Doctor McMurdy has removed his office to 330 Syndicate Arcade.
D. L. Cumberly will sing and the Unique theater orchestra will play.
Anna M. Grzawol, chiropodist and electroist at 207 Medical block.

An eleven-room Andrews heating plant was sent to Belmont Park, N. Y.
Hotel Nicolet, Sunday, Dana Metro...
politan orchestra from 6 to 8. Dinner \$1.00 or a la carte.

Sidney Warner, manager of Bonanza Queen mine, will be at 55 Syndicate block from 2 to 4 until March 15.
Members of the Court of Honor are requested to attend the funeral of Martin C. Johnson at the Masonic Temple Sunday at 3 p.m.

Automobile insurance. We have most liberal form and lowest rate. Telephone Insurance Agency, New York Life building.

Subscriptions to all magazines and papers taken to the Century News Store, 6 Third street S., near Hennepin avenue, will receive prompt service.

The Jeffersonian Democratic club of the first ward will hold a meeting tomorrow afternoon at Weingart's hall. Following the business session, a social afternoon will be enjoyed.

Plymouth Christian Endeavor society and their friends will enjoy a social hour in the church parlors March 17. Many new features will be introduced including a "trip to Ireland."

Members of the Y. M. C. A. state organizer of the public ownership party, will deliver an address at Holcomb's hall, 45 Fourth street S. Sunday at 3 p.m. His subject will be "Industrial Freedom."

G. L. Morrill will take a "de-lighted" for his subject at the People's church, Unique theater, Sunday morning at 11. He will discuss the president's attitude toward the Indian scandal, color line, and trusts.

The Congregational ministers will meet Monday morning at Plymouth church. A paper will be read by Rev. C. H. Maxwell of the Linden Hills church on current archeology entitled "The Exploration of Gezer."

The records of the day—deaths, births, marriages, hotel arrivals, railway time-tables, real estate transfers, building permits and other information of interest—will be found, together with want advertisements on page 19 of this issue.

Free for the asking—Journal vest-pocket "Nugget Books," containing nearly 300 bits of philosophy, humor and good sense worth reading. Call for one when you are at the Journal counter or write to the advertising manager and a copy will be mailed.

The Flambeau club, after a week of high life in the cultured and effete east, returned to Minneapolis yesterday. The club attended the inaugural ceremonies in Washington one week ago and has since been sight-seeing. The club was well received all along the line.

Company B of the National Guard, Captain Earl Luze commanding, will take another world's fair trip this summer. Lewis and Clark exposition at Portland. A committee composed of Sergeant Gerrish, Corporal Godfrey and Private White has been appointed to make necessary arrangements.

"Fussy willows" are ripe and the school children are eagerly plucking the tender buds. The appearance of the little shoots on the willow twigs, together with the fact that the boys have begun to play marbles on the sunny side of the buildings is taken as a sign that spring is near, altho the temperature today belies the other indications.

The annual historical contest of the state organization of the Students' Prohibition league will be held in the chapel of the School of Agriculture this evening. The contestants are Miss Gundry Hoffer of Gustavus Adolphus college, Herman Moe of Augsburg seminary, H. C. Lenniger of Parker college, Henry C. Scholberg of Hamline and Miss Amelia Carleton of the School of Agriculture.

The first anniversary of the organization of the Minnesota Transfer railway department at the Y. M. C. A. was celebrated yesterday at Merriam Park. A reception was held from 3:30 till 6 o'clock by the ladies' auxiliary. In the evening the speakers were M. J. Dooley, General M. V. Childs and E. W. Fack. Musical numbers were given by Mme. Inga Olund and Mrs. Ingaborg L. Schreiner.

J. F. Stimmel secured a verdict of \$68, as damages against William Vanderburgh, recently a democratic candidate for the district bench, alleging that on Nov. 17, Vanderburgh assaulted him without just provocation. Stimmel said that he went to Vanderburgh's office to collect some money and the defendant struck him on the side of the face. The defendant denied the charge, but the jury agreed on the amount of damages.

"Stetson Shoes" Spring Styles Ready.
Atgen. Hoffman's Toggery Shop.

A FETCHING PIANO ARGUMENT QUALITY, PRICE AND OUR EASY PAYMENT PLAN.

There is no getting away from the fact that the foundations of the KIMBALL SYSTEM, viz: Quality, Price and our Easy Payment Plan, not only accounts for the steady increase in our business, but these are the only arguments which rightly appeal to all piano buyers. Your choice may be a parlor Grand, a miniature grand, a cabinet grand, upright, or a plain case cottage upright at prices ranging from \$145, 185, 225, 375, to \$750.

But whatever you choose at the Kimball Store you can fully depend upon it that the tag on each piano, in plain figures, establishes the lowest price for the best value, and actually saves purchasers \$55, \$75 to \$100, according to style selected.

Moreover our easy payment plan (at cash prices) makes piano buying easy, and if you need an instrument, our good pianos and low ONE PRICE will surely make you our customer if you see our goods and get our prices and terms.

If you cannot call, write us today for bargain bulletin, terms and prices. Catalogues free.
FREE. To those who ask or write at once, a book of National Songs, words and music.

W. W. KIMBALL CO. MANAGER
FACTORY BRANCH 727 NICOLLET AVE.

PLAN TO DIVERT BASSETT CREEK

RETARDS DEVELOPMENT OF PART OF CITY.

Allan Named for Smoke Inspector
Without Opposition by Council—Application for Theater License for Columbia Turned Down—Departments Handicapped by New "System."

Bassett creek, which has for years hindered the development of the northwestern part of the city, may not be allowed to flow into the city limits after this year. At the council meeting last night, Alderman Starkweather asked that a committee be appointed to investigate a plan to divert the waters of the creek so that they would flow into Cedar lake. His request was granted.

Carl Istrup, sewer engineer, has been working on the problem for several months and says that most of the water can be easily run into the lake, and possibly all of it. If the stream is diverted, a sewer running thru the city to the river would carry the overflow caused by the spring floods. The total cost would be about \$300,000. The park board plan of connecting Cedar lake, Lake of the Isles, Calhoun and Harriet rivers would carry the overflow into Cedar lake. The plan was referred to the same committee, consisting of Aldermen Starkweather, Gerber, Satterlee, Munn, Hertig, Nelson, McLuskey, Clark, Casner, Anquist, Peterson, Ehlb and Van West.

J. W. Allan, park commissioner and a prominent republican political worker in the seventh ward, was elected smoke inspector. His salary will probably be fixed at \$1,500. The threat of some of the aldermen to contest the appointment on the grounds that the health department is not a city department, was not carried out and the report of the committee on health and hospitals was adopted without debate.

The recommendation of the license committee against the granting of a license to Mrs. Emma McCarthy to conduct a theater in the old Columbia building, 208 Washington avenue S., was adopted. The Jones-Casner-Dickinson-Wilmut company notified the council that more can be done for the city's accounting system. One will require that all checks on banks should be signed by both the city treasurer and the controller. Other changes of less importance are to be made.

It has developed that some of the city departments are handicapped by this system and City Engineer Andrew Rinker asked the council to appoint a committee to look into the working of the system in his department. Alderman Peterson notified the council that the poor department was hampered by the new system and the committees on ways and means and accounts will look into these complaints. The building inspector was authorized to draw plans for a new curb on the first department at Hennepin avenue and Thirty-sixth street. The new station will cost, approximately, \$14,000. The new curb will be read at the next council meeting. Alderman Holmes gave notice that he would introduce an ordinance regulating the width of streets and avenues in the city and Alderman Clark will introduce the new building ordinance now being drawn up by Building Inspector Hough-

Contractors were led to draw the interior of pumping station No. 3, and for repairing the plumbing at the South Side police station. The council refused to allow the claim of the Salvation Army and damages to the dynamo in the old city hall building.

For the accommodation of those attending Parsifal, we will open our Tea Rooms and Cafe during the intermissions between first and second acts, and serve a light supper for \$1.00 per plate. Arrangements may be made in advance for private rooms or tables for dinner parties, an important consideration, as any possible delay in the performance of Parsifal is to be avoided. Donaldson & Co., The Glass Block Store.

COLLIDED WITH TROUGH
Bad Smashup Results in Serious Injury to St. Paul Firemen.

Truck No. 4 of the St. Paul fire department collided with a water trough at the junction of Deseronto, Edgerly and Beaumont streets in the city yesterday afternoon. The five men on the truck barely escaped death. Dan Moran, tillerman, had four ribs broken, his head badly lacerated, and his right hand injured; Henry Kelly, ladderman, had his spine injured and Captain Henry Nunemaker was slightly bruised. Ladderman John McGuire was the only man injured.

MANY NEW CITIZENS
Two Per Cent of Year's Crop of Foreigners Come to Minnesota.

Minnesota ranks third in the number of immigrants which have come to any one of the states of the north central division during the past fiscal year, according to a report issued by Commissioner General E. P. Sargent of the United States immigration bureau.

Minnesota received 16,425 foreigners, 2 per cent of the total number who came to this country during the twelve months. Of the 16,425, 4,829, including children, had no occupation, 106 were professionals, 1,953 were skilled laborers and 9,537 had miscellaneous occupations.

The total alien population of Minnesota is 24,946, or 1.4-1.9 per cent of the total population of the state. The public health and welfare departments of Minnesota take care of 486 aliens, or 9 per cent of the total number of inmates of such institutions.

NEW INCORPORATIONS.
The following articles of incorporation have been filed with the secretary of state:
Calumet Iron Mining company of Duluth. Capital stock, \$200,000. Incorporators: William J. Atwell, Superior, Wis.; Thomas F. McGilvray and John H. Norton of Duluth.

Rice County Rural Telephone company of Faribault, capital stock, \$100,000. Incorporators: G. G. Chase, W. T. Mollison, Cora B. Mollison, all of Faribault.

The last lecture of the series arranged for the membership of the Minneapolis Society of Fine Arts will be given by Professor F. L. Leroux, secretary of the local branch of the Alliance Francaise, "Marie Antoinette," March 22. Professor Leroux has been doing much research work on this subject and has unearthed documents which he believes have not been used in any previous story of her life, as historical evidence.

Minneapolis and St. Paul Shriners will journey to Omaha for the ceremonies of Tangiers Temple on April 26. Potentate John F. Yates and M. H. Collins and P. F. Thomas of the Omaha shrine came to Minneapolis to extend the invitation. At noon yesterday they were entertained at a lunch at the West hotel by several local Shriners. It is expected that a large delegation from the twin cities will make the pilgrimage.

SAV THAT UNION IS TYRANNICAL

PLUMBERS HAVE SERVED NOTICE OF NEW SCALE.

Master Plumbers Declare They Are Facing a Serious Situation and Meet at a Loss as to the Best Way to Meet It—Talk of Going Out of Business—The New Demands.

Local union No. 15 of the United States Association of Journeymen Plumbers and Gas Fitters has served notice on master plumbers and plumbing contractors that a new scale will go into effect April 1. In addition certain privileges are demanded over and above the master plumber's old rules. The master plumbers say they are facing a serious situation and are at a loss to know whether to accede to the new rules or go out of business.

"I have been in the plumbing business for twenty years," said a well known master today, "but if the local is to continue its demands much longer, who knows what will be the result. The public likes to jump on us on account of our charges. We are called pirates and everything else, and all the funny papers every winter take shots at us."

"I want to show you what we are up against. In the first place the union demands, under the new rule, \$4.50 for a day of eight hours. The old scale was \$4. After making a hard and fast rule fixing the hours and the pay this clause has been added: 'No less than four regular hours shall be required for any employer for any work performed during either half of any one day. When a member reports for work at 8 a.m., at shop in which he is working, he shall be notified to report for work, and is not put to work, he shall be entitled to and receive four hours' pay. This means that if he has a small job, he must pay him the full half day's wages. I cannot, however, charge it to the customer, but he is charged with it. He demands a half holiday on Saturday, and we are not to be compelled to pay for more than that one half."

"The new scale is a real problem we have to contend with. When we have a job outside of town we must pay all railroad fare and board and in addition regular time and in working, and in regular time, then laborer employed by a master plumber cannot do any work inside a building except digging. Another rule prohibits the use of certain joint devices which are easily applied and in addition states that all die work, on everything except the largest pipe, must be done by hand and not by machine, which is much cheaper and quicker."

"Article 13 prohibits the use of bicycles during working hours. If I stop to look at my bicycle, or even to get out on a little hurry-up job on my bicycle, I would be turned down. We are not allowed to hire or have any apprentice, but being in the shop to learn the business every union man in the place would walk out and I would be called on by the business agent. There are not enough good plumbers now and no way of getting more, but by training them. If an employee wants to talk to me about the business or any matter connected with it, he must do so in his own home hours only and draw his pay for it."

"One of the worst rules is Article 18, which reads as follows: 'No member shall work in any shop where more than one master plumber handles tools, said master to be designated as the one who is to handle the tools.' According to this rule two practical plumbers who handle business matters cannot both work. One must be designated as the one allowed to work in the shop and the other cannot, under any circumstances, handle the tools."

"There are other restrictions, but these will give some idea of what it costs to be a master plumber. The situation is growing worse and worse, with no prospect of relief in sight."

ST. PAUL VEXED

Strong Language Used Regarding Street Railway Affairs.

The Eighth Ward Improvement association of St. Paul has turned its back on Corporation Attorney Michael. At its meeting last night, the association, President E. M. Dolan, was applauded as he said: "We were betrayed by the corporation attorney. The remark was, 'I bring you a document which is a compromise agreement between the city and the St. Paul City Railway company.'"

The association had expressed its complete adherence to the policy of the city attorney in dealing with the company. Last night the same association deplored the sudden change of front on the part of Mr. Michael and demanded that the council rescind its action in passing the compromise act. It urged a mass meeting call for some time later this month, and the association also put itself on record as being "unalterably opposed to any compromise which sequesters the common heritage of the people of the streets for the benefit of a traction company, and demands of its representatives in the council that the corporation counsel be at once instructed to comply with the demand from the decision of Judge Lochren."

AN ALASKAN LECTURE

John W. Arctander to Tell of His Observations in the North.

John W. Arctander spent two months last summer in Alaska, gathering information as to the history and experiences of Father Duncan, the missionary to the Tsimpsian Indians, as well as obtaining material for the folklore and the conditions of these Indians. He has prepared a new lecture on the subject, which he calls "The Apostle of Alaska." It has been secured through the colored stereopticon views of the settlement, the public and private buildings and the life of the Indians.

This lecture he will deliver at the Bethlehem Norwegian Lutheran church, Eighteenth street and Fourteenth avenue S., next Monday evening at 8 o'clock, for the benefit of the organ fund of that church. His operator will at the same time exhibit several moving pictures of interest from Alaska, including a reindeer on showing hydraulic mining and Mr. Edison's celebrated "Shooting the White Horse Rapids."

WATER BONDS MEETING

Legislative Delegation Will Hear Arguments Monday Night.

The public of Hennepin county is invited to attend a meeting in the city council chambers Monday evening to consider ways and means for the issuance of bonds for the much needed filter plant. The meeting is called at the instance of W. W. Bardwell, chairman of the Hennepin delegation in the house. Mr. Bardwell has drafted a bill which is expected to be introduced in the legislature, to permit the city to issue the \$1,000,000 in bonds for the filter plant.

The records of the day—deaths, births, marriages, hotel arrivals, railroad time tables, real-estate transfers, building permits and other information of interest—will be found, together with want advertisements, on page 19 of this issue.

TO FIGHT THE WHITE PLAGUE

CIRCULARS BEING SENT OUT TO ALL CLASSES.

Anti-Tuberculosis Committee of the Associated Charities Points Out the Grave Dangers of the Disease That Kills One in Six of All Who Die—Campaign Under Way.

Circulars concerning the "great white plague" were received from the press this morning by the Anti-Tuberculosis committee of the Associated Charities and will be sent to citizens of all classes. The circular states the urgent need of the co-operation of all good citizens in the fight against consumption is the most common cause of death and the greatest source of poverty and suffering in the country. One in six of the world's population dies of the disease, 150,000 deaths in the United States last year being due to tuberculosis, and in the past ten years in Minneapolis one death in every nine. Two-thirds of the deaths occur between the ages of 15 and 30, and all grades of society are attacked.

It is stated that to make a fight against the disease it is necessary to have a sanatorium in Minneapolis where cases can be isolated. Of the largest cities in the world London has the least number of deaths from consumption and this is explained by the fact that for the past eighty years patients have been provided in special hospitals. The United States lacks such a place.

It is recommended by the committee that, first, the public should be thoroughly educated in the cure and treatment of the disease by public lectures by prominent physicians and by literature; second, that special treatment at the free dispensaries and clinics should be provided for tuberculosis patients; third, that there should be a relief fund for indigent consumptives in their homes until a sanatorium or hospital accommodations are provided. The visiting nurse association and the Associated Charities will co-operate with the committee in carrying out these suggestions.

Several cases are cited of particularly interesting cases, one example being that of a widow and four children who were found all sleeping in one bed. The mother was in the last stages of the disease, hopeless and forlorn. Altho material needs were supplied by the Associated Charities, the mother was too ill to properly control her children, and they were exposed to the danger of infection.

If you can find as good a cigar, don't buy the "La Marlowe"; but you can't; and leave it to you. You feel you have your money's worth.

FED THE "AGGIES" ON MACARONI WHEAT FLOUR

Members of the faculty of the state agricultural school have been playing jokes on the fourth sense of the students. For six weeks the epicureans who sit around the well laid table have been eating bread made from macaroni wheat flour. Not one of the students has realized that he has been made the subject of a test which may be momentous in the history of the wheat market. The faculty, not hearing any kicks, are enthusiastic over the test. The students have not been heard from.

John A. Yye, of the faculty explained yesterday that the flour came from Minnesota, N. D., and is much cheaper than ordinary flour. The bread is a trifle more yellow than that made from Minneapolis flour, but good for eating, working the dough longer than usual, secures surprising results. A mechanical kneader has been installed at the mill, which makes it possible to work the dough thoroughly.

Why Endure Pain

the excruciating misery of blind, bleeding, itching piles, when there is an absolute cure? Dr. Perrin's Pile Specific is an internal remedy that painlessly produces a positive and lasting cure. Pleasant to the taste, it is absolutely free from opium, cocaine or other injurious drugs. Simply take a spoonful three times daily before each meal.

Dr. Perrin's Pile Specific

The Internal Remedy
For dyspepsia, indigestion, constipation, biliousness, catarrh of the stomach and kindred ailments it is the greatest remedy that has ever yet benefited mankind.

Think what a relief it would be to you to be rid of these troubles and to avoid the almost certain consequence of Piles.
Dr. Perrin Medical Co., Helena, Mont.

Mothers' Only Safeguard for Children's Eyes

WORMAN'S FREE SCOPIC EYE TESTS
To save a child's eyes saves his mental powers. Card tests are reliable. Scientific means are used.

ADDS TO HISTORY TWO HARBORS HEALTHY

Warren Upham Writes of Work of Grosveillers and Radisson. Only Eight Deaths, with a Population of 3,278.

The Minnesota Historical society has issued, as a part of its collection, the monograph on "Grosveillers and Radisson, the First White Men in Minnesota," compiled and written by Warren Upham, secretary of the society. The work is the result of careful research by the author who has unearthed much new material and thrown much light on this early period of the history of the state.

The lives of these men were picture-tresquely adventurous and full of thrilling experiences, making the tale one of absorbing interest. While their relations with the French and English governments are death with special attention is given to the period of their visits to Minnesota and the northwest.

Vital statistics prepared for the past calendar year by the state board of health show that Two Harbors is the healthiest city in the state, having had but eight deaths. Its population is 3,278. In Minneapolis there were 2,431 deaths, St. Paul 1,850, Duluth 727 and Winona 888.

Tuberculosis in various forms claimed 1,998 deaths; tuberculosis of the lungs claimed 1,775, and other forms of the disease, 223. Deafness claimed 1,541; bronchitis, 248; diphtheria, 282; croup, 61; scarlet fever, 185; measles, 23; smallpox, 31; whooping cough, 63; cancer, 105. Deaths from smallpox decreased from 54 the previous year to 31 last year; typhoid, from 376 to 363.

The story of the thriftless life of Algernon Silverspoon in seven clever pictures. The other six to be had at the Bank.

"HORRID WAR."
