Have YOU Ever Proved the "Shoe that Proves?"

If you took a pair of Women's Regal shoes to a custom-maker and ordered him to build a pair exactly like them, he would have to charge at least \$10, and more probably \$12.

That is the sort of style and stock and workmanship we put into Women's Regal shoes. There isn't a ready-to-wear shoe selling anywhere at \$6 a pair that is one cent better in any particular—and no \$6 shoe ever sold possesses all the Regal advantages of form, fit, workmanship and style.

Women's Regals are modeled after the authorized styles as worn by the best dressed women in the world. It takes other makers six and eight months to get a new style on the market.—The Regal system of direct-selling enables us to do it in six weeks.

A fuller line to choose from this season than ever before.

You can suit your own preferences and still be entirely certain of selecting a style that is comfortable as well as correct.

A handsome custom shoe. Not only faultless in style, but one of the most comfortable shoes in the entire Regal line. Made of imported Patent Leather. Blucher cut top; extension sole; Cuban heel. Also made of famous Regal Black King Calf.

Quarter-Sizes!

Twenty-nine Regal styles for women—and the regular price, right through the whole list, is \$3.50 as usual. But to meet an insistent demand, we have made up 21 special models at \$4 per pair. The extra 50 cents enables us to build a wholly new line of shoes that we could never before include in the Regal list. The advantages of the special \$4 models over the \$3.50 Regal are in their extra custom features. All of the leathers and other materials in them are the best of the best and they have a little more hand-work, a little more silk-stitching, etc. They are true handsome shoes—and few genuine ones make \$4 shoes equal their handsome appearance.

Send for Style-Book. Mail Orders Promptly Filled. Twenty-nine of the 102 Regal Styles are exclusively for women, eleven of them in the fashionable districts of Greater New York.

Married Women

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided, however, by the use of Mother's Friend before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing. Thousands gratefully tell of the benefit and relief derived from the use of this wonderful remedy. Sold by all druggists at \$1.00 per bottle. Our little book, telling all about this liniment, will be sent free.

MINNESOTA \$2,000,000 FOR 4 BIG LAKE BOATS

LARGE CONTRACTS AWARDED DULUTH SHIPBUILDING COMPANY.

Pittsburg Steamship and Cambria Steel Corporation Need New Steamers, and Vessels Are to Be Delivered September, 1906—Vessels Will Be 600 Feet in Length and Constructed of Steel.

Special to The Journal. Duluth, Dec. 7.—Contracts for the construction of four new steel steamers of the largest class have just been awarded here by the American Shipbuilding Company. The contract was awarded by the Pittsburg Steamship Company for two steamers and the other was awarded by the Cambria Steel Company of Philadelphia for two like vessels. They involve a total outlay of \$2,000,000 and the boats are to be delivered Sept. 2, 1906.

President James Wallace and General Manager Robert Logan of the American Shipbuilding Company were here to receive the contracts. The Pittsburg Steamship Company is the vessel arm of the Steel corporation. President H. Conly and Vice President L. W. Powell of the Steamship Company are in charge of the construction of the new boats.

The two new boats for the Pittsburg Steamship Company will be 600 feet in length and 50 feet in beam. They will be equipped with triple-expansion engines and two shafts. The size of the engines is 24-inch high pressure, 38-inch intermediate and 48-inch low pressure. The strokes are 45 inches.

There are now six 600-footers under contract with the American Shipbuilding Company, four for the Pittsburg Steamship Company and two for the Cambria Steel Company. The two boats for the Cambria Steel Company are of the same size as those just described for the Pittsburg corporation, and will cost the same in each case. The Cambria Steel Company is the lake connection of the Cambria Steel Corporation, and will handle the two new boats for that concern.

GATE PLAN NOT FEASIBLE. Railroad would prefer Placing Flagman at Stillwater Crossing.

STILLWATER, MINN.—T. H. Yarney, local agent of the Northern Pacific and its company, has advised the city council and is supported by a letter from the general superintendent of the system, that the plan of putting gates at the Stillwater crossing is not feasible. The physical conditions and the manner of running and switching trains make it better, in their opinion, to have a flagman on the ground. The crossing is owned by the Northern Pacific and is not a public crossing.

HEATH WILL ADMITTED. Judge Jackson Renders Important Decision at Iowa City.

IOWA CITY, IOWA.—Judge Jackson of Muscatine, after a long and arduous session, rendered an important decision at Iowa City today. He overruled the motion of former Attorney General Milton Remley, thus giving a negative to the three allegations of the late Colonel John R. Heath's daughter and her husband, that the jury was tampered with; that the court made errors and that former Congressman M. J. Wade had used improper language before the jury.

Judge Jackson also admitted the Heath will to probate, and named as trustees and administrators the trustees selected by Colonel Heath, County Treasurer D. A. Hesse and former City Treasurer J. E. Switzer.

The estate involved is worth about \$50,000. Mrs. E. O. Heath, the daughter of the late Colonel, is limited to a life interest in the property, under the direction of the trustees. The case may be appealed.

IOWA BUSY SESSION FOR IOWA LEGISLATURE

CONSIDERATION OF MANY IMPORTANT MEASURES IS URGED.

Proposed Sanatorium for Consumptives, New Child Labor Law and Increase of Supreme Court to Seven Members Are Some of the Principal Matters to Be Acted Upon.

Special to The Journal. Dubuque, Iowa, Dec. 7.—Judging from the expected recommendations of Governor Cummins and the demands from different parts of the state for legislation, it is likely that the session of the legislature this winter will be a long one, and will consider matters of unusual importance. Of the numerous matters that will come before the body the following are certain to be considered at length, if not disposed of:

Primary elections, insurance laws, educational board of control, railroad passes, pure-food law, child labor, sanatorium for consumptives, reformatory, abolition of the lobby, martial law, adjustment of terms of office of the biennial elections system, wage exemption law, state certification of all teachers.

The list does not include appropriations, re-districting the state congressionally, and to make 107 members of the lower house, the fourteen pardons asked of the assembly, the woman suffrage and drainage amendments to the constitution, prohibition of canon crackers, regulation of automobiles, state supervision of private banks, loan and trust companies, enlargement of the supreme court to seven members, creation of an appellate court, provision for all of these measures.

Case of Frenzied Finance. A man successfully cheated J. C. Marshall of Des Moines of the famous \$25,000 store of a millinery store at Lincoln, Neb., then cheated the owner of a big bunch of horses, sold the horses and disappeared. Marshall met a stranger here. He gave the name of W. B. Jackson and said he had a farm in Ness county, Kansas, and he wanted to trade for a horse at Whiting, Jackson being given the name of W. B. Jackson. The deal was made at Whiting, Jackson being given the horse and Marshall the store. Then he went to Lincoln, traded the horse for the millinery store, traded the store for horses, sold the horses and made away with his \$5,000.
