

Let Common Sense Decide

Do you honestly believe, that coffee sold loose (in bulk), exposed to dust, germs and insects, passing through many hands (some of them not over-clean), "blended," you don't know how or by whom, is fit for your use? Of course you don't. But

LION COFFEE

is another story. The green berries, selected by keen judges at the plantation, are skillfully roasted at our factories, where precautions you would not dream of are taken to secure perfect cleanliness, flavor, strength and uniformity.

From the time the coffee leaves the factory no hand touches it till it is opened in your kitchen.

This has made LION COFFEE the LEADER of ALL PACKAGE COFFEES.

Millions of American Homes welcome LION COFFEE daily. There is no stronger proof of merit than continued and increasing popularity. "Quality survives all opposition."

(Sold only in 1 lb. packages. Lion-head on every package.) (Save your Lion-heads for valuable premiums.)

THE NORTHWEST

WINONA PRISONER WANTED TO DIE; IS HEIR TO \$40,000 NOW UNDER ARREST

FRED ZEISE HEARS THE NEWS FROM GERMANY.

He and Two Brothers Will Inherit a \$12,000 Estate Left by Their Grandfather—Jail Inmate Is Charged with Grand Larceny and Awaits a Hearing.

Special to The Journal. Winona, Minn., Aug. 12.—Fred Zeise, an inmate of the county jail awaiting the sitting of the September grand jury to answer to a charge of grand larceny, has been notified that he and two brothers have fallen heir to part of an estate in Germany which will amount to between \$10,000 and \$12,000 in Uncle Sam's money.

A letter has brought the news of the death of the grandfather of the young man in Germany, the letter being received by Joseph Pelechem, of Arcadia, who came to Winona to see the man, which share will be in the neighborhood of \$4,000.

Congressman James A. Tawney is in receipt of a communication from the postoffice department, notifying him that complete rural delivery mail service will be established in Fillmore county on October 1st, and that the routes will be established, making the total number in the county forty-four.

The annual retreat of the priests of the Winona diocese will be held at the young ladies' seminary in this city, beginning on the evening of Aug. 21, and continuing up to the following Friday morning. The retreat will be conducted by Very Rev. Father O'Connor, S. J., chancellor of Creighton University at Omaha. Joseph B. Oetter has just returned from Rochester, where he presided at the retreat of the Sisters of St. Francis, at which 130 sisters were present.

Spontaneous combustion in hay that had been put up too green was the cause of Theodore Siles, in the town of Hollingsworth, losing his big barn and part of the contents yesterday. Flames were seen to shoot up from the roof of the barn. Neighbors hurried over and saved the stock, but all the other contents were destroyed. All this season's crop of hay and over 100 bushels of oats were burned. It is possible the largest in Winona county and the loss will amount to about \$3,000, exclusive of insurance.

MOORHEAD ARRESTS TWO

Hopes to Connect Them with Burglaries in Adjacent Towns.

MOORHEAD, MINN.—Two men, giving their names as Fred Warden of Duluth and Frank Williams of Idaho, were arrested yesterday for selling bogus jewelry, razors, knives, etc., and a full line of burglars' tools was recently recovered in their section. The pair will be held pending an investigation as to their recent movements in this county. It is believed that they are connected with the many burglaries which have been committed in the towns around.

The charter commission held a meeting at which an amendment was drawn to be submitted to the voters at a special election. The amendment will vest the city council with power as a board of public works. It has been found that needed improvements, such as streets, laying of sewer, construction of sidewalks, etc., require a budget of \$200,000. The amendment would give the city council the right to raise the city debt to \$500,000, and to issue bonds to the amount of \$250,000. The amendment would also give the city council the right to raise the city debt to \$500,000, and to issue bonds to the amount of \$250,000.

Mr. C. H. Holes, an old resident, has submitted to the city council a claim for \$1,000 damages for the loss of his property. Street Commissioner Baker, alleging that he improperly trimmed the trees around his residence and damaged them to the extent of the sum asked for.

BUCK DISAPPOINTED

Cannot Plead and Receive His Sentence at Once.

MANKATO, MINN.—A. Buck cannot plead to the indictment and receive his sentence at the present time, much to his disappointment. He had expected that he could do so once he had served his sentence under the new law, but it appears that a charge of grand larceny in the first degree is not included under the law. He is therefore preparing to give bail, which Judge Gray fixed at \$5,000, at the time the bench warrant was issued. The bench warrant has been offered to go on his bonds and one of them has offered to put up a cash bond.

Mr. Buck had numerous friends at the jail and received them in the sheriff's office, as he is not locked up in the daytime. Prominent Mankato men came to see him and one offered him a position.

After Buck is released his friends intend to intercede for him before the state board of pardons. A strong effort will be made to secure his release, and a commutation of sentence to a short term.

FIREMEN'S TOURNAMENT ENDS

Cass Lake Will Have Next Meeting of Northern Association.

EVELETH, MINN.—The eleventh annual tournament of the Minnesota Firemen's Association closed yesterday afternoon with the service wet test and several foot races. Eveleth did not enter the test, which consisted of running a mile, carrying a 100 lb. bucket, attaching and laying 100 yards of hose. Cass Lake did the trick in 20:15 seconds and was awarded the prize of \$50. Park Rapids was second and Sparta third. Eveleth took first place in seven out of nine principal tests and won three silver trophies. The officers for the ensuing year are: President, Charles E. Leeman of Cass Lake; vice president, T. H. Hennessy of Grand Rapids; secretary, A. G. Rutledge of Cass Lake; treasurer, P. D. Winslow of Park Rapids.

TELLS OF FATAL SHOOTING

Indian Murderer of Two Says He Was First Fired Upon.

SISSETON, S. D.—All fears of the prisoner being lynched ended when Jake Fite, the Indian murderer, made a statement regarding the shooting of two well-known citizens of this city, on Thursday. Two white men, Mr. Colby and Ed Peterson, of Sisseton, S. D., collectors, came to my house and asked me to take them to the place where the shooting took place. I took them to the place and they started to shoot me. I ran away and I jumped into the collector's buggy and caught him, and shot him three times, killing him. "I then went into Peever and gave myself up."

PIERRE, S. D.—Governor Ellrod has appointed S. E. Wilson of Hot Springs water commissioner for the first district in the state, under the provisions of the irrigation law.

YANKTON, S. D.—Miss Christine Summers, while visiting the cement works yesterday went too close to shaft and in a second her waist had wrapped around the whirling bit of steel and she was drawn into the machinery. The engineer saw the danger at once and shut down promptly. Her arm and chest were badly lacerated.

CHARGED WITH "ATTEMPTING TO COMMIT SUICIDE."

Prussic Acid Is Taken from Crookston Man and He Is Placed in Jail, Where a Little Later He Is Found Preparing to Hang Himself—Love Affair Victim.

Special to The Journal. Crookston, Minn., Aug. 12.—Frank Richmond, the principal figure in a Justice case case some time ago, was arrested last evening at the Crookston jail for making threats to do away with himself, and when searched at the lockup was found to have a bottle of Prussic acid, purchased at the drug store of Fred Krohn, which would have killed him almost instantly.

When arrested Richmond was in a morose condition. He was placed in the cell and the officers later in the night barely arrived in time to prevent him from hanging himself.

Several of the officers in the outer room of the station were disturbed by the rattling of chains in the prison and upon opening the door of the cellhouse found Richmond standing on one of the cots with the chain about his neck and in the act of swinging off.

At his hearing this forenoon Richmond declared himself not guilty of "attempting to commit suicide," and the hearing was adjourned to enable witnesses to be present. Richmond, it is believed, has been the victim of a love affair and is despondent over the outcome.

Henry Rasmussen Willed \$5,000.

Harry Rasmussen is one of the principal beneficiaries in the will of the late Halvor Peterson, the eccentric Cashton, Wis., capitalist, and will receive on the 15th the sum of \$5,000. The estate of the young man's good fortune came while he was employed in the railroad camps of the Soo as timekeeper. He is here visiting friends awaiting the arrival of a steamer, which comes as unexpectedly as a bolt from the sky.

Rasmussen has not seen his grandfather and benefactor in ten years. The estate left by the old gentleman, who was Mr. Rasmussen's father, is valued at some \$200,000, and a score of heirs come in for a division of the property.

DEITS HAS PRIZE COW

Thorbred Jersey Yields Sixteen Pounds of Butter a Week.

Hudson, Wis.—A cow that yields sixteen pounds of butter a week is the valued possession of W. S. Deits, a farmer who lives on the Presidential road, three miles from Hudson. Mr. Deits has made several careful tests and asserts emphatically that sixteen pounds is a conservative estimate. The income to Mr. Deits from this cow is \$4 a week, or more than \$200 a year. The cow is a thorbred Jersey and was raised on Mr. Deits' farm, being 5 years old.

ELFORD PRESTON IS DEAD

Said to Have Been One of Twenty Who Organized Republican Party.

SUMNER, IOWA.—Late yesterday afternoon there was laid to rest in the cemetery here the body of W. A. Elford Preston. The income to Mr. Deits from this cow is \$4 a week, or more than \$200 a year. His name was Elford Preston, and he was nearly 75. He was a resident of Sumner many years, but for two years had been a resident of Oelwein, where he died and where two of his three children reside.

SIoux CITY, IOWA.—Police Officer Frank Harvey had a narrow escape from death as a result of an attack by a crazy man who entered the police station.

LA CROSSE, WIS.—A bolt of lightning which destroyed the home of Fred Goddard, with a loss of \$5,000, played a strange freak in an adjoining residence. The lightning entered the room occupied by Clara Meyer, a servant girl in the family of W. A. Pryor, burning a hole in the bed upon which she was asleep.

RUDSON, WIS.—Lightning struck a public schoolhouse in the third ward, destroying the building, but without serious loss of life or session at the time, but no one was injured.

KIMBALL, MINN.—Mr. Reece of Maine Prairie was declared insane and taken to St. Cloud. He drove his wife to the insane asylum, killing his wife three times with his pocket-knife. Her injuries did not prove to be serious.

A GREAT GROWTH

Minneapolis Milk Company Has Grown to Big Proportions Along the Right Lines.

Owing to the recent agitation in regard to the pure milk question, it will possibly interest many Journal readers to know that the largest individual milk plant west of Chicago is the Minneapolis Milk company, a concern doing an extensive wholesale and retail business. A. H. Ruhke, the proprietor, had for several years been operating a small sanitary dairy near Medicine Lake, retailing his milk daily to the public, as is customary with the ordinary milkmen. While so conducting his business he was daily aware of the impurity of such distribution, the use of the same measures in all homes, the carrying of milk in bulk without refrigerators, etc. It was with these difficulties in mind that Mr. Ruhke began preparations to serve his customers in more sanitary conditions. In 1888 he moved to the city and established a small creamery, hired one wagon and began the distribution of bottled milk in a small way. The public readily appreciated this first step and the business grew with increased patronage. Mr. Ruhke was able to enlarge his business. In a few years trade had increased to such an extent that he was able to invest in special machinery for purifying the milk before bottling. He made trips to other towns and kept in touch with all of the latest improvements for the clarifying and pasteurizing of milk and cream until today his concern is equipped with the latest and best methods for handling the product in vast quantities. Everything is conducted in a most sanitary manner, the bottles being thoroughly cleaned by several immersions in lye, steam, etc., and subject to severe scrubbing. The milk and cream is procured from the finest farms in the state and subjected to the clarifying and pasteurizing process before being bottled, and from that time till it comes to the table nothing comes in contact with it. Twenty-one wagons are used to deliver to all parts of the city. The Minneapolis Milk company is to be ranked as one of the city's most important industries, and it is expected its work will be appreciated by more each year.

Sued for Right to Sell.

A well-known New York retail store recently sued a large book publishing concern for the right to sell their books at any price they saw fit. The book manufacturers set a certain price on their books and would not allow retailers to sell them at a lower price. The store claimed that it could sell at any price it might desire. There are no restrictions on golden grain. Not much, the demand is so much greater than the supply that the question of price never comes up. And why should it? If you want gold, you want gold grain. The price is the same as other beers—it's the quality that's higher.

'Soo' Line "Tid-Bits."

Summer tours to the east; special fishing train for Saturday fishermen; Portland, Ore., and return, \$45; Buffalo, N. Y., and return, \$20.25; homeseekers' rates to Canadian northwest; special rates for fishermen. Ticket office, 119 Third street S.

Ransom County, North Dakota

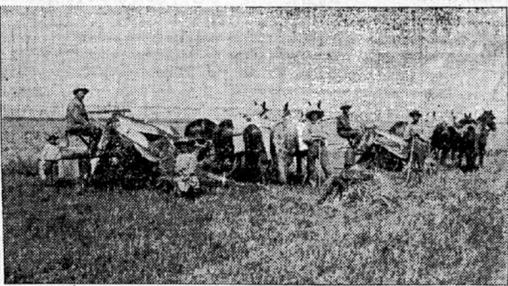

An Immense Crop Now Being Harvested

During the past three weeks your correspondent has traveled largely thru North Dakota, meanwhile closely watching the condition of the crops and the general condition of the state. On my return here I have spent several days driving thru the country, and by comparison I find that the crops in Ransom county are the best to be found in the state. I have never seen a county where all kinds of crops were in such fine condition as here. It is a rare exception to find a field of any kind of grain which can be called poor. There is a large quantity of durum wheat raised in this county, and I have seen many fields which I am confident will

his corn was as good as it could have been in Iowa at this season of the year. I am confident there are thousands of acres of grain in Ransom county which will more than pay for the value of the land on which they stand.

Fine houses and barns, just erected, dot the prairies in all directions, and one can scarcely believe they are not in southern Minnesota or northern Iowa as they drive thru this beautiful country.

Every claim which has been made for the fertility of the soil of this county, and its productiveness, has been more than verified by the results, and those who have purchased recently already appreciate the profit they have made in

Harvesting Scene Near Lisbon, Ransom County, North Dakota.

yield from 35 to 40 bushels per acre, and which stand almost as high as the horses' backs as you drive past them.

Barley and oats are very heavy, and flax is simply a wonderful crop. The harvesting of oats and barley is well under way, and wheat-cutting commences this week. One farmer threshed a small quantity of barley a few days since, and told me it averaged two bushels to the shock. He did not thresh enough to get the acre average, but estimates it to be from 80 to 90 bushels. Another farmer told me his barley took three pounds of twine to the acre, and would yield from 75 to 80 bushels per acre.

I was surprised at the large crop of corn and its fine condition. An Iowa farmer who has settled here told me

advance of lands, and are preparing to buy more as soon as their crop is marketed.

In conversation with Messrs. A. E. Jones & Co., Walter L. Williamson, the Lisbon Land and Loan Agency, and The Adams & Frees company, the four leading and reliable real estate concerns here, they all inform me they are preparing for the largest business in their history during the coming fall. One gentleman from Iowa, who purchased some land here a few years ago, told me that land where he lived was worth \$65 per acre, and he says, "I consider this land worth \$60 per acre after allowing \$5 per acre for the difference in location," for the land where he lived would not produce the crops he saw here.

Appetite Gone?

And perhaps what little you do eat distresses you. Strength is falling—are bilious. You have headache, backache, feel blue and melancholy—and can not rest or sleep. The fact is your nerves are unstrung and you are on the verge of nervous prostration. They must be strengthened, renewed. If neglected, stomach troubles will follow. They will not cure themselves, but must have a nerve remedy. This you will find.

Dr. Miles' Nerveine

It is prepared for just such ailments, and it is a never-failing remedy, because it soothes, feeds and builds the nervous system. "For 30 years I had nervous diseases of the stomach. I had no appetite, could not sleep, run down to 95 pounds. I now weigh 120, am in good health, and Dr. Miles' Nerveine is the cause of it." MRS. EMILY C. LANGDON, 1612 8th Ave., Altoona, Pa. Druggists are authorized to refund money if first bottle does not benefit.

PARKER'S HAIR BALM

Promotes the growth of the hair and gives it the lustre and softness of youth. When the hair is gray or faded it brings back the youthful color. It prevents dandruff and hair falling out, and keeps the scalp healthy.

A California Gold Mine

We desire to interest a few business men in a mining claim in Siskiyou county, California. The present owners have taken out over \$50,000 in six months with a two-stamp mill. There are nine veins in full operation in the county. A national reputation says this property is rich beyond comprehension. There are seventy-three other mines in full operation in the county. The owners have two claims and will sell one in order to secure funds with which to install a larger stamp mill. We invite investigation by reputable business men. Specimens of ore and further information can be had by calling at our offices, 601 1/2 Phoenix Bldg., City.

ARE YOU ILL? HERE IS HEALTH

DR. McLAUGHLIN'S ELECTRIC BELT.

Tell me your trouble and I will tell you honestly whether my method will cure you or not. If it won't cure you I don't want your money. I have been in the business 24 years and am the biggest man in it today by long odds, and am growing yet, because I give you all you pay for. Now, wouldn't you rather wear my life-giving appliance while you sleep, for a few weeks, and feel its glowing warmth pouring into you and feel yourself taking on a new lease of life with each application, than to clog your intestines up with a lot of nasty drugs? Surely! Try it!

DR. McLAUGHLIN'S ELECTRIC BELT. is a positive cure for all sickness. It is a wonderful tonic, a vitalizer. When you arise in the morning after having worn it all night you feel the strength of the nerves strong, quickens the circulation, restores health and makes its wearer feel like one born again. I care not how long you have suffered, nor what has failed to cure you. This is no idle boast, as I have done it for thousands, and many of them had spent from one dollar to five hundred without obtaining relief before coming to me as a last resort. Chicago, Ill.

Dear Sir:—In answer to your inquiry as to how I am feeling, I wish to state that the Lumbago which I had in my back was cured by your belt inside of two weeks. I have great faith in your Belt and I would not sell the Belt unless I could get another one like it. Yours respectfully, CHAS. GUSTAFSON, 249 W. 24th Place.
