

NO MAN OR WOMAN CAN HAVE DYSPEPSIA And Still Be Agreeable, Attractive and Popular—A Certain Cure in Reach of All.

There is nothing that will put you to the front so rapidly in the business or social world as a cheerful disposition and a pleasant appearance. Other things being equal, people will go out of their way to give the fellow a lift who always wears a cheerful countenance. The man or woman with a cranky disposition and a sour face will always meet with an indifferent if not a chilly reception. The commercial traveler, who is the recognized business barometer, appreciates better than any one the value of this rule and governs his actions accordingly.

Dyspepsia destroys all the agreeable qualities that enter into a man or woman's make-up. It is almost a human impossibility for anyone with a severe case of dyspepsia to look pleasant. The continuous, miserable cast-down feeling is bound to make itself shown in the appearance and conversation.

Stuart's Dyspepsia Tablets are the surest certain cure. They are so recognized all over the world. The cures they have brought about and the happiness they have caused and the suffering they have relieved has made their name a household word in all the English-speaking world.

The reason that Stuart's Dyspepsia Tablets are a certain cure is that they are natural cures. There is nothing to prevent them curing. They contain the essential ingredients of the digestive fluids of the stomach and simply do the identical work of the stomach, relieving that weakened organ and permitting it to rest and recuperate. Could anything be more simple or natural? They are bound to cure. They cannot help themselves. It is just like putting a new stomach into a man—if that were possible—and letting the old one go off on a vacation. Rest is what it needs. Nature will do her own work of restoration, never fear.

Stuart's Dyspepsia Tablets are for sale by all druggists at 50 cts. a box. All druggists means all druggists. They have become so necessary to the people that the druggist simply has to keep them anyway. There are other remedies that he can make much more money on if he could sell them, but he can't. He will not take chances on losing his customers by not always having on hand a supply of Stuart's Dyspepsia Tablets.
