anxiety prevails in official quarters. Private reports thru official channels show that Grand Duke Vladimir, uncle of the emperor, is casting his powerful influence in favor of peace.

KANEKO IS PESSIMISTIC

He Thinks Peace Prospects Are Like The Weather.

Oyster Bay, L. I., Aug. 25.—Baron Kaneko had an interview with President Roosevelt today, the third within ten days.

He was asked if he had seen the statement of Count Lamsdorff, the Russian minister of foreign affairs, in which he declared Russia would pay no indemnity nor make cession of territory.

"Yes," he replied. "I have seen it. I think it was a great mistake."

"In your opinion," the baron was asked, "was Count Lamsdorff's statement truly representative of the intentions of Russia or was it in the nature of a bluff?"

"It was official, I understand," responded the baron, "and so I suppose we must swallow it."

"What do you think of the prospect of a successful issue to the peace conference?"

Baron Kaneko hesitated an instant, and then, with a shrug of his shoulders, replied:

"Oh, it is very much like the weather or down here; it is, very much."

A rain was falling heavily and the weather was dark and gloomy and disagreeable.

Manchester, N. H., Aug. 25.—The train from Portland, which had attached the special car of members of the Japanese peace delegation, arrived in this city at 10:15.

Mr. Takahira, who was to have made the trip, did not do so. The party will return tonight.

A competent military attaché of a European power who is acquainted with the defensive facilities at Vladivostok, says that the Japanese will find it a harder task to crack than Port Arthur.

"Vladivostok," he says, "is a year's task at least and more expensive than Port Arthur."

A SPOON SHAKER

Straight From Coffeedom.

Coffee can marshal a good squadron of senses and some hard one to overcome. A lady in Florida writes:

"I have always been very fond of good coffee, and for years drank it at least three times a day. At last, however, I found that it was injuring me."

"I became bilious, subject to frequent and violent headaches, and so very nervous that I could not lift a spoon to my mouth without spilling a part of its contents; my heart got 'rickety' and beat so fast and so hard that I could scarcely breathe, while my skin got thick and dingy, with yellow blotches on my face, caused by the condition of my liver and blood."

I made up my mind that all these afflictions came from the coffee, and I determined to experiment and see.

"So I quit coffee and got a package of Postum which furnished my hot morning beverage. After a little time I was rewarded by a complete restoration of my health in every respect. I do not suffer from biliousness any more, my headaches have disappeared, my nerves are as steady as could be desired, my heart beats regularly and my complexion has cleared up beautifully—the blotches have been wiped out and it is such a pleasure to be well again."

Name given by Postum Co., Battle Creek, Mich.

There's a reason.

of Saghalien and pay an indemnity to Japan have reached the army and have produced an unfavorable impression. The emperor's manifesto proclaiming a national assembly and the outlines of the institution also reached the front and were read with deep interest by the army. Even the peace negotiations were forgotten for the time being in the discussion of the project and its details.

RUSSIA CRITICIZED BY FRANCE

Semi-Official Temps Has a Notable "Leader."

Paris, Aug. 25.—The semi-official Temps has a notable leader respecting the growing French sentiment that Russia is losing ground by not accepting the peace terms, even though they are hard.

"After the long and constant reverses suffered by Russian arms in the far east Russia will do well if she succeeds in preserving the integrity of her territory and escaping with the mere payment of an indemnity, which is not a mortal wound. Resisting the efforts of President Roosevelt and putting off the conclusion of peace already ripe, and refusing to look upon the facts in the face. It is the fatal Russian system of 'nitchevo,' which does not conduce to Russia's welfare."

TOO MANY MARKSMEN

AT SEA GIRL SHOOT

Sea Girl, N. J., Aug. 25.—When the signal was given today to begin firing in the military rifle tournament the weather was clear and the conditions for shooting unusually favorable.

No time was lost in resuming work in the national individual match, which began yesterday, but at 10 a.m. the shooting was interrupted by a heavy rain.

The published program and schedule of events have been disregarded. Instead of being concluded early today the match will continue well into tomorrow.

If all the 657 competitors get thru with the slow and rapid fire by tonight they will accomplish more than is expected of them. That will leave the skirmish runs for tomorrow.

The national rifle match, scheduled to begin at 1 p.m. today had to be postponed. It will follow the national individual match and very likely will be shot tomorrow afternoon.

In view of the foregoing, the indications are strong that the national team match will be far the most important event in the tournament. It was slated to start at 8 o'clock tomorrow morning, but will have to be delayed until next Monday.

Further, it is believed that the national team match cannot be finished in three days, as intended.

Ever since the fever appeared here Governor Vardaman has kept 150 soldiers near the state line, and with the arrival of more men the place will be converted into a military camp.

The state board of health of Mississippi has authorized the use of the militia in enforcing the quarantine regulations on the gulf coast. Soldiers will be stationed night and day on all public roads and also on the Louisville & Nashville tracks, with instructions to halt everybody.

Yellow Fever in Havana. Dr. Gutierrez, president of the board of health of Cuba, and Surgeon A. C. Smith, in command of the Marine hospital here, have disagreed as to the kind of fever a steamship fireman is afflicted with. If Dr. Smith's diagnosis is correct the patient's illness is traceable to Havana, which is generally believed to be free from yellow fever.

At the suggestion of Governor Blanchard the state board of health will issue an order prohibiting persons from leaving infected points. Every town where there is fever will be tied up indefinitely.

ARE INTERESTING GERMANY

There has been a considerable increase of late of the investment of German money in Pennsylvania issues, and it is expected this will be materially increased in the near future.

SIMPLE LIFE MAN GOES INSANE

John Kleasok of Chicago Thought Too Much About His Simplicity.

New York Sun Special Service. Chicago, Aug. 25.—The logic of the simple life was rudely jarred when its chief exponent in Chicago, John M. Kleasok, was declared insane and ordered to the asylum.

Kleasok "lived close to nature." He wore nothing but a loosely fitting cotton garment, cut low in the neck. His breast was exposed and he wore nothing on his feet but sandals. He wore no undergarments, yet often walked the streets in the coldest weather.

He urged those who listened to him to forsake the strouousness of the streets, the business houses and the countingrooms, to throw off all clothing and wear only the simple "gown."

By this way, he declared, lay health, happiness and complete mental rest. Kleasok was taken in custody several days ago and declared insane only after a close examination.

New Lawrence Hall for St. Cloud

Normal Will Be a Model Dormitory

St. Cloud, Minn., Aug. 25.—The new building to take the place of Lawrence Hall, destroyed by fire the early part of the year, is being rapidly pushed by the contractors, and it is hoped to have the basement completed by the opening of the school year. The building will be delivered to the state on Dec. 15.

The building is being erected on the site of the old one, but is twenty yards further north, so as to leave more room between it and the school, thus lessening the danger of fire.

The walls will be of model brick, a red fireproof material warranted to withstand attacks of fire and water. On the west side of the building, facing First avenue, have already been erected the massive pillars which will flank the entrance. Above the doorway has been placed a granite slab with the words "Lawrence Hall" chiseled upon it.

On the south side of the building facing the school, will be a long flight of steps leading to the entrance. Below this will be the entrance into the basement, the approaches of either side being granite steps.

In the north end of the basement will be the dining room, a handsome hall 73 by 45 feet, finished in yellow pine and so arranged that it can be used for the

after-dinner dances. From the dining room, large double doors lead into the serving room, which connects directly with the large and commodious kitchen. In the southeast corner is a long well-lighted room, where the normal students, not boarders at the hall, can partake of their noon lunches, an innovation which has been greatly needed.

Here also are the servants' rooms, laundry, vegetable cellars, icebox and other culinary departments.

Two broad stairways lead up to the first floor, where an immense hall runs from the south to the north end. On the east side opposite the main entrance is a sun room, where the boarders can enjoy their hours of rest. On each side of this room is a parlor, and it is the plan of the authorities to furnish one with the work of the students in the manual training course at the school. Already several chairs, a comfortable davenport, a mission table with revolving bookcase, and a large mission clock have been bought. On this floor there are also the matron's two rooms with fireplace, closets and other conveniences; a sickroom, which is to be fitted with all of the necessary articles for the invalid's comfort, linen closets and fourteen bedrooms.

The second floor, which is approached

WORD "ROMANIST" WAS OFFENSIVE

Interesting Correspondence Between Mrs. Mackey and Father Duhigg.

New York Sun Special Service. New York, Aug. 25.—Correspondence between the Rev. Thomas S. Duhigg, rector of the Catholic church of St. John the Evangelist, Brooklyn, and Mrs. Clarence Mackey, has been made public.

A zealous member of St. John's church was the cause of the correspondence. A new parochial school has just been erected by Father Duhigg, at an expenditure of \$100,000, but it is yet to be equipped with the necessary furniture.

Asked for money, Mrs. Mackey replied: "Yours of the 14th has been forwarded, and in reply I wish to tell you that I absolutely disapprove of parochial schools of the Romanist faith and consider them a grave menace to our country. I am not a Romanist and will not help you. Yours truly, Katherine Mackey."

Father Duhigg wrote a reply in which he said:

I was not aware of the fact that anyone in this parish had written to you in relation to our new school. In the schools you dislike so much we teach our children the ordinary courtesies of life. As an example, we would tell them that the use of the word "Romanist" betrays bad form, and that nice, intelligent people would not be guilty of such a blunder.

"Cain was the first striker and he killed Abel because Abel was the more prosperous fellow."

Baer was asked if he had any ideas on how strikes would be settled in the future.

"No, nor has anybody else," returned Baer. "I have had a long experience. They originated at the beginning of the world."

"These writers on the subject of strikes in the magazines, books and newspapers have had no actual experience, or they would not be so ready to propose theories for the settlement of strikes. They are dreamers. Strikes are susceptible to settlement only upon such bases as the circumstances and conditions involved in them dictate."

Baer declared the "open shop" system was the only guarantee for industrial peace and prosperity.
