

ACTION BY CZAR HARD TO FATHOM

Roosevelt, However, Accepts Cordially the Call for a Peace Conference.

New York Sun Special Service. Washington, Sept. 20.—President Roosevelt is disposed, his friends here say, to accept cordially the representations of the Russian government as to the call for a second peace conference at The Hague.

What the president wants is a conference; let the credit for its meeting go to whoever it should. But the action of the czar in calling a second peace conference when the president already had taken steps to that end is the more remarkable, and one examines the correspondence which the state department has had with foreign powers, including Russia, on the subject.

Knew President's Plans. Before he communicated with the government of Europe and America, the czar knew the president, in a note dated Oct. 21 last year, had accepted the request of the interparliamentary union, which held a meeting at St. Louis during the world's fair, "to invite all nations to send representatives" to a peace conference, and had announced that he would, at an early day, invite other nations, parties to the Hague convention, to assemble with a view to pushing forward toward completion the work already begun at The Hague by considering the correspondence which conference had left unsettled, with the express provision that there should be a second conference.

Czar Well Informed. The czar knew, moreover, that after negotiations with the powers, which accepted the invitation in principle, the American government issued a circular note in which it stated that although the time of the meeting had to be postponed out of deference to Russia, which had not yet agreed to participate in the conference while the war with Japan was in progress, still the conference "may be regarded as assured so soon as the interested powers are in a position to accept on a date and place of meeting and to join in the formulation of general plans for discussion."

Waited for Peace. Thus all the preliminaries for the proposed conference had been arranged. The president had allowed the matter to rest until peace was agreed upon, and then he directed the state department to prepare another circular note in regard to the conference, which was sent him for approval. The czar did not know the president had gone this far, but he must have known that President Roosevelt was on the eve of action.

The state department is not informed of the character of representations which Baron Rosen made a few days ago to the president, but it is fully expected that the Russian government has given assurances that there is no intention on its part to act on the ground now under the feet of the American executive, and that it is simply taking up the work where it was left off by the president's last note.

What Czar is Doing. In other words, its efforts are confined to discussion with the powers of the time and place of meeting, and the subjects which will be discussed. When these matters have been arranged then the government at The Hague, at the suggestion of the czar, will issue formal invitations to the powers to send representatives to a second peace conference.

It is stated, by those who claim to know the Russian position, that when the facts become public it will be found that the czar has not sought to take upon the president any of the credit for the conference.

Within two weeks of the signature of the protocol which terminated hostilities between the United States and Spain the czar issued his call for the first peace conference.

In taking that step he was not moved by any desire to criticize the United States for having gone to war. He now emphasizes the fact that the interest of a second conference within two weeks of the termination of hostilities between his own country and Japan.

CASSATT TO REMAIN PENNSYLVANIA'S HEAD

Philadelphia, Sept. 20.—Referring to the report emanating from Chicago regarding the probable retirement of Mr. Cassatt from the presidency of the Pennsylvania railroad, an official of that company today made the following statement:

"Mr. Cassatt was never in better health nor ever stronger physically and mentally. He was never more intensely interested and was more interested in the work of the railroad than he is at present. It is his earnest desire to see the improvement pushed to its completion before he retires.

"The shareholders of the Pennsylvania Railroad company may rest assured that they will enjoy the benefit of his ripe experience and great ability for many years to come. Any likelihood of his early retirement is absolutely without foundation in fact."

FARMERS TO JOIN WITH CITY UNIONS

Big Combination of Food Producers and Labor Organizations Is Projected.

New York Sun Special Service. Chicago, Sept. 20.—Reports were brought to Chicago today that a movement for an organization of farmers in close connection with the working class of great cities, to strike at the profits of the commission men and speculators and railroads, that are reputed to wax fat in the transfer of grain, vegetables and dairy products from the farm to the cities, is south in Wisconsin, and is heard in southern Illinois, Indiana, Minnesota and adjacent states.

The Wisconsin Plan. There is a project on foot among Wisconsin farmers, who are uniting in county organizations under the name of the American Society of Equity, to send representatives to the coming convention of the American Federation of Labor in November, and seek affiliation.

Joseph W. Morton, one of the best known of Chicago's labor leaders, member of the executive board of the International Brotherhood of Firemen and delegate to the American Federation of Labor, returned today after a two weeks trip in Wisconsin, and reported that the organization idea had the hold of the farmers all over the state.

Movement in the West. From further west reports were brought by J. J. Stonely of the United Garment Workers' union, who declared that while traveling through Montana, Idaho and states farther south in the interests of his union, he had found the farm owners and their employees to be agitating unionism for the purpose of commanding better prices for their products and labor. In Texas there is a strong organization known as the Texas Alliance.

"The farmers in Wisconsin believe that if they can perfect a great national union they can get command of the situation by shutting off all shipments of breadstuffs and other products for a period of seventeen days."

This was the assertion of Morton. He said the greatest enthusiasm prevails around Madison and Elroy.

Centralization Plan. "This American Society of Equity is not entirely new, but it is just beginning to take hold of the people. They are being taught to believe that by centralizing control of the food supplies of the country, they can command better rates from the railroads and destroy the middlemen, who now reap rich harvests from the labor of the producers. The society working on the socialist theory that there is no need for workers to enrich the idle class that exploits the less cunning classes."

MISSIONARY GIVES DEVIL WORSHIP AGAIN

Huntington, Ind., Sept. 20.—Definite information contradicting the reported death of Daniel Flickinger Wilburforce, the African missionary, who, after being educated in this country, several months ago renounced the Christian faith and returned to heathenism, have been received here.

Wilburforce, with several other natives, has been arrested by the English commissioner of West Africa, charged with cannibalism. While being taken to headquarters he passed through the town where his adopted family were staying, but was not allowed to see his relatives. It is a local rumor that, innocent of the charge and in case he was acquitted, asserted that he would ask forgiveness and return to the Christian faith.

They will proceed to the Holy Land and other countries and will spend several months in the large cities of Europe. Mr. Bryan expects to be gone not less than a year.

CZAR TO BUY NAVY IN BRITAIN, SAYS RUMOR

London, Sept. 20.—The Daily News prints a rumor that Russia will place an order for a new fleet, including big battleships, cruisers, torpedoed destroyers and torpedo boats, in Great Britain. The paper says that a Russian agent is now in London negotiating with a group of shipbuilders and ordnance makers, apparently including Vickers' Sons and Maxim. The group would be at liberty to make whatever subcontract they wished. A financial authority expressed faith in the report, basing his belief partly on what he alleged to be a fact, namely, that Russia is about to raise a loan in Great Britain, and in accordance with the custom will spend as much as possible in the loan in the country in which the money is raised.

Mr. Bird is a sick man, and has been away from his desk practically all the time since the first of last March. He has been at Lamanda Park, Cal., since last June.

SWEDEN'S GREAT LEADER IS DEAD

Continued from First Page.

in the hand of every Swedish man; and to the other to put the relations of Sweden and Norway on such a basis of absolute equality and fairness as would be the act of union to yield those fruits of prosperity and happiness which it was so well fitted to yield.

Twisted by rheumatism, bent by age and saddened by the innumerable obstacles that rose in his path continually, he now passes away without either of his great purposes fully attained, but yet with the happy prospect that the final settlement of the union crisis problem will not only lead to amity between the brother nations, but will also give an impetus to the spread of liberal principles in Sweden.

His Bidsdag Swan Song. As the father of the house, he sat in seat No. 1 on the extreme right of the simply furnished but spacious room in the new rickstad building, where the second chamber meets. On the day of the final debate, he looked if possible more bent, more wan, more feeble than ever.

The platform closes with the indorsement of the administration of Mayor Weaver and the approval of the department "with faithful adherence to the letter and spirit of the law."

Arrested and Released. On Aug. 6, 1904, the British cruiser Sherwater found the schooner Carmencita off the coast of the Gulf of St. Lawrence and boarded her. Her papers declared her to be Mexican, with Woodside as master. The British authorities said they recognized the schooner as the vessel which had fled the Mexican flag for a time flow the Norwegian flag.

DRAMATIC SCENE RECALLED BY SUICIDE

Bloomington, Pa., Sept. 20.—The recent suicide of Charles Herzog, near Minot, S. D., and the letter in his pocket which revealed the murderer of Elizabeth Grumbacher, for which crime Charles Sterling, an innocent man, was executed at Youngstown, Ohio, thirty years ago, has a most dramatic incident.

Averill says that Sterling, who all along maintained that he was innocent, was convicted upon purely circumstantial evidence. Finally, on the scaffold, when all hope was gone, he called the girl's brother to his side and pointing his finger at him, declared, in trailing accents:

"I never saw your sister, I am innocent of her murder and I die an innocent man, but the guilty man will be found out, even if the sun has to reveal him."

It is thirty years since then, and now the prophecy has come true.

WOMAN'S HOARD FOUND IN TRUNK

Thousands in Gold Concealed in Attic—Carried in Trunks as Baggage.

Springfield, Ohio, Sept. 20.—Heirs of the late Eliza Meharry Jeffers today found \$10,595, nearly all in gold, in a little old black trunk in the attic of the family home of Mrs. Jeffers.

The fact was brought out in the settlement of her estate that during her life she had given large sums to educational institutions. Ohio Wesleyan university had received \$60,000 and De-pauw \$85,000.

She died two months ago at the age of 81 and had lived with relatives during the closing years of her life. The discovery of the contents of the trunk was made by the administrator of her estate, P. J. Oskerday.

She always took the trunk with her when traveling, but had expressed it as she did other ordinary baggage.

REFORMERS UNITE IN PHILADELPHIA

"City Party" Indorses Weaver and Declares War on the Republican Gangsters.

Philadelphia, Sept. 20.—The "city party," a reform organization, held its county convention today to nominate candidates for sheriff, coroner and two county commissioners in opposition to the republican nominees announced last Saturday.

The nominees named by the convention, it is announced, will be indorsed by the republican party. The convention was held in the city of Philadelphia from the control of corrupt and criminal conspirators calling themselves republicans. It aims to put an end to government by and for municipal contractors.

Demands of City Party. A complete and thorough revision of the present election laws, including a provision for personal registration.

San on Gratters. An honest, open, economical and efficient administration of our municipal affairs ready to let a business man, and not an officer-holder from political control, and that no councilman shall hold any city employment or be interested in any city contract.

The "Pirate's" Cove. It was in September, 1904, that the Carmencita was deprived of its Mexican papers. The schooner was cleared in England in May of that year, and it is suspected was partly equipped for a sealing cruise at that time; but not sufficiently so to attract the United States revenue cutter's taking her into custody.

Arrested and Released. On Aug. 6, 1904, the British cruiser Sherwater found the schooner Carmencita off the coast of the Gulf of St. Lawrence and boarded her. REGAL HONORS FOR ALICE ROOSEVELT

Korean Capital Puts on Gala Dress and Welcomes President's Daughter as Royalty.

Seoul, Sept. 20.—Thru streets crowded with white-robed Koreans and lined by the imperial bodyguard standing at "present arms," Miss Alice Roosevelt, riding in the imperial yellow palanquin, last evening triumphantly passed from the railway station to the royal palace. The roadway had been freshly paved and the shops draped with Korean and hastily hand-painted American flags.

Miss Roosevelt, Rear Admiral Train, Senator and Mrs. Newlands, the Misses Boardman and McMillan and Congressmen Longworth and Gillette arrived at Chamulpo yesterday and proceeded to Seoul by special train. The imperial carriage, which is only furnished to royalties, was placed at Miss Roosevelt's disposal. On arrival at Seoul the party was hailed by a Korean band, which played "The Star-Spangled Banner."

Korean policemen and Japanese gendarmes guarded the roadway and grotesquely clad retainers bore long lanterns. The passage of the party along the streets was everywhere heralded by the bugles of troops.

Miss Roosevelt and Mrs. Newlands are guests at the royal palace, and the rest of the party are staying at the imperial palace.

SEALER'S CAPTAIN ARRESTED AFTER LONG SEARCH—EVADDED LAW OF THREE NATIONS.

Washington, Sept. 20.—Captain Alexander McLean was arrested Monday last at Victoria, B. C., by Canadian authorities at the request of the American consul, acting for the department of justice, under an indictment obtained more than a year ago at San Francisco on a charge of conspiracy in fitting out the schooner Carmencita in violation of the sealing laws. A telegram received at the state department today announcing the arrest, says:

Carmencita had been refitted under the name of the Ascapulo, of alleged Mexican registry and with a crew of men said to be as "choice a band of robbers and cutthroats as have manned a pirate craft since the days of Captain Kidd."

Long-Sought Man. The search for McLean has proceeded since May, 1904. His movements have been known a greater part of this time but his pelagic sealing cruises have not been so elevated and with such sharp observance of the letter of the law that it is said he has made these very technicalities cover his alleged evasions of the law.

For instance, he always has been careful not to be found within the three-mile limit of the sealing reserves and also an American carrying in large quantities of sealion blubber, which is registered under either American or British laws. On that account the reciprocal agreement between these countries for the protection of the sealing industry has not applied.

He has operated under both Mexican and Norwegian registration and apparently has been successful in retaining one or the other despite the fact that he forfeited Mexican papers at least once.

The "Pirate's" Cove. It was in September, 1904, that the Carmencita was deprived of its Mexican papers. The schooner was cleared in England in May of that year, and it is suspected was partly equipped for a sealing cruise at that time; but not sufficiently so to attract the United States revenue cutter's taking her into custody.

It is suspected the schooner sailed for a cove on the coast of California, where sealing apparatus had been shipped from time to time, and there fitted out completely.

From the cove on the California coast the schooner took the high seas and several times was seen in the vicinity of the Privy Islands, but never within the limit of the preserves.

Arrested and Released. On Aug. 6, 1904, the British cruiser Sherwater found the schooner Carmencita off the coast of the Gulf of St. Lawrence and boarded her. Her papers declared her to be Mexican, with Woodside as master. The British authorities said they recognized the schooner as the vessel which had fled the Mexican flag for a time flow the Norwegian flag.

IN THE BEST OF HEALTH SINCE TAKING PE-RU-NA.

IN POOR HEALTH. PAINS IN BACK. SICK HEADACHES. PE-RU-NA CURED.

This is the testimony of Mrs. Smith, of Nashville, and has been the testimony of a multitude of other women. Pain in the back, sick headaches, bearing down pains, nervousness, palpitation of the heart—all of these and many more symptoms beset women who have systematic catarrh, and especially if they have been known as "pelvic catarrh."

Catarrh of the internal organs gradually saps away the strength, undermines the vitality and destroys self-control. "This brings about a state of nervousness, the horrors of which can hardly be overdrawn."

Peruna is the remedy. Thousands of women have found it so. It alleviates immediately and finally cures.

CONTRACTED SEVERE COLD, SERIOUS RESULTS FOLLOWED. PE-RU-NA WAS ADVISED. CURED IN TWO WEEKS.

Miss Ada Lamma, 5813 Junnet street, S. Tacoma, Wash., member Order of Eastern Star, writes: "About a year ago I contracted a severe cold at a critical period, which caused very serious results and lost all ambition to perform my daily duties. I took Peruna for some time and am now entirely well."

"After two weeks' use I had very little pain and have now been in the best of health for over eight months, thanks to Peruna."

Miss Gertrude Linford, 221 Niagara street, Buffalo, N. Y., writes: "There is not the least doubt that Peruna will do all that you claim for it. I was exhausted and lost all ambition to perform my daily duties. I took Peruna for some time and am now entirely well."

PACKERS ATTACK JURY'S LEGALITY

Beef Trust Sees Loophole in the Secret Selection of Federal Jurors.

Chicago, Sept. 20.—A plea of abatement was filed today by the packers in the United States district court on a charge of conspiracy to monopolize the meat industry. The plea is in support of a writ of habeas corpus issued by the defendants and their attorneys.

It is said that the main question to be raised, when the plea is finally taken, is whether the government has the right to monopolize the meat industry. The plea is in support of a writ of habeas corpus issued by the defendants and their attorneys.

It is charged in the plea that the date of the drawing was kept a profound secret, and the packers were unable to learn who had been selected to sit on their case, although the government had an opportunity to investigate each man whose name had been drawn.

COLOMBIA REPORTED IN DICTATOR'S GRASP

Panama, Sept. 20.—Unconfirmed reports reached here today to the effect that Rafael Reyes, president of Colombia, declared himself dictator on Sept. 8 and imprisoned the members of the supreme court.

Mobs, angered by this action, attacked the presidential palace and were fired on by troops, who killed or wounded many of the rioters.

Colombian Envoy Skeptical. New York, Sept. 20.—Diego Mendoza, Colombian minister to Washington, is staying at present in this city. When advised of the Panama dispatch he said:

"I do not believe there is a word of truth in the report. I received a cable dispatch from Bogota two days ago, and it said that the country was in complete and absolute peace, and that President Reyes was engaged in the reconstruction of the Colombian finances."
