SAYS JAPS ARE URGING BOYCOTT

CHINESE STUDENT TELLS OF CONDITIONS IN FAR EAST.

Wong Hong Quong of Deadwood Returns from Hongkong and Explains Attitude of Empire Against Americans—He Believes Nippon Is Responsible for Much of the Trouble.

Special to The Journal. Deadwood, S. D., Dec. 25.—After completing a course in the Queen's college in Hongkong, Wong Hong Quong, the eldest son of Dr. Wong Tsoo, has returned to this city. He is 21 years of age, was born here and has spent most of his time in the Chinese colony here, of which Dr. Wong Tsoo is the leader. Wong Tsoo is one of the wealthiest Chinese in the country. He has a large Chinese curio shop, is the general adviser of the Chinese and owns valuable mining ground.

Wong Hong Quong brings back the information that the Chinese boycott against American goods is on the increase. He states that the American people do not realize to what extent this is being carried on. The worst of the boycott is at Shanghai, Tientsin, Peking and Canton. In the latter place notices have been posted all over the city denouncing the Americans for the exclusion of Chinese immigration.

In some of the towns, he says, a fine of \$200 has been fixed for each offense of accepting American-made goods. A steamerload of rice recently arrived at one of the Chinese ports from New York city, but no purchaser was found, although the rice was offered cheap.

Says Japs Urge Boycott.
Wong Hong Quong says that the boycott is being urged on largely by the Japanese, who believe it will be but a short time before the United States will exclude their own countrymen from entering this country. They are constantly training the Chinese in the handling of arms, and recently they have begun to drill boys in the public schools. He believes that Japan is keeping the boycott going partly for the reason that it eventually expects to supply the Chinese with much of the goods now made in America.

Since his return to this country Wong Hong Quong has met several Japanese young men who have been sent here to learn the American methods of manufacture. Within the past thirty days two have been in the Black Hills securing information concerning the different processes of ore treatment. Profuse notes have been taken.

Wong Hong Quong says that there is but one way of lifting the boycott and that is to admit Chinese into the United States.

His feet had been burned from his shoes, his gloves were burned and his clothing in tatters. In this pitiable condition he made his way to a farmhouse three miles distant. HOW TO JUDGE A LIFE INSURANCE COMPANY

One good way is by its record for honest and economical management. The past at least is secure and it is the best guide for the future.

The STATE MUTUAL LIFE ASSURANCE COMPANY OF WORCESTER, MASS., has a 61-year record upon these points, which is surpassed by no other company in the world. For illustration, during the year 1905 the entire Home Office expense of the STATE MUTUAL was only \$74,000. This includes the salaries of the entire official staff and the large force of clerks employed at the Home Office to care for a business of 107 millions of insurance and assets of over 25 millions. This is one of the results of the Massachusetts insurance law and Massachusetts insurance supervision.

Every applicant for insurance should consider a STATE MUTUAL proposition before placing his business. Full information given by any of the company's agents.

The Mystery of Mark Fagan

Look in McClure's for January and see what a plain man like Mark Fagan can do. Feel how strange it is—even as the people of Jersey City have. And then feel the joy of clearing your mind of a mystery—the pure joy of seeing through a thing—of understanding.

Fagan, for a plain man, did his job marvelously well—so well that men wondered at him. There lay the mystery. The solution lay in finding Fagan's reason. And the reason—though beautiful to look upon—is, after all, a plain man's reason—the simplest and best reason in the world.

Perhaps when you have felt the mystery, and got the solution, you will think that plain men with plain reasons can do a great deal for their country. This is one of the best things Lincoln Steffens ever wrote.
