A DROWNING IN THE ELK

BIRCH CANOE CARRYING TWO IS CAPSIZED IN SWIFT WATER AND ONE PERISHES.

Elk River, Minn., May 18.—Anson Hayden, aged 30, was drowned here yesterday afternoon, and Ray Trask barely escaped a similar fate. While running the rapids below the dam on

the Elk river their birch canoe was capsized and they were thrown into swift water. Altho a good swimmer Hayden was unable to get out of an eddy which caught him. Trask was carried down stream and landed on a sandbar with his chin barely above the water. While standing there he felt something strike him. It proved to be the body of his companion. He caught hold of the clothing and hung on for forty minutes until he was rescued. Carey Cement Roofing grows better with age. See W. S. Nott Co., Tel. 376.

BANDED TO FIGHT THE WHITE PLAGUE

Physicians of Foremost Rank in America Are Meeting in Washington.

By W. W. Jermans.

Washington, May 18.—The fight against the "white plague" is to be taken up in earnest by the medical men of the country. To this end an association has been organized, which is holding its first annual meeting in this city. Among the members are many of the most distinguished medical and scientific men of the nation. A glance at the roster of officers will show the high standing of the association:

President, Dr. Edward L. Trudeau; vice-presidents, Dr. William H. Welch, Dr. Biggs; treasurer, General George M. Sternberg; secretary, Dr. Henry Barton Jacobs, Baltimore, Md.; executive secretary, Livingston Farrand, New York; directors, Dr. Howard S. Anders of Philadelphia, Dr. Robert H. H. Smith of Chicago, Dr. Hermann M. Biggs of New York, Dr. Vincent Y. Bowditch of Boston, Dr. Henry M. Bracken of Minneapolis, Dr. Norman R. Budge of Los Angeles, Major George E. Bushnell of Fort Bayard, N. J., Dr. Lawrence E. Fick of Philadelphia, Dr. John P. C. Foster of New Haven, Dr. John S. Fulton of Baltimore, Frederick L. Hoffman of Newark, N. J., Dr. John N. Hurty of Indianapolis, Dr. Henry Barton Jacobs of Baltimore, Dr. S. A. Knapp of New York, Dr. Arnold C. Klebs of Chicago, Dr. Charles L. Minor of Asheville, Dr. William H. Welch of New York, Dr. Edward O. Otis of Boston, Dr. Leonard Pearson of Philadelphia, Dr. William Porter of St. Louis, Dr. Charles E. Frost of Columbus, Ohio, Dr. Mazzyk P. Ravezel of Philadelphia, Dr. E. E. Solly of Colorado Springs, Dr. J. M. Smith of Austin, Texas, General George M. Sternberg of Washington, Dr. Edward L. Trudeau of Saratoga Lake, Dr. Victor C. Vaughan of Ann Arbor, Dr. William H. Welch of Baltimore, General Walter Wyman of Washington.

Laymen with Doctors.

It is organized for the study and prevention of tuberculosis, and several distinguished laymen take part in the first annual meeting.

Among the matters discussed are: Progress of the Sanatorium movement in America; infection in transportation; channels of infection in tuberculosis; serum; the blood in tuberculosis; the relation of tuberculosis to life insurance; open air treatment; climatic conditions, etc. Infection in transportation was discussed not only from the point of view of the physician, but from that of transportation companies.

It is expected that great good will come from this meeting. It is the first of its kind ever held, and the bringing together of so many distinguished men who have made a special study of this dread disease will bring out much that will be of great value to the medical profession, and it may result in giving legislators information of the highest value in framing laws dealing with the subject.

Tuberculosis Exhibit.

It is now definitely announced that the first American tuberculosis exhibition will be held in New York in November. The National Association for the Study and Prevention of Tuberculosis and the committee on the prevention of tuberculosis of New York have decided to combine their efforts and to hold an exhibition which will show just what has been accomplished in this country and abroad in fighting the great white plague.

As the tenement-house exhibition in 1900 showed to the public tenement-house conditions and helped to bring about a much-needed change in the tenement-house laws in New York, so those who are back of this American tuberculosis exhibition say that they hope to effect a change in the attitude of the public on the question of the prevention of tuberculosis and the care of those suffering from this disease.

The exhibition will be so arranged that it will present thru diagrams, photographs and models a picture of the progress being made in fighting tuberculosis at the same time that it will show the need for much greater effort to bring the disease within the limits recognized by authorities as possible. A feature of the exhibit will be the lectures to be delivered, some of a technical nature, but many of the popular sort.

SAYS NEW YORK LEADS

Dr. Osler Says Empire State Is Far Ahead of Others.

Washington, May 18.—"In spite of its frivolity, in spite of its size, in spite of its—other things which I hesitate to allude to, New York has set the pace in legislation, institutions and treatment of tuberculosis."

Dr. William Osler made this statement today in an address before the national association for the study and prevention of tuberculosis.

Dr. Osler said education regarding tuberculosis was the thing to study for. He discussed this feature under three heads: Education of the public, of the physician and of the patient. The public, he said, was awake, but clinging to the edge of the bed and not yet dressed. In this awakening, however, he asserted, much had been accomplished over past conditions. When the public got dressed he predicted that the activity would follow and much would be accomplished toward stamping out tuberculosis.

ALASKA SUIT DECIDED

Dictum in Case Involving the Bonanza Copper Mines.

San Francisco, May 18.—The United States circuit court of appeals for the ninth circuit has handed down a decision affirming the judgment of Judge Wickham of the third judicial district of Alaska, confirming the title of the Bonanza copper mines in the Alaska state. The case, which has been pending for some time, involved the Bonanza copper mines, reputed to be the largest property in Alaska, and is controlled by some prominent New Yorkers, among them Norman Schultz, James H. Ralph and the Havemeyers.

Saturday's Real Estate Pages.

RED WING TO RETAIN PRESENT MAIL SYSTEM

From The Journal Bureau, Colorado Building, Washington.

Washington, May 18.—Representative Davis' efforts looking to better postal facilities for Red Wing, and on rural routes running out of that city, which he took up with department officials yesterday, were partly successful. He blocked an attempt to have a portion of the territory now served by city carriers transferred to rural routes, and one additional carrier will be appointed at that office to care for these patrons.

As to the rearrangement of rural routes, the department is not disposed to act favorably. Most of the routes running out of Red Wing pass thru about three miles of "dead" country before striking the inhabited section back of the Mississippi. Davis wants the outer ends of these routes cut off

and a "loop" route established to serve the territory cut off the present route. The department has acted adversely once, but will listen to further testimony.

Beautiful Winona Lake. Reduced Rates via Pennsylvania Lines.

LIVING EXPENSES REDUCED.

It costs money to keep a family supplied with the necessities and comforts of life, especially when the running expenses of even a modest home are abnormally high. Few of us can increase our income, but whoever does the family buying can save a considerable amount each week if he or she will do a little planning. Take groceries, for example. Perhaps you are now trading at a neighboring retail store and spending, let us say, \$8.00 a week. Maybe you are running a book account and consider that an indispensable convenience. If we can supply your needs for \$5.00 a week with groceries equally as good, isn't it worth the \$3.00 saved to go to a little extra trouble? Saving \$3.00 in this way is much easier than working for it. Start in tomorrow either by calling on us or phoning your order. We are organized to sell all groceries absolutely at wholesale prices to consumer and will guarantee a saving of from 25 to 40 cents on the dollar.

GINTER GROCERY CO., Minneapolis. 23 So. 6th St. Both Phones.
