

# The Kind You Have Always Bought.

THIS is the caution applied to the public announcement of Castoria that has been manufactured under the supervision of Chas. H. Fletcher for over 30 years—the genuine Castoria. We respectfully call the attention of fathers and mothers when purchasing Castoria to see that the wrapper bears his signature in black. When the wrapper is removed the same signature appears on both sides of the bottle in red. Parents who have used Castoria for their little ones in the past years need no warning against counterfeits and imitations, but our present duty is to call the attention of the younger generation to the great danger of introducing into their families spurious medicines.

It is to be regretted that there are people who are now engaged in the nefarious business of putting up and selling all sorts of substitutes, or what should more properly be termed counterfeits, for medicinal preparations not only for adults, but worse yet, for children's medicines. It therefore devolves on the mother to scrutinize closely what she gives her child. Adults can do that for themselves but the child has to rely on the mother's watchfulness.

# NATIONS COME TO UNLOAD SCUM

## Italy and Hungary Plot to Violate Alien Laws of United States.

Washington, Jan. 18.—In response to the several resolutions passed by the house, Secretary McCall of the department of commerce and labor has sent to the house the report of Special Inspector Marcus Braun, which deals at great length with the character of immigrants coming to this country and the attitude of European governments upon the matter.

Mr. Braun declares that he has incontrovertible evidence that while the number of aliens shipped into this country who are legally inadmissible because of disease is diminishing, immigrants inadmissible for other reasons are constantly being shipped into the country in large numbers "by the concerted action of some European governments and steamship agencies, by bankers and schemers of all sorts these governments have laws ostensibly intended to restrict immigration, instead of doing so they actually encourage it by leaving alive the patriotic spirit for the fatherland in the minds of these colonies" by representing that unless they adhere to the principles of home patriotism their government would be left without protection in "barbaric America."

## Italy and Hungary Offend.

This is especially true, Mr. Braun says, in Italy and Hungary. He asserts that these countries regard the United States in the attitude of adjuncts or colonies of their own and by their instructions and teaching to immigrants benefit accrues to the home government to the detriment of this country. He cites the fact that \$50,000,000 was sent last year from the United States to Austria-Hungary alone from these immigrants.

"Not a single promise which the new Hungarian immigrants in law guarantee has been kept. I experienced the bewildering spectacle," Mr. Braun says, "of hundreds upon hundreds of agents licensed by the Hungarian government carrying on and conducting an almost unheard of campaign to get immigrants in direct and open violation of their laws."

These laws, he says, are nothing but a farce. They are systematic violation is licensed and privileged by the Hungarian government. Mr. Braun narrates at length his interviews with Hungarian officials and quotes Premier Tisza as saying that bills introduced in congress tending to restrict immigration are regarded as unfriendly acts toward the government of Hungary.

## "Terrible Danger" Seen.

He states that in order to discourage Hungarians from becoming American citizens the precaution is taken to advocate the establishment in the United States of Hungarian homes, schools, churches and institutions, the intention of which is to avert "the terrible danger" of Hungarians becoming naturalized. Braun declares that he has incorporated in his report a large number of circulars, advertisements and quotations from utterances from government officials.

**Scheme of Armenians.**  
Mr. Braun then takes up immigration from Turkey, Asia Minor and Syria. Speaking of the Armenians he says they are a people who are everywhere and at the same time defy Turkish laws. This scheme consists of a large number of Armenians emigrating to the United States and then they have earned sufficient money for their needs they return supplied with American citizenship papers, and are continually conspiring against the American citizenship. The same is true in Syria and Palestine.

## They are continually conspiring against the American citizenship.

He quotes from the governor of Mount Lebanon and from the United States consul at Beirut, that the United States had better annex the province of Lebanon, for a present there are more American citizens there than Turkish.

In Jerusalem alone Mr. Braun found more than 1,000 American citizens there than Turkish subjects.

## He cites a number of instances of the fraud which these people practice.

and declares that 99 per cent of them speak not a word of English, and most of them did not know the street of the city in which they claim to have resided when in the United States.

**Tells of Discrimination.**  
Regarding immigration from Italy, he says that an Italian subject may leave that country for any place on the globe except the United States without a passport. He is required to pay a fee of 8 lire for a passport to the United States, and from this the government derives revenue.

He has a word of commendation for the Russian Jew. Once he becomes a resident of this country, Mr. Braun says, the Russian Jew stays, and his children become among the most patriotic and thriftest of our citizens.

## His Recommendations.

Based upon his investigation, Mr. Braun makes a series of recommendations:

That the United States maintain abroad a secret surveillance of undesirable immigration.

That a statute be enacted requiring aliens to produce upon landing a certificate of origin from the United States consul nearest the starting point to the effect that satisfactory information has come to the consul respecting the alien from the secret service officials.

That a bond be required of not less than \$2,500 from persons engaged in the United States in the sale of steamship tickets, forwarding money, contracting for labor, etc., for the faithful and conscientious performance of obligations and contracts.

That a law be enacted making it a criminal offense for any resident of the United States to travel abroad for purposes of inducing immigration for temporary or permanent stay, exempting only relatives.

That naturalization laws be amended so that persons desiring to become citizens shall prove continued residence for a longer period than at present.

That citizenship lapse where persons reside abroad for a certain period of time, exempting only bona fide residents abroad.

That naturalized citizens convicted of a felony in a foreign country, which would have been a felony in the state in which he resides, shall forfeit American citizenship.

BOUPELL'S GOOD FURNITURE

# Railroads

## GLASS RATES GRADED

**PROPOSED MAXIMUM TARIFF WOULD HARMONIZE UNEVEN SYSTEM NOW IN FORCE IN THE STATE.**

In its proposed maximum rate schedule for merchandise, the state railroad commission makes another innovation in calling for a uniform rate on the different classes. Heretofore the roads have graduated the rate on the first, second, third, fourth and fifth classes, and on Classes A, B, C, D and E, but without any uniform basis. Sometimes the second class rate is 90 per cent of the first class and sometimes only 75 per cent. A large variety of rates noted by the commission in the schedules prepared, and it was decided to bring about uniformity if possible. A proper proportion was agreed on, and it is very nearly an average of the proportions found in actual use at present. The railroad officials will give their opinion of the innovation at the hearing Feb. 1.

Under the commission's plan, second-class rates will be figured at 85 1/3 per cent of first-class; third-class rates at 66 2/3 per cent, fourth-class at 50, fifth-class at 40, class A at 45, class B at 35, class C at 30, class D at 25 and class E at 20.

The iron range roads are expected to make a particularly strenuous kick on the reduced rates. Their tariffs on merchandise run 80 to 80 per cent higher than the Iowa distance tariff. The commission proposes to bring them down to the same basis as roads in other parts of the state. The first class rate for a twenty-five-mile haul is 19 cents, and the proposed maximum is 15.92 cents. The fifty-mile rate, 31 cents, would be reduced to 20.52 cents and the 100-mile rate, 43 cents, would be cut to 30.62 cents.

## COSTLEY SUCCEEDS HARMON

Deadwood, S. D., Jan. 18.—Frank Harmon, former division superintendent here for the North-Western, has resigned and is succeeded by L. N. Costley from the Ashland division. Mr. Harmon is going over the division with his successor, accompanied by Superintendent Hughes and Assistant Superintendent Walters.

Mr. Harmon has been in the employ of the North-Western road in the Black Hills for sixteen years. He goes to Shoshone, where he will engage in the banking business. He will remain with Mr. Costley for two weeks before going to his new labors.

## MAY BUILD BRIDGE

Burlington and Great Northern Considering One at Sioux City.

Sioux City, Iowa, Jan. 18.—According to the Burlington, the Burlington and Great Northern railroads will likely build an independent bridge over the Missouri at this point, for the new Ashland, Neb., link which is to connect the two systems. The bridge cannot be built for less than \$750,000. Mr. Willard says that the bridge has been considered, but it may not be in the proper location for the Burlington. If the engineers so report, we will build a bridge at Sioux City at a better point on the river."

## RAILROAD NOTES.

The Great Northern road made the first payment on its new road to the west, \$50,000. The Milwaukee company made a fifth payment amounting to \$25,000. The roads must pay before March 1.

# SEEKING TO PROTECT FEW REMAINING QUAIL

Washington, Jan. 18.—The thro re-stocking of game covers is urged in a report issued by the department of agriculture in a report on "game conditions in January."

"Now that the hunting season is practically over," the report says, "the biological survey suggests that efforts be directed toward insuring more effective protection of game and an adequate supply for the future. Owing to the migratory character of quail and the consequent depletion of various localities where hunting has been excessive the birds have been killed off by the severity of the past two winters, re-stocking is frequently necessary, but the demand for live birds for this purpose far exceeds the available supply. The difficulty is augmented by the fact that southern birds are scarcely hardy enough to stand northern winters and hence it is difficult for northern states to secure birds suited to the climate.

"The game commissioners of some states, particularly Massachusetts and New Jersey, for several years past have endeavored to obtain a supply of quail, but have been only partially successful. Perceiving that absence of food and shelter is the principal cause of mortality, state officials, game associations and many private individuals have united in attempting to make good these deficiencies. Grain and other food have been distributed freely and systematically after heavy snowfalls, when the usual food is covered, and suitable shelter has been provided. Much activity prevailed last year in Illinois, Indiana, Massachusetts, Mary-

# BRYAN'S VIEWS AS TO FILIPINOS UNCHANGED

Sandakan, Borneo, via Manila, Jan. 18.—After leaving the Philippine islands on his way to visit India, W. J. Bryan made the following statement to the Associated Press:

"My visit to the Philippines has been very interesting and instructive, and I appreciate the facilities afforded me by the civil and military authorities for a thorough investigation of the Filipinos. This has enabled me to collect much knowledge which I hope to use for the benefit of both the American people and the Filipinos.

"The promise given by the rising generation of the natives to use the English language surpasses my expectation more than anything else.

"My views regarding the independence of the islands have not been changed."

# Why Refer to Doctors

Because we make medicines for them. They know all about Ayer's Cherry Pectoral, so they prescribe it for coughs, colds, bronchitis, weak lungs, consumption. They trust it. Then you can afford to trust it. Sold for over sixty years.

# Danderine

Grew This Hair

AND WE CAN PROVE IT.

Little Frances Marie Knowlton is the daughter of Dr. E. W. Knowlton, the discoverer of this great hair-growing remedy, and her beautiful hair was grown wholly by the use of this great tonic.

This little girl had no more hair than the average child before using Danderine, while now she has the longest and most beautiful head of golden hair ever possessed by a child of her age in the world.

Danderine makes the scalp healthy and fertile and keeps it so. It is the greatest scalp fertilizer and therefore the greatest hair-producing remedy ever discovered. It is a natural food and a wholesome medicine for both the hair and scalp. Even a 50c. bottle of it will put more genuine life in your hair than a gallon of any other hair tonic ever made.

NOW at all druggists, in three sizes, 25 cents, 50 cents and \$1.00 per bottle.

FREE. To show how quickly Danderine acts, we will send a large sample free by return mail to any one who sends this advertisement to the Knowlton Danderine Co., Chicago, with name and address and 10 cents in silver or stamps to pay postage.
