## \$12.50, \$15.00 and \$17.50 Stylish Raincoats at \$9.75

No matter how many dependable, stylish coats you may have, your wardrobe is decidedly incomplete if it does not include a good raincoat. They are a sort of "never-can-tell-when-you'll-need-them" garment, especially during the uncertain weather of this season of the year.

We have just about 100 raincoats made of fine all wool materials in dark oxfords, grays, olives and dark colors that we propose to sell Saturday at a very remarkable price concession. There are all sizes in the lot. Of some styles there is but one lone garment, while of others there are several, the assortment being a varied and pleasing one. These coats are not only desirable for stormy weather, but are also acceptable for street wear and come in very handy as a protection for elaborate evening gowns. The styles are right up to date and the same identical cut that will be worn next spring, according to authoritative advice.

Just as likely as not we will have soon a repetition of our recent rain-snow combination weather, then a raincoat is worth its weight in gold from a health standpoint alone.

Pardon us for suggesting that you had best be a trifle careful in buying raincoats. Lots of them floating around that look like all wool—but they're not—no, indeed. These garments are actual \$12.50, \$15.00 and \$17.50 values. Special at ..... **\$9.75**
