

Miss Mabel Bosworth gave a parcel shower this afternoon at her home on Third avenue SE, for Miss Helen M. Huntington, a bride of April. It was a green and white affair and Easter lilies and palms carried out the color scheme in the parlors. The gifts were arranged in a green and white booth, and after they had been examined there were two amusing guessing contests on matters pertaining to a bride or a wedding. Lunch was served in the dining room and white carnations and ferns formed the centerpiece. A cluster of Easter lilies tied with tulle decorated the bride's face, and at the other covers were dainty bouquets of green and white with the bride's photograph. Mrs. Roderick Lee Brown aided Miss Bosworth and the guests numbered twenty.

Covers were laid for twelve and the name cards were in the shape of shamrock and tied with green ribbons. The bride's place was marked by a bunch of carnations and a large green bow tied to her chair. The refreshments and decorations were carried out in green and white. The next meeting of the G. H. girls will be with Miss Anna Peterson on Lyndale avenue N.

A very pretty affair was the paper party given by Miss Grace C. Horton to her Saturday afternoon class in dancing, at the R. A. hall, Nicollet avenue and Lake street. The hall was elaborately trimmed with paper garlands and the children dressed in paper costumes. The opening figure of the cotillon was a grand arabesque and was followed by many other pretty figures, for which the favors were all of paper. Miss Horton was assisted by the Misses Mildred Merriman, Florence Graves and Grace Moyneaux. Miss Elizabeth Woodcock was at the piano.

FORTUNE IN FOUNTAINS. Voegel Bros. Have Ordered Two Soda Fountains that Will Be Ahead of Anything of the Kind in the Country.

Twenty-four thousand dollars seems an immense sum for two soda water fountains, but this is just what will be paid by the Voegel Bros. for two of the handsomest dispensers in the United States. They are in the process of architectural construction and the manufacturers are already at work on the two fountains, and they will be installed in the two Voegel stores by May 15. Each fountain will be twenty-six feet long, and they will be made of Sienna marble, onyx and mahogany. They are to have the very latest improvements. They are to be constructed with the ideas in view of perfect sanitation and speed in the dispensing of delightful drinks. The type of fountain is known as the "Innovation Sanitary Fountain," and the makers, the American Soda Fountain company, have built the best-known fountains in all the big cities of the country.

The fountain in the Washington avenue store was built ten years ago by the same company. Since that time there have been many innovations in soda fountain construction, and the more progressive firm of Voegel Bros. are bound to have the very latest and best. Thousands of dollars are also to be spent in improvements on their existing stores. The one at Nicollet and Seventh is to be extended back to the alley, giving the store an addition of 540 square feet of space. The other is now busy tearing down the brick wall on the Seventh street side. The wall will be replaced with great plate-glass windows.

The floors will be of tile, the ceiling of steel and the interior finishing in mahogany. The cases will all be of plate glass. The prescription department will be a duplicate of the one in the Washington avenue store. When the work is completed Minneapolis will have two of the best-appointed drug stores in the United States.

CONRIED FORCES NOW COMPLETE IN MINNEAPOLIS.

Began Arriving Saturday and Rear Guard Reached the City Today—Parisian Cast Leaves for Omaha Tomorrow Ahead of the Main Body—Miss Fremstad Feels Aggrieved.

While the special opera train of eleven cars arrived in Minneapolis at 8:30 last night, some of the principals of tomorrow's performance delayed coming until today. Olive Fremstad and the other members of the "Parisian" cast arrived Saturday to rest, preparatory to their performance tonight. The arrivals this morning were Mrs. Semberh, Nordica, Homer, Miss Alten and Dippel. Caruso arrived yesterday afternoon. Tomorrow the members of the "Parisian" cast will go on to Omaha. It is their custom to precede the company, as they open all of the engagements. The movements of the great organization of 260 people are guided by Ernest Goerlitz, manager Conried's personal representative, who accompanied the special yesterday. Mr. Goerlitz has been connected with the management of the Metropolitan opera house in New York for twelve years. He began with Abbey, Schoeffel & Grau, continued with Maurice Grau and his retention was one of the first matters arranged by Herr Conried when he took the management of the house.

Risks Are Great. Mr. Goerlitz is not very encouraging about the prospect of continued tours by the great company as the expense is great and the details difficult. Unfavorable business for a short time would wreck the financial success of such a venture. The business in Chicago last week broke all records, coming up to about \$50,000. In proportion Minneapolis will do equally well for three performances, and it is certain that it will be included in future tours, if they are undertaken. The house for "Parisian" has been sold out for nearly two weeks and it seems likely that nothing will be left for the two performances tomorrow.

The tour includes Omaha, Kansas City, a concert in Salt Lake City; San Francisco and Los Angeles. After this the "Parisian" cast alone will make a return tour thru the south, giving single performances of "Parisian". The stage carpenters directed by Ernest Castelbert have been at work since Friday putting in the equipment for

"Parisian." Mr. Castelbert, an expert in stage technique, is delighted with the Auditorium stage, and expects to give a wonderful scenic presentation. This will be doubly appreciated in Minneapolis, where previous grand opera performances have been marred by inadequacy in this respect.

Miss Fremstad Grieved. Miss Fremstad, who sings Kundry tonight, feels grieved at the impression which has gained a strong hold in Minneapolis that she regards her old home and friends in a supercilious light and is averse to being reminded of her humble beginnings as a musician in this city. To an interviewer she said that she was looking forward to singing in her old home with greater pleasure than she has felt in any other place. Altho a Scandinavian by birth, she records Minneapolis as the starting point of her musical development. Her musical education has been secured largely by her own efforts. Altho she thinks America produces the finest voices in the world, she does not think that fact is appreciated, and for that reason the voices are not fostered by proper education and care in the beginning.

The street railway company provided special cars for St. Paul residents coming to "Parisian" today. Three cars left the Ryan hotel at 8:28 and at intervals of five minutes over the interurban line, and three left Seventh corners at 8:38 and intervals of ten minutes. The cars were run as specials and left their passengers at Eleventh street and First avenue S.

CROWDS AT HOTELS. Clerks Have Their Troubles With Stars and "Chorus Persons."

Every hotel clerk in Minneapolis holds a full house today. From all sections of the state and from many distant points, Governor E. Y. Sarles and a party from Bismarck are at the West.

Under a ruling of the department, the children of an Indian who has married a white man since June, 1897, are not entitled to annuities or the benefits of the act. The ruling will not affect many on the reservation, as marriages among white and Indians are rare.

SAVING FOR THE STATE. Sewer System at Grafton Will Be Completed.

MAYVILLE, N. D.—While driving near Portland Junction, about six miles north of here, a local man saw a meteor falling from the normal school saw a falling meteor. Starting from a point due east, it traveled in almost a horizontal course for about thirty degrees in a southerly direction, disappearing some ten degrees above the horizon.

The sun shining brightly in an almost perfectly clear sky, which made the brilliancy of the falling body all the more remarkable, while the intermittency of its light suggested the interference of the reflected sun's rays, as well as of its light, by the heated strata of the lower atmosphere. The trail of light, while shorter, seemed as broad and dense as that seen in the largest of "shooting stars" at night.

MAYVILLE, N. D.—The winter term of the state normal school closed last week. The spring term will begin April 1. The term just closed was the largest and best in the history of the school.—L. E. COMPROMISE IN INSURANCE CASE

EDWARDS-WOOD COMPANY THE CHIEF PRINCIPAL

Jury in Second Trial Holds Insurance Company for Its Share of Losses on Denbigh's Elevator, but Not for the Loss on Grain in Which Commission Firm Was Interested.

Special to The Journal. Fargo, N. D., March 27.—The long-fought insurance case in the United States court resulted in a compromise verdict. The London, Liverpool & Globe Insurance company was sued by the Denbigh Farmers' Elevator company for losses on the building and grain. The Edwards-Wood Commission company was the mortgagee of the elevator and was the interested party in the case.

It was claimed there was \$18,000 worth of grain in the elevator at the time. The jury held the insurance company for its share of the losses on the building, but not for the loss on the grain. Two other companies carried insurance on the building and grain and cases will follow. The action was tried at the term at Grand Forks and resulted in a disagreement. It is asserted that the amount of the wheat was saved and some of it sold for milling and some for seed. Judge Morris of Duluth presided at the hearing in the absence of Judge Aulison, who is in Kansas City.

Fargosons will soon get the long-promised re-rating and reduction in insurance rates. The conditions in this city were so bad two years ago that a big panic was averted. The requirements have been met except the pump, and that is on the way from the factory. As soon as it is in operation it is promised that the re-rating will be made.

This city is headquarters for the new special agent of the land district of North Dakota and all of South Dakota except the Black Hills. The new district is the result of the division of the United States into a number of special districts for the better convenience of the examiners. Special Agent McEnty, who will have charge here, has established his headquarters.

The Fargo Gun club has had a resurrection after being dormant for a year. New traps have been put in and several new members added. The weekly practice shoots are on.

The Elks held their regular annual meeting and selected Thomas Baker as exalted ruler and W. J. McIlton as the grand lodge delegate.

A new enterprise for Fargo has been secured in the Arthur Electric Lighting plant, which manufactures lamps for the smaller towns. The plant has been in operation in Minnesota and will be moved here this week. Fifteen men are employed.
