

RICH MEN'S GRAFT TO BEAT HEARST

Money Kings Combine with Conspiring Bosses to Defeat the Leading Candidate.

McClellan to Be Elected by Aid of Republican Votes Delivered by Odell.

Chicago, Nov. 3.—Walter Wellman, in a New York special to the Record-Examiner, says: Here in the metropolis of America we have today a striking example of that graft of the higher sort—rich men's graft—combined with dirty politics and deliberate treachery can do to keep a great city in the clutches of those who systematically pluck it.

As the case stands today with the people of Greater New York, William Hearst is their choice for mayor. With all his faults and weaknesses, he is the favorite with a larger number of voters than can be found in the following of any other candidate.

Yet Hearst is to fail. And yet, the chances are that Hearst is to be re-elected. In spite of the fact that the revolt against the bosses has reached such a point that it makes Jerome almost a certain winner.

Treachery is Afoot. The explanation is: Treachery is afoot—treachery and rich men's graft together.

The republican machinery, of which ex-Governor Odell is the boss, deliberately plans to defeat the favorite candidate, Irvins, and to save McClellan. On the actual state of public feeling Hearst is the winner. The Tammany leaders know that as well as anyone else.

Rich Men in the Plot. Moreover, it is within my knowledge that this conspiracy is of wide extent and thoroughly organized; the names of the men in the deal are known; they are working for their own ends, and disagree to the first city in the United States—the cash comes from the coffers of rich men down in the financial district.

There are more kinds of graft in New York than in any other city I know anything about. Graft here is an art, a science. It assumes an infinite variety of forms. In the form of graft which is playing a star part in this picturesque battle is big graft. It is the result of collusion between millionaires and political bosses.

Scared by Tammany. Tammany has artfully used the Hearst scare to work its little scheme. It has gone to the aid of the public utility franchises, such as the rapid transit lines, the street cars, the gas supply, the telephone lines, the electric light and many more and has in effect said to them:

"You see just how it is. The people have gone wild over the man Hearst, simply as a result of getting excited with you and with us. We are all in the same boat. We sink or swim together. Unless we get together, we'll all go down. If that socialist-anarchist Hearst wins, he'll upset everything. He'll try to take your franchise away from you. He'll make trouble all along the line for you. You can't live with him. There's nothing for you to do but to turn in and help us beat him."

TRIPLETS A SPECIALTY OF CHICAGO SUBURB

Chicago, Nov. 3.—The suburb of Austin, after a period of obscurity has made another for President Roosevelt's commendation. The village has again leaped into the limelight with the second set of triplets born into a single family within a period of less than two years. The president smiled and sent his congratulations on the first occasion. A bound copy of his speeches on race suicide is expected to grace the second christening.

Word was received last night that the second set of triplets, two boys and a girl, was being made welcome in the home of W. W. Wilson, until a month ago a resident of Austin, but now living at Los Angeles. However, Austin arrogates all the credit to itself.

The sultan of Morocco was so much impressed by a Highland uniform he saw the other day in the suite of the British envoy that probably only fear of a revolt prevented him from trying it on some of his warriors.

OWNS TO PART IN SUIT CASE CRIME

Prisoner in New York Says He Helped Dispose of Chorus Girl's Body.

Journal Special Service. New York, Nov. 3.—Two men, charged with homicide in connection with the Boston suitcase tragedy, were arrested here late yesterday afternoon. They are William Howard, alias Hunt, 36 years old, and Albert H. Emery, alias Louis Crawford, of Boston.

It is announced that Howard has made a confession, narrating in detail his part in the disposal of the girl's body. For a Fee of \$100. Howard told Inspector O'Brien, according to the latter, that he was in Boston on the morning of Sept. 19 and called on Crawford at Mrs. Bishop's office. Howard and Crawford had been acquainted in the past.

Hurled into the Bay. Howard says he was directed to take one suitcase while Crawford took the other. The suitcases containing the body of the murdered girl were hurled into the bay.

They hurried back to the office and found that the suitcases containing the torso was so heavy that it was necessary for Howard and Crawford to take hold on either side. They engaged a hackman and were taken to the ferry.

HARRASSED PLANTS LOSERS IN CHICAGO

Big Manufacturers Driven from City by Labor Troubles, Buy Sites Elsewhere.

Chicago, Nov. 3.—Led by the Allis-Chalmers company, one of the largest manufacturing concerns in the city, which is said to be planning to shut down its Chicago works and do all plant work hereafter at the \$3,000,000 plant being built in West Allis, Wis., several firms are declared to be forsaking Chicago because of labor difficulties here.

Some of the concerns that have already moved are the Greenlee Brothers, machinery; the Foster-Kimball company, machinery; Chicago Writing Machine company, the Pierson Machinery company, the Sibley Manufacturing company, the Morgan Electric company and the Cribben-Sexton Stove factory. These firms are said to employ more than 5,000 men.

The J. V. Farwell company has established a factory at Benton Harbor, Mich., and the W. B. Clow company has built and maintains its largest mills at Newcomer, Ohio.

Secretary Fred Job of the Employers' association, declares a change is coming. "Within the last few weeks I have had inquiries from many outside firms about Chicago labor conditions," he said today, "and I have advised them that Chicago is now the safest of manufacturing places and affords the best market for labor of all classes."

Formal Entertainments. The first formal entertainment Saturday will be the formal luncheon at the Willard at 1 o'clock, when the prince will become the guest of the army.

Lieutenant General Chaffee, chief of staff, will be his host. The trip to Fort Meade, Md., for the reception of the prince will be followed by a reception at the White House at 3 o'clock this afternoon. It is probable that a drive to some point of interest in the city will be made.

Another proclamation was issued, signed by 130 prominent liberals, asking the people under the circumstances to support the proposition of the government.

Swedes Relinquish Banks. King Oscar has notified the Norwegian government that all the members of the Swedish royal family relinquish the banks they have hitherto held in the Norwegian army and navy.

This cablegram shows that there is to be a struggle in Norway between the monarchists and the republicans, and that the question will be fought out at the polls when the referendum on accepting a king for Denmark for King is taken.

The Michelson government has appealed to the people to decide for a monarchy on opportunist grounds, and the section of the liberal party represented in the cabinet has come out in support of this position.

The argument will be that under the circumstances it is a part of patriotism for the republicans to support their principles and vote for such a limited and constitutional monarchy as that of England.

The radical liberals and the socialists will oppose this argument vigorously and the fight will go on until the vote is taken.

The date for this is not yet definitely announced and probably will not be until word comes from the court of Denmark of Karl's final acceptance.

At this writing it seems probable that the proponents of the monarchy will win out, but the question is still a low may change this outlook materially.

OWIE NOW SEEKS RECRUITS IN WEST

Zion Leader, Disgusted with Chicago's Lack of Appreciation, Invades Other Fields.

Special to The Journal. Sioux City, Iowa, Nov. 3.—Disgusted with his failure to secure followers in Europe or to recruit his tenth legion in the wicked city of Chicago, John Dowie now seeks recruits in the west.

The Zionists say that at this very time Dowie is arranging for a branch in Mexico, and that it will be a paying proposition. The manner in which investors are to become rich is explained no further than to say that a community of people will follow Dowie to Mexico and there, beneath the dome of southern skies, bring all their riches into the storehouse.

Dowie hopes to repeat in Mexico the deal he made in Lake county, Illinois, when he purchased 6,500 acres along Lake Michigan for \$40 an acre, and by a system, increased its value to \$90 a running foot. His agents declare the people of Chicago are anxious to get away from contamination and start a new home in the land where chile con carne is free and the coal mine does not ask for money.

Tobacco, whisky, profanity and all vices and superfluities will be taken away from those who emigrate to the new heaven.

Bowker in London, announcing his decision to fight Attell, says he is married, and his wife-to-be does not wish to spend her honeymoon during his back to health.

Washington, Nov. 3.—Prince Louis of Battenberg, rear admiral, commanding the second cruiser squadron of the British navy, now visiting American waters, arrived in Washington from Annapolis today. He was accompanied by his staff and the captains of the ships of his command.

The distinguished visitor was ushered into the national capital by three American rear admirals from the North Atlantic fleet and their staffs. A special train conveyed the party from Annapolis. UNDER THE BED AFTER 10 YEARS

Woman Finds Burglar Just Where She Expected—And Leaps Thru Window.

Journal Special Service. Ansonia, Conn., Nov. 3.—For ten years it has been the habit of Mrs. Joseph McKenzie of Bridge street to wind the clock and peer under her bed for burglars before retiring at night.

She peered under the bed as usual last night and saw a pair of boots. She looked up and saw a man's face. She tried to make sure, tried to drag them out. Then she discovered it was a burglar for whom she had been looking so long.

The burglar got too much for her. She screamed for help. The burglar was so wedged he could not move, nor did he try. This frightened Mrs. McKenzie, who called for help about the room, so excited that she mistook a window for a door, and she jumped out.

Her bedroom is on the third floor of the house. She fell about ten feet, but she was not hurt. She was broken by bushes and she arose to her feet, thinking not of her hurts, but of the burglar. She dashed down the street to the police station.

The burglar, who said he was Michael Burke, from Lewiston, Me., was sent to jail.

President B. B. Johnson of the American league, Robert McRoy, secretary, and Manager Jake Stahl of the Washington club, have returned from their Washington fishing and hunting trip.

The American league head states he has no intention of removing the league headquarters to New York as announced in the eastern papers. The matter has been talked over, as is done annually, but no action has been taken.

FIGHT FANS HAVE COUNTED THE BLOWS

Journal Special Service. Los Angeles, Nov. 3.—A count of the blows struck in the recent fight between Jimmy Britt and Battling Nelson was made at a local theater here last night.

The fight was a close one, and the count was 1-10 blows struck, and of this number Britt landed 975 while the Dane had but 355. The count was made to decide a bet of \$100 between Jim Jeffers and Henry Berry.

The latter bet the champion that Britt landed three blows to Nelson's one and of course lost the bet.

JEWES ARE SLAIN CHRISTIANS SAFE

Continued from First Page.

Committee of Police Safety Formed and Funds Provided.

Helsingfors, Finland, Nov. 3.—The municipal council, which meets daily, has formed a committee of police safety. It also has notified the strike committee that it considers itself in a position to maintain order and has raised \$200 for this purpose.

The council has appointed a special committee to confer with the strike committee when the latter refuses advice on important questions.

Warsaw, Russian Poland, Nov. 3.—A remarkable feature of the demonstrations here was the fraternizing of the people with the soldiers on the crowd of the crowd and were furnished with champagne and cigars.

The greatest rage is felt against the Cossacks, whose soldiers on the crowd before the city hall was unprovoked. Many were killed or wounded.

STRIKE DECLARED OFF

Freedom of the Press Is Granted—Witte Having Trouble.

St. Petersburg, Nov. 3.—The decision of the strike committee to call off the strike at noon today was received with relief by the classes of the population, as the absence of newspapers, electric light and other conveniences of life is severely felt.

The railroad men, however, have resolved to continue the strike until they obtain a continuance of the high prices of provisions.

A great demonstration is promised for Sunday, when the bodies of the victims of the conflicts of Tuesday will be interred. The strike committee sent a deputation to Count Witte today and informed him that the workmen would preserve order at the funeral.

Censorship Abolished. The censorship without Russia, however, was abolished today, not only for the newspapers but also in the case of private telegrams.

Count Witte is having trouble in forming a cabinet on account of the lack of liberal support. Senator Koni refused the portfolio of justice and Prince Eugene Prokhorov, brother of the late rector of the Moscow university, is said to have not even replied to the tender of the ministry of education.

Appeal to the People. Another appeal to the people in the shape of an official note was published this morning. It says:

After the manifesto of Oct. 30 had laid an unshakable foundation for the development of Russian life on the basis of legality and justice, participation in street demonstrations has a significant difference from that attaching thereto previously. It can only encourage disorder, and the presence of pupils of the middle and lower classes in the streets is a disgrace to the demonstrators as much to be condemned if only on moral grounds.

Unless the attention of society be now directed to this fact, the state is threatened with dangerous increases in the number of people whose respect for authority and order is being radically shaken while they are still in the schoolroom. The government has the duty to appeal to all citizens to exercise self-control and to devote themselves quietly to their avocations.

Last Grand Duke Ousted. Grand Duke Alexander Michailovitch, brother-in-law of Emperor Nicholas, has been relieved of the post of head of the department of mercantile marine.

The department of mercantile marine is to be merged with the new ministry of commerce, which probably accounts for the grand duke being relieved of his duties as head of the department. He is the last of the influential quintet of grand dukes who have been the advisers of the emperor, Grand Dukes Alexis and Michael Nicholas having been relieved of their posts as respectively grand admiral, or head of the navy, and president of the council of empire, and Grand Duke Vladimir, having been relieved of the post of commander-in-chief of the military district of St. Petersburg. Grand Duke Sergius was assassinated at Moscow Feb. 19.

Perkins and Morgan Escape. Stockholm, Nov. 3.—George W. Perkins, J. Pierpont Morgan, Jr., Mr. Barings and other financiers arrived here today from St. Petersburg on board the Russian steamer Oihonna. Mr. Morgan proceeded immediately to London. Mr. Perkins remains here until Saturday.

Mr. Perkins said that when they succeeded in chartering the Oihonna at Helsingfors, the strikers refused to permit the vessel from sailing for St. Petersburg. Her captain, however, succeeded in eluding them.

GRAHAM NAMED FOR PORTO RICAN POST

Washington, Nov. 3.—Announcement was made at the White House today of the appointment of Lawrence H. Graham of New York City, to be commissioner of the interior for Porto Rico, vice John S. Elliott, resigned.

Mr. Graham was formerly a newspaper man, being correspondent at Albany, N. Y., of the New York Evening Post and later of the New York Commercial Advertiser. He was the secretary of the government commission of the Louisiana Purchase exposition.

TIGERS WORKED HARD BEHIND CLOSED GATES

Journal Special Service. Princeton, N. J., Nov. 3.—With gates again closed the varsity lined up against the scrubs for the hardest scrimmage that has been held on the field this season.

The halves were thirty and twenty-five minutes, representing almost solid hour of hard scrimmaging. The practice was encouraging and, also, the varsity showed some weakness in defense during the first half, the second half brought greater strength against the scrubs of the second eleven. McCormick, Beard and Dabbs were in the first half. Dabbs scored two touchdowns and McCormick one in the first half.

Captain Conroy was again out of the line yesterday and it is beginning to look doubtful whether the tiger captain will get in the next game. He is not seriously injured, but the effects of the trouble, slight as it is, have proved slower in leaving than was first expected. Phillips was again in Conroy's place and Waller was in Carohne's place at center.

The varsity was not expected to be falling off somewhat in point of speed.

MRS. TODD LEFT DEAD ON TRACKS Aged Woman Millionaire Killed Before Train Passed, Not Hit by Train. New York, Nov. 3.—Coroner Scholer, following an autopsy on the body of Mrs. Margaretta Todd, the rich woman found dead on the Reading tracks near Philadelphia a week ago, today said that the woman could not possibly have been struck by a train. He said she could easily have been killed by some heavy weight falling on her while she was inert, or by pressure of a knee. Mrs. Todd, revealing her ribs had been fractured, together with the breastbone. Her clothing was not ruffled in the slightest, but was smooth and neat. Had a train struck her the clothing would have been disarranged and torn. One of the important developments today was the discovery of letters written by old Mrs. Todd, revealing her suspicions of a plot to get possession of her substantial fortune. She is specific in every detail, including the name of the man she feared. The letters prove that Mrs. Todd was in fear of her life and that for months before her mysterious death she took extraordinary precautions against an attempt to kill her. Counsel for Mrs. Frank Tousey, Mrs. Todd's only daughter, is in possession of the dead woman's apartment house, the Von Hoffman, from which she yesterday directed attorney Lockwood, the former Todd attorney.

He was enjoying a spin down Michigan avenue in his automobile Wednesday afternoon, when the treasure trove was discovered.
