

TODAY'S TELEGRAPHIC NEWS OF THE NORTHWEST

MINNESOTA SUNDAY SERVICES FOR SECOND'S MEN

CHAPLAIN WILL PRAECH ON "A GOOD SOLDIER."

Batteries of the Twin Cities Will Close Their Encampment by Marching Home—Initial Records Made by First Battalion Companies on the Firing Line.

Special to The Journal. Camp Lakeview, Lake City, Minn., July 8.—Chaplain E. C. Clemons of the Second regiment will hold a service Sunday morning at 10:30 for religious instruction. There will be music by the band and vocal solos by local talent. Dr. Clemons has chosen as his subject "A Good Soldier," having taken his idea, he says, from the talk given to the men by Colonel Wright on Thursday evening. These services are seldom held by the other regiments, but have been a custom with the Second for years. Chaplain Clemons was with the Twelfth Minnesota in the south and is liked by officers and men alike. He is prominent in the proposed organization of those who served in the Twelfth.

Battery A of St. Paul and B of Minneapolis will be the participants in a strenuous manner. Orders have been issued that the first battalion artillery break camp at 7:30 a. m. Thursday, July 13, and proceed to the company of engineers of St. Paul, which will go home by rail. That means a march of seventy miles for the batteries after they have finished their work in camp. The batteries were to be given target practice at 1:30 yesterday afternoon, at 1,800 yards, but when the gun was fired for the first time it became so sited and the work was interrupted for the day. The artillerymen will be instructed by Lieutenant Smith of the Thirtieth United States artillery, who has been detailed for that purpose. Several officers who were planning to come have not yet arrived. Company H's second lieutenant is sick at Manakato and Lieutenant Smith is the adjutant of the Second battalion is attending the trial of his brother, Dr. Koch.

Displeased by Change in Shooting.

Some dissatisfaction is expressed at the proposed change in the shooting. Many of the companies have no place at home to shoot and the change is on the preliminary shots, usually allowed, to accustom the men to the arms. Colonel Wright objects to having the drill hours broken into by the firing, as he believes that all the time possible must be spent in mastering the new tactics. The first battalion was ordered to shoot yesterday but did not finish the three ranges. Those who made 35 or more are:

- Company G, Austin—Shot on the 300-yard range over the target: Captain Sargent, 39; Corporal Tenter, 38; Corporal Greig, 35; William Brooks, 35; George Evans, 36; Robert Fraze, 36; William J. Fuller, 38; R. H. Johnson, 38; Donald M. Meyer, 33; Martin Porter, 32.

Changes Announced in Orders.

Captain Alfred C. Page, regimental adjutant, has issued special orders No. 73, making the following changes in the Second infantry:

- A transfers—Sergeant Edwin Junt of Company B to the non-commissioned staff to rank as battalion sergeant major.
- Discharges—Company C, Corporal Earl Ament by reason of expiration of term of service. Private Albert Nemo, for the good of the service.
- Company F: Sergeant John O'Neill, Cook Otto Hanfman, Privates Harry Rice and Raymond C. Wells, for removal from company station.
- Company G: Cook Avery J. Duff, Privates Gordon J. Christie, Thomas A. Hill, Ira M. Howard, William C. Hamilton, Albert E. Ingalls, David J. McPherson, Tony Meis and Fred Smeby, for removal from company station.
- Company H: Privates Carl Bergmark, William H. Duemland, Edward Mollart, Allen W. Johnson, Gustav E. Rott, Frederick J. Sander, Henry Swanson and George A. Thelien, for removal from company station.
- Company I: Private Walter A. Krtler, for the good of the service.
- Reductions—Private Peter C. O'Connell and Frederick L. Carl of Company B, reduced to the ranks.

Brigadier General Bolleret Arrived in Camp Yesterday Afternoon and was Received with the Usual Salute by the Artillery. Review by the Brigade Commander is Scheduled for this Evening.

State Shoot and Segairt.

Lieutenant Colonel Gerlach, U. S. A., retired, arrived yesterday for the encampment. From present appearances it is scarcely likely that a regular state team will go to Segairt to take part in the national rifle contest in August. The trouble seems to lie in the difficulty of securing the necessary funds or making the last appropriation for rifle practice cover the expense of such a trip.

RECEPTION FOR ARCHBISHOP

Polish Catholics of Winona Will Entertain Distinguished Visitor.

WINONA, MINN.—Archbishop Francis Albin Synon of Rome will arrive here this evening and arrangements have been made by the Polish Catholics of the city to give him a magnificent reception. He comes to America to investigate the conditions of the Poles and Polish Catholics everywhere who are showing him every honor.

On arrival in Winona he will be greeted by committees and driven to the residence of Bishop Cotter, where all of the societies of St. Stanislaus parish will be in waiting, and he will then with his escort lead a procession thru the principal streets to St. Stanislaus church, where the archbishop will extend his blessing.

On Sunday morning at 7:30 he will say low mass and at 8:00 he will preach and will preach at all the church societies attending in corps. At 3 o'clock yesterday the archbishop will give the benediction.

The International Harvester company has announced its intention of locating its first plant for the manufacture of tractors in western Minnesota, and has promised to consider the advantages of Winona. The Board of Trade is working hard to secure this new industry.

FERGUS FALLS, MINN.—The census is completed and the population is 6,000, a gain of 115 over 100 in five years.

MINNESOTA WILLMAR HOTEL MAN CONVICTED

A. O. BRYANT SOLD WHISKY TO YOUNG HARRY YALE.

Latter, Scion of a Minneapolis Family, Is Taken to Moorhead for Trial on a Charge of Forgery—Mrs. Yale Cleaves to Her Spouse Tho Distiked and Fought by His Relatives.

Special to The Journal. Willmar, Minn., July 8.—A. O. Bryant, proprietor of the Merchants hotel, was today convicted of the charge of selling liquor illegally. The case occupied the attention of the court from Thursday morning. Police Peter Bonde was the complaining witness and Harry C. Yale appeared as the witness for the state. The young man, who was employed by the Minneapolis mercantile agency of Minneapolis, is a son of S. M. Yale, the wealthy lumberman of that city. The state was ably represented by County Attorney George H. Otterness, while Bernard & Daly of Renville appeared for the defense.

The case was bitterly fought and the attorneys in the defense used every effort to clear their clients, but the evidence was too strong. Among the witnesses for the defense were two Minneapolis men who said they were buyers, and gave their names as Henry Postal and W. T. Woods. They attempted in their evidence to injure the character of the state's chief witness.

The sale of liquor was alleged to have taken place on March 23, the date of the Elks' carnival. Harry C. Yale purchased for the purpose of his wife, who was alleged to have been bought in the hotel building, which has for a time harbored a questionable refreshment room.

During the trial Sheriff John M. Bayer, of Moorhead, had been waiting for Yale to take him back to that city on a warrant charging him with forgery. The officer left last night with prisoner.

Yale is accused of forging a check for \$75 drawn on a lumber company of Moorhead. He was arrested at both St. Louis hotel in Duluth on July 3, where he was stopping with his wife. Yale it seems had been spirited to Milwaukee, Wis., where he was arrested by team from Hillsboro, N. D., and after breaking into the Halstad safe, continued eastward. Two days would have allowed them ample opportunity to make the journey to Duluth.

The Grand Forks Lumber company is hauling logs by rail from Bemidji in order to keep the mill going at the Red Lake falls, a man suspected of being in league with the saboteurs was arrested.

Inspector Frye of the postal service examined the work done at Halstad and pronounced it that of professional work. It is supposed that the men came by team from Hillsboro, N. D., and after breaking into the Halstad safe, continued eastward. Two days would have allowed them ample opportunity to make the journey to Duluth.

Rev. Willard S. Ward, who has filled pastorate in Minneapolis at Shiloh and Riverside, was installed pastor of the First Presbyterian church in Crookston this week. The sermon was preached by Rev. R. T. Fulton, the charge to the church was given by Rev. N. A. Gilchrist, the welcome to the city by Rev. H. M. Green of the Episcopal church, the welcome of other churches by Rev. E. J. Satterlee of the Methodist church and the installation prayer and the charge to the people by Rev. E. N. Adams, D. D., of Minneapolis.

SMALL GAIN AT REDWOOD FALLS

Population Is 1,806—Increase Affected by Immigration.

REDWOOD FALLS, MINN.—Redwood Falls has a population of 1,806, a gain of 141 over the census of 1900. The increase is about one-tenth of the population of the county. The population of the city is 1,806, a gain of about 1,000 over five years ago. Many Redwood county people have gone to the northern portion of the state, to the Dakotas and Canada since the last census was taken, hence the small increase in the population.

NORTHWEST NECROLOGIC

LAKE CITY, MINN.—Mrs. E. C. Bartlett died last night from consumption after an illness of several years. She was 35, and was Miss Marie Martin, of Westport, Minn. This city, before her marriage. She leaves a husband and a son of 12.

HELENA, MONT.—Robert W. Neill, past grand master of the Odd Fellows of Montana, died today.

WAHPETON, N. D.—M. T. Stevens, a prominent citizen, died suddenly of apoplexy last evening.

FERGUS FALLS, MINN.—J. S. Ulund received a message from Fergus Falls, Minn., announcing the sudden death of his mother. She left this city on Monday, apparently in good health.

INDIAN KILLER HELD

Jordan, Alleged Slayer of His Wife, Examined by Detroit Court.

DETROIT, MINN.—The examination of Joe Jordan, the Indian, who is alleged murdered his wife at White Bear, has been closed today before United States Commissioner Richardson. Jordan being held to the United States grand jury. The examination caused excitement. Deputy United States Marshal M. J. Sullivan and a string of paroled convicts were at the trial. The alleged slayer of his wife was at one time military storekeeper.

POWER PLANT ON THE ST. LOUIS

Important Contract for California Redwood Staves Let by Minnesotans.

DULUTH, MINN.—Another important and interesting contract, the first of its kind ever let in Minnesota, was recently awarded to the Duluth and Superior Lumber company. The contract is for the construction of the Great Northern Power company's plant at the St. Louis river. This is for 1,200,000 feet of California redwood staves, 1,800,000 feet of steel pipe and 200,000 pounds of malleable iron shoes, costing approximately \$200,000, to be furnished by the Excelsior Lumber company of San Francisco. The contract includes the delivery of all material and the completion of the pipe in place.

There will be three large stave pipes, seven feet in diameter, in all 12,000 feet in length, extending from the factory at the end of the canal, two miles east of Thomson, part way down the slope toward the powerhouse site, until a pressure of 154 feet is reached. From this point steel pipes will be constructed under greater pressures down to the main generating station at the powerhouse, where the head is 378 feet.

The redwood stave pipes are now being used very extensively thruout all the western states, and particularly on the Pacific coast, for irrigation purposes, for mining and for domestic water supply, as well as in connection with power plants in the mountainous districts. The stave pipes are several miles in length.

ALBERT LEA, MINN.—Nine acres of nursery stock, representing more than 100,000 apple trees, are being treated here by the state entomologist, who uses a spray consisting of kerosene and water finely mingled. This experiment is being tried against the leaf hopper, and appears to be a success.

WILLWATER, MINN.—Jesse Turpin and William Jones, halfbreeds living at Gray Cloud, were taken before a justice on a charge of stealing and mauling a horse. The animal was branded and maimed and the buggy broken. The parents of the boys paid \$175 for the damage done.

FAIRMONT, MINN.—A fire of unknown origin ruined the millinery store of Mrs. W. B. Hickory, who came here recently from Minneapolis. The annexed portion of the Fairbank building was destroyed. The loss is estimated at \$10,000.

TWO HARBORS, MINN.—Duncan Deegan, a woodsman employed by the Nestor estate, Gooseberry, is dead from injuries received by a fall from a log. He was unmarried, and 46 years of age.

HERON LAKE, MINN.—Arthur, the 3-year-old son of W. J. Jones, was accidentally drowned in a water tank.

STAPLES, MINN.—Miss Eva Jones of Ham and Pillsbury counties and the Foresters will picnic at Staples on July 15. A conference is in session at the new Hauge Lutheran church.

MINNESOTA "HOLY ROLLERS" INVADE AN ALLEY

COLONY ORGANIZED IN THE RED RIVER COUNTRY.

James Kyle, Wealthy Farmer of Stephen, Is Made Insane by the New Teachings and Is in State Asylum—Ark Now Building at Benton Harbor to Save the Faithful.

Special to The Journal. Crookston, Minn., July 8.—The Red river valley is thronged with an invading army of "Holy Rollers," the famous Benton Harbor, Mich., fanatics. At Stephen, north of this city, missionaries recently organized a colony of Rollers and religious meetings, attended by the most unusual ceremonies, are in progress. One of the things believed by the Holy Rollers is that the time for the departure of the unfaithful has about arrived, and great stress is laid by the missionaries of the faith in this section upon the ark which is being built at Benton Harbor for the salvation of all those who believe in "John and Mary" at the time the great flood overtakes the wicked of the world.

James Kyle, a farmer, living three miles east of Warren, has been taken to the state asylum at Fergus Falls, having become crazed over the new religion. His case has been pronounced extremely violent and probably hopeless.

Kyle has a large farm, well stocked, and recently lost several head of valuable horses thru his endeavors to cure by faith.

Postoffice burglars are on a systematic and well-arranged campaign of robbery in the Red river valley. Last week the Halstad postoffice was broken into, the safe blown with nitroglycerin and the contents, amounting to \$450, extracted. The same gang of men, it is believed, drove over to Lambert and there duplicated the performance, securing some \$200 in booty. Yesterday, at Red Lake Falls, a man suspected of being in league with the saboteurs was arrested.

Inspector Frye of the postal service examined the work done at Halstad and pronounced it that of professional work. It is supposed that the men came by team from Hillsboro, N. D., and after breaking into the Halstad safe, continued eastward. Two days would have allowed them ample opportunity to make the journey to Duluth.

NORTH DAKOTA MAJOR MURPHY IS UNDER ARREST

POLITICAL LEADER HAILED TO COURT FOR ALLEGED FORGERY.

Charged that He Kept the Tax Money of Railroad Companies and Forged the Receipts of Road Overseers—Case of Political Revenge, He Declares.

Special to The Journal. Minot, N. D., July 8.—Major J. S. Murphy, money and the most prominent citizen of Minot and a leader of the republican party in North Dakota, was arrested today upon a charge of forgery in the third degree for the alleged uttering of forged road tax receipts from the townships of Ross and Manitow in Ward county. The forged receipts being for \$245.15 and \$231.30. It is alleged the offense was committed last September.

Murphy was arraigned before County Judge Davis and placed under a \$1,500 bond and was committed to the county jail. At the preliminary hearing C. A. Dibble, of the tax department of the Great Northern road, testified that Murphy's receipts were forged. The state asserts that Murphy kept the money, never turning it back to the roadmasters of the townships.

For several years Murphy has been employed by the Great Northern and Soo lines in this section of the state to look after their road taxes. He has been in the habit of securing the work done at a clearing near the sum for himself. In the present case the Great Northern sent the tax money to Murphy upon a receipt from him signed by William Crowder and Harry Hildner, road overseers for Ross and Manitow townships. These men say they never received the tax and that their signatures are forgeries.

I am certain that I shall be vindicated." He says the arrest is the result of political warfare between the factions of the county. The case will be bitterly fought.

ANTLER AND MAXBASS

TWO PROMISING TERMINAL TOWNS IN HIGH NORTH DAKOTA REGION TAPPED BY GREAT NORTHERN.

Several new towns are being opened by the timber railroad companies in North Dakota this season. Many of them will be good trading points and develop into thriving little towns, where those who engage in business will do well, but the timber companies have the best prospect to become large trading centers from the beginning are Antler and Maxbass. Conditions that make a town a trading center are: a large territory upon which to draw, and richness of the soil, and both of these towns have ideal locations.

Antler is a town of the Township of Antler in section 35, township 161, range 81. The town of Antler is on the east half of section 3, township 163, range 82, and is a new terminus of the Westport and Antler railroad, which runs twelve miles northwest from Westhope, close to the boundary of southwest Manitoba. The country in this vicinity has long been settled by a thrifty class of Canadian farmers and their success has more than reached their expectations. There will be but one town at the end of this line, and that is Antler, which will be without doubt, be second Sioux or Westhope, and keep up the reputation of the good towns on the Bottineau line. Antler will have a rich territory surrounding it, extending ten or twelve miles in all directions. The nearest town will be Westhope, thirteen miles to the east. The soil is strictly first class and water is easily obtained.

One can make no mistake in choosing either Maxbass or Antler for a location. In each will be built six standard elevators to handle the grain of the country, which promises, at this time, to be the largest ever grown in North Dakota. Lots in the town of Antler will be offered and sale of the business will do well, but the timber companies have the best prospect to become large trading centers from the beginning are Antler and Maxbass. Conditions that make a town a trading center are: a large territory upon which to draw, and richness of the soil, and both of these towns have ideal locations.

Maxbass is a town of the Township of Maxbass in section 35, township 161, range 81. The town of Maxbass is on the east half of section 3, township 163, range 82, and is a new terminus of the Westport and Antler railroad, which runs twelve miles northwest from Westhope, close to the boundary of southwest Manitoba. The country in this vicinity has long been settled by a thrifty class of Canadian farmers and their success has more than reached their expectations. There will be but one town at the end of this line, and that is Antler, which will be without doubt, be second Sioux or Westhope, and keep up the reputation of the good towns on the Bottineau line. Antler will have a rich territory surrounding it, extending ten or twelve miles in all directions. The nearest town will be Westhope, thirteen miles to the east. The soil is strictly first class and water is easily obtained.

SOUTH DAKOTA STORM STRIKES CAMP ROOSEVELT

SOUTH DAKOTA GUARDSMEN KEEP THEIR POWDER DRY.

Governor's Day Set for July 11, When Elrod, Kittredge and Other Officials Will Be Present—Troop D of Sisseton Makes Practice March to Camp, Arriving Today.

C. H. ENGBLESBY, National Guard.

Special to The Journal. Watertown, S. D., July 8.—The boys in khaki at Camp Roosevelt spent yesterday trying to keep the water from flowing under tents and flooding equipment. The day opened bright and fair, but before noon black clouds gathered and rain fell for two hours. The first dress parade was held Thursday evening. The camp music for dress parade and guard mount is furnished by the Fourth Regiment band—the famous Stont's band of Sioux Falls. All soldiers are dressed in khaki this year, and all officers are wearing the regulation olive drab.

Captain Lenihan of Fort Meade and Captain Guyer of Brookings college, both regular army officers, are in camp for duty as instruction officers. Every forenoon they conduct an officers' school. Large targets have been erected at the northwest corner of the grounds, and the companies are having target practice every day. Captain Mark W. Sheafe, inspector of small arms practice, has supervision of the target work.

Governor's day is set for July 11. Governor Elrod is in the east, but is expected to be in camp in a day or two. Senator Kittredge has also expressed his intention of being present. Frank Grand, chairman of the republican state central committee, will be a guest at camp.

Adjutant General Englesby is keeping Troop D of Sisseton in practice by making an overland march to camp. He will arrive today. A familiar figure about the camp is that of General Conklin, former adjutant general, who is still greatly interested in the guard.

JEFFERSON, S. D.—In the arrest of Pierre Truog by Mrs. Sarah Adams
