## ABLE CRAFTSMEN FOR SUMMER WORK

### ART INSTITUTE WILL SEND JEWELRY AND POTTERY TEACHERS.

Faculty of Handicraft Guild Summer Industrial School One of Strongest in the Country—Local Craft Workers Will Assist Ernest A. Batchelder, James Winn and Miss Murphy.

Arrangements are complete for the faculty and plans of the Handicraft guild summer industrial art school in the North End of Boston. The second annual, June 19 to July 19. The faculty secured will give the new institution rank at once with the best summer schools in the country.  
The instruction will be grouped around the course in design to be given by Ernest A. Batchelder of Throop Polytechnic Institute, James Winn of Chicago, one of the greatest jewelry designers of the country and a practical craftsman, instructor in jewelry and metal work at the Art Institute, will teach the same work here. Mr. Webb of the Art Institute will superintend the installation of the pottery wheels and the general equipment for pottery classes which are now going on and are a part of the permanent work of the guild. The special instruction in the summer school will be given by Mr. Webb's assistant at the Art Institute, Miss Willett.

The special craft work, adapted to the public schools, will be taught by Miss Nelbert Murphy of the manual training department of the public schools of East Orange, N. J. Miss Murphy was formerly a Minneapolis woman and a teacher in the Minneapolis schools, going to Pratt Institute to prepare for her present work. All of the workers of the local guild will act as assistant instructors in their craft. They include the manual training teachers, Misses Mary Moulton Cheney, designer; Edith Griffith and Winifred Cole, bookbinders; Grace Kiess, potter; Mrs. Bertha Lunn, wood-block printing and planing; Carice Woodruff, sculptor and painter.

The art room of the public library will co-operate with the summer school work in arranging special exhibitions of books on the various subjects as they are desired by the instructors and by providing the book material for the classes. All of the collections of the city will be used to supplement the class work.  
The transformation of the old residence into studios and workshops is an interesting illustration of artistic planning and workmanship. The exhibition rooms of the guild occupy the former drawing room and a very large room back of it, made by removing several partitions. The large room will also be used as a lecture room. Its decorations are in soft shades of greens and neutral browns. The furnishings are simple, the ornamentation being chiefly a few handsome rugs and the skillful disposition of the collection of art wares on exhibition. The front room is employed largely for the removal of the work. The room is decorated with a few pieces of green and blue predominate tones, so these colors have been made the decorative scheme of the walls. The woodwork is in black.

The rear rooms will be used for the clay, and metal workers and are equipped with tables, storerooms, boxes and shelves which will be set up in these rooms. The studios of the artists and craftsmen are on the second and third floors. In being grouped, there is no doubt that their work will secure recognition more readily, as people will know where to find them.

### KNICKERBOOKERS HERE

Joseph Robie's Burlesques Entertain at the Dewey.

Joseph Robie and his Knickerbocker burlesques at the Dewey theater this week with an exceptionally good entertainment.  
Mr. Robie was never a stickler for the old rules of burlesque and his show this year is no exception. His idea has always been to do away with the olio, and to make more of the regular burlesque. This does not necessarily mean that there is any lack of good specialties, but the emphasis is placed where the lines are likely to become tiresome.

There is one burlesque arranged in two acts. It is entitled "Riley's Speech" and is simply an arrangement of the one-act farce presented by this company last year. There is ample opportunity for good comedy work and the lines are replete with up-to-date humor. The show is beautifully staged and the chorus is elaborately costumed. Several song hits are introduced for the first time in Minneapolis. The ensembles are well arranged and several new features are introduced.  
A male quartet adds to the musical success and the jewel ballet has a variety of specialties which are well adapted to the stage.

The Dewey has fallen in line and adopted the moving picture feature and there are some interesting films this week that contribute largely to the success of the show. On the whole, the entertainment is full of dash and interest and devoid of loud horseplay.

### LINDAHL MISSING

Friends Fear Former Patrolman Has Committed Suicide.

Swan Lindahl, the policeman arrested for burglary and armed robbery, and his bondsmen fear that he has committed suicide. He wrote a note to his wife saying he would end his life and his attorney asked that he be re-arrested. He has not been seen since that time, and it is feared that he has carried out his threat.  
While some are certain he committed suicide, others believe he has left the city to avoid trial.

### NEED NOT OPEN BOOKS.

Thru a mistake the statement was made in Saturday's Journal that Judge William Lochren had issued an order to compel the Deere-Webb Implement company to submit its books to an examiner on petition of the Dowsagiac Manufacturing company of Dowsagiac, Mich. The item should have read, "Judge William Lochren refused to issue an order." Violations of the patent law were alleged.

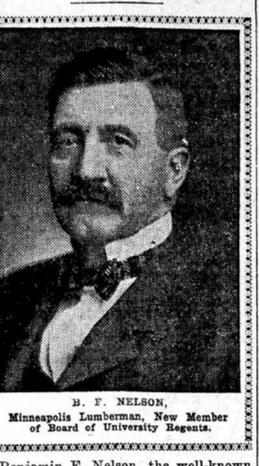

### LARGEST IN THE WORLD

North American Investment Company Increases Its Security Deposit to \$500,000.

Special Dispatch.  
Jefferson City, Mo., March 24.—G. L. Williams, treasurer of the North American Investment company of the United States, the home office of which corporation is in St. Louis, was here today and increased the company's deposit with Hon. John F. Gmelch, treasurer of the state of Missouri, to \$500,000 for the security of the company's bondholders. Only a few months ago Mr. Williams increased this deposit to \$350,000, and the half million now reached is the best possible evidence of the growth and prosperity of the North American Investment company. The company's savings investors of the company's coupon interest-bearing gold bonds. The deposit thus made is the largest made by any similar company in the world.

## NELSON, VICE LIGGETT

### WELL-KNOWN LUMBERMAN SUCCEEDS THE DEAN OF THE AGRICULTURAL SCHOOL ON THE BOARD OF REGENTS.

B. F. NELSON, Member of Board of University Regents.

Benjamin F. Nelson, the well-known lumberman, has been appointed a member of the board of regents of the state university. He succeeds William M. Liggett, dean of the agricultural school at St. Anthony Park, who resigned Saturday afternoon, and will serve for the unexpired term ending in 1909.  
Dean Liggett has served on the board of regents since 1888, when he was appointed by Governor McGill. Since his election as dean of the agricultural school there has been agitation against his serving as a regent, and at the last legislature and again this winter bills have been introduced for the purpose of legislating him out of office. The bills have been killed each time. Dean Liggett says he was willing to resign as regent on account of his heavy duties at the farm school, but he would not resign under fire.

Nelson is a well-known friend of the university, living only a few blocks from the campus. He is now vice president of the board of managers of the state fair. He is a democrat in politics.

## HOTEL CLERK STABBED BY MIDNIGHT BURGLAR

Robert Shaver, night clerk of the Windsor hotel, 119 University avenue SE, received several painful knife wounds in a fierce hand-to-hand encounter with a burglar who broke into the hotel kitchen at midnight Saturday. The burglar escaped, although he was severely injured by being hit in the face with a heavy padlock thrown by William McKee, proprietor of the hotel. Charles McKee, who took part in the affray, escaped without injury, as did McKee.  
The burglar, giant in size, gained an entrance to the kitchen by prying open a window, and was enjoying a feast when the trio, awakened by the dining-room girls, who slept in a room adjoining the kitchen, descended upon him. The burglar, descended upon them with a butcher knife, fought his way out of the house and made his escape.

### YSAYE IS COMING

Belgian Violinist to Be Heard at the Auditorium.

Ysaye, the great Belgian violinist, will give a recital at the Auditorium on the evening of April 15. He is the highest-priced instrumentalist in the United States this season, and Manager Johnston confines his tour to the large cities. Already Ysaye has played with unbounded success in New York, Boston, Chicago, Montreal, Pittsburg, Philadelphia and other cities, and so far some of the value of his office receipts were concerned, these concerts broke all records for violinists.  
As great as was Ysaye when he was in the United States seven years ago, it seems to be a unanimous conviction that he is still greater now. It is likely that any person now living will ever hear his equal.

### THEY SHOULD BE HUNG

G. L. Morrill Speaks in Favor of Capital Punishment.

Rev. G. L. Morrill, pastor of the People's church, spoke yesterday on "Why Shouldn't He Be Hung?" in which he upheld the present law of capital punishment for those men who commit murder.  
The murder record, he said, is becoming appalling, and if the capital punishment were abolished, a worse condition of affairs might be expected. To minimize penalty, he said, was to increase crime. Murders in Minnesota should be and would be fewer with a strict law penalty for those who take human life.

### VINEGAR WEAK

Ten Samples Tested Are Below Standard of Strength.

The examination of food articles by the state dairy and food department during the past week covered 135 samples of vinegar. Of these, 10 were legal and 39 as illegal. Ten out of forty-one samples of vinegar were below standard in acetic acid, and eight samples of catsup out of twenty-two were found colored artificially. Only two samples of maple syrup out of eight were found pure, the rest being mixed with cane sugar or glucose.

### SOO GETS BUSINESS

Earnings in March Show a Remarkable Increase.

Soo earnings for the third week in March made a surprising increase, showing a gain equal to 59 per cent. The figures are \$179,306, compared with \$112,254 for the corresponding week of last year. For three weeks the Soo earned \$498,375, against \$333,671 for the corresponding period of last year, or a gain equal to about 50 per cent.

### GREAT "AD" FOR MINNEAPOLIS

Minneapolis Real Estate Dealer Seeks Big Space in a Chicago Paper.  
W. W. Moore, the well-known Minneapolis real estate dealer, with offices in the Bank of Commerce building, had a striking full page advertisement in the Chicago Sunday American calling attention to the great opportunity for investors in Minneapolis property. The advertisement is a very strong one and states that to buy Minneapolis real estate is like finding gold dollars. It also declares that Minneapolis is the cleanest city in the Northwest, and that property here is bound to double in value within a short time.

## CREATORE'S RISE HAS BEEN A RAPID ONE

Creator and his wonderful Italian band will appear at the new Auditorium April 7 and 8 for three popular concerts. There will be two evening concerts and a matinee Saturday, April 8, all at popular prices. This great leader and his hand-picked band has attracted the attention of music-loving people all over the country, and Minneapolis is particularly fortunate to get them for the first band concert ever given in the Auditorium.  
The blossoming of Creatore as a full-fledged bandmaster is perhaps familiar history. Only three years ago he was playing a trombone in Ellery's Royal Italian band. One night the regular conductor fell sick, and Creatore was called on to direct the concert. He was a sensation. The man was music-mad to begin with, and crammed full of tropical, sizzling temperament. He conducted in a manner that was unique, unconventional, amazing. Creatore awoke a great admirer. He was a man of no conductor recovered, but there was no place for him. The commercial eye of the manager was clear and quick. To the former master he said, "Nay, and to Creatore: 'Go it. Cut our half! Repose and quiet? Settle down? Never! Just fight it out along your own line.'"  
And then came a time when Creatore began to appreciate the money-making qualities in himself. His eccentric nature manifested itself in efforts to run both ends of the band business as well as art. Ellery wouldn't have it. Creatore quit.  
Two young men who had had experience in managing bands then literally pounced on the Italian with a contract, proposing a new organization and giving him a one-third interest in the same. They borrowed money on a contract to play Creatore's band at Hammerstein's roof garden in order to bring the musicians together. And Creatore brought languid New York to worship at his shrine.

### FOR POOR HEBREWS

Their More Fortunate Brothers Give Liberally.

The greatest entertainment in the Jewish history of Minneapolis was given by the Omaha Zion association in Third Ward Republican club last night. Two hundred people were present and \$1,200 was realized for charity. The opening address was made by Chairman S. J. Shalett, who spoke as follows:  
We are assembled this evening to devise means by which we can secure to all our poor brethren of the covenant, the unlearned bread necessary to proper observation of the passover. The keeping of passover is in commemoration of the exodus, the transition from slavery to freedom, marking the beginning of that political and religious organization in Israel thru whose influence the world has been transformed from the polytheistic and idolatrous systems of monarchical paganism, step by step, to representative government, wherein the people, not as slaves, but as freemen, have a voice in the affairs of the government. All the forms of republican government are founded in the Mosaic system and so well expressed by the martyred Abraham Lincoln—a government for, and of the people. Moses established the beginning of the earth, must eventually realize that the government is the only safe and reasonable form conducive to the progress and peace of the party.

There are two national holidays celebrated by two distinguished people, first, the Jewish people, observing the passover, and the American citizens celebrating the Fourth of July. To the credit of Jewish blood, it must be admitted that in the darkest hour Israel was ever true to the principles inculcated by Mosaic law, and refused to embrace the mad, the soul, the body was shackled by the hand of tyranny.  
Even in bigoted Spain, the Jew, true to his republican instinct, still holds firmly to his religious and political convictions, so he could not break away from his racial instinct, and when he could no longer do so openly, he celebrated the passover in secret, and taught his people the meaning of passover, the rescuing from slavery by an almighty hand and the bestowing and granting of liberty, controlled by just, equitable and righteous law.

Dr. Samuel Deinart of the Jewish Reform congregation also delivered an address.

### MEMORIAL DAY PLANS

General L. A. Grant to Be Orator of the Day.

General L. A. Grant of Morgan Post, has been chosen orator for the Memorial Day celebration, and James H. Abbott of Appomattox Post will be marshal of the parade. At a meeting of the Memorial Day committee in the offices of the county commissioners, at the courthouse, Saturday night, Hermann Vogt acted as chairman in the presence of A. B. Robbins. It was decided to ask the school children to furnish potted plants as was done last year.

### RAIDING CHURCHES

Sneakthieves Have Operated in Two Places Within a Week.

Thieves raided the First Presbyterian church, Park and Tenth streets, and Ninth street last night, and stole \$10. The police think boys in the neighborhood committed the theft.  
A sneak thief entered the pastor's study at the Park Avenue Congregational church, Park and Franklin avenues, Wednesday night, and stole a small sum of money from the desk.

### LOOTED SUMMER COTTAGES

Summer cottages owned by St. Paul citizens at White Eber, Bald Eagle and Lake Shore were opened by a caretaker yesterday, and it was found that they had been broken into by a gang of tramps. While not completely rifled they had been damaged severely. Windows were smashed and doors torn down. The damage will amount to more than \$3,000.

### WHY NOT SOLVE THE HOT PROBLEM FOR THIS SEASON BY JOINING THE GORDON RATS?

**Gordon HATS**  
G (soft or stiff), in black, won't rust when the spring rains come. They're raven black at the beginning of the season, and just as black at the season's end. Only a perfect hat will hold its color. But it needn't cost you five dollars.

## Gordon Hats \$3

### A Practical Illustration.

Just to illustrate the quiet efficiency of our service to Eyeglass wearers, let us mention the PIVOT GUARD. It is a nose-guard capable of an infinite number of different adjustments, and a great proportion of Eyeglass patrons are wearing it.  
They do not know it; they know only that they are quite free from eyeglass annoyances. We know that they could not be so comfortable and contented with any other form of Eyeglass. They could not have secured this one ANYWHERE ELSE. It is our invention—our exclusive property.
