BUFFALO LITHIA WATER

Strong Testimony from the University of Virginia.

"IN URIC ACID DIATHESIS, GOUT, RHEUMATISM, LITHAEMIA and the like, ITS ACTION IS PROMPT AND LASTING."

Geo. Ben. Johnston, M.D., LL.D., Prof. Gynecology and Abdominal Surgery, University of Virginia, Ex-Pres. Southern Surgical and Gynecological Assn., Ex-Pres. Virginia Medical Society and Surgeon Memorial Hospital, Richmond, Va.: "If I were asked what mineral water has the widest range of usefulness, **BUFFALO LITHIA WATER** in Uric Acid Diathesis, Gout, Rheumatism, Lithaemia, and the like, its beneficial effects are prompt and lasting. . . . Almost any case of Pylitis and Cystitis will be alleviated by it, and many cured. I have had evidence of the undoubted Disintegrating, Solvent and Eliminating powers of this water in Renal Calculus, and have known its long continued use to permanently break up the gravel-forming habit."

"IT SHOULD BE RECOGNIZED AS AN ARTICLE OF MATERIA MEDICA."

James L. Cabell, M.D., A.M., LL.D., former Prof. Physiology and Surgery in the Medical Department in the University of Virginia, and Pres. of the Nat'l. "BUFFALO LITHIA WATER" Diathesis is a well-known therapeutic resource. It should be recognized by the profession as an article of Materia Medica."

"NOTHING TO COMPARE WITH IT IN PREVENTING URIC ACID DEPOSITS IN THE BODY."

Dr. P. B. Barringer, Chairman of Faculty and Professor of Physiology, University of Virginia, Charlottesville, Va.: "After twenty years' practice I have no hesitation in stating that for prompt results I have found nothing so effective in preventing uric acid deposits in the body as **BUFFALO LITHIA WATER** Deposits in the body."

"I KNOW OF NO REMEDY COMPARABLE TO IT."

Wm. B. Towles, M.D., late Prof. of Anatomy and Materia Medica, University of Va.: "In Uric Acid Diathesis, Gout, Rheumatism, Rheumatic Gout, Renal Calculi and Stone in the Bladder, I know of no remedy comparable to **BUFFALO LITHIA WATER** Spring No. 2.

WHERE MEN CAN READ AND SMOKE

FEATURE SUGGESTED FOR SOUTH SIDE BRANCH LIBRARY.

Reading Rooms, Stocked with Books, Magazines and Papers, Where Men May Converse and Enjoy Pipes, Projected as the Ideal Workingmen's Sunday Club—Movement Has Support of Influential Citizens.

South Minneapolis citizens interested in public and humanitarian work have a plan for extending the field of usefulness of the South Side library station and wish to see the project carried to completion by the library board. A men's reading room, where smoking may be allowed and which will be conducted with fewer restrictions than apply in other rooms, is asked. The plan has been informally broached to the library board members, who seem to be slightly "afraid of the cats." While perfectly willing to fit up a men's reading room in the south branch, there is some measure of doubt in the literary mind as to the propriety of the smoking feature.

Those interested in the plan are most enthusiastic. The expense necessary to the equipment and maintenance of the room would be slight. The space would be secured at small expense by repairing a waste rear room, 37x21 feet, for which the board is now paying rent. An interested gentleman has offered to furnish the room with a stove, and the expense for maintenance would be one or two lights and the small amount of additional steam that would be required for heating.

As a Sunday Resort.

The reading rooms of the station are well patronized by all classes of people, but there is a certain class of men of all ages who are not reached. The general reading room is open to all, no visiting is allowed. The rooms are open all day Sunday and many men who have no places to visit or receive visitors would be attracted to a comfortable reading room in the station where quiet, orderly conversation and smoking were allowed and where newspapers and current periodicals could be found on file. The same condition obtains on week days, especially in the evening.

The room which it is proposed to fit up for the men is in the rear of the general reading room. Through a small hallway it communicates with a rear door in a smaller reading room and rackroom near the main street entrance. In this way the room is isolated to a great extent and could be conducted without interfering in any way with the quiet that is maintained in the other rooms. By relaxing the restrictions governing the other room, the proposed room would be made more attractive, and it is believed would be a great benefit to a large class of men who might otherwise come under some vicious influences.

The plan is thoroughly in accord with other movements planned on the South Side. A lecture and entertainment room has been fitted up in the Adams school, across the street from the branch, and regular entertainments are provided for the parents of pupils. It is hoped by those interested in the plan that the library board will see fit at least to try the experiment. The local merchants are interested and will assist wherever possible. It is maintained by the friends of the plan that it is perfectly feasible and proper, and that it would be the means of accomplishing much good in every way for the South Side.

SWEET VOICES SING IN "PARADISE LOST"

The leading musical event of next week will be the Philharmonic concert scheduled for Tuesday evening at the Auditorium. Heretofore several weeks since the Philharmonic club gave its annual Messiah presentation at the Auditorium, and the public will welcome its next appearance, especially since this time it will give Dvořak's famous dramatic oratorio, "Paradise Lost."

"Paradise Lost" has never been given an adequate presentation here and the determination of Oberhoff, conductor and the club to do so at this time is commendable. No oratorio of modern times is more replete with dramatic opportunities, both in choral and solo effects than this, and the club assisted by the Minneapolis Symphony orchestra will make the most of the opportunities afforded.

The personnel of the soloists has never been excelled at one of the Philharmonic club concerts. Miss Ann Bussert, soprano, who takes the part of "Eve," is one of the most delightful singers on the concert stage in America today. Her work here last year under the most discouraging circumstances will be well-remembered by those who heard her. Her voice is a brilliant but sweet soprano, of excellent carrying power, and is agreeable to hear.

Emilio de Gorgona, who earlier this season was heard her with Eames, will sing the part of "Mephisto." Seldom is so good a barytone found. His voice is vibrant with power and feeling, and makes the finest results out of the dramatic opportunities. During the Eames engagement he fairly divided honors with the great diva.

John Miller, the tenor, is a newcomer here, but he has gained opinions from critics and public alike wherever he has been heard. Together they form a trio that will be hard to beat. Seats will be on sale at the Metropolitan Music store tomorrow morning at 9 o'clock.

KARMA IS EXPLAINED

Mrs. Mary F. Miller Lectures Before Theosophical Society.

"Reincarnation and Karma" was the subject of an instructive talk on theosophy given by Mrs. Mary F. Miller before an open meeting of the Minneapolis Theosophical society in its rooms, 410 Dayton building, last night.

The speaker explained that the law of "Karma" is not that of blind destiny, but of cause and effect, and that while our present condition is governed by past action the future is still in our power. She urged that the allotted seventy years of life is too short to perfect the character and in itself indicates previous and future existence. A musical and social hour followed the talk. Lee Lotta, a tenor recently arrived in Minneapolis from Boston, Mrs. L. H. Everetts, Mrs. A. H. Fahnestock and Will Hanson furnished the music. Refreshments were served by Mrs. Dorothy Dodge and the Misses Hazel Blossom and Mary Laird. The reception committee included Mrs. A. C. Ellison, Mrs. E. D. H. Laird and the Misses Godfrey and Helen Blairkin.

LINCOLN DAY BANQUET COMMITTEE SECURES SOME OF BEST ORATORICAL TALENT IN COUNTRY.

"Lincoln's birthday is becoming one of the big days of the year in the republican party and will be more generally observed this year than ever before," said Thomas H. Girling, chairman of the republican county committee, today. Mr. Girling has just returned from an eastern trip completing arrangements for the Minneapolis Lincoln Day dinner to be held in the Masonic Temple next Monday evening.

"Everywhere I met the party workers," said Mr. Girling. "They are planning dinners the same as we are here, and all say that they will be the biggest love feasts in the party history. The observance of Lincoln Day is not new, but its general observance has increased in the last few years to a remarkable extent."

All the well-known speakers of the country have been engaged months ahead. The local committees that omitted to secure a principal speaker will have some difficulty. We secured our speakers some time ago and cannot ourselves be fortunate, for it would now be impossible to secure another prominent outside speaker. Minneapolis has some orators that would grace any board, and another year will see several of them invited to appear as principal speakers at outside gatherings.

Arrangements for the Lincoln dinner are progressing satisfactorily. Replies continue to come pouring in and we will certainly have a full house. One remarkable feature is the interest that is being taken in the affair throughout the city.

The dinner next Monday night will be complimentary to the members of the county organization. Other local party enthusiasts who wish to attend may do so as long as there is room to care for them. The price of the dinner will be \$1 a plate.

So great has been the interest in the dinner that the committee was obliged to make inquiries for larger quarters. It was hoped that the Auditorium might be secured, but it will be impossible. The chairs would have to be removed and could not be replaced. The Philharmonic concert the following evening.

BERNHARDT TICKETS RESERVED BY MAIL

The hotels are beginning to feel the effect of the coming of the Bernhardt. Clerks are busy booking reservations for out-of-town people who are planning a special trip to the city during the Bernhardt engagement. All signs point to the engagement of the "Ivory Sarah" as the biggest event in the theatrical history of the city, with the one exception of the grand opera season at the Metropolitan.

For the first time here the mail-order system is being used in connection with the seat sale for the Bernhardt engagement and is proving to be very popular. During the last two seasons in the east the mail-order system has been used for the biggest theatrical events and it proved highly satisfactory.

The great advantage of the system is that mail orders are given attention just as soon as they come in, also some people have the impression that the mail orders are not given precedence over the ticket buyers in line. This impression is wrong, as the mail orders are being filled now, and in the allotment of seats every effort is made to fill the reservations just as close to the requests as possible.

The engagement of the great Bernhardt is also notable for the modesty of the cost. It is estimated that out of every ten who have been planning to see Bernhardt on her last tour of this country were of the opinion that it would cost \$5 to see her. The popular scale of prices decided upon for Minneapolis has occasioned much surprise, and has caused the management to receive many congratulations. The engagement would have been impossible were it not for the large seating capacity of the Auditorium. Mme. Bernhardt will be here Feb. 22, 23 and 24.

FUEL DEALERS FEAST

Banquet at Hotel Nicollet Brings General Company Together.

The Minneapolis Retail Fuel Dealers' association held its second annual banquet last evening at the Nicollet Hotel. A large number of retailers were present and an enjoyable evening was passed.

Following the banquet, a number of toasts were responded to. E. K. Sullivan acted as toastmaster. The program of toasts was as follows: "What Are We Here For," George Salzer; "Antediluvianism," Thomas J. Skellett; "Benefits," Charles Swain; "Membership," O. E. Ainsworth; "Difference Between Summer and Winter," E. Q. Stone; "Our Deacon's Experience," O. W. Stewart; "Cold Water," H. E. Butler; "Wood," J. A. Martin; "Growth of the Coal Business," H. S. "Association," Harry Rendell; "Association," G. H. Reeves; "Justice," Frank T. Gaylord.

THE VALUE OF CHARCOAL.

Few People Know How Useful It Is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize that it is equally useful in the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply a natural and powerful purifier of the blood, the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables. Charcoal effectively cleanses and improves complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal is that for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form, or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is that no possible harm can result from their continued use, but on the contrary, great benefits.

Buffalo's speaking of the benefits of charcoal says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

GLOVE RUBBERS

(FOOT SCHULZE & CO., ST. PAUL)

"Old-Fashioned Rubbers"

How often have you heard it said, "They don't make rubbers like they used to." Glove Rubbers were first made 60 years ago in the good, old-fashioned, substantial way. They are made the same way now. They are a shining, noteworthy exception to the rule of imitation, disappointing inferior rubber goods. Made to fit the latest style shoes. More Pure India Rubber in them than in other makes. More Satisfaction to the Wearer—because more quality, more wear, more style. They Cost No More than the ordinary kinds. Glove Rubbers and Arctics for every use to which a rubber or arctic can be put will be shown you by these representative dealers:

REMEMBER the only reason any dealer has for trying to sell you another brand when you ask for GLOVE BRAND is that he makes a little more on it. The retail price of Glove Rubbers is the same as that of other makes. Insist on the Glove Brand and look for the Foot-Schulze mark reproduced below, together with the Glove trademark on the sole of every genuine Glove Rubber and Arctic.

FOOT SCHULZE & CO. ST. PAUL CORNING

FOR ERRING SOLDIERS
Summary Court Work at Snelling Assigned to Lieut.-Col. Pitcher.

Lieutenant Colonel Pitcher has been appointed summary court at Fort Snelling, to relieve Captain Bamford, who was called away by the sudden illness of his mother. The duty of the summary court is similar to that of a police judge in a city, with which his colony was familiar in Havana, where he was supervisor of police for nearly two years. It was there he received the sobriquet from the Cubans of "Ten Dollars or Ten Days"; but his methods helped materially to clean up police matters in Havana in 1899-1900.

Major S. E. Allen succeeds Captain Bamford as surveying officer. The duties of this office are to small losses of government property what the summary court is to small delinquencies of a disciplinary nature. Losses are reported to him on a suitable blank form and he determines who is responsible for the same.

CLAIM SCHOOL IS UNSANITARY.
A delegation of St. Anthony Park residents appeared last evening before the St. Paul school board and made protest against the unsanitary condition of the Murray school at St. Anthony Park. The trouble arises from the fact that there is no sewer connection and the ventilation in the building is inadequate. Among those to make protest were former Justice W. B. Douglas and Professor S. B. Green of the state agricultural school.

HYOMEI CURES CATARRH

Its Healing Balsams Kill All Catarrhal Germs.

There is no more common disease than catarrh, and none that is more dangerous. It weakens and debilitates the whole system, if it is allowed to run, leads to serious, and sometimes fatal complications. No dangerous drugs are taken into the stomach when Hyomei is used. Breathe through the small pocket inhaler that comes with every Hyomei outfit, its healing balsams penetrate to the most remote cells of the throat, nose, and lungs, killing the germs of catarrh, healing the irritated mucous membrane, and making complete and lasting cures.

If you cannot obtain Hyomei of your dealer, it will be forwarded by mail, postage paid, on receipt of price. Write today for a free sample bottle and consultation blank that will entitle you to services of our medical department without charge. The R. Book Company, Hyomei Building, Ithaca, N. Y.
