

LABOR

WANT A FRIEND OF UNIONS FOR JUDGE

DELEGATES APPOINTED TO TALK WITH GOVERNOR JOHNSON.

Trades Assembly Will Urge the Executive to Appoint a Successor to Judge Elliott Who is Friendly to Organized Labor—Chicago Strikers Ask Minneapolis Unionists to Help.

Delegates Turner, Mogaa, Bainbridge, Hynes and McCourt make up a committee appointed by the Trades Assembly Wednesday evening to interview Governor Johnson relative to the appointment of a successor to Judge Elliott of the district court. It is the purpose of the assembly to try and secure an appointee friendly to labor unions.

The San Francisco Japanese and Korean Exclusion league sent a communication in regard to the influx of foreign labor from the countries named, and the matter was referred to the executive board, which will act in the case.

A communication was received from John G. Meiler of the Chicago Woodworkers' council, the various unions of which are on strike in that city, stating that manufacturers are securing workmen in Minneapolis who are ignorant of the conditions in Chicago. About 2,000 men are out. The assembly was asked to inform those interested that there is a strike and ask union men to keep away while the trouble is on.

Credentials were received from the following unions and delegates: Custom Tailors, Garment Workers, Millwrights, Electrical Workers, No. 24; Typographers, No. 13; Teamsters and the Packers and Nailers—twenty delegates in all. The semi-annual election of officers resulted as follows: President, A. E. Kellington; vice president, James McNally; recording and corresponding secretary, J. L. Chapman; secretary-treasurer, Max Conrad. The other officers will be chosen at the next regular meeting.

TO GET THEM TOGETHER

Movements on Foot to Unite All Crafts of Building Trades.

Consideration of the move for the formation of a local central branch of the Structural Building Trades alliance has been made a special order of business by the painters' union for next Tuesday evening. This news, taken in connection with the fact that at its last meeting the Building Trades council took action, having for its object the reorganization of the council, means that something may be doing very soon. There are many who believe that any organization which would include in its membership all the crafts of the building trades would be a good thing for the city. For many years there has not been a full representation in the Building Trades council.

Action contemplated by the painters does not mean that a branch of the alliance will be formed at once should favorable action be taken, but provides that other building-trade unions be requested to take the preliminary steps, such as the appointment of representatives to the Building Trades council and consider the feasibility of such a move.

HOW TO SPEND LABOR DAY

Entertainment Not Decided Upon, but It Will Probably Be a Picnic.

Owing to the fact that there is small chance that the state fair management and the general labor day committee will agree as to the correct division of the day's receipts should the day be celebrated at the fair grounds, it now seems probable that a picnic will be held. A subcommittee has been scouring the country to find a suitable place, and will report to the general committee Saturday night, and if nothing more favorable is received in the way of a proposition from the fair officers, definite steps will be taken to arrange for a monster outing.

This year there will be no "independent" celebrations such as in the past have divided the forces of labor on their holiday. All are agreed that the stereotyped parade is not to be thought

of, and all seem satisfied to accept the decision of the committee as to the manner in which the day shall be spent. A subcommittee met at the fair grounds Wednesday afternoon with the officers, but the meeting was not conclusive. An offer was presented with the understanding that a definite reply would be given the general committee Saturday evening. In former years a division was made on the basis of 50 per cent of actual sales by the labor forces, but owing to heavy expenses for the various first-day attractions, the fair people are understood to be willing to concede but 25 per cent. The general committee will meet at Alexander's hall Saturday evening.

TYPOS' POET BUSY

He Couches an Invitation to 42's Picnic in Verse.

Typographical union, No. 42, is ready for the annual picnic, which is to be held at Young America on Sunday, Aug. 6. A neat advertising card is being circulated containing a program of sports, eighteen events in all. A feature of the card is the following verse by Edward S. Kern, the poet laureate of the union:

Forsake the city's dust and noise, And taste the sweets of rustic joys, Bring your wives and sweethearts true, And spend the day with Forty-two.

Window space is being arranged for on Nicollet avenue, where all the prizes will be placed on exhibition.

Invitations have been received by ex-delegates and delegates to the International Typographical union to attend a reunion in Chicago a few days before the opening of the convention at Toronto. The Chicago printers will entertain in royal style, and the program includes among other attractive features an automobile ride about the city in the afternoon and banquet at a prominent hotel in the evening.

WILL ELECT TONIGHT

United Union Label League Not Expected to Make Many Changes.

Election of officers will be the order of business for tonight at the meeting of the United Union Label league. It is not thought there will be many changes as the present staff has been highly satisfactory. The meeting will be at Union Temple, 26-28 Washington avenue S., and a full attendance of delegates is desired.

No. 3 of the first volume of the Employer and Employee, the official publication of the council, is creditable in all particulars. As a leader appears an article on "The Eight-Hour Movement" by H. W. Chertoway of New York, which gives a number of reasons from the standpoint of the employee why the printers of the job offices of the country should be granted the eight-hour day. The article is well worth reading by both sides to the controversy. The rest of the magazine is given up to the publication of news about the different affiliated unions, labor news, a report of the president of the Blue Label league and miscellaneous matter of merit.

\$300 FOR LOSS OF FOOT

Union Carpenter Was Insured by International Organization.

Harry Thompson, a member of Carpenters and Joiners' union, No. 7, received \$300 from the international organization thru the local because of an accident which necessitated the amputation of a foot. Mrs. Malchow, widow of Charles Malchow, who lost his life in an accident some weeks ago, received \$200.

Charles Ballyntine, a member of the union, who was drowned in the Mississippi last Sunday, was not entitled to funeral benefits, but the union, with its customary generosity, appointed a committee to take care of the body when found, and conduct the burial at the expense of the organization. Mr. Ballyntine had no known relatives.

W. S. Fisher was elected business agent for the term of three months at Friday night's meeting. Eight candidates were admitted to membership and \$58 in sick benefits voted.

MORE UNION-MADE CIGARS

Output of Blue Label Smokes Increased Last Month.

Altho the number of labels issued by the Cigarmakers' union for June, 1905, was less than in 1904, the output of union-made cigars was considerably greater. For June of this year 19,242 labels were used, compared with 20,185 last year, while 928,087 union-made cigars were manufactured, compared with 881,930 for the corresponding month last year. Two fancy signs advertising the union label have been placed in the

Inter-city Shooting park and the Lexington ball park, each of which represents an outlay of \$100,000. The 10-cent assessment, which was levied for the benefit of the striking Chicago teamsters, will be due Aug. 3, when collection will be made.

F. H. HARZBECKER COMING

International Secretary to Visit Bakery and Confectionery Workers.

F. H. Harzbecker, secretary of the International Bakery and Confectionery Workers' union of Chicago, is expected in Minneapolis on Saturday evening, Aug. 5. The occasion will be made memorable by the local if the present plans are carried out. The initiation fee has been reduced to \$3 for that evening and a large class is promised. Officers have been at work for some time and the prospect is for a large increase.

An open meeting will be held at Alexander's hall Aug. 5, at which Mr. Harzbecker will be the principal speaker, and an invitation is extended to all workmen of the craft to enjoy the hospitality of the local. The committee in charge will provide a miscellaneous program of entertainment, and a number of local labor lights will attend.

Will Have to Vote Again.

Because no candidate for the office received the number of votes necessary to a choice, Tailors' Union No. 38 will vote for candidates for the office of general treasurer at the next meeting. Those in the race are Fred H. Werner of New York, the incumbent; N. S. Olson of Chicago and G. C. Winkler of Detroit, Mich.

Election By Furniture Finishers.

Furniture Finishers' union elected officers at Alexander's hall Friday night, as follows: President, C. Johnson; vice-president, J. A. Armat; recording and financial secretary, C. W. Darth; treasurer, William J. Meyers; conductor, Gust Hager; warden, Otto Anderson; trustee, Albert Nelson. C. W. Darth has held the office of recording secretary ever since the formation of the union.

LABOR NOTES.

William R. Murphy, financial secretary of Carpenters' Union No. 7, died Friday night of a heart ailment, and as a result has been incapacitated. It is thought that all delegates to the Metal Trades council are requested to attend the meeting to be held next Friday evening at the local. John O. Watson, secretary of the local Plumbers' union and a delegate to the Trades Assembly for many years, has gone into business.

Next Wednesday evening the semi-annual election of officers will be held by the Women's Union Label league. There is talk of discontinuing meetings thereafter until the fall.

The Wisconsin State Federation of Labor is in session at Marinette.

RUSSIAN PRINCE TO FARM IN WEST

Title and Fatherland Renounced, Prince Potemkin Comes to America, Land of Free.

New York Sun Special Service.

New York, July 21.—A tall, dark, broad-shouldered Russian, dressed as a peasant, who landed at Ellis Island on Monday, proved to be Prince Potemkin in disguise, a voluntary exile. Altho he crossed the Atlantic in the steamer of the French liner Bretagne, the young Russian had \$25,000 in cash and drafts among his possessions. The self-styled Prince Potemkin has expatriated himself in order to live as a farmer, just as Tolstoy lives in Russia.

"I am disgusted with the conditions in Russia and have no further use for my own country," he said. "I have sold my estate in the province of Poltava, in the southern part of Russia. I divided what would amount to \$10,000 in America and intend to use the tenants and invited any of them who should so desire to accompany me to America.

Follows Tolstoy's Teachings.

"I am endeavoring to follow out the teachings of that great man, Count Tolstoy. I will purchase a farm somewhere in your great west, and the door of my home always will be open to any refugee from Russia." The prince asserts that he is the son of Admiral Prince Potemkin, and says the rebel battleship which recently terrorized Odessa was named in honor of his father. He says he has had some experience in farming, and thinks that it will be the best thing to do in America. His estate had been large, but owing to the financial conditions in Russia, he could not get for it anything like what it was worth, so he sacrificed it to his immediate plans and necessities for \$35,000, nearly all of which he brought here with him.

Traveled Like a Peasant.

He said he had decided to travel just like other laboring folk, partly because \$35,000 was not much to start life on, and every little saving would help, and partly because he wanted to begin just as other peasants who came in the steerage with him would begin. He said he was 35 years old and single, and that he intended to buy a farm in the west of a Russian settlement. He wore three large diamond rings, which he told the inspector he prized not for their value but because they were heirlooms, and said that he would let every cent of his money go before he would part with one ring.

Prince Potemkin is highly educated and speaks, in addition to his native tongue, French, English and German fluently.

AGAINST THE PRINTERS

Employers in Session Refuse the Eight-Hour Day.

Milwaukee, July 21.—Employing printers of the northwest, representing Wisconsin, Illinois, Minnesota, Michigan and Iowa, met and passed resolutions declaring for the open shop in all job offices and refusing to grant the demand of the Typographical union for an eight-hour day. The officers of the union of America attended, and an address was made by T. E. Donnelly of Chicago, national treasurer of the organization. Speakers were passed resolutions declaring that the job printing business could not be carried on with profit under an eight-hour day, and it was stated that prices would be forced to figures which would drive the large advertisers to foreign printing offices.

It was advised that all shops employing union men, but having no contract to do so, should immediately open their shops, and that all shops now working under contracts with the union should be opened at the expiration of their agreements.

A tentative proposition to form an organization to exist as a branch of the Union Typothetae of America was made, and it was decided that organizers shall visit all the territory represented and endeavor to accomplish the task.

### PIONEER TEACHER OF NEGROES IS STRICKEN

New York Sun Special Service.

Southampton, N. Y., July 21.—News of the death of Miss Mary A. Burnett, missionary to China, at Shanghai, on June 26, has been received by her relatives in this place.

Miss Burnett was born in 1837. She received her education at the old South Hampton academy and at Mount Holyoke, graduating from the latter institution in 1865. It was while she was a student at Holyoke that she was the news of the surrender of Richmond came. As soon as she had graduated she announced her determination to go to the south and teach the negroes, and in the fall of 1865 she started. Five years were spent by Miss Burnett in Georgia and Virginia in this work among the freed slaves.

During her stay in Georgia no white woman spoke to her, and she met with constant difficulties. Yet her stanch spirit was not to be discouraged, and she kept on bravely until the reconstruction years until the condition of the negroes was greatly improved.

S. S. MINNESOTA sails for the Orient from Seattle on or about August 10.

Many people who should answer a Journal want ad. pass it by because it does not seem attractive. This is often because it is non-committal or too short. It is much better to tell the whole story. Mention the attractive points of your offer, so the ad. will appeal to every person who may be interested in such a proposition.

## VOEGELI'S

### NEW DRUG STORES

AT

Fourth Ave. So. and 22nd St. and Lyndale and 20th Ave. N.

ARE NOW IN OPERATION.

That means everybody tributary to these two stores can now buy high grade Drug Supplies at downtown prices. We have but one ambition in opening these new stores, and that is to make them as popular as our main store. The same methods—high quality of goods—fair prices—and courteous treatment that made our main store the largest of its kind west of Chicago, will be furnished at all our branch stores.

Filling prescriptions will be a specialty, and your physician will tell you that Voegeli can be entrusted to carry out his orders without substitution, and with nothing but the freshest and purest drugs. Otherwise his efforts for you will avail you little.

Buying such tremendous quantities of Drugs and Supplies as we do, enables us to buy cheaper than the ordinary druggist, and the same price and quality advantages of our main store will prevail at our branches.

Telephone service, directories and all other drug store conveniences will be cheerfully furnished, and if you happen to have no one to send for your drug wants, just telephone us and we'll deliver them promptly without extra charge.

Our lines of cigars, perfumes, rubber goods, sick room supplies and toilet necessities are especially strong, while our Soda Water is served as only VOEGELI can serve it.

Don't forget the location of our stores.

## The Voegeli Bros. Drug Co.
