COMMITTS SUICIDE IN PRISON CELL

PHYSICIAN PREFERS DEATH TO TERM IN PENITENTIARY.

Dr. O. M. Justice, Formerly of St. Peter, Is Found Dead in California Jail After Receiving Sentence of Six Years—Was Once Coroner of Le Sueur County and Assistant at Hospital.

Special to The Journal.
St. Peter, Minn., Jan. 2.—Word has been received here of the tragic death of Dr. O. M. Justice, formerly of this place. Dr. Justice went to California some years ago and it was supposed that he was meeting with great success in the practice of medicine. A short time ago, it is reported, he was placed under arrest on a serious charge, and a sensational trial followed. When taken back to his cell after being convicted and sentenced to serve a term of six years, Justice committed suicide, his dead body being found by his jailer. One time the dead man was an assistant physician at the St. Peter state hospital and later was elected coroner of Le Sueur county. His friends here knew nothing of his trouble until they learned of his death.

When the tragedy occurred the wounded boy was skating on Rush river and his brother, Fred, was standing on the bank. The smaller boy, who he did not know the gun was loaded and claims that Carl was feeling him, aimed the ball at his brother. The bullet struck the point of the shoulder blade and lodged in the abdomen.

He had been visiting at the home of his brother, and it was after dark when he started for home, burdened with presents for his family. As he was in a hurry he took a short cut over a bluff instead of the highway. In the darkness his foot struck a loose stone, and with his arms filled, he could not regain his balance. He fell forward and his forehead struck a pine stump. The blow was so severe that he could not recover, and he died on Friday evening. The funeral was held on Sunday.

WAR ON PAINT LAW

Manufacturers Seek Restraining Order to Check Measure.

FARGO, N. D.—Judge Amlund of the United States circuit court will be requested to issue an order restraining President J. H. Worst of the United States experiment station at Fargo and Commissioner E. F. Ladd, from enforcing the North Dakota paint law, on the ground that it violates the United States constitution, in that it provides for the taking of property without the process of law, and denies equal protection of the law, the law applying only to manufacturers and sellers of mixed paints.

COUNTY WINS AN IMPORTANT SUIT

COMMISSIONERS MAY ASSESS MONIES AND CREDITS.

Supreme Court of South Dakota Reverses Vermillion Ruling and City Gains Increase in Taxes—Decision of Test Case Affects All Cities and Towns in the State.

Special to The Journal.
Vermillion, S. D., Jan. 2.—One of the most important decisions of the supreme court in recent years has just been handed down. It relates to the taxation of monies and credits. The higher authority reverses the decision of Judge Smith, which was to the effect that the board of county commissioners had no right to assess certain monies and credits owned by residents of Clay county. This decision will mean that the city of Vermillion alone will secure about \$1,400 for taxes of 1904. It has more than a local significance, for it will affect nearly every town, city and county in the state. In the year 1904 there was a general movement to assess mortgages and monies, but the proposition met with stubborn resistance.

CHARGED WITH SMUGGLING

Prisoner at Fargo Finds Himself in Awkward Predicament.

FARGO, N. D.—Wanted by officials of North Dakota, the United States and Canada at one time, seems to be the position in which Isidore Katenowich finds himself at present. He is alleged to have purchased several teams on promissory notes and run them out of the country. In coming to this side, he neglected the formalities of paying duty on the stock and for this was arrested by the federal marshal. He had brought the horses to Bismarck, where he was taken on a mortgage on the teams. They were taken on foreclosure proceedings when the federal officials seized the horses on the smuggling charge.

Finds Commissioners in Error.

The contention of counsel for Mr. Salmer was that under the present law it was unconstitutional for the board to make any assessment of this nature, since no return had been made by

The various township assessors. The board's attorneys argued that if the present law were unconstitutional, then the old law was in force, and if the old law could not be used, then the court was in a position to do the assessing itself. Judge Smith held that the board was in error, whereupon the commissioners appealed to the supreme court.

Many of the citizens who will be obliged to pay taxes on mortgages for the year 1904 will not be caught napping again. There has been a general assignment of mortgages since the question arose, and when time for the next assessment comes it will be discovered that most of the mortgages are owned by Iowa and Nebraska people.

MISSIONARY BOX RIFLED

New Richmond Authorities Investigating Theft at Congregational Church.

NEW RICHMOND, WIS.—It has just been discovered that the missionary box of the First Congregational church, school in this place, was rifled of all its contents save a few pennies. No one is prepared to state what it contained, as it had not been opened for a year. It was kept in the library closet. As practically nothing else has been disturbed, the opinion of the authorities is that the guilty person was familiar with the surroundings.

BOAST LEADS TO ARREST

Miner Tells of a Murder and Is Held by Police.

CALUMET, MICH.—Is Louis Hillman a murderer? This is the question puzzling the authorities and they say the case is the queerest that has ever come under their notice. Louis Hillman of Boston mine, Joel Javarka and several others were assembling in a saloon in Hancock, while drinking with his companion Hillman took offense at Javarka and threatened to kill the latter, according to Javarka's statements. Hillman then left from his saloon and was flourishing it about, boasted that in the place he came from people did not care whether they were killed or not. He also said that he had killed a man a short time ago and that he would be very glad to see Javarka and the other men who were with him, and that he would be very glad to see them. He then decided that he was not looking for any such snap, and told the Missouri people to come on and he would show them the way. They evidently figured the same way, and after the man had left, several days later he was found dead in a mine. He was found with a bullet wound in the head, and his body was found in a mine. He offered a reward of \$200 to anyone who would help him to get back to Pierre. Hillman refused the offer, and the man was arrested at Pierre. He was found with a bullet wound in the head, and his body was found in a mine.
