

4% INTEREST

Absolute Security

We have settled the question of safety for savings depositors, by placing half a million dollars capital (five times that of any other savings institution in Minnesota) back of the savings accounts of our depositors, this makes their safety absolute and is the reason we have been able to double our deposits during the past nine months.

We would appreciate your patronage whether your account is large or small. Deposits made on or before the fifth of any month draw interest from the first.

The authors of "My Friend the Chauffeur," "The Lightning Conductor," and "The Princess Passes" are an English husband and an American wife. He is the Editor of "Black and White," London, and she is a beautiful New Yorker.

Many of the remarkable adventures in "My Friend the Chauffeur" really happened to the authors, and they had many other adventures which are not described, among them the remarkable way in which they first met. Their books are full of touches of both English and American life and character, which are accounted for by their respective nationalities.

Never buy real estate without having the title insured by the Title Insurance & Trust company. Costs little, worth much.

Dr. C. M. Heard has returned from Germany and will occupy his pulpit at the Minnehaha M. E. church tomorrow.

Successful Insurance Agencies are not built in a day. Fred L. Gray Company has been fourteen years building theirs.

Andrew J. Jackson has brought suit for divorce in the district court against Georgia Jackson. He alleges desertion. The couple were married in 1897.

Harry Gaze of London, England, will deliver a lecture tomorrow evening at the First Unitarian church on the subject, "The Fountain of Perpetual Youth."

The Century News store, Third street, near Hennepin, has the largest line of souvenir postals, magazines and 10c books. See us about your binding and subscriptions.

Now is the time to consult Mr. Pollock about newspaper clippings. T. C. 9140; N. W. M. 4127-L2. We are both losing money if you are not using our services. Call us up now.

St. Anthony tent, K. O. T. M., will give an anniversary banquet and entertainment at its hall, Fourth and Central avenues NE, next Monday evening. All members are invited.

Finances in burglary insurance, and the largest writer of policies in this city is the United States Fidelity and Guaranty Company, Howard & Wilson, Managers, 210 New York Life building.

The Louisville Evening Post is the plaintiff in a suit brought in the Hennepin county district court against the Sheffield-King Milling company. The Post seeks to collect \$136 for advertising.

"A Socialist View of the Printers' Strike" is the subject of a lecture which will be delivered tomorrow afternoon at Holcomb's hall, 45 Fourth street S, by William Mahoney, a pressman of Terre Haute, Ind.

Minnesota's magnificent new capitol is given considerable space in the current issue of the International Studio, a well-known art magazine published in New York. Fourteen pages are devoted to description of the beauties of the building and to the works of the eminent artists that adorn its walls. The article is liberally illustrated.

Emil Johnson was arrested by Detectives Helin and Hansen last night, charged with grand larceny. It is alleged that while he was in a card game at the Casino at 618 Hennepin avenue S, he picked Anderson's pocket, obtaining \$65. Johnson admitted the theft but said he had spent a part of the money.

The case of the state against Shattuck, Zonne, proprietors of the Hotel Nicollet, was argued yesterday in the supreme court. The defendants were convicted and fined \$10 for selling ruffled grousers. They appealed on the ground that it should have been charged that the game was brought from another state and sold in violation of law.

Plymouth club, an organization of the men of Plymouth church congregation, will open the winter season with a meeting Monday evening in the parlors of the church. Dr. Richard Burton of the state university will deliver an address. The Monday evening meeting will be open to ladies as well as gentlemen. The club will have a series of entertainments during the winter, including addresses on travel, municipal affairs, literature, politics, art and architecture.

PLANT GUTTED BY FLAMES

Fire last night damaged the plant and stock of the Northern Shade Cloth company, St. Anthony Park, to the amount of \$25,000.

The fire was first discovered by Patrolman George Buskin. The blaze started in the fringed room and spread rapidly to the other parts of the building. When the department arrived the fire had broken thru the roof and was burning fiercely. After an hour's work the firemen had the fire practically out. The building and contents was valued at \$50,000.

SCHWAB "DOES" ST. PAUL

Thirteen minutes of St. Paul yesterday was enough for Charles M. Schwab of United States Steel corporation fame. Mr. Schwab arrived Friday morning in St. Paul from the west and continued his trip east with just thirteen minutes stopover in St. Paul.

Some Seasonable Advice.

It may be a piece of superfluous advice to urge people at this season of the year to buy a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when it is taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other.

BUYS REVOLVER; SHOOT A CLERK

STRANGER SERIOUSLY WOUNDS B. A. FINK IN ST. PAUL

James Newman, from Michigan City, N. D., Pays for Gun and Cartridges and Leaves Store, Only to Return a Few Moments Later and Open Fire—Probably Demented.

Benjamin A. Fink, clerk in Morris Samelson's pawnshop at 192 East Seventh street, St. Paul, was shot down in the store yesterday afternoon by James Newman, a stranger in the city, who, a few minutes before, had purchased a revolver from his victim.

Fink and his wife and the proprietor, Mr. Samelson, were in the store when the shooting occurred. Newman entered the store and asked to look at some revolvers. He appeared perfectly rational, and after examining the weapons, he purchased one for \$4. He also purchased some cartridges and then, going out, walked down the street.

A few minutes later he again entered the store and whipped the revolver from his pocket, saying: "I am going to shoot." He fired a shot that did not take effect, and Fink ran to the rear end of the store for safety. Newman followed him, and fired another shot, which struck Fink in the shoulder, sending him to the floor. Newman then started for the door, but was grabbed by Samelson, who called until Joseph Smith, a porter, came and helped disarm him.

Detective Patrick O'Brien sent Newman to the police station and Fink was taken to the city hospital in the police ambulance. He is said to be in a precarious condition.

When Newman was placed in the sweatbox he seemed dazed and would not talk of the crime. He said he recently came from Michigan City, N. D. He did not know whether he had purchased a revolver and said he did not remember about any shooting. He did not know why he was arrested. The man was divorced from his wife two years ago he said and she now lives with his children at Charles City, Mo.

A rested and sane man, Fink's statement, but Samelson, the proprietor, says there was no provocation for the shooting and thinks the man is demented.

L. N. GILLETTE WILL JOIN KEITH COMPANY

Walter J. Keith and George H. Keith of the Keith company, architects, have made an arrangement by which Leon Narcisse Gillette of New York is connected with them in the firm of Keith, Gillette & Keith, associate architects.

A resident of Minneapolis, a child and a graduate of the University of Minnesota, Mr. Gillette is not unknown here. He has a fine practice in New York city, and will probably do so during the coming year. He was born in his boyhood in Minneapolis. Mr. Gillette has been making a record for himself in the architectural world. He took the three-year course in his profession at the University of Pennsylvania. Afterward he spent two years in the best New York offices and then went to Paris, where he took a course in Ecole des Beaux Arts. Since he was graduated with high honors, taking several prizes. Mr. Gillette then toured Europe, particularly England, France and Italy, and brought back with him a remarkable collection of sketches and watercolors. Only two years ago he was awarded the diploma of the French government. Since that time, Mr. Gillette has lectured before the art students.

When the lease of the Keith company expires on the building at Ninth street and Hennepin, the firm will move to a new office, to be located on the point of land above the Plaza apartments, which belong to W. J. Keith.

RIVAL LOVERS USE KNIVES IN BATTLE

George Pennington and Joseph Marshall, both colored, engaged in a fierce razor fight at 503 Third street N last night over the affections of a colored girl known as May Harvey.

The two men have both made love to the same girl for some time, and last night they met at the home of a friend where one of them had taken Miss Harvey. Words followed and razors were drawn. In the fight that followed Pennington is said to have been the aggressor, and he received the worst of the deal. After the fight Marshall ran to the North Side station. Later both men were arrested.

DAUGHTERS PLANT TREE

Descendants of Revolutionists Brave Rain in Loring Park.

Minneapolis chapter, Daughters of the American Revolution, was not dismayed by the rain, and with the courage of their revolutionary fathers, they planted their tree in Loring park this afternoon. Dr. Ethel Hurd read a paper on the historic earth which was brought from the thirteen original colonies and placed about the tree, and there were other talks and addresses of a patriotic nature. The tree takes the place of the thirteen which was brought from Fort Griswold eight years ago and planted in the park. The sapling died, and it has been replaced by a hard maple.

BEFORE BIG GAME

Wisconsin and Minnesota Glee and Mandolin Clubs' Concert.

A joint concert by the Minnesota and Wisconsin Glee and Mandolin clubs is a probability for Nov. 3, the day before the annual Minnesota-Wisconsin football game.

A communication has been received at the university from the badger musical organization, asking if such a concert can be arranged and the members of the Minnesota clubs are inclined to invite the badgers to participate in a joint concert, to be given at the Auditorium.

Instead of wearing distinctive articles of headgear on the university campus, the men of the senior class are wearing blue flannel shirts as a distinctive senior dress. The movement for this radical reform in campus attire was started by several members of the class who are opposed to the practice of campus "fussing," as it is supposed that the adoption of corduroys and flannels will meet with a chilly reception on the part of the university girls.

WOULD GET CHEAP PAVING

Assistant Engineer Dutton Has New Scheme to Resurface Streets.

Assistant City Engineer E. R. Dutton has a plan by which the asphalt streets of Minneapolis can be resurfaced for a very small sum. This is on the assumption that an asphalt company would quote a price of \$1.30 a yard for the entire job of 110,000 yards. The city retains \$15,000 from the 1896 contract, which will become due next year. It will cost the Barber Asphalt company, which is the successor of various concerns that secured contracts here, upwards of \$30,000 to resurface the streets, and leave them in the condition required by the contracts and guaranty. If relieved of the expense of making these repairs it is asserted that the company can sell the asphalt at \$30,000 if it gets the entire contract.

Mr. Dutton is in favor of a municipal asphalt plant, which has been proposed on various occasions in the past fifteen years. Such a plant would cost about \$20,000 and will enable the city to make repairs whenever it is deemed necessary without waiting until the contractors had finished their work in several other cities.

DECLINES THE CALL

Cincinnati Pastor Won't Come to First Unitarian Church.

Rev. Herbert S. Bigelow cannot accept the pastorate of the First Unitarian church in Minneapolis. S. A. Stockwell, one of the church committee, received a telegram to that effect today. Soon after the death of Rev. H. M. Simmons a call was extended to Mr. Bigelow, who is a leader in the denomination, but he has decided to remain in Cincinnati.

GENERAL CARR REVIEWS TROOPS.

General C. C. Carr, commanding the department of Dakota, conducted a territorial review of the 1st Cavalry and 2nd Infantry yesterday afternoon, preceding an annual inspection of the entire post. Two companies from the fort escorted General Carr from St. Paul to the reservation. A luncheon was given for General Carr after the inspection at the officers' club by Colonel Orrin J. Sweet.

WARNING MILK SHIPPERS G. N. WILL HAVE TO BUILD BRIDGE

HEALTH COMMISSIONER P. M. HALL CALLS THEIR ATTENTION TO ORDINANCE PASSED SEPT. 8.

Notice was sent today by Health Commissioner P. M. Hall to about 150 dairymen in Dakota, Rice, Goodhue and a few other counties, who ship milk to Minneapolis by rail, that they must comply with the new dairy and milk ordinance passed Sept. 8, which requires the shippers to comply with the same regulations for dairy and cattle inspection as is imposed on the dairies adjacent to Minneapolis. The active enforcement of the ordinance will not begin until Dec. 1, but Dr. Hall wants to give all the shippers due warning so that they cannot set up the defense that a trap was sprung on them. Application blanks and tuberculin will be furnished by Dr. A. A. Keys, city veterinarian, or Dr. Ward of the state live stock sanitary board.

The ordinance requires that all cans or bottles containing milk or cream shall bear the name of the owner of the cows from which the milk is drawn and that the owner shall file with the health commissioner a list of the names of the cows, and that the milk be tested by a licensed veterinary surgeon, showing that the cows have been tested with tuberculin and found free from tuberculosis or any other contagious disease. It also gives the department authority to seize and destroy milk or cream brought into Minneapolis not properly tagged, or which comes from animals not properly tested, or from herds, which have not been given the necessary certificate of inspection.

DETECTIVES HAVE A FIGHT WITH YOUTHS

Detectives Wirtensohn and Martinson got more than they bargained for last night when they tried to arrest Charles O'Toole and James Ryan on charges of vagrancy, and they had to fight their way through a mob of youths to get to the police station.

O'Toole and Ryan are both about 20 years old, and under the average height. The detectives saw them loitering about Erie street, and they tried to arrest them. The youths, however, were a wise thing to find out their business. Their business is that of frog catching, but they wouldn't tell the officers so. The officers each grabbed a man and in a second there was a hot fight on. Seeing that they would have to use drastic methods in making the arrest the detectives summoned Shorridge. The three men managed to hold on to the prisoners until a patrol wagon came and took them to Central station. In police court today Ryan and O'Toole were each sentenced to the workhouse for thirty days for resisting the officers.

MAY MAKE MAXWELL AUTOS IN DIXON, ILL.

A. F. Chase, the pioneer automobile dealer of Minneapolis and the north-west, has assumed charge of the general management of the Maxwell-Brisco Motor company, makers of the Maxwell automobile, for the entire central west, together with the general management of the western factory. He will make his headquarters in Chicago.

The officials of the company decided last July to move their factory to Minneapolis, but a location further south has been proposed, and Dixon, Ill., and Minneapolis are now rivals for the industry. A decision will be reached before Nov. 1, and work on the factory started at once.

The northwest will be handled as heretofore under the name of A. F. Chase & Co., under the management of B. H. Allen, who has been identified with the firm since Jan. 1.

GENERAL JACOBS DEAD

Army Officer Well Known in Minneapolis Succumbs in California.

General J. W. Jacobs, U. S. A., died Friday at Los Angeles, Cal. For several years General Jacobs was stationed at Fort Snelling and at a later date was assigned to general army headquarters at St. Paul as quartermaster. His last station was at Governor's Island, until his retirement in 1904.

General Jacobs married Miss Grace Chute, daughter of Richard Chute and sister of W. Y. Chute of Minneapolis in 1888 and was well known in Minneapolis. He leaves, besides his wife, three boys. One, Chute Jacobs, is of the '08 class at West Point, and the other two are at school in Oakland, Cal.

It is expected that the burial will be at Oakland.

BRIGHTS DISEASE AND DIABETES

This Single Statement Records Five Recoveries by the Fulton Compounds.

A. P. Forbes, the mining expert, of 327 Pine street, San Francisco, has several properties in Oregon; one at Pursell is in charge of his nephew, Robert Forbes, to whom he is much attached. His nephew's health failing, he was much distressed to learn that it was Bright's Disease, and he interviewed some of those who had recovered in San Francisco under the Fulton Compounds. Among others, he knew personally the late N. W. Spaulding, ex-United States Sub-Treasurer of that city, and also Charles Engelke, editor of one of the German papers. They satisfied him of the genuineness of the claims—Mr. Spaulding telling him the complete recovery of his daughter, after physicians said she was beyond help with Bright's Disease, and Engelke also had recovered from the same disease under the same treatment. This decided Mr. Forbes, and he sent Fulton's Renal Compound to his nephew, who was soon about his usual duties and finally recovered. This was in December, 1902. A reporter met Mr. A. P. Forbes on Montgomery street, in San Francisco, last week, and asked him how his nephew was. He said: "He is all right," and he added the following: "I was so delighted at his recovery that I told a great many about it—among others, a lady, who took much interest in it, and two friends at that time with Bright's Disease. She interested them both, particularly one who knew me. I did not see her for a long time, but met her recently, and was delighted to have her thank me. She gave me the pleasing information that both had recovered."

Note that this short narrative records the recovery of five different people from Bright's Disease.

About 87 per cent of all cases of Bright's Disease and Diabetes are curable by the Fulton Compounds. Send for literature.

Vogel's Bros. Drug Co., Corner Hennepin and Washington Aves. and Corner Seventh St. and Nicollet Ave., Minneapolis, Minn.

When to suspect Bright's Disease—Weakness or loss of weight; puffiness ankles, hands or eyelids. Kidney trouble after the third month; urine may show sediment; falling vision; drowsiness; one or more of these.

CONCILL DEMANDS THIS IN RETURN FOR PERMISSION TO EXTEND LAUREL AND SUPERIOR AVENUE BRIDGES AND VACATE SEVERAL STREETS IN BRYN MAWR—CHAUFFEURS NOT BEING EXAMINED.

In order to proceed with its work of extending the Bryn Mawr freight yards, the Great Northern Railway company will be required to extend the old wooden bridge at Superior avenue, with a modern steel structure, following the straight line of the street instead of being twisted around like the letter "S" in order to secure a short bridge.

At the council meeting last evening the recommendations of the special committee to consider the request of the Great Northern railway for permission to extend the Laurel and Superior avenue bridges and the vacation of several streets in Bryn Mawr, were adopted. This means that the Great Northern can have the streets and extend the Laurel avenue bridge, if it will give the city a new bridge at Superior avenue.

Alderman Platt E. Walker introduced his ordinance to repeal the existing law, establishing the levels of Lakes Calhoun and Tharion. It was referred to the old special committee consisting of the committee on ordinances and the aldermen of the fourth, eighth and thirteenth wards.

Alderman Walker's position is that the law gives the park commissioners full authority in the control of the parks and the aldermen should not interfere.

COMPLAINT WAS RECEIVED FROM THE BOARD OF CHAIR EXAMINERS THAT SEVERAL AUTOMOBILE DRIVERS WERE PRESENTING THEMSELVES FOR EXAMINATION. THE BOARD HAD PASSED ONLY 135 APPLICANTS, WHICH WAS ONLY A SMALL PROPORTION OF LAW. AT ANY RATE, THE MONEY CAN BE USED TO GOOD ADVANTAGE AND AN EFFORT WILL BE MADE THRU THE COURTS TO SECURE ITS RETURN.

Instructions were given to the city attorney to proceed against the sinking fund commissioners to secure the return of the \$100,000 which was transferred in 1898 from the permanent improvement revolving fund to the sinking fund. There was a surplus in the revolving fund at that time, owing to the small amount of permanent improvements for a part of the year, and not knowing what to do with the surplus, the financial authorities decided to place the \$100,000 in the sinking fund. It is alleged that the action is not sanctioned by law. At any rate, the money can be used to good advantage and an effort will be made thru the courts to secure its return.

WILL GO AFTER \$100,000.

City Engineer Andrew Rinker reported that the sewer repair fund was exhausted and that the still remained considerable cleaning and repair work, which must be done at once. The fund had been exhausted by an unusually large number of orders for the moving of catch basins on account of changes in the width of streets. Mr. Rinker thought that inasmuch as resolutions narrowing roadways entailed more or less expense, and that the same should be referred to a committee for consideration. Alderman W. E. Satterlee moved that all future resolutions on this subject be referred to the committee on paving and sewers and the city engineer, who is to estimate the expense. This was withdrawn, however, on the understanding that the city attorney should prepare a measure covering the whole subject.
