JILTED, HE SUES GIRL FOR BROKEN PROMISE

New York Sun Special Service.

Pittsburg, May 31.—Dr. W. W. Campbell, a well-known young physician of McKeesport, has brought suit against Miss Rose Breitenreiter, a prominent society girl of that city, for breach of promise to marry. He places the damages done to his affections at \$25,000. The plaintiff claims that he became acquainted with the defendant in January, 1904, "after which he started to keep company with her at her home in McKeesport."

He claims that he proposed marriage in February, and that May 4, 1905, was set for the day of their wedding. Campbell says that after their engagement he went to live at the house of the defendant and remained there for several months; also, since their engagement, he has not "kept company with any other women," and has been deprived of all opportunities of marrying.

LADYSMITH, WIS.—George Scott was badly hurt in an accident in the new paper mill, in walking on some planks, he fell and struck his face on the floor. Memorial Day was observed with an elaborate program. Schools close on Friday. The city of Milwaukee has elected members—Rose M. Rooney, V. T. Kendall and Gertrude Wijn.

PRAIRIE DU CHIEN, WIS.—William Crawford charged with murdering an infant last January, was convicted of murder in the first degree and sentenced to prison for life.

PEARY IS SURE HE WILL REACH THE POLE

New York Sun Special Service.

South Paris, Mo., May 31.—Lieutenant Commander Robert E. Peary is to sail from New York either on July 1 or 4 for his last attempt to reach the north pole. Many requests have been made on him for accommodations on the Roosevelt, the vessel which he has constructed for the trip. The wireless apparatus has been installed upon the steamer and his entire crew engaged.

"I know that when I return to New York two years after my sailing from here I shall bring the good news that I have at last discovered the pole," said Mr. Peary today. "I have today received a telegram from President Roosevelt in which he extends to me the good wishes of the American people. Under these circumstances I can be unsuccessful."

Mrs. Peary and daughter Mildred will accompany the explorer.

MILLIONS IN NEW CONCERNS. New York, May 31.—New incorporations in the eastern states in May, together with increases in capital, show the largest totals since 1903. Those involving \$1,000,000 or more aggregate \$249,250,000. This is the heaviest monthly total since May, 1903, when it stood at \$307,666,000. The April figures were \$180,111,000. An increase of \$69,000,000 each in the capital of two industrial concerns accounts for a large portion of the increase.

PHILADELPHIA TO SHAKE OFF DURHAM

Machine Surrenders to Weaver for Present, and Citizens Will Keep Up Fight.

Philadelphia, May 31.—David Smyth, former director of public safety, and Peter E. Costello, former director of public works, who were deposed by Mayor Weaver, today withdrew the injunction proceedings against Colonel Sheldon Potter and A. Lincoln Acker, their successors. This formally ended the legal fight by the "organization" leaders against the appointees of Mayor Weaver.

The withdrawal of the papers means that the "organization" forces have decided to discontinue for the present, at least, their fight on Mayor Weaver.

Acting on the advice of "Boss" Durham, the members of select council who were opposed to the mayor, will tomorrow vote for the confirmation of Potter and Acker.

There is no doubt that the men who have been the mayor's advisers from the time of his break with Mr. Durham are bent upon destroying every vestige of the organization dominated by the insurance commissioner and favor continuing the fight against every man who was associated with him.

This is evidenced by the fact that the committee of seventy and the committee of nine, citizens' reform organizations, have announced their intention of placing an independent ticket in the field next fall unless the regular republican candidates for sheriff and coronator are withdrawn and others substituted. The candidate for sheriff is Henry C. Ransley, president of select council.

THEFT MAY BARE FAMILY SKELETON

Stolen Letters Said to Contain Elements of Great Scandal for Gotham.

New York, May 31.—For the return of a packet of letters, the publication of which would destroy a New York family of wealth and social prominence and would involve other families of equal standing in a scandal, a reward of \$10,000 is offered by a detective bureau on behalf of the wife and daughters from whom the letters were stolen.

It is believed by the detectives that the son of the household is the robber. It is hoped that the recovery of \$60,000 worth of jewels and many thousands of dollars' worth of stock certificates which were stolen at the same time as the letters, but in comparison with the letters, is of little value, is considered insignificant.

Every effort has been made to keep the theft secret. Not half a dozen persons have been aware that some time between March 31 and a few days ago an old-fashioned mahogany treasure box was stolen from a safe where for many years it has held the most valuable of the possessions of the women members of a prominent family. Not even the head of the family knows of its loss. He, in fact, is the last person on earth whom it is desired to take into the secret, and the necessity of keeping him in ignorance of the facts has been the greatest handicap to the detective.

Samuel Sheldon, head of the detective bureau and formerly a detective sergeant at police headquarters, and his partner, Charles Tannenbaum, say confidently that the son of the household is the thief for whom they are seeking. He is only about 23 years old, a graduate of one of the leading universities and a well-known figure at the social functions of the younger set.

His motive for the theft is believed to be the necessity of maintaining the appearance of having a large income during his engagement to a wealthy young woman in society. His own family is opposed to the match and has limited his allowance; hence his desire to be able to have more money than otherwise would be available in order to keep up his florists' and tailors' accounts.

MINNESOTA AND IOWA SHINE AT ANNAPOLIS

By W. W. Jernane.

Washington, May 31.—Minnesota and Iowa cadets at the naval academy show up prominently in the list of "star" men of the second and third classes, the standing of whose members has just been computed by the faculty. "Star" men are those who have made 85 per cent or more in studies during the term.

In the second class, Allen J. Chantry Jr., Malvern, Iowa, is first with 221.12 points; Joseph J. Benson, Benson, Minn., third with 213.44 points; and George B. Wright, Fergus Falls, Minn., fifth, with 208.94 points. The maximum number of points in the class is 240.

Louis W. McKeethan of Minneapolis leads the third class with 149.82 points, and Philip G. Lamson of Des Moines, Iowa, fifth with 140.30 points, out of a maximum 160.

MORTON AS HEAD OF BIG TRACTION SYSTEM

New York Sun Special Service.

New York, May 31.—Secretary of the Navy Paul Morton is to accept the presidency of the Interborough Rapid Transit company, so men prominent in financial circles heard today. The report was that he had practically accepted the place with a long contract and a large salary. Mr. Morton has been in New York in consultation with men prominent in financial and street railway circles for several days.

The Interborough company is controlled by August Belmont and it runs the Manhattan elevated and the subway lines. Officials of the company today refuse either to confirm or deny it.

ELEPHANT IS KILLED, FLEEING EXECUTION

New York Sun Special Service.

Buffalo, May 31.—Pirate, a wicked elephant, belonging to Ringling's circus, was killed yesterday afternoon in the Jamestown stone quarry in Fillmore avenue. For a month the elephant had been ugly, and his death was decreed by the circus folk, who decided to kill the animal. The big brute, that weighed more than four tons, was shunted in a car to a spot near the Jamestown quarry.

In the midst of the preparations, Pirate, with fierce trumpeting, tore loose from his chains and lumbered along to the edge of the quarry where he fell over the cliff and was killed.

FARM CONGRESS OF WORLD SITS IN ROME

Rome, May 31.—The first working session of the international congress called to discuss the proposal of King Victor Emmanuel, made at the instigation of David Lubin of Sacramento, Cal., to establish an international chamber of agriculture, has been held. Foreign Minister Tittoni delivered a speech welcoming the delegates and outlining the object of the congress. He was made president of the congress.

Minister Tittoni, in returning thanks for his appointment, said the Italian government, in convoking the congress, put no limits on its deliberations, but merely pointed out the subjects to be discussed, abstaining from hinting at their solution, so as to leave the congress full liberty of action. An international chamber of agriculture, he said, even if a modest organization at the beginning, would have a solid basis and would grow fast.

The congress adjourned until Tuesday, when the discussion of the king's proposition will begin.

ESTHERVILLE, IOWA.—Minnesota's ex-governor and his wife will be speakers at the big Woodman picnic to be held June 14. Both Governor Cummins and ex-Governor Von Sant have consented to speak.
