A Sip of Coffee Comfort.

If you feel that you cannot; or perhaps, let us put it, that you should not drink coffee, here is a fact that will please you. It is called a fact because it can be proven to your full satisfaction, that Barrington Hall is a boon to all coffee-lovers who feel just as you do.

Barrington Hall is the name of the coffee that has the tannin-bearing, yellow skin and dust removed by a process which for brevity is called "steel-cut"—"Barrington Hall, the steel-cut coffee," is the way people have come to know it.

There is a reason—which will appeal to your judgment as the coffee will appeal to your most particular taste. The removal of the tannin is only one feature; you can judge for yourself when you note the minute granules of uniform size as you examine it dry.

Quality? Well we will leave that to people who are particular—the more finicky about their coffee the better. Roasted, steel-cut, packed by machinery in sealed tins, and guaranteed by Baker & Co., Importers, Minneapolis.

For sale by the better class of grocers at 35c per pound.

FRANCE'S HOPE IN HER ABLE ALLIES

French Look to Britain for Support Against Kaiser in Moroccan Conference.

Paris, Jan. 5.—A portion of the French delegation to the Moroccan conference, which is now considered settled that the sessions will open Jan. 16, French official opinion considers the situation as materially improved. When the recent British ministerial change occurred, it was the expectation in Germany that the new liberal ministry would abandon the former ministry's energetic support of the French position regarding Morocco. It can be authoritatively stated, however, that the new liberal ministry occupies exactly the same position as the former Lansdowne ministry relative to supporting the French position in Morocco. This, the French officials feel, removes one of Germany's chief reliance in weakening the cause of France. There remain Italy and Spain, whose interests in Morocco are considerable, but France has reason to expect their co-operation with British influence.

Moreover, it is officially known that the king of Portugal, who is an ally of Great Britain, will proceed to Madrid Jan. 20, thus giving another evidence

of unity among the powers having similar views concerning the future of Morocco.

Britain with France. London, Jan. 5.—Official and unofficial circles in Great Britain do not consider the Franco-German situation as serious. It is true that the reports emanating from France had a slight effect on the stock market, but this was only temporary.

If Germany's proposals regarding the protection of her trade do not interfere with a fair field for the trade of all the countries, she is not likely to meet with any opposition from Great Britain.

It is stated in trustworthy circles, however, that Germany may introduce a claim to placing German soldiers in Morocco. This France is certain to resist, and under the agreement Great Britain must uphold her contention.

While the officials here decline to comment on the cabled announcement that the United States stands uncommitted on the question of policing the Moroccan frontier, some disappointment is expressed in other circles, because it had been expected that the United States would endorse the position of France on this point, which seems to be the only one on which a disagreement is probable.

Italy Appoints Venosta. Rome, Jan. 5.—The government appointed Senator Marquis Visconti Venosta, former minister of foreign affairs, as the first Italian delegate to the Moroccan conference.

Krantz, the czar of Russia's chief, is by tradition and position a gentleman, and has the right of wearing a sword.

GAMBLING HOUSES OPEN AGAIN IN MILWAUKEE

Special to The Journal. Milwaukee, Jan. 5.—Gambling is again in evidence here. It took several weeks to get new paraphernalia to Milwaukee, but it is here now and games are in progress.

Several of the gambling houses which were raided by the sheriff's forces last spring have quietly put out their latches, and the whirl of the roulette wheel and the rattle of ivory chips may be heard, if the curious pedestrian cares to put his ear to the keyhole.

One gambling joint, in which a big haul was made by the deputies upon the occasion of the first raid, is running wide open.

Will positively cure sick headache and prevent its return. Carter's Little Liver Pills. This is not talk, but truth. One pill a dose. See advertisement. Small Pill. Small dose. Small price.

BAD BLOOD WEAKENS THE SYSTEM AND INVITES DISEASE

Every part of the body is dependent on the blood for nourishment and strength, and when from any cause this vital stream of life becomes impoverished or run-down, it invites disease to enter. No one can be well when the blood is impure; they lack the energy that is natural with health, the complexion becomes pale and sallow, the vital energies are at a low ebb, and they suffer from a general broken-down condition of health. The system is weakened and unable to resist the diseases and disorders that are constantly assailing it. The Liver and Kidneys, failing to receive the proper stimulation and nourishment from the blood, grow inactive and dull, and the waste matters and bodily impurities that should pass off through these channels of nature are left in the system to produce Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases or some other blood disorder. When the blood is in this weakened and diseased condition it should be treated with a remedy that is not only thorough, but gentle in its action. S. S. S., a purely vegetable remedy, made of roots, herbs and barks, is just what is needed. It not only cleanses the blood of all impurities and poisons, and enriches and strengthens it, but gently builds up the entire system by its fine tonic effect. S. S. S. reinvigorates every member of the body, gives tone and vigor to the blood, and as it goes to the different parts, carries robust health and strength. S. S. S. acts more promptly and gives better results than any other medicine. It cures Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases and all other blood disorders, and cures them permanently. Our Medical Department will be glad to give advice without charge to all suffering with blood or skin diseases. Address

Much of the drawing power of a Journal want ad depends on the way it is worded. It is always well to tell as much of the story as the reader will care to know. This brings him in closer touch with your proposition at the outset, and makes his investigation more likely.
