

GIRL DEFENDANT GOES ON STAND

Interest in Trial at Wheaton Culminates in Evidence of Little Antoinette.

ANTOINETTE SEIDENSTICKER. Who is on Trial for the Murder of the Boy She Loved.

Wheaton, Minn., June 30.—The interest in the morning session of the alleged child murderer was heightened by little Antoinette herself being placed on the stand by her attorney. The court told the little girl that if she felt that she might go to her father at any time, she wore her light tan shirtwaist suit again this morning, with a big polka-dot tie.

In her agitation at being called, she had forgotten the big red pony she had been holding, and when she had seated herself her father carried it to her and put it in her hand, where she sat fondling it in a girlish way, looking self-possessed and innocent.

T. K. Mork, druggist, was the first witness sworn this morning. He had known the defendant ten years and saw her on May 23 at the Deal farm.

"Where did you see the defendant that day?" he was asked.

"On the bed in the house."

"Do you remember who was there?"

"Mrs. Deal was there and Dr. Ames and Dr. Healy, and Boley, the coroner."

"Do you remember seeing the defendant's face and noting her condition that day?"

"Yes, her face was very flushed; she seemed very nervous and talked a great deal."

"What about her eyes; did they look any different?"

"A good deal different, I should say very peculiar."

"Did she say anything?"

"Yes, when the doctors went near her she pushed them away and told them to leave her alone, that she wanted to die."

"Did she move around on the bed?"

"No, I did not notice that."

"Did you hear her say she had shot herself?"

"She told that to Dr. Ames, I think it was."

Believed Her Insane.

"Now, Mr. Mork, from what you have testified to the jury of what you saw there that day of her condition, you may state your opinion as to whether she was sane or insane."

"She was insane at that time, that is my opinion."

On cross-examination the witness said he heard the doctors talking to her and that she was quiet and to the still and behave herself when they were taking out the bullets.

"Did she answer them intelligently?"

"I couldn't hear; she appeared to know what was going on."

"You wouldn't swear she was so insane that she did not know what was going on about her, and did not answer questions intelligently, would you?"

"No, I think she answered all questions all right."

"Would you swear that it was not the pain she was in that caused her condition that day?"

Cousin of "Tony" Testifies.

Christine Kreuse, daughter of Gust Kreuse, was sworn and told of the headaches of her father, saying:

"He called them 'blind staggers.' He could not see anything and would fall down."

"Do you know the defendant's mother?"

"Yes, sir, she was my aunt."

"Was she ever sick?"

"Yes, she had headaches like my father and like Tony has."

"Was there anything else peculiar about Tony's mother that you recall?"

"Yes, she didn't manage anything about the house well. She kept all her troubles to herself and would not tell anybody and would go off by herself."

Discussed Shipp's Love Affairs.

Maggie Austin, next on the stand, said she had seen Tony after church on the Sunday before the homicide and told her about the dance at the Tear farm.

"I told her as a friend," said the witness, "knowing there was something between Tony and Herman—that they were engaged." This was stricken out by the court. The witness told of how the child had walked the floor and acted queerly on the day of the shooting.

"It was a cold, raw day," said Miss Austin, "and the child seemed very cold and shivered, yet she said she was not cold at all, when asked to come up to the fire and get warm."

corralled by troops and artillery in a wood near the port and by this morning thousands of them were already surrendered. Their comrades possibly will be starved out. Whether there was any great loss of life is as yet unknown.

Great precautions are being taken to prevent the spread of the mutiny to the sailors of St. Petersburg and Kronstadt.

Muzzle on Newspapers.

The newspapers are not allowed to print a word of dispatches regarding the revolt of the sailors, but several of them, in a roundabout fashion, have succeeded in hinting at startling developments.

The Novoe Vremya, with seeming innocence, announced that the Vidomoski Gradonatshtwa (gazette of the prefecture) of Odessa had requested the inhabitants of that city to keep off the streets so as to avoid accidents when the troops are firing. Other papers remark on the massing of troops in south Russia.

ODESSA BOMBARDED

London, June 30.—A dispatch from Odessa to Lloyd's, dated today, says the city is quiet. Three steamers of the Russian Transport company have been burned at the wharves leading to the ports are closed.

A telegram sent from Odessa at 10:09 o'clock this morning to a shipowner says the bombardment which commenced yesterday evening was not serious.

A renewal was threatened this morning.

Steamers Burned, Shells Fired from Warship into City.

London, June 30.—A dispatch from Odessa to Lloyd's, dated today, says the city is quiet. Three steamers of the Russian Transport company have been burned at the wharves leading to the ports are closed.

A telegram sent from Odessa at 10:09 o'clock this morning to a shipowner says the bombardment which commenced yesterday evening was not serious.

A renewal was threatened this morning.

Robels Shell Odessa.

The Daily Mail this morning prints the following from its Odessa correspondent, timed 10:40 o'clock Thursday night:

"Listing full charges, the Prince Potemkin opened fire on the city this evening. The first shell struck a house in Nyesjinskaya street and the second fell on a brewery. In the walls of both buildings large holes six yards wide by three yards high were torn. So far there has been no more firing."

"The governor directed the gas lamps extinguished and the electric currents severed, so that the city is in total darkness."

Large bodies of troops have arrived. It is reported that there are altogether 10,000 troops in Odessa.

"This afternoon a tugboat which arrived with a commission to investigate the condition of affairs proceeded, flying the Red Cross flag, to the opposite side of the harbor and fired. Two warships are lying at the harbor and one of the main streets, opposite Little Fontaine."

In International Phase.

Should the report that the Prince Potemkin is bombarding Odessa be confirmed, it is probable that it will precipitate a critical international situation, and the foreign consuls there will almost certainly demand the protection of warships, if they have not already done so; and as the treaty of Commerce bars any Russian or Turkish men-of-war from entering the Black sea, the Dardanelles, as a result, will be revided in a novel and unexpected shape.

Another Mutinous Warship.

The Daily Express prints the following dispatch from Odessa; time, midnight:

"A second mutinous warship is reported to be at Cape Fontaine, ten miles from here."

A transport with Russians from Port Arthur and a Russian steamer were held up by the Prince Potemkin at 5 o'clock and compelled to lie up under her guns for two hours.

LIBAU MUTINERS AT BAY

Four Thousand Sailors Hemmed About by Force of Soldiers.

Libau, June 30.—About 4,000 mutinous sailors are surrounded in a small wood near the port by infantry reinforced by machine guns. One thousand of the mutineers are reported to have surrendered and given up their arms.

Mutiny started Tuesday night, when the sailors of the first equipage, as the mutiny was known in Russia, mutinied against the food was taken. They were joined immediately by the sixth, ninth, thirteenth and fifteenth equipages—5,000 bluejackets in all.

The guard at first tried to oppose them, killing one and wounding seven, but the sailors got the upper hand. They seized the guardhouse, broke open stores, securing arms and ammunition. Pandemonium followed throughout the night. The mutineers wrecked the barracks, attacked the quarters of the officers and fired shells at random until morning. The city was terrorized by troops and artillery arrived Wednesday morning. All entrances to the city were closed and grades the sailors were driven into the wood, which they have since held.

THREAT OF HUGE CANAL SCANDAL

Continued from First Page.

Washington, June 30.—There is a strong suspicion in the minds of both the president and Secretary Taft that the railroad interests which have been fighting the isthmian canal enterprise are behind the tempting offer which John F. Wallace to resign as chief engineer of the canal to accept the presidency of a large oil company in New York at a salary of \$85,000 a year with opportunities for profitable investments on the side.

STEVENS TO BE CHIEF

Former Great Northern Official Will Succeed Wallace.

Washington, June 30.—It is understood that John F. Stevens of Chicago, formerly vice president of the Chicago, Rock Island & Pacific railway, has been selected as chief engineer of the Panama canal commission to succeed John F. Wallace.

LURED AWAY BY CANAL'S FOLDS

Wallace Taken from Post by Railroad Plot, President Suspects.

New York Sun Special Service.

ARMY MAY BUILD CANAL

This has caused them to think seriously of placing the work in charge of army engineers.

If the man who has been selected as Mr. Wallace's successor is a civilian, the executive order which he will be tied to the canal as securely as it is possible to bind him, and that he will at least not resign so unexpectedly as Mr. Wallace.

GERMAN LUTHERAN SYNOD MAY DIVIDE

Continued from First Page.

Detroit, June 30.—At the convention of the Evangelical German Lutheran synod of Missouri, Ohio and other states, four synodical districts, among them the Minnesota-Dakota district, were today given permission to divide. The Minnesota-Dakota district will detach South Dakota and it will become a separate district. Permission was also given to detach North Dakota and create a separate district of it later if it seems advisable.
