

RUSSIA NOW HAS CLASH WITH TURK

Trouble Over the Fortification of the Bosphorus by the Sultan.

Constantinople, Sept. 18.—The steady progress of work in new fortifications on the Bosphorus is causing friction between the Russians and the sultan. The fortifications were hastily commenced at the time of the mutiny on board the Russian battleship "Prinze Posenkin," Turkey seizing on this pretext as a means for carrying out a scheme of fortifications which she had long desired but which had always been opposed by Russia. It is understood that the question was discussed at the recent audience which the Russian ambassador, M. Zinovieff, had with the sultan, the ambassador pointing out that the further fortifications of the straits was incompatible with friendly relations between Turkey and Russia. Meanwhile the works are being actively pushed, though they can hardly be completed for several months.

MORE MASSACRES FEARED

Situation at Baku Again Critical and Butchery Threatened. New York Sun Special Service. New York, Sept. 18.—The Times to-day prints the following cable from St. Petersburg: "The situation at Baku has again assumed a highly critical phase. The feeling between the Tartars and Armenians is so tense that the slightest incident may provoke a repetition of the massacres. 'The Tartars refuse to open their shops, in order to starve the Armenians, many of whom are reported to have died from eating poisoned fruits. 'The situation will remain critical until the arrival of strong reinforcements. Fifteen thousand troops are expected on Tuesday. The rest of the work will be done in the oil fields. The victory here is going to Baku. 'The Tartars and Armenians persist in laying the blame for the recent outrages upon Tuesday. Till then all the Mussulman property on the oil fields was found intact, whereas the Armenian property was all destroyed. The Russians suffered less heavily and the foreigners still less."

PLEA FROM AMERICA

Armenians Denounce Russia as Responsible for Massacres.

Boston, Sept. 18.—The Armenian American citizens of Boston and the vicinity held a mass meeting last night to protest against the massacres of Armenians in the Caucasus. Resolutions were adopted denouncing the Russian authorities and holding them responsible for the death of the thousands of innocent persons. The local officials were charged with having actually excited the disorders and aroused Moslem fanaticism. The resolutions declare: "By seizing the weapons of the Armenians, the Russian authorities deprived our compatriots of their means of self-defense, and furthermore did not use their military power to protect them against the attacks of their enemies, but on the contrary, allowed the leaders of these outrages to go unpunished. "The Russian government in entire disregard of international law, permitted the entrance into its territory of armed Kurds to join the Tartars in their murder and plunder. "We protest against this barbarous state of affairs in the Caucasus, and appeal to the humane sentiments of the American people and government bring pressure to bear upon the government at St. Petersburg and to put an end to the bloodshed."

PREMIER FOR THE CZAR

Nicholas Presents Plan for Formation of a Cabinet.

St. Petersburg, Sept. 18.—The project for the formation of a cabinet which Emperor Nicholas ordered the Svytsky commission to examine, contemplates the formation of a body to be called the council of ministers, which would be under the presidency of a premier. The latter, with the ministers of war, marine and foreign affairs, and the court officials, would have the sole right of reporting to the emperor. The ministers would be appointed on nomination of the premier and no administrative measures would become effective without the permission of the council of ministers, sanctioned by the emperor.

Witte Is on European Soil

Plymouth, Eng., Sept. 18.—The Kaiser Wilhelm II., having on board M. Witte and colleagues, arrived here today. The Russians, who were all in good health, went on to Cherbourg, where they will land this evening. Several reporters boarded the steamer, but M. Witte declined to be interviewed, except to reiterate that the recent rioting in Japan would not delay or interfere with the ratification of the peace treaty.

HUMBERT'S BROTHER SENT BACK TO FRANCE

New York, Sept. 18.—Romaine Daurignac, brother of Mme. Therese Humbert, now serving a sentence in France on swindling charges in connection with the Crawford estate, has been ordered deported today by the board of inquiry of the immigration department, after a hearing on Ellis Island. Daurignac arrived in New York Saturday on a French line steamer and said he came to this country partly for the purpose of observation and travel. The law under which Daurignac was ordered sent back to France today forbids the entry into the United States of a man who has served a sentence in prison for other than a political offense.

IRON WORKERS IN SESSION

Philadelphia, Sept. 18.—Nearly 100 delegates, representing 30,000 members of the International Union of Bridge and Structural Iron Workers of America and Canada, today began their ninth annual convention. The principal matters before the convention will be the general strike of the iron workers against the American Bridge company and the election of a national president.

RATE BILL FIGHT WILL BE BITTER

Railroads Scheming to Cloud the Issue and President Framing Strong Message.

Washington, Sept. 18.—Altho President Roosevelt has decided not to call an extra session of congress for the enactment of railroad rate legislation, this is by no means an indication he has abandoned his intention to endeavor to secure legislation which will give relief to the shippers of the country. On the contrary, he will determine more strongly than ever to his determination to veto the greater portion of his next message to congress to this subject, and if action is delayed he will send in a series of special messages urging the importance of doing something.

Is Trump Card Gone?

In deciding to refrain from calling an extra session of congress for the specific purpose of enacting railroad rate legislation some of the leading railroad men think that the president has thrown away his trump card. They say that if an extra session had been called the eyes of the country would be focused on this question, and congress would have been more likely to do something than at the regular session. By waiting for the regular session those members of the senate who are representatives of the great railroad systems will be enabled to engage in log rolling and may sidetrack with other important business, the railroad rate bill.

Already there are indications that the railroad companies purpose to make a strong drive against enacting the powers of the interstate commerce commission.

Since the adjournment of the last congress the railroads have maintained a literary bureau and through it have carried on a campaign of education. This campaign of "education" is but the beginning of what is to come, and before the next session of congress twenty-four hours old the president will discover, if he doesn't realize now, that the railroads are trying to divert the attention of the country from the railroad-rate question to the tariff issue. If they can precipitate a discussion of this question, it will be an easy task for months during which time the rate question will be obscured and the end of the session will be near.

Headway of Tariff Discussion.

It is assumed that when once the tariff discussion is launched it will be almost impossible to stop it, as there is discussion in the republican party and even the president's own cabinet is divided. Mr. Roosevelt is earnestly and honestly for tariff revision, and so are such members of the cabinet as Secretary of the treasury, but he does not agree with his chief and there are other members of the president's official household who do not.

Fear Disturbed Business.

Great fear is expressed by those who are opposed to raising the tariff, especially on the products of the trusts, that the business situation would be disturbed, and one of the highest officials of the treasury department has declared that if the president should recommend tariff legislation in his next message, there would be a decrease of \$50,000,000 during the next year in the revenues of the government. Such a recommendation would, he predicts, cause almost a complete cessation in importation, mills in this country would close down and the next meeting of congress would be thrown out of work. It is the typical republican argument in favor of high protection.

Elkins Backs Road

PROMOTED BY YOUNGER

New York Sun Special Service. Kansas City, Mo., Sept. 18.—Cole Younger, promoter of the trolley line which is to pass through the old home counties and thence to Jefferson City, with a probability of later being extended to St. Louis, says the money to finance his project is being furnished by eastern capitalists. It is understood, however, that Senator Elkins of West Virginia is furnishing the greater part of the needed capital, out of gratitude to Younger.

ILLINOIS WILL NOW BE KIND TO MADMEN

Peoria, Sept. 18.—The asylum for incurable insane at South Bartonville is now without locks and bars, the last one having been removed by Superintendent Zeller. This is in accordance with a step taken in contemplation by Dr. Zeller, he having become convinced that more can be accomplished by kindness than by forcible restraint. The inmates now enjoy a large personal liberty and the effect has been apparent in a noticeable improvement in their conduct.

FLOODS AND RUIN IN SOUTHWEST

Western Missouri and Eastern Kansas Rivers Out of Banks on Rampage.

St. Louis, Sept. 18.—A tremendous downpour in the Missouri River valley in Missouri, continuing in many places for four days, has resulted in floods that are already surpassing the great overflow of 1903. Railroad service between St. Louis and Kansas City is badly crippled. Thousands of acres of rich bottom land are under water and a large part of the bumper crop of corn in which farmers in Missouri by the millions are congratulating themselves, has been destroyed.

The Lamine, Chariton, Osage, Grand and Meramec rivers are out of their banks and their comparatively insignificant tributaries have become raging torrents, sweeping away bridges, crops, live stock and farm dwellings. Booneville is cut off from the world by railroad and telegraph. California, Tipton, Higginville, Lexington, Keytesville, Carrollton and other river towns are isolated.

The Mississippi Swollen.

Heavy rains and swollen tributaries have caused a rise of ten feet in the Mississippi during the past twenty-four hours, and resulted in damage along the St. Louis river front amounting to many thousands of dollars. A vast amount of produce and other shipping property along the levee is still in danger. The river stage this forenoon had reached 23.07 feet, a sudden rise of 10.05 feet in twenty-four hours. The danger line is 35 feet. The water is gradually creeping up and it is predicted that by nightfall the gage will show a stage of 28 feet.

Property in Danger.

Produce houses and grain and cotton firms, having consignments stored along the levee, hastily organized gangs of laborers and endeavored to save their property from being swept away, but the suddenness of the freshets interfered to a considerable extent. Thousands of barrels of apples, bales of hay, sacks of grain, bales of cotton, and in one instance 75,000 feet of lumber were swept away from the levee. The water in the flood intercepting floating merchandise, and a fleet of skiffs manned by men with bathhooks assisted in the salvage work.

Downpour in Kansas.

Kansas City, Sept. 18.—Rain has fallen in Kansas City and vicinity every day excepting one in September, with a total of 10.75 inches of rain in the last seven days, and today there was no prospect of immediate cessation. Practically the same conditions have prevailed throughout western Missouri, especially in the northwest corner of the state, and in a portion of eastern and central Kansas. As a result all streams in this part of the country continue to rise and railroad traffic is becoming demoralized because of numerous washouts.

SIoux CITY DELUGED

Downpour Floods Streets and Business Basements.

Special to The Journal. Sioux City, Iowa, Sept. 18.—The heaviest twenty-four-hour rain that ever fell in this city during September fell last night, 3.23 inches of water being recorded by the government gage. The rain fell in torrents, running the unpaved hill streets of the city and flooding basements of downtown business houses. The damage will amount to many thousands of dollars. The rain was accompanied by terrific electrical display. Reports from the surrounding territory are that the rain was general and considerable damage to buildings and stock was done by lightning.

CIVIL WAR BRAND HORROR RECALLED

Initial 'D' Seared on Deserter from Federal Army—Iron Is Found.

New York Sun Special Service. Chicago, Sept. 18.—Through the purchase of the iron letter 'D' with which the only brand of the civil war was seared into the cheek of a deserter, the story that shocked the nation at the time is recalled. The iron has recently passed into the possession of the Libby Prison association of Chicago at a purchase price of \$40, and will be among the relics of the war between the north and the south.

Forbidden by Grant.

It was purchased from one of the veterans of the Seventy-fifth Indiana regiment, who took possession of it when General U. S. Grant issued his peremptory order commanding that no soldier should be branded for desertion. The brand was made upon the personal order of Brigadier General John T. Wilder of Chickamauga fame by John Schaeffer, regimental blacksmith of the Seventy-fifth Indiana. It was applied to the cheek of Private Alex. Jordan, who was a member of Company A, Seventy-fifth Indiana.

Drummed Out of Camp.

After the brand had been applied Jordan was drummed out of camp in front of a corporals' guard with fixed bayonets. Jordan made his way back to his home at Newburg, Ind., the longing for which had prompted him to desert. There he died of broken heart several months after he had reached his shelter.

ROB OFFICERS OF THEIR PRISONERS

Deputies Overpowered by Blind-piggers in a Desperate Fight on a Train.

Special to The Journal. Minot, N. D., Sept. 18.—Fifteen blind-piggers, in an attempt to liberate three others who were under arrest, made a vicious assault on Deputy Sheriff Pearson of Portal and Deputy Sheriff George of this city on a Soo train. Deputy George left the city with warrants for the arrest of the three Portal "piggers." At Portal he was assisted by Deputy Pearson and the three prisoners were arrested and placed on a south-bound Soo train. As the train was pulling out from Portal it was boarded by a dozen or more "piggers" from the Austman area, who made an assault upon the two deputies with pistols and succeeded in dragging two of the men under arrest from the train. The deputies were overpowered and badly beaten, but succeeded in retaining one of the men under arrest. Despite the fact that the rescue party was armed to a man, not a shot was fired. The train was in motion when the men escaped.

Roosevelt Shuns European Tangle

Imperial Russia has been detached from France to a considerable extent, but republican Russia would prefer republican France to monarchial Germany. Moray, the Hohenzollern dynasty fears it would not remain in existence for any length of time should its empire be flanked by two republics. Germany needs Russian support, particularly in the forthcoming conference in regard to Morocco. She forced France to assent to a conference and the French agents will enjoy the support of the representatives of Great Britain, Italy and probably Austria.

HIGHEST I. O. O. F. LODGE IN SESSION

Sovereign Grand Lodge to Consider Wider Door to Patriarchs Militant Branch.

Philadelphia, Sept. 18.—The eighty-first annual communication of the sovereign grand lodge of the Independent Order of Odd Fellows opened today in the temple. Every jurisdiction of the order in the United States is represented. Grand Sir Robert E. Wright of Allentown will preside at all business sessions and will be present at all public meetings.

According to Grand Sir Wright, among the especially important matters to be considered is the Patriarchs Militant Branch of the order. The list of eligibility to that branch is the membership in the encampment branch, which has about 170,000 members, about 12 per cent of whom are in the Patriarchs Militant. The proposition is to make membership in the subordinate lodges the basis of admission to the militant. The total number of lodge members is 1,300,000. If the change is on the same percentage of lodge members who enter the militant as now go in from the encampment, the militant branch will reach a membership of 200,000. It now has 18,000. It would be then the strongest uniformed fraternal organization in the world.

The grand lodge will also consider the question of extending the order in Porto Rico, San Domingo and Scotland.

The report of Grand Sir Wright shows the total subordinate lodge membership, 474,058; number of subordinate lodges, 14,315; expenditures for relief, \$4,623,649; total revenue, \$13,638,791; total resources, \$37,645,071.

The increase in membership of subordinate lodges was 65,724; the encampment branch, 9,990; in the Rebekah branch, 20,891, making a total increase of 102,195. The increase in receipts for the year was \$761,077. The increase in resources, \$2,974,951, and the increase in relief, \$307,139.

DIAMOND SITUATION.

SOLVING MYSTERY OF GIRL'S BRUTAL MURDER

New York, Sept. 18.—A large force of detectives is at work today searching for Joseph Girard, for whose arrest a warrant has been issued in connection with the murder of Augusta Pfeiffer near the Palham road, Westchester, on Monday night. The detectives expect to find him within twenty-four hours.

Coroner O'Gorman said that he believed the young woman lay alive in the woods for two days after the first assault and was killed on a second attack by the same man. The coroner said:

"Undoubtedly the girl knew the man who killed her. Otherwise there would have been no necessity for him to have added murder to his first crime. He killed her because she recognized him."
