000, although the stock is understood to have been worth much more. It has extensive coal docks at Superior, Duluth and Ashland, large retail yards at Minneapolis and St. Paul and did a wholesale coal shipping business from Chicago. The recent acquisition by the Pittsburg company gives it control of nearly all the coal shipping on Lake Superior, as thru its subsidiary companies it owns practically all the docking facilities on the lake.

The Pittsburg company has successively absorbed the Pioneer, the Ohio and the Youngblood & Lehigh companies, and after having digested its most recent acquisition is expected to reach out for more. Messrs. Backus and Clark, local representatives of the Jones & Adams company, say that they are not in position to discuss the deal. What changes, if any, will be made in the local offices and yards have not been made public.

## TUNNEL UNDER TRACK

SEVERAL SPLENDID IMPROVEMENTS DECIDED UPON FOR THE STATE FAIRGROUNDS.

The long-talked-of tunnel under the racetrack at the Minnesota state fairgrounds, will be constructed this season, and opened for the use of teams and automobiles during the fair of 1905. This was decided at a meeting of the executive committee of the board of managers yesterday afternoon at the Merchants' hotel, St. Paul. Those in attendance were W. M. Liggett, C. M. Griggs, C. N. Cosgrove and Secretary E. W. Randall. Mr. Randall was instructed to secure plans and specifications and to advertise for bids for the construction of the tunnel and also to proceed at once with the erection of the newspaper headquarters on the fairgrounds. This building is to be constructed from materials brought from the Minnesota building at the St. Louis exposition with such additions as it may be necessary to purchase locally.

The committee also acted favorably on Superintendent J. S. Bangs' recommendation for the offer of premiums for carload lots of cattle, sheep and swine fed and fattened for the market. This is an innovation at the Minnesota state fair and is believed will do much toward the encouragement of the preparation of livestock for the market.  
Secretary Randall leaves tonight for Des Moines, where he will hold a conference with the officials of the Iowa state fair with reference to certain amusements features planned for next September.

## PINAFORE FOR "BARKEEPS"

Must "Mix in the Presence of the Commissioner," Says Revenue Ruling.  
The barkeeper who mixes drinks and sells them over the bar is a rectifier, according to a strict interpretation of the internal revenue laws. A ruling received at the internal revenue offices today states that no such interpretation has been given to the statute by the department. If the retailer mixes his drinks in the presence of the customer he shall not be considered as coming within the notice of the law and shall not be required to pay a special tax on his drinks. However, if he compounds any quantity of liquor and keeps it in stock in advance of orders, he shall be reported for assessment as a rectifier.

## DREAMED OF MONEY

North Dakota Rancher Had Been Drinking Too Much.  
C. W. Flint, a rancher from Dickinson, N. D., started the residents at the Stratford hotel, Twelfth street and Nicollet avenue, last night, by rushing into the bar shouting that he had made \$25,000 in Chamber of Commerce deals, and was out celebrating. A policeman learned that he had escaped from the Murray institute and was suffering from delirium tremens.

## SMALL SLICE FOR EACH

Four Claimants and Lawyers After a \$300 Reward.  
Four claimants appeared before Governor Johnson this morning for a share in the \$300 reward offered for the arrest and conviction of the man who murdered Alfred Bloom in Lake county, Oct. 15, 1904. The reward was offered by Governor Van Sant, Nov. 4.

Ole O. Hammerberg was arrested for the murder in Hibbing, on advice from the sheriff of Lake county, who was acting on information sent from Grand Rapids. The claimants for the reward are Jesse Harry, city marshal of Grand Rapids; Peter Ring, marshal of Hibbing, who made the arrest; Emil Nundy, sheriff of Lake county, and Neils Sunday of Duluth.
