What one plain case of smallpox can accomplish is shown by the present experience in Copenhagen. The disease broke out in several places widely apart, but the original case was traced to an English sailor...

DANGER OF SEPARATION

Possibility of Russian Aggression Discussed by Hedin.

Dr. Sven Hedin in another newspaper article on the Norwegian situation discusses with considerable advance the possibility of Russian aggression on Norway in the event that this country separates itself from Sweden and its natural allies. It is quite possible that the Northern part of the country will look with favor on Russian supremacy in Finmark. In conclusion Dr. Hedin says: 'If the Norwegians do not accept the latest and the most liberal proposals it would appear that there is only one alternative, namely, a revolution in Norway followed by the dissolution of the union. Europe will then learn what was the real object and purpose of the journey of the Norwegian private emissaries, namely, an endeavor to win the sympathies and support of the great powers for Norway in her breach of the union. That accomplished, there will begin a new era in the Scandinavian peninsula, the future of which will be enveloped in obscurity to an even greater degree than it is now and be fraught with even greater risks and eventualities. Then the field will be open for the prospect which Nansen unfolded in one of his interviews when he spoke of the possibility of a safe way.'

THE SAFE WAY.

The safe way to open a safe is to employ an expert safe-opener. You might open it with dynamite, of course, and probably injure the contents, as well as the safe. That's unsafe. Yet millions are doing worse for themselves than that every day. Consider the food in your stomach, which you cannot digest, as treasures in a safe, of which you have forgotten the combination. How to get into the safe without injuring it or wasting the treasure? Do it the safe way. Take Stuart's Dyspepsia Tablets. They will open up the safe for you, in a safe and expert manner and place in your service all the resources, on which your health depends, that you should take advantage of. Any other way of doing it is like dynamiting your safe—injuring your stomach, wasting the good food, and the valuable energy, and time you have used up in putting it where it is. Any other way is reckless extravagance, dangerous carelessness, foolish waste. No other medicine for stomach disorders will give you such safe, certain or permanent results as Stuart's Dyspepsia Tablets. Stuart's Dyspepsia Tablets are a scientific, specific, curative treatment for one certain disease, which, in its universality amongst rich and poor and in all walks of life, dwarfs all other diseases of the human race by comparison. They are so true to scientific ideals, so certain in their curative results, so safe and sane in their ways of acting upon the undigested food, and upon all the delicate digestive organs, that they are endorsed by over 4,000 reputable physicians as the very best possible medicine you can take for all disorders of digestion, assimilation and nutrition. Nothing could be more unparagonably, criminally careless, than to do, as so many do, destroy your health and all possible chance of a happy old age by years to come, by injuring your stomach with drugs, when the danger could so easily be safely relieved by using Stuart's Dyspepsia Tablets. No matter whether the symptoms point merely to slight digestive derangements or to the very dangerous catarrhal condition of the entire digestive tract, which is sure to come, sooner or later, to the confirmed dyspeptic, in the time should be lost, if the danger treatment begun, with Stuart's Dyspepsia Tablets. Even a slight headache, a feeling of overfulness, gas eructations, dizziness, sleeplessness and such comparatively slight symptoms, should receive immediate attention; for no one can tell when the danger point is reached, where further neglect turns the mere indigestion of food into the more pernicious activity of the manufacture of virulent ptomaine, or other poisons. No time to be lost, if the danger signal tolls. Quick action may mean life, instead of death. Take Stuart's Dyspepsia Tablets. Sold at all druggists. Price, 50 cents a box. Write for valuable Free Book about Dyspepsia to F. A. Stuart Company, Marshall, Mich.

RUSE ROBS NOOSE OF ITS VICTIM

Man Believed Dead for Half a Century Is Now Known to Be Living.

Denver, May 12.—A murderer, supposed to have been hanged in West Virginia forty-eight years ago, but who simulated death and escaped, is said to have been located in Colorado, where he is a prosperous mine owner. A detective who arrived in Denver last night from Parkersburg, W. Va., expects to find Baxter Pate, who will be taken back to expiate a crime for which he was supposed to have paid the death penalty almost a half-century ago.

In a room in the Central Hotel of Parkersburg, in 1858, Baxter Pate, alias McDaniel Rhea, killed John Littrell, one of his friends, in a quarrel over cards. After several months the murderer was apprehended in North Carolina and taken to the scene of the murder, where he was supposed to have been hanged. His body, immediately after the hanging, was turned over to his brothers, who were rich men and who expressed a desire to bury the body near their boyhood home in North Carolina.

Recently Elys Lawton, who had been employed in a Colorado mine by Baxter Pate, went east and heard an account of the murder of Littrell by Baxter Pate. The name electrified him, for he had always believed the murderer to be McDaniel Rhea. Instantly he recalled a confidential talk with his employer, who, he says, confessed to having killed one of his closest friends over a game of cards in his youth. He also recalled the clever ruse by which, Pate said, he had escaped punishment.

A small steel frame was clandestinely carried to Pate by his brothers a few days before the time set for the hanging, and with this worn upon his clothing he was saved from strangulation. His body was given to his brothers. Supplied with money by them, he soon found refuge in the far west, where he has prospered beyond his fondest hopes.

RAILWAY CONTRACTOR LOST

Finkelburg May Have Been Harmed by Those Opposed to Road.

MISSOULA, MONT.—Word comes from Iron Mountain, Mont., that a contract for the construction of a railroad, which the company is building there, is lost. Mr. Finkelburg left Sunday morning for Missoula, where he is in charge of the construction of the railroad in that section of the country relative to the building of a railroad thru certain parts of the district, and many refuse to give the company a right of way. Mr. Finkelburg is reported to be at that point between Trout Creek and Spokane.

CUMBERLAND, WIS.—The Ashland district Epworth League will hold its annual convention in this city June 16 to 18. Bishop Joyce, Rev. G. A. Scott of Milwaukee, Dr. J. H. Hare, superintendent of the Anti-Slavery League, President G. M. Jones of the Wisconsin League, T. O. Moss, president of the State Epworth League will attend.

Long of Short Cake

Strawberries tempted you to get "Long of the market" Indigestion came—and regrets. Then biliousness; dull, sickly feelings. Why don't you take a bottle of Red Raven

This great aperient water settles the stomach, cleans out the system, and removes the cause of bile and indigestion. For sale everywhere. MADE NEW STRENGTH. QUICKER THAN DOCTOR'S TONICS, SAYS TYPHOID PATIENT.

Young Lady Left by Fever in Very Weak State Uses Dr. Williams' Pink Pills with Gratifying Results. After a fever, such as typhoid or scarlet, has run its full course there remains the recovery of strength. The tonic that will most rapidly increase the red corpuscles in the blood is the one that will most quickly restore color to the pale cheeks, strength to the weak muscles, and elasticity to the sluggish nerves. So the nothing has ever been produced superior to Dr. Williams' Pink Pills for this purpose.

Miss Midendorf had been ill with typhoid fever for fourteen weeks. She had a good physician who carried her safely through the critical stages. When he left, nothing remained to be done except to build up her strength, which was very feeble, and he gave her some prescriptions for that purpose. Here, however, she met with disappointment. "I took the doctor's tonics," she says, "for two months after I had recovered from the fever, but they did not do me the good I looked for. My strength came back so slowly that I scarcely seemed to be making any progress at all. Just then I read in a book thrown in my yard some striking testimonials showing what wonderful blood-builders and strength-givers Dr. Williams' Pink Pills are. I got a box of them soon after that and after I had taken only about half of them I could see a very great improvement in my condition. When I had used up two boxes, I felt that I did not need any more medicine. I have remained strong ever since."

Miss E. B. Midendorf lives at No. 1501 Park street, Quincy, Ill. Dr. Williams' Pink Pills are the best remedy to use in all cases of weakness, from whatever cause the system may be run down. In cases of debility due to overwork they minister fresh strength and overcome nervous symptoms. They are a specific for anæmia or bloodlessness. They are particularly helpful to girls on the verge of womanhood. They meet all the requirements of the period known as the change of life. They correct spring languor. They strengthen weak digestion and rouse up sluggish organs. No other tonic combines so many virtues. All druggists sell them.

Bishop Wexelsen Installed. Bishop Wexelsen was ordained as bishop of Tromsø in the far northern cathedral, with imposing ceremonies, on April 16. The services were conducted by Bishop Bang, assisted by numerous clergymen, and were attended by members of the storking and high dignitaries of the state and municipality.

Praise for Sweden's Army. Captain Count Wrangel of the Austrian army, in an article in the Militar Wochenblatt, praises the Swedish army very highly, and asserts that only any other modern army, and even in spite of the discrepancy in numbers, any army invading Sweden would find a hard nut to crack in the Swedish soldiery.

A KILLING AT WIBAUX

Jealous Sackett Shot Dead in a Quarrel with a Neighbor.

GLENDIVE, MONT.—Floyd Sackett, a well-known resident of Wibaux, was shot and killed by a neighbor last night. Sackett and his wife were in the kitchen at the time of the shooting. Sackett was in the act of removing some sheep from land claimed by Sackett. White, according to the coroner's report, entered over something Sackett said and before he was aware of it, he had the ball striking him in the forehead and penetrating the brain.

White was despatched and is in custody at Wibaux. Both men are said to stand well in the community.

LAST DAY! FREE VESTS

Open Saturday till 10 P. M. One of our fancy novelty vest patterns will be made up absolutely free with every suit ordered Saturday.

To accommodate those who cannot come in the day time, we will keep open till 10 p.m. Do not wait until evening, as many come then who cannot come any other time.

This effective touch of style, so important to the "best dressers" natty appearance—a fancy vest—COSTS YOU ABSOLUTELY NOTHING ON SATURDAY—You would no doubt be glad to pay full value for these vests—however they are free for this one day only—made to your measure.

A PROMINENT JUDGE OF THIS CITY was in and took advantage of this offer this week—Listen to his remarks—this is what he said—"Mr. Rush—I am surprised that you carry such a line of fine fabrics—had I known you had such a complete assortment I would have been in sooner. What in the world do you do with all these goods?"

THIS WAS THE ANSWER—We have agents all over the Northwest—early in the season we sample our complete line with all these agents—we must carry a big stock to fill their orders—which are averaging now 30 to 50 suits a day. Our tailoring is so much better than what the town tailors can do—and the fabrics so much better that our agents get the business. You see by our stock we buy direct from the mills—save the jobber's profit, which no other tailors can do in the Northwest on account of their limited outlet—that is one reason why we save you \$10 to \$20 on a suit to measure. We sell fabrics to many tailors in Minneapolis through our wholesale department—cheaper than they can get them of jobbers. Our profit on this business alone is sufficient to pay the interest on our large investment—it enables us to quote prices throughout the Northwest which cannot be equaled by competitive tailors. OURS IS THE LOWEST PRICE HOUSE IN AMERICA FOR FINE TAILORING.

OUR PRICES: \$50 Tailored-to-Measure Suits at...\$30 \$40 Tailored-to-Measure Suits at...\$25 \$30 Tailored-to-Measure Suits at...\$20 \$25 Tailored-to-Measure Suits at...\$15

Out-of-Town Merchants. If your line of samples is weak—if your tailoring is not up to what you know it should be—if we are not represented in your town—write us—it will pay you. J. A. RUSH & CO. WHOLESALE and RETAIL Tailors. On First Avenue, Opposite Post Office, Minneapolis.

Before writing a Journal want ad it is well to look over the want pages and see the styles of wording which most appeal to you. In every case you will find them to be the ones which spread out the whole story so you can see at a glance whether or not the proposition is suitable for you. Write your own want ad that way and you will be satisfied with the answers you receive.
