THE VALUE OF CHARCOAL

Few People Know How Useful It is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines, and carries them out of the system.

Charcoal sweetens the breath after eating onions and other odorous vegetables. Charcoal effectually cleans and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges, they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from its continued use, but on the contrary, great benefit. A Buffalo physician in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat. I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and also in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

NEW CONGREGATIONAL CHURCH TO BE DEDICATED TOMORROW AFTERNOON

THE NEW THIRTY-EIGHTH STREET CONGREGATIONAL CHURCH.

The Thirty-eighth Street Congregational church, at Third avenue and Thirty-eighth street, in the midst of a rapidly growing part of the city, will be dedicated tomorrow at 3 p. m. Addresses will be given by Rev. Dr. H. H. Hallock of Plymouth church, Rev. C. E. Burton of Lyndale Congregational church and Rev. Dr. George R. Merrill, state superintendent of the Congregational Home Missionary society. The music will be furnished by the choir of Plymouth church. The topic for the evening service is "The Church and the City," when addresses will be given by Mayor D. P. Jones and Judge E. F. Walton.

The new church building is of frame, fronting Thirty-eighth street. The audience room seats 250 persons, while the Sunday school room adjoining, and separated by a wall, contains 125 more within the sight and hearing of the speaker. The windows of the new building are probably the finest in any suburban church. On the south side is a beautiful, large rose window, having Raphael's cherubs as a center. The middle window on the west side has a fine representation of Hoffmann's "Good Shepherd," which on the north side are "Ruth, the gleaner," a new conception, and "St. John the Evangelist." The other windows are mosaics of colored glass in renaissance style. In the basement are the dining room, kitchen, lavatory and furnace room. The entire building is lighted by electricity.
