Not Much Wheat Here Today, but Considerable at the Other Primary Points.

A Better Speculative Feeling-Summary of Foreign Crop Condition.

Minneapolis Chamber of Commerce, Nov. 28.—
The weather became something of an influence in wheat today. It is a long time since the trade has given any thought to the weather, but with snow over the country and lower temperatures in the forecast, the probability of interference with traffic suggested itself. That any material falling off in receipts will follow is unlikely, yet the snow might hold back a little wheat. Today only 452 cars turned up in the Minneapolis yards, compared with 662 a year ago, but Duluth wiped out the loss that otherwise would have stood, for the northwest, by a run of 497 cars against 238. Chicago got 99 against 78. St. Louis received 73,000 bu against 64,000, and taken altogether there was plenty of wheat in sight on our side of the line, while up at Winnipeg receipts were 718 cars against Minneapolis Chamber of Commerce, Nov. 28 .up at Winnipeg receipts were 718 cars against 590. Minneapolis elevator stocks have increased 300,000 bu so far this week.

Fargo said there was almost a foot of snow on the level and the roads were blocked, and Grand Forks sent about the same report. Broomhall's weekly summary of foreign crops says: United Kingdom, Italy—Weather too wet for crops. France—Considerable acreage reported unseeded in north; elsewhere conditions generally satisfactory; supplies are moderate. Germany—Appearance of German crops very poor; official report for German empire Nov. 15 shows wheat condition 74 against 88 Last year, and rye 74 against 84; offerings now small. Hungary—Rain preputed initishing of seedings. Rurye 74 against 84; offerings now small. Hungary—Rain prevented finishing of seeding. Rumania—Crops about normal. Russia—Crops very favorable, but Hessian fly is reported; shippers forecast another week of big shipments and then a smaller movement. Spain—Conditions are now favorable. Australia—Sydney cables that the average of the various estimates indicate a total crop of 82,400,000 bu, with export surplus of 32,000,000 bu, about equal to last year; quality satisfactory.

ARIZONA COPPERS.

Owing to the storm of yesterday the wire connections over the northern country are almost entirely cut off with the result that the trading in the market is light and uncertain. Black Mountain is still soaring with \$15.50 bid for the full paid stock. The one remarkable thing about the advances this stock has undergone during the past two months is that all advances made are held and no reactions are experienced.

HIS PARTING SHOT.

"Don't take it so hard, Mr. Playman," said the young woman, mockingly. "There are other girls, you know. There's Lil Gumplins, Sallie Plimbern, Kate Ismoggles, and Fan Billiwink. Any of them would make a better wife for you than I would."

CANADA'S OPPORTUNITY.

Mr. Roosevelt is the first president who has been absent from American soil. The Canadians may take a hint from this and invite him over.

There's Lil Gumplins, Sallie Plimbern, Kate Ismoggles, and Fan Billiwink. Any of them would make a better wife for you than I would."

"I know it," he said, swallowing a lump in his throat, and turning to go. "If any one of those four girls had said yes, do you suppose I would ever have thought of coming here for a wife!"
