

BULLET LAYS LOW WOMAN ASSASSIN

Attempt of Woman to Kill Russian Officer Ends in Her Own Death.

St. Petersburg, Feb. 10.—The admiral has received a report from the surgeon in charge of Vice Admiral Choukin, who was shot by a woman in his office in Sebastopol yesterday, to the effect that his wounds are not dangerous.

According to the morning papers and subsequent dispatches from Sebastopol confirming the press accounts, the attending surgeons are confident that Choukin will recover.

Woman Not Identified.

The woman has not been identified, but it is known that she arrived at Sebastopol from a hotel under the name of Kruitskai. She was well dressed, was quiet in her manner and attracted no attention.

Choukin exhibited remarkable nerve, and continued to issue orders even while being carried to bed and during the examination by the surgeons.

The news of the attempt on Choukin's life created great excitement among the revolutionists at Sebastopol, a large proportion of whom are sullen and continually on the verge of mutiny.

Kills Three.

St. Petersburg, Feb. 10.—War between the fighting organizations of the revolutionists and the so-called Black Hundreds assumed a new phase last night, when a band of reds surrounded the cabaret Schlusselfur-Chausee on the bank of the Newski river, above the city, and threw a bomb among an assembly of the women.

Military detachments, which are constantly patrolling the disturbed industrial sections, hurried to the scene, reinforced by police and Cossacks, and threw a cordon around the whole district.

The killing of three workmen at the Putloff factory yesterday and last night's episode are believed to be but a prelude to other acts of retaliation and revenge between the two factions.

Mutiny Not Dead. Mutiny is still smouldering on board several vessels of the Black sea fleet, notably on the battleship Catherine II, where several officers have been arrested.

Donna's Date Unknown.

One of Count De Witte's closest confidantes says the announcement that the donna will meet about the middle of April is absurd. She would rather be in the city than in the country.

MONSTER BATTLESHIP LAUNCHED BY KING

Portsmouth, England, Feb. 10.—The monster battleship Dreadnaught, which, when finished, will have cost \$7,500,000, was launched here today by King Edward.

The ceremony was the most simple possible, the king having vetoed all decorations and pageantry on account of the death of his father-in-law, King Christian.

Among the occupants of the royal stand were the American naval attaché, Lieutenant Commander John S. Gibbons, and the other attaches, the admiralty officials and a few privileged persons.

Anoka, Minn., Feb. 10.—The infant child of Judge and Mrs. J. C. H. Engel died today from suffocation. The babe was sleeping quietly when the mother left the room. On her return some minutes later, the tot was dead.

Rheumatism Does not let go of you when you apply lotions or liniments. It simply loosens its hold for a while. Why? Because to get rid of it you must correct the acid condition of the blood on which it depends. Hood's Sarsaparilla has cured thousands.

BREAK BAKELY IN MOROCCAN PARLEY

Disagreement Predicted, Neither Side Showing a Disposition to Yield.

Berlin, Feb. 10.—The negotiations at Algiers have reached a decisive turn and the dissolution of the Moroccan conference without an agreement on the principal subjects of discussion seems to be the probable result.

The positions of France and Germany have not been clearly defined. Each country supported by several other powers holds tenaciously to its own principle of settlement, namely, France for special recognition in Morocco because of her geographical and historic rights.

Germans Firm.

Herr von Radowitz and Count von Tattenbach, the German delegates to the conference, said Germany could not consent to France's having control of the bank as this would simply be another way of turning over the country to France.

The French envoys, two days ago dropped the bank question and raised the police question upon which Germany insisted upon the equal participation in some form of all the powers.

London, Feb. 10.—The Statist, one of the leading financial weeklies of Great Britain, deals this week with the Algerias conference in a long leader.

The article predicts a failure to reach a conclusion satisfactory to France and consequently continued uneasiness in the commercial world, while at the same time the writer believes that war will not result.

The Statist, after dealing with the perplex of the situation, namely, the policy of Morocco, upholds France's right to demand that she should be given power to maintain order and to maintain a police force.

The paper believes from precedents and indications that Germany will yield the point, that country preferring to humiliate France with the result of lying up for an indefinite period the immense sum of money now held inactive in France.

Hope Bests in America. "The small powers," says the article, "are afraid to meddle between Germany and France, and England cannot do anything that would seem contrary either to the spirit or the letter of the Anglo-French agreement.

"If the United States is willing to undertake the policing of Morocco, everywhere by her readiness to assume an unpleasant responsibility for the sake of preserving the peace of the world. Nobody would attempt to dictate to the United States, which is impartial, and by undertaking the policing would not incur any danger, and would not impose upon herself any gratuitous expense.

In the confusion which followed the shooting the two suspects jumped from the car and disappeared in the woods. When the train reached here, word was sent to the police of this town, and the cities of Dover and Portsmouth, about fifteen miles away, were alerted.

The Dover police report that the safe of the Luddy & Currier factory was blown open, but that the robbers secured less than \$15.

SENATE RATE IDEA MEANS BIG FIGHT

Commerce Committee Considers Compromise Rate Bill Which Promises Legal Battle.

Washington, Feb. 10.—With all sorts of compromises rumored, the senate committee on interstate commerce today resumed consideration of railroad rate bills under the agreement to meet daily until Feb. 16, when a vote will be taken.

The chief variance concerns the court features and involves the right of the railroads to have the rates, which are fixed by the commission, reviewed by the courts before they become operative.

Moderate Amendment.

Certain opponents of the house bill, who have been contending for a specific recognition of that right, have suggested another, which concedes a more moderate amendment.

This provides that courts may determine the lawfulness of a rate fixed by the commission, but would amount to a test proceeding and would amount to an all subsequent orders of the commission. In effect, this would mean that, after the constitutionality of the powers given the commission had been determined by the highest court, nothing would stand in the way of execution of further orders issued by the commission in accordance with the constitution.

How acceptable this proposed amendment will be to the majority of the opponents of the bill has not been ascertained, but Senator Aldrich is said to favor it. It is a compromise only in that it provides for an amendment of the constitutionality of the bill before its provisions are enforced. It is believed generally that if adopted it would result in the greatest legal contest in the history of the courts.

A Story by Zona Gale. "Luck of 'Tete-a-Tete," in The Journal is a Sunday magazine to-morrow is a short story by Zona Gale of a mystical comedy that found for its author a sweetheart and a star. The story is entirely new, but the setting is entirely new and the dressing of the story so completely changed that it will be impossible for a most adroit reader to discover the real personages. It is by no means a tale wherein truth is stranger than fiction, but is rather one of those odd little pranks which Cupid plays so frequently in bringing his heroes and heroines together.

BAD! BAD!! BAD!!!

Bad blood comes from bad digestion—bad stomach, bad liver, bad kidneys—attended with bad, foul breath, coated tongue, bad taste, bad headaches, bad appetite and kindred symptoms. Bad as these are, and as they are the cause of all the diseases to which they lead, Dr. Pierce's Golden Medical Discovery comes to the relief and cure of all these by regulating and invigorating the STOMACH, LIVER, BOWELS and KIDNEYS, and putting all these organs in good order.

"Golden Medical Discovery" contains no alcohol, opium or other harmful drugs; neither does it contain sugar or syrup, which are injurious to some stomachs. Without any of these it retains its pleasant taste and marvelous healing qualities in the most trying climates. Don't let a selfish medicine seller cheat you out of your health by giving you a substitute, one's only looking out for a larger profit, not for your good. Shun him. Honest, unselfish dealers recommend the "Golden Medical Discovery."

"That your remedies are not for the few, but for the many, is evident. You know of many scores of persons in this city who have been restored to health and strength by your medicine. Thus writes Henry Landsberg, Esq., Alderman in 17th Ward, Buffalo, N. Y.: 'I have taken your Golden Medical Discovery in cases of derangement of the liver, having taken a medicine some two years ago when I had bad attack of liver trouble, and I never used a medicine since. I have never had a bad day since. I have known Dr. Pierce for twenty years, and do not wonder at his success. He is a man of extraordinary skill, and he has in his Sanitarium a corps of specialists who are chosen because of their unusual knowledge and professional skill.'"
